DEPARTMENT OF DEFENSE

Department of the Air Force

ORGANIZATION STATEMENT

Sec.
1. General.
2. Office of the Secretary of the Air Force.
3. Air Staff.
4. Field organization.

SECTION 1. *General*—(a) *Creation and authority.* The Department of the Air Force was established as part of the National Military Establishment by the National Security Act of 1947 (61 Stat. 495), and by the terms of that act came into legal being on September 18, 1947. The National Security Act Amendments of 1949 (63 Stat. 578) redesignated the National Military Establishment as the Department of Defense, established it as an executive department, and made the Department of the Air Force a military department within the Department of Defense. The Department of the Air Force is separately organized under the Secretary of the Air Force. It operates under the authority, direction, and control of the Secretary of Defense (10 U.S.C. 8010). The organization of the Department is prescribed by sections 8011–8019 of Title 10, United States Code.

(b) *Mission.* The mission of the Department of the Air Force is to provide an Air Force that is capable, in conjunction with the other armed forces, of preserving the peace and security of the United States, providing for its defense, supporting the national policies, implementing the national objectives, and overcoming any nation responsible for aggressive acts that imperil the peace and security of the United States. In general, the Air Force includes aviation forces, both combat and service, not otherwise assigned. It is organized, trained, and equipped primarily for prompt and sustained offensive and defensive aerospace operations. It is responsible for the preparation of the aerospace forces necessary for the effective prosecution of war except as otherwise assigned and, in accordance with integrated joint mobilization plans, for the expansion of the peacetime components of the Air Force to meet the needs of war.

SEC. 2. *Office of the Secretary of the Air Force*—(a) *Secretary of the Air Force.* The Secretary of the Air Force is responsible for and has the authority necessary to conduct all affairs of the Department of the Air Force, including those necessary or appropriate for the training, operations, administration, logistical support and maintenance, welfare, preparedness, and effectiveness of the Air Forces, including research and development, and such other activities as may be prescribed by the President or the Secretary of Defense, as authorized by law. He conducts the business of the Department in such manner as the President or Secretary of Defense may prescribe. In the absence of the Secretary, the Under Secretary performs the duties of the Secretary; in the absence of the Secretary and Under Secretary, the Assistant Secretaries in the order fixed by their length of service as such perform the duties of the Secretary.

(b) *Under Secretary of the Air Force.* The Under Secretary of the Air Force, as principal assistant to the Secretary, acts with full authority of the Secretary on all affairs of the Department. He is responsible for the overall direction, guidance, and supervision of the affairs of the Department, and its plans, policies, and programs. He supervises the activities of the reserve components of the Air Force pursuant to 10 U.S.C. 264(b), and is a member of the Reserve Forces Policy Board. He is responsible for the direction, guidance, and supervision of the international activities of the Department.

(c) *Assistant Secretary of the Air Force (Research and Development).* The Assistant Secretary of the Air Force (Research and Development) is responsible for direction, guidance, and supervision over all matters pertaining to the formulation, review, and execution of plans, policies, and programs relative to: Scientific and technical matters; basic and applied research, exploratory development and advanced technology; integration of technology with, and determination of, qualitative Air Force requirements; research, development, test, and evaluation of weapons, weapons systems, and defense materiel; technical management of systems engineering and integration; and directing all space programs and supervising space activities of the Air Force.

(d) *Assistant Secretary of the Air Force (Installations and Logistics).* The Assistant Secretary of the Air Force (Installations and Logistics) is responsible for direction, guidance, and supervision over all matters pertaining to the formulation, review, and execution of plans, policies, and programs relative to: Production and contract management of weapons systems, industrial defense program; industrial resources and readiness; procurement activities, including required determinations and findings, contracting, and administration and termination of contracts; contractors equal employment opportunities; renegotiation affairs, contract appeals, and related activities; Contract Adjustment Board matters; small business; Canadian Production and Development Sharing Program; supply management, including requirements determinations, storage, distribution, and disposal of all materiel; equipment maintenance and modification management; International Logistics Program; materiel and logistics planning and programing; cost reduction program, installations planning and programing; acquisition and disposal of real estate; construction of bases and facilities; family housing; maintenance of real property; civil aviation, including the Department of Defense Advisory Committee on Federal Aviation, and the Interagency Group on International Aviation; transportation, communications, and other service activities; and economic utilization policy.

(e) *Assistant Secretary of the Air Force (Financial Management).* The Assistant Secretary of the Air Force (Financial Management) is responsible for direction, guidance, and supervision over all matters pertaining to the formulation, review, and execution of plans, policies, and programs relative to: The Air Force programing processes and the preparation and validation of all program documentation, including Program Changes; budgeting, fund management, cost analysis and cost control; accounting and accounting systems; finance, including disbursement and collection of funds; development and application of management information and control systems, progress and statistical reporting, special program status reports, and interpretation of such management data; auditing; contracts for Management Engineering Services, contract financing; and Automatic Data Processing policy and programs and is the Air Force Senior ADP policy official. The Assistant Secretary of the Air Force (Financial Management) is responsible for directing and supervising the Comptroller of the Air Force. While the Comptroller is directly responsible to the Assistant Secretary (Financial Management), he has a concurrent responsibility to the Chief of Staff.

(f) *Deputy Under Secretary (Manpower).* The Deputy Under Secretary (Manpower) is responsible for direction, guidance, and supervision over all matters pertaining to the formulation, review, and execution of plans, policies, and programs relative to: Manpower and organization; military and civilian personnel, including procurement, assignment, training, promotion, career development, pay and benefits, utilization, separation, medical care, and all factors affecting morale and well-being; Antidiscrimination Program, including Equal Employment Opportunities Program; Reserve components, Air National Guard and Air Force Reserve Officers' Training Corps; Civil Air Patrol; management principles, including the Management Improvement Program; contracts for personal services and training; travel and per diem allowances; Air Force Board for Correction of Military Records; and Secretary of the Air Force Personnel Council and its component

boards, including the Air Force Discharge Review Board, the Air Force Board of Review, the Air Force Personnel Board, the Air Force Disability Review Board, the Air Force Physical Disability Appeal Board, and the Air Force Decorations Board.

(g) *Administrative Assistant.* The Administrative Assistant is responsible for the management and administration of the Office of the Secretary, including advisory services on departmental management and administrative matters; assures administrative continuity in the Office of the Secretary during changes of top officials; performs various functions and special projects involving matters in the department as directed by the Secretary.

(h) *General Counsel.* The General Counsel is the final legal authority on all matters arising within or referred to the Department of the Air Force, except those relating to the administration of military justice and such other matters as may be assigned to The Judge Advocate General. The General Counsel furnishes all necessary legal advice and assistance to the Office of the Secretary of the Air Force, and is also responsible for providing legal advice and assistance to the Air Staff on matters relating to Procurement; research and development; real property acquisition and disposal; construction of military public works; family housing programs; fiscal matters; civil aviation; and personnel security programs. The General Counsel represents the Secretary of the Air Force in dealing with other departments and agencies of the Government on all matters relating to the negotiation of international agreements affecting the Air Force.

(i) *Director, Office of Legislative Liaison.* The Director of Legislative Liaison advises and assists the Secretary and all other principal civilian and military officials of the Department concerning Air Force legislative affairs and congressional relations, except appropriation matters. He is responsible for developing, coordinating, and supervising the Air Force legislative program, including the preparation of reports, testimony, and related statements on legislation; processing replies to congressional committee investigative inquiries, including the preparation of testimony for hearings; processing replies to inquiries from members of Congress, the Executive Office of the President, and the Office of the Vice President; supervising travel arrangements for congressional travel designated an official responsibility of the Air Force; informing members of Congress and committees of Congress of Air Force activities; and the release of classified information to the Congress.

(j) *Director, Office of Information.* The Director of Information, under the direction of the Secretary of the Air Force and the general supervision of the Under Secretary, and consistent with policies established by the Office of the Secretary of Defense, is assigned the authority and responsibility to discharge the duties and functions prescribed herein. This authority extends to relationships and transactions with all elements of the Department of the Air Force and other governmental and nongovernmental organizations and individuals. The Director advises and assists the Secretary of the Air Force and all other principal civilian and military officials of the Department of the Air Force concerning information activities. He is responsible for: Conducting the operations of the United States Air Force Information Program; planning, directing, and supervising internal and external information activities; developing and supervising programs designed to maintain effective Air Force-community relations; maintaining liaison with counterpart information offices of the Office, Secretary of Defense, Army, Navy, and other governmental and industrial organizations.

SEC. 3. *Air Staff*—(a) *Chief of Staff.* The Chief of Staff, U.S. Air Force, serves as a member of the Joint Chiefs of Staff and the Armed Forces Policy Council. In his Joint Chiefs of Staff capacity he is one of the principal military advisers to the President, the National Security Council, and the Secretary of Defense. He is the principal military adviser and executive to the Secretary of the Air Force on activities of the Air Force. He presides over the Air Staff, and supervises such members and organizations of the Air Force as the Secretary of the Air Force determines, consistent with full operational command assigned to Commanders of specified and unified combatant commands. He is responsible for transmitting to the Secretary the plans and recommendations of the Air Staff, for advising him with regard thereto, and, after their approval by the Secretary, for acting as his agent in carrying them out. The Chief of Staff is directly responsible to the Secretary of the Air Force for the efficiency of the Air Force and preparation of its forces for military operations. He supervises the administration of Air Force personnel assigned to unified organizations and unified and specified combatant commands, and support of forces assigned to these organizations and commands as directed upon the Air Force by the Secretary of Defense. He supervises the following activities when responsibility for them has been assigned to the Air Force by the Secretary of Defense: The carrying out of any supply or service activity common to more than one military department; the development and operational use of new weapons and weapon systems; and the performance of such functions as may be transferred from other departments or agencies of the Department of Defense. He performs such other duties as are assigned by the President.

(b) *Vice Chief of Staff.* The Vice Chief of Staff assists the Chief of Staff, in the exercise of all his responsibilities. Under delegated authority from the Chief of Staff, he supervises the U.S. Air Force consistent with policy guidance and statutory limitations. In the absence or disability of the Chief of Staff, or in the event of a vacancy in that office, he exercises the authority and performs the duties of the Chief of Staff. He serves as Chairman of the Air Force Council.

(c) *Assistant Vice Chief of Staff.* The Assistant Vice Chief of Staff assists the Chief of Staff and the Vice Chief of Staff in the discharge of their duties. He assists in the development, implementation, and review of plans, programs, and policies, and in the overall direction of the USAF and exercises general supervision over the organization and administration of the Air Staff.

(d) *Secretary of the Air Staff.* The Secretary of the Air Staff is responsible to the Assistant Vice Chief of Staff for internal administration and management of the Air Staff. He supervises management programs for efficient utilization of Air Staff resources.

(e) *USAF Scientific Advisory Board.* The USAF Scientific Advisory Board advises the Secretary of the Air Force and the Chief of Staff on all scientific matters of interest to the Air Force mission. The Board reviews research and technological developments for possible further development for military application, reviews and evaluates the Air Force long-range plans for research and development, and provides advice on the adequacy of the Air Force program.

(f) *Chief Scientist.* The Chief Scientist serves as chief scientific adviser to the Chief of Staff and the Air Force in all areas of research and development. He recommends changes in policies, plans, and organization to improve research and development programs.

(g) *Chief Operations Analysis.* The Chief of Operations Analysis serves as a scientific adviser to the Secretary of the Air Force and the Chief of Staff, USAF, on matters relating to Air Force designated and functional studies, and he provides focus and direction to the worldwide Air Force Operations Analysis Program. The Operations Analysis Office makes scientific studies of the problems of air warfare in order to provide bases for command and management decisions. It uses the methods of operations research to study and evaluate weapons and tactics, strategy, logistics, and other subjects related to the Air Force mission.

(h) *Surgeon General.* The Surgeon General, U.S. Air Force, advises the Secretary of the Air Force and the Chief of Staff on all matters pertaining to the health of Air Force personnel, administers all medical services of the U.S. Air Force, develops the Air Reserve Forces medical program, and advises the Deputy Assistant Secretary of Defense (Health and Medical) on USAF medical matters.

(i) *The Inspector General.* The Inspector General acts as an adviser to the Chief of Staff and serves as a professional assistant to the Secretary of the Air Force. He determines the status of combat readiness, command mission accomplishment, logistic effectiveness and discipline; evaluates the efficiency, economy, and adequacy of the USAF; investigates matters within USAF jurisdiction involving crime, violations of public trust, subversion, disaffection, and related activities; directs the counterintelligence program; establishes security policy; develops and directs the ground, flight, missile, and nuclear safety policies, programs, and procedures; and establishes effective Air Force facilities for inspection, security, investigation, law enforcement, and safety.

(j) *The Judge Advocate General.* The Judge Advocate General, U.S. Air Force, acts as legal adviser to the Chief of Staff and exercises general supervision over the administration of military justice and civil law matters pertaining to the Air Force. He is responsible for the establishment and operation of the legal system of appellate reviews of courts-martial records as provided by the Uniform Code of Military Justice.

(k) *Assistant Chief of Staff, Intelligence.* The Assistant Chief of Staff, Intelligence, develops and implements USAF intelligence plans and policies and represents the Chief of Staff, USAF, for intelligence matters on specific joint and interagency committees of the Government. He coordinates the collection and production of air intelligence by Air Force activities and provides official liaison between the foreign military representatives and the Air Force. He monitors the worldwide targeting efforts in order to keep the USAF apprised of current changes and developments; and produces air technical intelligence from reports and analyses of foreign materiel.

(l) *Assistant Chief of Staff, Reserve Forces.* The Assistant Chief of Staff, Reserve Forces, assists and advises the Secretary of the Air Force and the Chief of Staff on all matters relating to Reserve components. He monitors the overall planning and implementation of programs for Reserve Forces, and provides liaison with nongovernmental organizations having a primary interest in Reserve Forces.

(m) *Assistant Chief of Staff, Studies and Analysis.* The Assistant Chief of Staff, Studies and Analysis, formulates the Air Force Designated Studies Program for approval by the Chief of Staff, U.S. Air Force, and conducts or assists in conducting all studies so approved. Designated studies are important, high priority studies of particular significance to the Air Force. Generally, they deal with strategic offensive and defensive, general purpose and airlift force composition. The Assistant Chief of Staff, Studies and Analysis, also conducts technical and specialized operational feasibility analyses and cost effectiveness evaluations to assist in major force level decisions.

(n) *Chief of Chaplains.* The Chief of Chaplains is responsible for all matters pertaining to the Air Force chaplaincy. He establishes and maintains cordial relationship with religious groups and quasi-official relationship with ecclesiastical endorsing agencies.

(o) *Director of Administrative Services.* The Director of Administrative Services is responsible for developing policies, programs, and procedures for administrative management, practices, and services throughout the Air Force. Additionally, he is responsible for the operation of the Air Force Postal and Courier Service and for the performance of administrative services in direct support of Headquarters, USAF and the Office of the Secretary of the Air Force.

(p) *Comptroller of the Air Force.* The Comptroller of the Air Force is directly responsible to the Assistant Secretary of the Air Force (Financial Management) and concurrently to the Chief of Staff, USAF, for budgeting, accounting, disbursing, data management, and automated systems development, analyses and progress reporting, and auditing throughout the Air Force.

(q) *Deputy Chief of Staff, Personnel.* The Deputy Chief of Staff, Personnel, is responsible for developing plans, policies, and programs pertaining to military and civilian personnel of the Air Force and directing the execution thereof. He develops personnel systems designed to integrate fully qualified personnel at the time and place required for optimum support of all weapon and support systems, and attendant operational support.

(r) *Deputy Chief of Staff, Programs and Resources.* The Deputy Chief of Staff, Programs and Resources, is responsible for developing Air Force programs pertaining to the attainment of operating and supporting forces, and directing the implementation of necessary actions relating thereto. He exercises Air Staff leadership in effecting maximum balance of available resources and integration of effort toward optimum operational capability of all weapon and support systems.

(s) *Deputy Chief of Staff, Plans and Operations.* The Deputy Chief of Staff, Plans and Operations, is responsible for formulating overall Air Force operational concepts, objectives, policies, plans, missions, and doctrines. He translates assigned roles and missions into Air Force tasks and determines force requirements to support approved national strategy. His planning functions include unilateral aerospace planning and joint planning. He is also responsible for those operating functions which are in support of the Joint Chiefs of Staff. He is the Operations Deputy to the Chief of Staff, USAF, in the latter's capacity as a member of the Joint Chiefs of Staff and is responsible for USAF participation in joint and combined policy making, planning, and operational activities.

(t) *Deputy Chief of Staff, Research and Development.* The Deputy Chief of Staff, Research and Development, is responsible for identification of desired operational capabilities for aerospace systems and subsystems to perform military tasks. He develops and directs plans and programs for the Air Force in the field of basic and applied research, advanced engineering development, development planning, research support, and test activities. He serves as the focal point for all matters relating to space, including the coordination of Air Force activities with other Government agencies. He is responsible for projecting developments to meet future Air Force mission requirements, and directs Air Force research and development activities in the nuclear energy field.

(u) *Deputy Chief of Staff, Systems and Logistics.* The Deputy Chief of Staff, Systems and Logistics, is responsible for developing and directing plans, programs, policies, and procedures for the management of Air Force and Reserve Forces activities in the field of logistical support. This involves systems and support equipment development, quantitative logistical requirements determination, procurement, supply and services, production, industrial planning, maintenance engineering, and transportation. This also includes responsibility for execution of the Air Force portion of the foreign military assistance program, Air Force small business affairs, and technical programs security.

SEC. 4 *Field organization.* There are 16 major commands and 4 separate operating agencies which together represent the field organization of the U.S. Air Force. These commands are organized on a functional basis in the United States and on an area basis overseas. The commands are given the responsibility for accomplishing certain phases of the worldwide activities of the USAF. They are responsible for organizing, administering, equipping, and training their subordinate elements for the accomplishment of assigned missions.

(a) *Air Defense Command.* The Air Defense Command is a major command of the U.S. Air Force and is the Air Force component in the North American Air Defense Command/Continental Air Defense Command structure. Its primary mission is to discharge Air Force responsibilities for the air defense of the United States.

(b) *Air Force Logistics Command.* The Air Force Logistics Command provides worldwide logistics support to the Air Force. This includes procurement, storage, and distribution of supplies, and the performance of or arrangement for the performance of depot level maintenance on materiel.

(c) *Air Force Systems Command.* The responsibility of the Air Force Systems Command is to advance aerospace technology, adapt it into operational aerospace systems, and acquire qualitatively superior aerospace systems and material needed to accomplish the U.S. Air Force mission.

(d) *Air Training Command.* The Air Training Command provides individual training for Air Force officers and airmen. This includes: basic training and indoctrination for all Air Force recruits; flying training; and technical field, special, and such other training as directed. It is also charged with the recruiting function for the USAF.

(e) *Air University.* The Air University is primarily concerned with the higher education of Air Force officers. It is responsible for the supervision and operation of such activities as the War College, the Command and Staff College, the Institute of Technology, the Extension Course Institute, and the Air Force ROTC.

(f) *Continental Air Command.* The Continental Air Command has command and administrative responsibility for Air Force Reserve units and personnel and miscellaneous administrative functions within the CONUS that includes liaison

with the Selective Service System; administration of the Civil Air Patrol; providing representation on State Reserve facilities boards; liaison with Air Explorer officials; providing representation on Regional Civil Defense Coordinating Board; coordination with Continental Army Headquarters on matters concerning domestic and civil defense emergency plans.

(g) *Headquarters Command, USAF.* The Headquarters Command provides administrative and logistics support for Headquarters, USAF, and for those Air Force units stationed within the Washington, D.C., area on a permanent or temporary duty basis that are not capable of providing self-support. This includes the USAF Band; air attache and air mission units and other special mission personnel located in the CONUS and overseas.

(h) *Military Airlift Command.* The Military Airlift Command provides air transportation for personnel and cargo for all the military services on a worldwide basis. In addition, MAC furnishes weather, rescue, and photographic and charting services for the Air Force.

(i) *Strategic Air Command.* The Strategic Air Command is a major command of the U.S. Air Force and a Joint Chiefs of Staff specified command. Its primary mission is to organize, train, equip, administer, and prepare strategic Air Forces for combat, including bombardment, missile, special mission, and strategic reconnaissance units; and to conduct strategic air operations.

(j) *Tactical Air Command.* The Tactical Air Command is a major command of the U.S. Air Force and is the Air Force component (Air Force Strike Command) in the U.S. Strike Command. Its mission is to organize, train, and equip forces to participate in tactical air operations which includes tactical fighter, tactical air reconnaissance, special air warfare, tactical airlift, close combat air support, and logistical air support to the Army; and joint amphibious and airborne operations in coordination with the other services in accordance with doctrines established by the Joint Chiefs of Staff. Participates with the Army, Navy, and Marine Corps in developing doctrine, procedures, tactics, techniques, training, and equipment for joint operations. Provides combat ready air elements to Strike Command.

(k) *U.S. Air Force Security Service.* The U.S. Air Force Security Service monitors Air Force communications in all parts of the world to insure compliance with established communication security practices and procedures. Additionally, USAF Security Service units occasionally conduct research in communication phenomena in support of various elements of the U.S. Government.

(l) *Air Force Communications Service.* The Air Force Communications Service provides base and point-to-point communications, flight facilities, and air traffic control services primarily to the Air Force but also other agencies, governmental and civil, national and foreign.

(m) *Overseas commands.* The U.S. Air Forces in Europe, Pacific Air Forces, Alaskan Air Command, and U.S. Air Forces Southern Command constitute the oversea commands of the USAF. They are responsible for the offensive, defensive, transport, and logistics functions in their area of operation. They provide the air elements for the unified force to which they are assigned and assist Air Forces of other countries.

(n) *Separate operating agencies.* (1) The Air Force Accounting and Finance Center provides technical supervision, advice, and guidance to Air Force accounting and finance field activities and a centralized Air Force accounting and finance operation.

(2) The Aeronautical Chart and Information Center provides the Air Force with aeronautical charts, air targets materials, flight information, publications and documents, terrain models, maps, intelligence on air facilities, and related cartographic services.

(3) The Office of Aerospace Research conducts and supports research relevant to the U.S. Air Force interests.

(4) The U.S. Air Force Academy provides a 4-year educational curriculum for cadets that includes a baccalaureate level education in airmanship, related sciences, and the humanities. Besides a classical education, each cadet is trained to appreciate the role of airpower, its capabilities and limitations, high ideals of individual integrity, patriotism, loyalty, honor, physical fitness, sense of responsibility, and a dedication of selfless and honorable service.

(5 U.S.C. 301, 552; 10 U.S.C. 8012)

By order of the Secretary of the Air Force.

LUCIAN M. FERGUSON,
Colonel, U.S. Air Force, Chief, Special Activities Group, Office of The Judge Advocate General.

[F.R. Doc. 67-10081; Filed, Aug. 28, 1967; 8:45 a.m.]

Department of the Navy

ORGANIZATION STATEMENT

Miscellaneous Amendments

1. Section 4 of the Organization Statement of the Department of the Navy (32 F.R. 8305) is amended by revising paragraph (d) (7) to read as follows:

SEC. 4. *The Chief of Naval Operations.* * * *

(d) *Office of the Chief of Naval Operations.* * * *

(7) Assistant Chief of Naval Operations (Intelligence) (ACNO (Intell)): Serves as the principal staff advisor to the Secretary of the Navy and the Chief of Naval Operations on intelligence and security plans and policy and provides staff intelligence support; implements the responsibilities of the Chief of Naval Operations to develop, coordinate, and promulgate policies, plans and programs for intelligence and security activities of the Department of the Navy; and advises and assists officials in the Department of the Navy in matters of protocol and liaison with foreign officials.

* * * * *

2. The Organization Statement of the Department of the Navy (32 F.R. 8305) is amended by inserting a new section to read as follows:

SEC. 6a. *Naval Intelligence Command*—(a) *Commander Naval Intelligence Command.* The Commander, Naval Intelligence Command (COMNAVINTCOM), under the Chief of Naval Operations (CNO) commands all activities of the Naval Intelligence Command. He is responsible to CNO for directing and managing the activities of the Naval Intelligence Command in order to ensure the fulfillment of the intelligence, counterintelligence, investigative, and security requirements, and responsibilities of the Department of the Navy.

(b) *Organization.* The Naval Intelligence Command includes the Headquarters Naval Intelligence Command and five subordinate field activities. These are the Naval Investigative Service/Naval Investigative Service Headquarters (NISHQ), the Naval Scientific and Technical Intelligence Center (STIC), the Naval Reconnaissance and Technical Support Center (NRTSC), the Navy Field Operational Intelligence Office (FOIO), and the Naval Intelligence Processing Systems Support Activity (NIPSSA). Under COMNAVINTCOM, the commanding officers/officers in charge of the foregoing activities are responsible for intelligence production and support in their assigned functional areas and for the proper utilization and effectiveness of their assigned resources.

(Secs. 301, 552, 80 Stat. 379, 383 (Public Law 90-23, 81 Stat. 54, effective July 4, 1967); 5 U.S.C. 301, 552)

Dated: August 22, 1967.

By direction of the Secretary of the Navy.

[SEAL] WILFRED HEARN,
Rear Admiral, U.S. Navy, Judge Advocate General.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial No. Colo. 0127417]

COLORADO

Notice of Classification

AUGUST 22, 1967.

Pursuant to the Act of September 19, 1964 (78 Stat. 986; 43 U.S.C. 1412), the public lands described below are hereby classified for disposal through exchange under section 8 of the Taylor Grazing Act (43 U.S.C. 315g).

No protests or objections were received following publication of a Notice of Proposed Classification (32 F.R. 8217). Therefore no changes have been made in the list of lands included in the classification. The lands affected by this classification are in Moffat County, Colo., and are described as follows:

6TH PRINCIPAL MERIDIAN, COLORADO

T. 11 N., R. 95 W.,
Sec. 17, lots 29 and 30;
Sec. 19, lots 3 and 4;
Sec. 20, lots 2, 9, 8 to 16, inclusive, and lots 18 to 28, inclusive;
Sec. 21, lots 7, 9, 11, 18, and lots 17 to 24, inclusive;
Sec. 26, lots 1 to 12, inclusive, and S½;
Sec. 29, lots 1 to 26, inclusive;
Sec. 30, lots 1, 2, 5, 6, 7, 10, and 11, and lots 14 to 39, inclusive;
Sec. 33, all.
T. 11 N., R. 96 W.,
Sec. 25, lots 5 and 6;
Sec. 36, lots 1, 2, 14, 15, 16, and 26.

The areas described aggregate 4,106.03 acres.

For a period of 30 days, interested parties may submit comments to the Secretary of the Interior, LLM 731, Washington, D.C. 20240. (43 CFR 2411.1-3(d).)

J. ELLIOTT HALL,
Acting State Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

MONSANTO CO.

Notice of Filing of Petition for Food Additives

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 7B2186) has been filed by Monsanto Co., Hydrocarbons and Polymers Division, 730 Worchester Street, Indian Orchard, Mass. 01108, proposing an amendment to § 121.2567 *Acrylic polymer modifiers in semirigid and rigid polyvinyl chloride plastics* to provide for the safe use of polymeric combinations of methyl methacrylate, butadiene, and styrene as modifiers at levels up to 45 weight-percent in semirigid and rigid polyvinyl chloride plastic food-contact articles. As proposed, such polymeric combinations of methyl methacrylate, butadiene, and styrene may contain more than 50 weight-percent of polymer units derived from butadiene and styrene.

Dated: August 21, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGFR 67-43]

EQUIPMENT, INSTALLATIONS, OR MATERIALS

Approval and Termination of Approval Notice

1. Various items of lifesaving, firefighting, and miscellaneous equipment, installations, and materials used on vessels subject to Coast Guard inspection or on certain motorboats and other pleasure craft are required by various laws and regulations in 46 CFR Chapter I to be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all concerned that certain approvals were granted or terminated, as described in this document during the period from January 26, 1967, to May 11, 1967 (List Nos. 11-67, 12-67, 13-67, 14-67, 15-67, 16-67, 17-67, 18-67, 19-67, 20-67, and 21-67). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50, inclusive. For certain types of equipment, installations, and materials, specifications have been prescribed by the Commandant and are published in 46 CFR Parts 160 to 164, inclusive (Subchapter Q—Specifications).

2. The statutory authorities for granting approvals of equipment and the delegation of authority to the Commandant, U.S. Coast Guard, are set forth with the specific specifications governing the item and are set forth in 46 CFR Parts 160 to 164, inclusive (Subchapter Q—Specifications). The general authorities regarding approvals are set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 in Title 46, United States Code, section 1333 in Title 43, United States Code and section 198 in Title 50, United States Code while the implementing regulations requiring such equipment are in 46 CFR Chapter I or 33 CFR Chapter I. The delegations of authority for the Commandant, U.S. Coast Guard, to take appropriate actions with respect to approvals are set forth in section 632 of Title 14, United States Code, and subsection 1.4(a), Department of Transportation Order 1100.1, dated March 31, 1967 (49 CFR 1.4(a)(2), 32 F.R. 5606).

3. In Part I of this document are listed the approvals which shall be in effect for a period of 5 years from the dates issued unless sooner canceled or suspended by proper authority.

4. In Part II of this document are listed the approvals which have been terminated. Notwithstanding this termination of approvals of the items as listed in Part II, such equipment may be used so long as it is in good and serviceable condition.

PART I—APPROVALS OF EQUIPMENT, INSTALLATIONS, OR MATERIALS

LIFE PRESERVERS, KAPOK, ADULT AND CHILD (JACKET TYPE) MODELS 3 AND 5

NOTE: Approved for use on all vessels and motorboats.

Approval No. 160.002/2/1, Model 3, adult kapok life preserver, U.S.C.G. Specification Subpart 160.002, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.002/2/1 dated Aug. 30, 1966, to show change in name of manufacturer.)

Approval No. 160.002/3/1, Model 5, child kapok life preserver, U.S.C.G. Specification Subpart 160.002, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.002/3/1 dated Aug. 30, 1966, to show change in name of manufacturer.)

BUOYS, LIFE, RING, CORK OR BALSA WOOD

Approval No. 160.009/32/0, 30-inch cork ring life buoy, U.S.C.G. Specification Subpart 160.009, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.009/32/0 dated Apr. 23, 1964, to show change in name of manufacturer.)

BUOYANT APPARATUS

Approval No. 160.010/59/1, 4.17' x 3.0' (8'' x 8'' body section) rectangular buoyant apparatus, fibrous glass reinforced neoprene latex shell with unicellular plastic foam core, 7-person capacity, Plasti-Kraft Dwg. No. BA-3-7, dated January 15, 1964, and revised specification dated July 13, 1964, manufactured by The Plasti-Kraft Corp., Ozona Industrial Park, Ozona, Fla. 33560, for Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.010/59/1 dated Aug. 28, 1964, to show change in name of manufacturer.)

Approval No. 160.010/60/1, 6.17' x 3.67' (9'' x 9'' body section) rectangular buoyant apparatus, fibrous glass reinforced neoprene latex shell with unicellular plastic foam core, 13-person capacity, Plasti-Kraft Dwg. No. BA-3-13, dated January 15, 1964, and revised specification dated July 13, 1964, manufactured by The Plasti-Kraft Corp., Ozona Industrial Park, Ozona, Fla. 33560, for Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.010/60/1 dated Aug. 28, 1964, to show change in name of manufacturer.)

WATER, EMERGENCY DRINKING (IN HERMETICALLY SEALED CONTAINERS)

Approval No. 160.026/21/2, container for emergency provisions, dwg. No. A-101-467 dated April 9, 1967, Rev. April 27, 1967, manufactured by H & M Packing Corp., 913 Ruberta Avenue, Glendale, Calif. 91201, effective April 27, 1967. (It supersedes Approval No. 160.026/21/1 dated Jan. 8, 1963, to show increase in provisions.)

DAVITS

Approval No. 160.032/142/3, mechanical davit, steel straight boom-sheath screw, Type 24-40, MKII; approved for a maximum working load of 12,000 pounds per set (6,000 pounds per arm), identified by general arrangement dwg. 5011-1E, alteration E, dated April 13, 1967, and drawing list GA-5011-2D dated April 14, 1967, manufactured by Marine Safety Equipment Corp., Foot of Paynter's Road, Farmingdale, N.J. 07727, effective May 11, 1967. (It supersedes Approval No. 160.032/142/2 dated Dec. 7, 1962, to show change in design.)

Approval No. 160.032/175/0, gravity davit, Type CG-228-2G, approved for a maximum working load of 22,000 pounds per set (11,000 pounds per arm) using 2-part falls; identified by general arrangement dwg. DA-9158, Rev. A, dated December 6, 1966, and dwg. list, dated March 10, 1967, manufactured by Carroll Engineering Co., 213 State Street, Box 711, Perth Amboy, N.J. 08862, effective April 7, 1967.

LIFEBOATS

Approval No. 160.035/12/4, 18.0' x 5.7' x 2.5' steel, oar-propelled lifeboat, 12-person capacity identified by general arrangement dwg. No. G-1812 (Formerly No. G-1815), dated July 25, 1951, and revised January 31, 1967, manufactured by C. C. Galbraith & Son, Inc., Maple Place and Manchester Avenue, Post Office Box 185, Keyport, N.J. 07735, effective April 7, 1967. (It reinstates and supersedes Approval No. 160.035/12/3 dated Jan. 9, 1967.)

Approval No. 160.035/178/6, 16.0' x 5.5' x 2.38' steel, oar-propelled lifeboat, 9-person capacity, identified by construction and arrangement dwg. No. 16-1, Rev. E, dated March 22, 1967, manufactured by Marine Safety Equipment Corp., Foot of Paynter's Road, Farmingdale, N.J. 07727, effective March 27, 1967. (If mechanical disengaging apparatus is fitted, it shall be of an approved type and the installation in this particular lifeboat shall be approved by the Commandant. *Approved for 13-person capacity as a replacement in kind for an existing lifeboat requiring 13-person capacity.) (It supersedes Approval No. 160.035/178/5 dated Oct. 6, 1966, to show change in capacity and weight.)

Approval No. 160.035/246/3, 22.0' x 6.5' x 2.67' steel, oar-propelled lifeboat, 22-person capacity, identified by construction and arrangement dwg. No. 22-3, Rev. E, dated April 7, 1967, manufactured by Marine Safety Equipment Corp., Foot of Paynter's Road, Farmingdale, N.J. 07727, effective April 10, 1967. (It supersedes Approval No. 160.035/246/2 dated Apr. 10, 1962, to show change in construction.)

Approval No. 160.035/280/3, 26.0' x 9.0' x 3.83' aluminum, oar-propelled lifeboat, 53-person capacity, identified by construction and arrangement dwg. No. 26-8, alteration D, dated March 23, 1967, manufactured by Marine Safety Equipment Corp., Foot of Paynter's Road, Farmingdale, N.J. 07727, effective March 27, 1967. (It supersedes Approval No. 160.035/280/2 dated Mar. 27, 1962, to show change in construction.)

Approval No. 160.035/284/3, 16.0' x 5.5' x 2.38' aluminum, oar-propelled lifeboat, 9-person capacity, identified by construction and arrangement drawing No. 16-3, Rev. F, dated March 29, 1967, manufactured by Marine Safety Equipment Corp., Foot of Paynter's Road, Farmingdale, N.J. 07727, effective April 10, 1967. (It supersedes Approval No. 160.035/284/2 dated Dec. 21, 1966, to show change in capacity and equipment.)

Approval No. 160.035/421/1, 30.0' x 10.0' x 4.23' aluminum, hand-propelled lifeboat, 78-person capacity, identified by general arrangement dwg. No. 30-4, Rev. D, dated February 28, 1967, manufactured by Marine Safety Equipment Corp., Foot of Paynter's Road, Farmingdale, N.J. 07727, effective March 31, 1967. (It supersedes Approval No. 160.035/421/0 dated Dec. 1, 1961.)

Approval No. 160.035/453/0, 28.0' x 9.8' x 4.13' steel, hand-propelled lifeboat, 66-person capacity, identified by general arrangement and construction dwg. No. 28-003-01, Rev. A, dated April 10, 1967, manufactured by Lane Lifeboat & Davit Corp., 150 Sullivan Street, Brooklyn, N.Y. 11231, effective April 27, 1967.

KITS, FIRST-AID

Approval No. 160.041/2/0, first-aid kit, Model X-173, dwg. No. 450-X, Rev. 2, dated March 10, 1962, and dwg. No. X-181, Rev. 2, dated March 10, 1962, manufactured by Davis Emergency Equipment Co., Inc., 45 Halleck Street, Newark, N.J. 07104, effective April 7, 1967. (It is an extension of Approval No. 160.041/2/0 dated May 1, 1967.)

Approval No. 160.041/3/0, first-aid kit, Model No. 600 M, dwg. No. 160A, dated February 25, 1952, manufactured by Medical Supply Co., 1027 West State Street, Rockford, Ill. 61102, effective May 2, 1967. (It is an extension of Approval No. 160.041/3/0 dated July 17, 1962.)

BUOYANT VESTS, KAPOK OR FIBROUS GLASS, ADULT AND CHILD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.047/300/0, Type I, Model AK-1, adult kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.047/300/0 dated Aug. 30, 1966, to show change in name of manufacturer.)

Approval No. 160.047/301/0, Type I, Model CKM-1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly the American Pad & Textile Co.) (It supersedes Approval No. 160.047/301/0 dated Aug. 30, 1966, to show change in name of manufacturer.)

Approval No. 160.047/302/0, Type I, Model CKS-1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly the American Pad & Textile Co.) (It supersedes Approval No. 160.047/302/0 dated Aug. 30, 1966, to show change in name of manufacturer.)

Approval No. 160.047/511/0, Type I, Model AK-1, adult kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, for Herter's, Inc., Waseca, Minn. 56093, effective May 9, 1967. (It reinstates Approval No. 160.047/511/0 dated Aug. 21, 1961, terminated Aug. 21, 1966.)

Approval No. 160.047/512/0, Type I, Model CKM-1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, for Herter's, Inc., Waseca, Minn. 56093, effective May 9, 1967. (It reinstates Approval No. 160.047/512/0 dated Aug. 21, 1961, terminated Aug. 21, 1966.)

Approval No. 160.047/513/0, Type I, Model CKS-1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, for Herter's, Inc., Waseca, Minn. 56093, effective May 9, 1967. (It reinstates Approval No. 160.047/513/0 dated Aug. 21, 1961, terminated Aug. 21, 1966.)

BUOYANT CUSHIONS, KAPOK OR FIBROUS GLASS

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.048/3/0, group approval for rectangular and trapezoidal kapok buoyant cushions, U.S.C.G. Specification Subpart 160.048, sizes and weights of kapok filling to be as per Table 160.048-4(c)(1)(i), manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.048/3/0 dated Aug. 30, 1966, to show change in name of manufacturer.)

Approval No. 160.048/4/0, group approval for rectangular and trapezoidal fibrous glass buoyant cushions, U.S.C.G. Specification Subpart 160.048, sizes and weights of fibrous glass fillings to be as per Table 160.048-4(c)(1)(ii), manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.048/4/0 dated Aug. 30, 1966, to show change in name of manufacturer.)

Approval No. 160.048/5/1, special approval for 14'' x 17'' x 2'' rectangular ribbed-type kapok buoyant cushions, 21-oz. kapok, dwg. No. C-31, dated September 15, 1965, and Bill of Materials dated December 29, 1965, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.048/5/0 dated Jan. 14, 1966, to show change in name of manufacturer.)

Approval No. 160.048/206/0, group approval for rectangular and trapezoidal kapok buoyan cushions, U.S.C.G. Specification Subpart 160.048, sizes and weights of kapok filling to be as per Table 160.048-4(c)(1)(i), manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, for Herter's Inc., Waseca, Minn. 56093, effective May 9, 1967. (It reinstates Approval No. 160.048/206/0 dated Aug. 22, 1961, terminated Aug. 22, 1966.)

BUOYANT CUSHIONS, UNICELLULAR PLASTIC FOAM

Approval No. 160.048/2/0, group approval for rectangular and trapezoidal unicellular plastic foam buoyant cushions U.S.C.G. Specification Subpart 160.048, sizes to be as per Table 160.048-4(c)(1), manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.) (It supersedes Approval No. 160.048/2/0 dated July 15, 1966, to show change in name of manufacturer.)

BUOYS, LIFE, RING, UNICELLULAR PLASTIC

Approval No. 160.050/12/3, 30-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.050 and American Pad & Textile Co., dwgs. No. 175-LA-2 revised December 26, 1963, or No. 175-LA-4, revised June 15, 1964, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn. 06852.) (It supersedes Approval No. 160.050/12/3 dated Dec. 11, 1964, to show change in name of manufacturer.)

Approval No. 160.050/13/3, 24-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.050 and American Pad & Textile Co. dwgs. No. 175-LA-3, revised December 26, 1963, or No. 175-LA-4, revised June 15, 1964, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn. 06852.) (It supersedes Approval No. 160.050/13/3 dated Dec. 11, 1964, to show change in name of manufacturer.)

Approval No. 160.050/14/3, 30-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.050 and American Pad & Textile Co., dwgs. No. 175-LA-3, revised December 26, 1963, or No. 175-LA-4, revised June 15, 1964, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn. 06852.) (It supersedes Approval No. 160.050/14/3 dated Dec. 11, 1964, to show change in name of manufacturer.)

Approval No. 160.050/28/0, 30-inch ring life buoy, fibrous glass reinforced plastic shell with unicellular plastic foam core, The Plasti-Kraft Corp. dwg., dated February 1, 1966, and revised specification, dated October 12, 1960, manufactured by The Plasti-Kraft Corp., Ozona Industrial Park, Ozona, Fla. 33560, for Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.) (It supersedes Approval No. 160.050/28/0 dated Oct. 11, 1963, to show change in name of manufacturer.)

Approval No. 160.050/45/0, 30-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.050 and dwg. No. 8400/3/67, dated March 20, 1967, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, effective May 2, 1967. (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn.)

Approval No. 160.050/46/0, 24-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.050 and dwg. No. 8400/2/67, dated March 20, 1967, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, effective May 2, 1967. (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn. 06852.) (It supersedes Approval No. 160.050/12/3 dated Dec. 11, 1964, to show change in name of manufacturer.)

Approval No. 160.050/47/0, 30-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.050 and dwg. No. 8400/3/67, dated March 20, 1967, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, effective May 2, 1967. (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn.)

BUOYANT VESTS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.052/119/1, Type II, Model 245, adult cloth-covered unicellular plastic foam buoyant vest, dwg. Nos. B-220-1, dated October 13, 1964, Rev., April 14, 1967; B-220-2, dated October 8, 1964; B-220-3, dated October 8, 1964; and B-220-4, dated October 13, 1964, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 20, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.052/119/0 dated Jan. 14, 1966, to show change in name of manufacturer and issue of new drawing numbers.)

Approval No. 160.052/120/1, Type II, Model 246-M, child medium cloth-covered unicellular plastic foam buoyant

Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (Approved as alternate construction to that provided by U.S.C.G. Specification Subpart 160.052.) (It supersedes Approval No. 160.052/27/0 dated Oct. 11, 1963, to show change in name of manufacturer.)

Approval No. 160.052/28/0, 30-inch ring life buoy, fibrous glass reinforced plastic shell with unicellular plastic foam core, The Plasti-Kraft Corp. dwg., dated February 1, 1966, and revised specification, dated October 12, 1960, manufactured by The Plasti-Kraft Corp., Ozona Industrial Park, Ozona, Fla. 33560, for Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.) (It supersedes Approval No. 160.052/28/0 dated Oct. 11, 1963, to show change in name of manufacturer.)

Approval No. 160.052/45/0, 30-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.052 and dwg. No. 8400/3/67, dated March 20, 1967, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, effective May 2, 1967. (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn.)

Approval No. 160.052/46/0, 24-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.052 and dwg. No. 8400/2/67, dated March 20, 1967, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, effective May 2, 1967. (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn. 06852.) (It supersedes Approval No. 160.052/12/3 dated Dec. 11, 1964, to show change in name of manufacturer.)

Approval No. 160.052/47/0, 30-inch unicellular plastic ring life buoy, U.S.C.G. Specification Subpart 160.052 and dwg. No. 8400/3/67, dated March 20, 1967, manufactured by Atlantic-Pacific Manufacturing Corp., 134 Atlantic Avenue, Brooklyn, N.Y. 11201, effective May 2, 1967. (Buoy bodies are made by B. F. Goodrich Co., Sponge Products Division, Shelton, Conn.)

BUOYANT VESTS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.052/119/1, Type II, Model 245, adult cloth-covered unicellular plastic foam buoyant vest, dwg. Nos. B-220-1, dated October 13, 1964, Rev., April 14, 1967; B-220-2, dated October 8, 1964; B-220-3, dated October 8, 1964; and B-220-4, dated October 13, 1964, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 20, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.052/119/0 dated Jan. 14, 1966, to show change in name of manufacturer and issue of new drawing numbers.)

Approval No. 160.052/120/1, Type II, Model 246-M, child medium cloth-covered unicellular plastic foam buoyant

vest, dwg. Nos. B–281–1 and B–281–2, dated October 14, 1964; B–281–3, dated October 15, 1964, Rev., April 14, 1967; and B–281–4, dated October 14, 1965, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 20, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.052/120/0 dated Jan. 14, 1966, to show change in name of manufacturer and issue of new drawing numbers.)

Approval No. 160.052/121/1, Type II, Model 246–S, child small cloth-covered unicellular plastic foam buoyant vest, dwg. Nos. B–281–1 and B–281–2, dated October 14, 1964; B–281–3, dated October 15, 1964, Rev., April 14, 1967; and B–281–4, dated October 14, 1965, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 20, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.052/121/0 dated Jan. 14, 1966, to show change in name of manufacturer and issue of new drawing numbers.)

Approval No. 160.052/180/1, Type II, Model 242, adult, unicellular plastic foam buoyant vest, Jones & Yandell dwg. JV–L No. 3, dated October 1, 1962, manufactured by Jones & Yandell Division, American Tent Co., Post Office Box 270, Canton, Miss. 39046, for Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.052/180/1 dated July 19, 1966, to show change in name of manufacturer.)

Approval No. 160.052/181/1, Type II, Model 244, child medium, unicellular plastic foam buoyant vest, Jones & Yandell dwg. JV–M No. 3, dated September 29, 1962, manufactured by Jones & Yandell Division, American Tent Co., Post Office Box 270, Canton, Miss. 39046, for Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.052/181/1 dated July 19, 1966, to show change in name of manufacturer.)

Approval No. 160.052/182/1, Type II, Model 244, child small, unicellular plastic foam buoyant vest, Jones & Yandell dwg. JV–S No. 3, dated September 29, 1962, manufactured by Jones & Yandell Division, American Tent Co., Post Office Box 270, Canton, Miss. 39046, for Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.052/182/1 dated July 19, 1966, to show change in name of manufacturer.)

Approval No. 160.052/344/0, Type II, Model 8241, adult, molded vinyl-dipped unicellular plastic foam buoyant vest, dwg. No. 8241/12/66, dated December 29, 1966, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective January 26, 1967.

Approval No. 160.052/345/0, Type II, Model 8243, child medium, molded vinyl-dipped unicellular plastic foam buoyant vest, dwg. No. 8241/12/66, dated December 29, 1966, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective January 26, 1967.

Approval No. 160.052/346/0, Type II, Model 8242, child small, molded vinyl-dipped unicellular plastic foam buoyant vest, dwg. No. 8241/12/66, dated December 29, 1966, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective January 26, 1967.

Approval No. 160.052/347/0, Type II, Model LVCS–100, child small, molded vinyl-dipped unicellular plastic foam buoyant vest, dwg. No. 5623–BA, Revision 2, dated March 22, 1967, manufactured by Carlon Rubber Products Co., 1 New Haven Avenue, Derby, Conn. 06418, effective April 21, 1967.

Approval No. 160.052/348/0, Type II, Model LVCM–200, child medium, molded vinyl-dipped unicellular plastic foam buoyant vest, dwg. No. 5622–BA, revision 2, dated March 22, 1967, manufactured by Carlon Rubber Products Co., 1 New Haven Avenue, Derby, Conn. 06418, effective April 21, 1967.

Approval No. 160.052/349/0, Type II, Model LVA–300, adult, molded vinyl-dipped unicellular plastic foam buoyant vest, dwg. No. 5581–DA, Revision 2, dated March 22, 1967, manufactured by Carlon Rubber Products Co., 1 New Haven Avenue, Derby, Conn. 06418, effective April 21, 1967.

WORK VESTS, UNICELLULAR PLASTIC FOAM

Approval No. 160.053/4/1, Style Nos. 228 and 229, unicellular plastic foam, cloth-covered work vest, dwg. Nos. 282–1, 282–2, and 282–3, dated February 11, 1965, and Bill of Materials (sheets 1 to 4), dated February 11, 1965, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 7, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.053/4/1 dated Mar. 12, 1965, to show change in name of manufacturer.)

LIFE PRESERVERS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD

NOTE: Approved for use on all vessels and motorboats.

Approval No. 160.055/70/0, Type IB, Model 63, adult cloth-covered unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.055–IB (sheet 1 & 2), manufactured by Style-Crafters, Inc., Post Office Box 8277, Greenville, S.C. 29604, effective April 10, 1967.

Approval No. 160.055/71/0, Type IB, Model 67, child cloth-covered unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.055–IB (sheet 3 & 4), manufactured by Style-Crafters, Inc., Post Office Box 8277, Greenville, S.C. 29604, effective April 10, 1967.

Approval No. 160.055/74/0, Type IA, Model 62, adult vinyl dip coated unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.055–IA (sheet 1), manufactured by Style-Crafters, Inc., Post Office Box 8277, Greenville, S.C. 29604, effective April 10, 1967.

Approval No. 160.055/75/0, Type IA, Model 66, child vinyl dip coated unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.055–IA (sheet 2), manufactured by Style-Crafters, Inc., Post Office Box 8277, Greenville, S.C. 29604, effective April 10, 1967.

BUOYANT VESTS, UNICELLULAR POLYETHYLENE FOAM, ADULT AND CHILD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.060/10/0, Type II, Model 247, adult cloth-covered polyethylene foam buoyant vest, dwg. Nos. B–280–1, dated October 13, 1964, Rev., April 14, 1967; B–280–3, dated October 9, 1964; B–280–4, dated February 1, 1965; and B–280–5, dated October 13, 1964, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 20, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.060/10/0 dated July 15, 1966, to show change in name of manufacturer.)

Approval No. 160.060/11/0, Type II, Model 248–M, child medium cloth-covered polyethylene foam buoyant vest, dwg. Nos. B–281–1, dated October 14, 1964; B–281–3, dated October 15, 1964, Rev., April 14, 1967; B–281–4, dated October 14, 1965; and B–281–5, dated February 1, 1965, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 20, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.060/11/0 dated July 15, 1966, to show change in name of manufacturer.)

Approval No. 160.060/12/0, Type II Model 248–S, child small cloth-covered polyethylene foam buoyant vest, dwg. Nos. B–281–1 dated October 14, 1964; B–281–3, dated October 15, 1964, Rev., April 14, 1967; B–281–4, dated October 14, 1965; and B–281–5, dated February 1, 1965, manufactured by Tapatco, Inc., Post Office Box 49, Fairfield, Calif. 94533, effective April 20, 1967. (Formerly The American Pad & Textile Co.) (It supersedes Approval No. 160.060/12/0 dated July 15, 1966, to show change in name of manufacturer.)

PROTECTING COVER FOR LIFEBOATS

Approval No. 160.065/6/0, "Robertson's Anti-Exposure Cover" Type I, protecting cover for the occupants of all types of aluminum, steel, and fibrous glass reinforced plastic (FRP) lifeboats, for lengths of 16' to 37' lifeboats, identified by general arrangement dwg. No. A-13325, Sheet 1 of 2, dated July 8, 1966, manufactured by A. L. Robertson, Inc., 325 South Kresson Street, Baltimore, Md. 21224, effective March 20, 1967. (Modifications to the cover and supports may be necessary in the case of some motor-propelled lifeboats equipped with vertical (dry) exhaust lines, radio cabins, and antenna masts.)

FIRE PROTECTIVE SYSTEMS

Approval No. 161.002/6/0, audible and visual, supervised, Type RB smoke detector systems, eight (8) through forty-eight (48) lines (Drawing No. SK–122753 wiring diagram marine smoke detector, and Drawing No. SK–124335 schematic marine smoke detector), identified by the following part numbers:

No. lines	Main cabinet	Repeater surface mounted	Repeater flush mounted
1	8907705	8907751	8907790
12	8907705	8907760	8907191
24	8907705	8907767	8907972
36	8907710	8907770	8907159
48	8907712	8907781	8907194
2	8907714	8907783	8907984
4	8907716	8907785	8907990
6	8907718	8907787	8907997
8	8907720	8907789	8907999
10	8907722	8907791	8907999
12	8907724	8907793	8907999
14	8907726	8907771	8907999
16	8907728	8907773	8907999

Manufactured by Walter Kidde & Co., Inc., Belleville, N.J. 07109, effective April 19, 1967. (It is an extension of Approval No. 161.002/6/0 dated Apr. 23, 1962.)

FLASHLIGHTS, ELECTRIC, HAND

Approval No. 161.008/5/3, No. 1918 waterproof flashlight, Type I, size 2 (2-cell), identified by assembly dwg. No. 2F–1833–B, dated May 4, 1964, and revised, December 22, 1966, manufactured by Bright Star Industries, 600 Getty Avenue, Clifton, N.J. 07011, effective April 4, 1967. (Each flashlight shall be plainly marked with the name of the manufacturer and the above model number.) (It supersedes Approval No. 161.008/5/2 dated Jan. 26, 1965, to show plan updating.)

Approval No. 161.008/6/3, No. 1925 waterproof flashlight, Type I, size 3 (3-cell), identified by assembly dwg. No. 3F–1833–B, dated May 4, 1964, and revised, December 22, 1966, manufactured by Bright Star Industries, 600 Getty Avenue, Clifton, N.J. 07011, effective April 4, 1967. (Each flashlight shall be plainly marked with the name of the manufacturer and the above model number.) (It supersedes Approval No. 161.008/6/2 dated Jan. 26, 1965, to show plan updating.)

Approval No. 161.008/15/1, No. 2217, explosion-proof flashlight, Type II, size 2 (2-cell), identified by assembly dwg. No. 2F–1744–B, dated March 28, 1963, revised January 6, 1967, manufactured by Bright Star Industries, 600 Getty Avenue, Clifton, N.J. 07011, effective April 4, 1967. (Each flashlight shall be plainly marked with the name of the manufacturer and the above model number.) (It supersedes Approval No. 161.008/15/0 dated Jan. 6, 1965, to show plan updating.)

Approval No. 161.008/16/1, No. 2234, explosion-proof flashlight, Type II, size 3 (3-cell), identified by assembly dwg. No. 3F–1744–B, dated March 28, 1963, revised January 6, 1967, manufactured by Bright Star Industries, 600 Getty Avenue, Clifton, N.J. 07011, effective April 4, 1967. (Each flashlight shall be plainly marked with the name of the manufacturer and the above model number.) (It supersedes Approval No. 161.008/16/0 dated Jan. 6, 1965, to show plan updating.)

SAFETY VALVES (STEAM HEATING BOILERS)

Approval No. 162.012/8/0, Figure 839, pop safety valve, bronze body, for steam heating boilers and waste heat steam generators dwg. No. 84788, dated February 27, 1952, approved for a maximum pressure of 30 p.s.i. in the following sizes:

Size (inches)	Capacity (pounds/hour)	
	At 15 p.s.i.	At 30 p.s.i.
¾	98	155
1	153	240
1¼	206	327
1½	284	448
2	467	735
2½	557	883
3	980	1,473

Manufactured by the Lukenheimer Co., Post Office Box 360, Amrec Station, Cincinnati, Ohio 45214, effective May 3, 1967. (It is an extension of Approval No. 162.012/8/0, dated July 17, 1962.)

FLAME ARRESTERS FOR VENT VESSELS

Approval No. 162.016/8/0, Figure No. 50, Varec flame arrester, aluminum body, aluminum multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/8/0 dated July 31, 1962.)

Approval No. 162.016/9/0, Figure 50A, aluminum body, aluminum multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, Dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/9/0 dated July 31, 1962.)

Approval No. 162.016/10/0, Figure No. 50ACU, Varec flame arrester, semisteel body, copper multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, Dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/10/0 dated July 31, 1962.)

Approval No. 162.016/11/0, Figure No. 50ABCU, Varec flame arrester, semisteel body, copper multiple plate bank, vertical type, female pipe threaded connections, fitted with extensible banks and removable cover plate, Dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/11/0 dated July 31, 1962.)

Approval No. 162.016/12/0, Figure No. 50ACCU, Varec flame arrester, semisteel body, copper multiple plate bank, vertical type, flanged and screwed connections, fitted with extensible banks and removable cover plate, Dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/12/0 dated July 31, 1962.)

Approval No. 162.016/13/0, Figure No. 50AN, Varec flame arrester, semisteel and aluminum body, aluminum multiple plate bank, vertical type, square flange connections, fitted with extensible banks and removable cover plate, Dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/13/0 dated July 31, 1962.)

Approval No. 162.016/14/0, Figure No. 50B, Varec flame arrester, aluminum body, aluminum multiple plate bank, vertical type, female threaded connections, fitted with extensible banks and removable cover plate, Dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/14/0 dated July 31, 1962.)

Approval No. 162.016/15/0, Figure No. 50C, Varec flame arrester, aluminum body, aluminum multiple plate bank, vertical type, flanged and screwed connections, fitted with extensible banks and removable cover plate, Dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/15/0 dated July 31, 1962.)

Approval No. 162.016/16/0, Figure No. 50CU, Varec flame arrester, semisteel body, copper multiple plate bank, vertical type, flanged connections fitted with extensible banks and removable cover plate, Dwg. No. C–746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible

liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/16/0 dated July 31, 1962.)

Approval No. 162.016/17/0, Figure No. 50S, Varec flame arrester, semisteel body, aluminum multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, Dwg. No. C-746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/17/0 dated July 31, 1962.)

Aproval No. 162.016/18/0, Figure No. 50SA, Varec flame arrester, semisteel body, small aluminum multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, Dwg. No. C-746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/18/0 dated July 31, 1962.)

Approval No. 162.016/19/0, Figure No. 50SG, Varec flame arrester, semisteel body, aluminum multiple plate bank, vertical type, flanged connection, fitted with extensible banks and removable cover plate, Dwg. No. C-746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/9/0 dated July 31, 1962.)

Approval No. 162.016/20/0, Figure No. 50SB, Varec flame arrester, semisteel body, aluminum multiple plate bank, vertical type, threaded connections, fitted with extensible banks and removable cover plate, Dwg. No. C-746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/20/0 dated July 31, 1962.)

Approval No. 162.016/21/0, Figure No. 50SC, Varec flame arrester, semisteel body, aluminum multiple plate bank, vertical type, flanged and screwed connections fitted with extensible banks and removable cover plate, Dwg. No. C-746, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/21/0 dated July 31, 1962.)

Approval No. 162.016/22/0, Figure No. 53, Varec flame arrester, aluminum body, aluminum multiple plate bank, horizontal type, flanged connections, fitted with extensible banks and removable cover plate, Dwg. No. C-749, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/22/0 dated July 31, 1962.)

Approval No. 162.016/23/0, Figure No. 53A, Varec flame arrester, aluminum body, aluminum multiple plate bank, horizontal type, flanged connections, fitted with extensible banks and removable cover plate, Dwg. No. C-749, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/23/0 dated July 31, 1962.)

Approval No. 162.016/24/0, Figure No. 53B, Varec flame arrester, aluminum body, aluminum multiple plate bank, horizontal type, screwed connections, fitted with extensible banks and removable cover plate, Dwg. No. C-749, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/24/0 dated July 31, 1962.)

Approval No. 162.016/25/0, Figure No. 53C, Varec flame arrester, aluminum body, aluminum multiple plate bank, horizontal type, flanged and screwed connections, fitted with extensible banks and removable cover plate, Dwg. No. C-749, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/25/0 dated July 31, 1962.)

Approval No. 162.016/26/0, Figure No. 53S, Varec flame arrester, semisteel body, aluminum multiple plate bank, horizontal type, flanged connections, fitted with extensible banks and removable cover plate, Dwg. No. C-749, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/26/0 dated July 31, 1962.)

Approval No. 162.016/27/0, Figure No. 53SA, Varec flame arrester, semisteel body, aluminum multiple plate bank, horizontal type, flanged connections, fitted with extensible banks and removable cover plate, Dwg. No. C-749, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/27/0 dated July 31, 1962.)

Approval No. 162.016/28/0, Figure No. 53SD, Varec flame arrester, semisteel body, aluminum multiple plate bank, horizontal type, screwed connections, fitted with extensible banks and removable cover plate, Dwg. No. C-749, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/28/0 dated July 31, 1962.)

Approval No. 162.016/29/0, Figure No. 53SC, Varec flame arrester, semisteel body, aluminum multiple plate bank, horizontal type, flanged and screwed connections, fitted with extensible banks and removable cover plate, Dwg. No. C-749, Alt. A, dated January 24, 1947, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by Varec, Inc., Post Office Box 4429, 2820 North Alameda Street, Compton, Calif. 90222, effective April 28, 1967. (It is an extension of Approval No. 162.016/29/0 dated July 31, 1962.)

SAFETY RELIEF VALVES, LIQUEFIED COMPRESSED GAS

Approval No. 162.018/63/0, Lonergan Model D-20R, safety relief valve, 6" inlet 300# ASA, 8" outlet 150# ASA manufactured by J. E. Lonergan Co., Post Office Box 6167, Philadelphia, Pa. 19115, effective April 18, 1967. (Orifice size "R".)

BOILERS, AUXILIARY, AUTOMATICALLY CONTROLLED, PACKAGED

Approval No. 162.026/11/0, Johnston Bros. Catalog No. 298-25, light oil fired (fuel no heavier than std. No. 2, gravity 30-48 API at 60° F.), boiler horsepower 25 max., shell dia. 40 inches, steam output 860 lbs./hr. maximum allowable pressure 50 p.s.i., manufactured by Johnston Bros., Inc., Ferrysburg, Mich. 49409, effective May 4, 1967. (Plans approved Feb. 6, 1967.)

BACKFIRE FLAME CONTROL, GASOLINE ENGINES; FLAME ARRESTERS, FOR MERCHANT VESSELS AND MOTORBOATS

Approval No. 162.041/97/0, Barbron Model No. 400-19, backfire flame arrester for gasoline engines, dwg. No. A-5539, dated March 20, 1967, manufactured by Barbron Corp., 14580 Lesure Avenue, Detroit, Mich. 48227, effective March 29, 1967. (Identical with 162.041/2/0 except for base mounting flange.)

Approval No. 162.041/96/0, Bendix Model B175-42, backfire flame arrester, manufactured by Bendix Corp., Zenith Carburetor Division, 606 Hart Avenue, Detroit, Mich. 48214, effective April 3, 1967. (Alternate materials list includes: Flange 0.040 SAE 3003H14 alum Alloy; elements 0.010 SAE 3003H14; 5/16 SAE 6061 alum rivets; 0.040 SAE 3003 H14 alum cover plates; modification of previously tested design.)

Approval No. 162.041/99/0, Onan Model 145B393, backfire flame arrester for gasoline engines, with the following major components:

Resonator.	Flame Arrester Tube Assembly.
Disc Assembly.	Spacer - Resonator Adapter.
Adapter Assembly.	

Manufactured by Onan Division, Studebaker Corp., 2515 University Avenue SE., Minneapolis, Minn. 55414, effective April 18, 1967. (Minor modification to Model 145B354, Certificate of Approval 162.041/16/0 to fit Zenith 1403 carburetor.)

Approval No. 162.041/100/0, Onan Model 145B386, backfire flame arrester for gasoline engines, with the following major components:

Resonator.	Flame Arrester Tube Assembly.
Disc Assembly.	Spacer - Resonator Adapter.
Adapter Assembly.	

Manufactured by Onan Division, Studebaker Corp., 2515 University Avenue SE., Minneapolis, Minn. 55414, effective April 18, 1967. (Minor modification to Model 145B354, Certificate of Approval 162.041/16/0 to fit Walbro carburetor.)

DECK COVERINGS

Approval No. 164.006/2/0, SELBALITH magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TG-3610-1215 : FR1779, dated July 2, 1940, approved for use without other insulating material as meeting Class A-60 requirements in a 1½-inch thickness, manufactured by Selby, Battersby & Co., 5220 Whitby Avenue, Philadelphia, Pa. 19143, effective April 26, 1967. (It is an extension of Approval No. 164.006/2/0 dated July 31, 1962.)

Approval No. 164.006/9/0, RAECOLITH magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367-76:FR 1866, dated August 9, 1941, approved for use without other insulating material as meeting Class A-60 requirements in a 1¾-inch thickness, manufactured by Raecolith Flooring Co., 5622 Corson Avenue, Seattle, Wash. 98108, effective May 2, 1967. (It is an extension of Approval No. 164.006/9/0 dated July 31, 1962.)

Approval No. 164.006/15/0, MOULSTONE magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367-85:FR 1967, dated April 14, 1942, approved for use without other insulating material as meeting Class A-60 requirements in a 1½-inch thickness, manufactured by Thos. Moulding Floor Co., Inc., 2619 West Fulton, Chicago, Ill. 60645, effective April 28, 1967. (It is an extension of Approval No. 164.006/15/0 dated July 31, 1962, and change of address of manufacturer.)

Approval No. 164.006/23/0, DEX-O-TEX MAGNABOND No. 1 composite mastic and magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367-116:FR 2286, dated July 11, 1945, approved for use without other insulating material as meeting Class A-15 requirements in the thickness of DEX-O-TEX Subkote No. 1 underlay one-half inch, plus magnesite overlay three-eighth inch, manufactured by Crossfield Products Corp., 140 Valley Road, Roselle Park, N.J. 07204, effective May 8, 1967. (It is an extension of Approval No. 164.006/23/0 dated July 31, 1962.)

STRUCTURAL INSULATIONS

Approval No. 164.007/1/0, "48" C. G. Felt, mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG 3610-1372:FR-2238 dated April 1, 1944, bats and blankets approved for use without other insulating material to meet Class A-60 requirements in thickness and densities as follows:

8 inches at 8 pounds per cubic foot density.
4 inches at 6 pounds per cubic foot density.

Manufactured by Forty-Eight Insulations, Inc., Aurora, Ill. 60504, effective April 25, 1967. (It is an extension of Approval No. 164.007/1/0 dated July 31, 1962.)

Approval No. 164.007/6/1, "BX Spintex," mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG-3619-36:FR-1404, dated May 17, 1939, and TG-10230-28:FR-3660, dated January 20, 1966, bats and blankets approved for use without other insulating material to meet Class A-60 requirements in a 3-inch thickness at 8 pounds per cubic foot density, and a 4-inch thickness at 6 pounds per cubic foot density, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York, N.Y. 10016, effective April 3, 1967. (Formerly J-M BX-434.) (It is an extension of Approval No. 164.007/6/1 dated June 14, 1962.)

Approval No. 164.007/7/1, "No. 450 Cement," mineral wool cement type structural insulation identical to that described in National Bureau of Standards Test Report No. TG-3619B:FR-1466B, dated July 7, 1939, approved for use without other insulating material to meet Class A-60 requirements in a 3½-inch thickness and 20 pounds per cubic foot density, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York, N.Y. 10016, effective May 2, 1967. (Formerly J-M No. 450 Cement.) (It is an extension of Approval No. 164.007/7/1 dated June 14, 1962.)

Approval No. 164.007/8/1, "Banroc 202AA," mineral wool type structural insulation identical to that described in National Bureau of Standards Test Report No. TG-3619-36:FR-1404, dated May 17, 1939, blankets with asbestos paper facings approved for use without other insulating materials to meet Class A-60 requirements in a 2-inch thickness and 16 pounds per cubic foot density, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York, N.Y. 10016, effective May 2, 1967. (Formerly J-M 202AA.) (It is an extension of Approval No. 164.007/8/1 dated June 14, 1962.)

Approval No. 164.007/18/0, "B-E-H 6-pound felt", mineral wool type structural insulation identical to that described in National Bureau of Standards letter, File III-6/36, dated July 16, 1943, approved for use without other insulating material to meet Class A-60 requirements in a 4-inch thickness and 6 pounds per cubic foot density, manufactured by Baldwin-Ehret-Hill, Inc., 500 Breunig Avenue, Trenton, N.J. 08638, effective April 28, 1967. (It is an extension of Approval No. 164.007/18/0 dated July 31, 1962.)

Approval No. 164.007/19/0, "B-E-H loose wool", mineral wool type structural insulation identical to that described in National Bureau of Standards letter, File III-6/36, dated July 16, 1943, approved for use without other insulating material to meet Class A-60 requirements in a 3-inch thickness and 11 pounds per cubic foot density, manufactured by Baldwin-Ehret-Hill, Inc., 500 Breunig Avenue, Trenton, N.J. 08638, effective April 28, 1967. (It is an extension of Approval No. 164.007/19/0 dated July 31, 1962.)

INCOMBUSTIBLE MATERIALS

Approval No. 164.009/1/0, gold bond A-C board, asbestos cement board type incombustible material identical to that described in National Gypsum Co. letter, dated June 4, 1943, manufactured by National Gypsum Co., Buffalo, N.Y. 14202, effective May 2, 1967. (It is an extension of Approval No. 164.009/1/0 dated July 31, 1962.)

Approval No. 164.009/97/0, "J-M Foil-Faced Marine BX Spintex Duct Insulation", aluminum faced mineral wool type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210-214: FR 2678, dated March 1, 1967, and Commandant (MMT-3) letter, dated March 9, 1967, approved in a density of 3.25 through 6 pounds per cubic foot, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York, N.Y. 10016, effective April 13, 1967. (Plant: Richmond, Ind.) (It supersedes Approval No. 164.009/97/0 dated Mar. 9, 1967 to show correction in density range.)

Approval No. 164.009/98/0, "Incombustible Marine Board Type I", acrylic finished fibrous glass cloth faced fibrous glass type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210-2144: FR 2861, dated April 3, 1967, and Owens-Corning Fiberglas Corp. letter, dated March 10, 1967, approved for 1" through 2" thickness with the basic fibrous glass insulation material in a nominal 3.25 pounds per cubic foot density, manufactured by Owens-Corning Fiberglas Corp., Toledo, Ohio 43601, effective April 20, 1967.

PART II—TERMINATIONS OF APPROVAL OF EQUIPMENT, INSTALLATIONS, OR MATERIALS

LIFE PRESERVERS, KAPOK, ADULT AND CHILD (JACKET TYPE) MODELS 3 AND 5

The Burlington Mills, Inc., Burlington, Wis., and Post Office Box 360, Cadiz, Ky., no longer manufacture certain kapok life preservers and therefore Approval Nos. 160.002/76/0 and 160.002/77/0 are terminated, effective April 5, 1967.

The Trigg Manufacturing Corp., Post Office Box 360, Cadiz, Ky., no longer manufacture certain kapok life preservers and therefore Approval Nos. 160.002/104/0 and 160.002/105/0 are terminated, effective April 5, 1967.

The Herter's, Inc., Waseca, Minn. 56093, no longer manufacture certain kapok life preservers and therefore Approval Nos. 160.002/106/0 and 160.002/107/0 are terminated, effective April 5, 1967.

BUOYS, LIFE, RING, CORK OR BALSA WOOD

The American Pad & Textile Co., 511 North Solomon Street, New Orleans 19, La., no longer manufacture certain life buoys and therefore Approval Nos. 160.009/1/0, 160.009/2/0, 160.009/3/0, 160.009/4/0, and 160.009/5/0 are terminated, effective April 25, 1967.

SEA ANCHORS, LIFEBOAT

The American Pad & Textile Co., 511 North Solomon Street, New Orleans 19, La., no longer manufactures a particular sea anchor and therefore Approval No. 160.019/4/0 is terminated, effective April 25, 1967.

LIFEFLOATS

The American Pad & Textile Co., 511 North Solomon Street, New Orleans 19, La., no longer manufacture certain lifefloats and therefore Approval Nos. 160.027/55/1 and 160.027/56/1 are terminated, effective April 25, 1967.

LIFEBOATS

The Frank Morrison & Son Co., 1330 West 11th Street, Cleveland, Ohio, Approval Nos. 160.035/121/2 and 160.035/126/2 for certain lifeboats have expired and are terminated, effective April 10, 1967.

The C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N.Y., Approval No. 160.035/295/0 for a particular lifeboat has expired and is terminated, effective January 30, 1967.

BUOYANT VESTS, KAPOK OR FIBROUS GLASS, ADULT AND CHILD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

The Burlington Mills, Inc., Burlington, Wis., and Post Office Box 360, Cadiz, Ky., no longer manufacture certain kapok buoyant vests and therefore Approval Nos. 160.047/326/0, 160.047/327/0, and 160.047/328/0 are terminated, effective April 5, 1967.

The Trigg Manufacturing Corp., Post Office Box 360, Cadiz, Ky., no longer manufacture certain kapok buoyant vests and therefore Approval Nos. 160.047/577/0, 160.047/578/0, and 160.047/579/0 are terminated, effective April 5, 1967.

The Herter's, Inc., Waseca, Minn. 56093, no longer manufacture certain kapok buoyant vests and therefore Approval Nos. 160.047/592/0, 160.047/593/0, and 160.047/594/0 are terminated, effective April 5, 1967.

BUOYANT CUSHIONS, KAPOK OR FIBROUS GLASS

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

The Burlington Mills, Inc., Burlington, Wis., and Post Office Box 360, Cadiz, Ky., no longer manufacture a particular kapok buoyant cushion and therefore Approval No. 160.048/100/0 is terminated, effective April 5, 1967.

The Trigg Manufacturing Corp., Post Office Box 360, Cadiz, Ky., no longer manufacture a particular kapok buoyant cushion and therefore Approval No. 160.048/236/0 is terminated, effective April 5, 1967.

The Herter's, Inc., Waseca, Minn. 56093, no longer manufacture a particular kapok buoyant cushion and therefore Approval No. 160.048/242/0 is terminated, effective April 5, 1967.

The Geneva Upholstering Co., Lake Geneva, Wis., no longer manufacture a particular kapok buoyant cushion and therefore Approval No. 160.048/74/0 is terminated, effective April 10, 1967.

The Liberty Cork Co., 123 Whitehead Avenue, South River, N.J., Approval No. 160.048/83/0 for a particular kapok buoyant cushion has expired and is terminated, effective April 10, 1967.

The Montgomery Ward & Co., Inc., 619 West Chicago Avenue, Chicago 7, Ill., Approval No. 160.048/89/0 for a particular kapok buoyant cushion has expired and is terminated, effective April 10, 1967.

The Trimco, Holiday Harbor, Celoron, N.Y., Approval Nos. 160.048/90/0 and 160.048/91/0 for certain kapok buoyant cushions have expired and are terminated, effective April 10, 1967.

The See Bentz & Sons Upholstering, 111 Fifth Street, Watertown, Wis., no longer manufacture a particular kapok buoyant cushion and therefore Approval No. 160.048/96/0 is terminated, effective April 10, 1967.

BUOYANT CUSHIONS, UNICELLULAR PLASTIC FOAM

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

The Canvas Specialty Manufacturing Co., 7344 East Bandini Boulevard, Los Angeles 22, Calif., Approval No. 160.049/45/0 for a particular unicellular plastic foam buoyant cushion has expired and is terminated, effective April 10, 1967.

The Burlington Mills, Inc., Burlington, Wis., no longer manufactures a particular unicellular plastic foam buoyant cushion and therefore Approval No. 160.048/42/0 is terminated, effective April 5, 1967.

BUOYANT VESTS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

The Burlington Mills, Inc., Burlington, Wis. 53105, and Cadiz, Ky., no longer manufacture certain plastic foam buoyant vests and therefore Approval Nos. 160.052/110/1, 160.052/111/1, 160.052/112/1, 160.052/202/0, 160.052/203/0, and 160.052/204/0 are terminated, effective April 5, 1967.

The American Pad & Textile Co., Post Office Box 49, Fairfield, Calif. 94534, Approval Nos. 160.052/289/0, 160.052/290/0, and 160.052/291/0 for certain unicellular plastic foam buoyant vests are terminated, effective April 11, 1967.

The Trigg Manufacturing Corp., Post Office Box 360, Cadiz, Ky., no longer manufacture certain plastic foam buoyant vests and therefore Approval Nos. 160.052/337/0, 160.052/338/0, and 160.052/339/0 are terminated, effective April 5, 1967.

WORKS VESTS, UNICELLULAR PLASTIC FOAM

The Burlington Mills, Inc., Burlington, Wis. 53105, and Cadiz, Ky., no longer manufactures a particular plastic work vest and therefore Approval No. 160.053/1/0 is terminated, effective April 5, 1967.

The Trigg Manufacturing Corp., Post Office Box 360, Cadiz, Ky., no longer manufacture a particular plastic foam work vest and therefore Approval No. 160.053/22/0 is terminated, effective April 5, 1967.

LIFE PRESERVERS, UNICELLULAR PLASTIC FOAM ADULT AND CHILD

The Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn 1, N.Y., Approval Nos. 160.055/14/1, 160.055/15/1, 160.055/18/0, and 160.055/19/0 for certain plastic foam life preservers have terminated due to change in specifications, effective April 4, 1967.

The American Pad & Textile Co., 6230 Bienvenue Street, New Orleans, La. 70117 and Fairfield, Calif., Approval Nos. 160.055/16/0 and 160.055/17/0 for certain plastic foam life preservers have terminated due to change in specifications, effective April 4, 1967.

The International Cushion Co. 1110 Northeast Eighth Avenue, Fort Lauderdale, Fla. 33311, Approval Nos. 160.055/24/0 and 160.055/25/0 for certain plastic foam life preservers have terminated due to change in specifications, effective April 4, 1967.

STRUCTURAL INSULATION

The Bird-Archer Co., 4337 North American Street, Philadelphia 40, Pa., no longer manufactures a particular plaster type structural insulation and therefore Approval No. 164.007/11/0 is terminated, effective March 27, 1967.

BULKHEAD PANELS

The Turners Asbestos Cement Co., Ltd., Trafford Park, Manchester 17, England, Approval Nos. 164.008/48/0 and 164.008/49/0 for certain asbestos cement board type bulkhead panels have expired and are terminated, effective February 26, 1967.

Dated: August 18, 1967.

P. E. TRIMBLE,
Vice Admiral U.S. Coast Guard
Acting Commandant.

REGROOVED TIRES

Notice of Extension of Time To File Comments

On August 10, 1967, there was published in the FEDERAL REGISTER (32 F.R. 11579) a notice (1) giving the opportunity to present views, information, and data as to why the Secretary of Transportation should not seek an injunction to restrain the sale or introduction into interstate commerce of any tire or motor vehicle equipped with any tire that has been regrooved; and (2) giving the opportunity to supply information and data which would form the basis for a request to the Secretary to permit the sale of regrooved tires pursuant to section 204(a) of the National Traffic and Motor Vehicle Safety Act of 1966.

Upon consideration of various requests to extend the time to file comments beyond August 31, 1967, the time to file such comments is hereby extended 30 days to close of business October 2, 1967.

Issued in Washington, D.C., on August 23, 1967.

LOWELL K. BRIDWELL,
Federal Highway Administrator.

INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF CHINA

Entry or Withdrawal From Warehouse for Consumption

AUGUST 23, 1967.

On April 22, 1966, the Government of the United States, in furtherance of the objectives of and under the terms of the Long Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded an agreement with the Government of the Republic of China amending the bilateral agreement of October 19, 1963, concerning exports of cotton textiles and cotton textile products from the Republic of China to the United States. As amended, the agreement provides annual limitations on exports of all cotton textiles and cotton textile products from the Republic of China to the United States for the successive 12-month periods beginning October 1, 1966, and extending through September 30, 1967.

Entries into the United States for consumption and withdrawals from warehouse for consumption of cotton textiles and cotton textile products in Categories 34, 45, and 62, produced or manufactured in the Republic of China and exported to the United States on or after October 1, 1966, have exceeded the amounts provided for in the agreement.

Accordingly, there is published below a letter of August 22, 1967, from the Chairman of the President's Cabinet Textile Advisory Committee to the Commissioner of Customs directing that as soon as possible and for the period extending through September 30, 1967, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 34, 45, and 62, produced or manufactured in the Republic of China and exported to the United States on or after October 1, 1966, be prohibited.

The directive is temporary in nature, and the entry of these Categories from the Republic of China is expected to be the subject of a further directive at the conclusion of consultations now in progress with the Government of the Republic of China concerning the possible further amendment, or the replacement of the bilateral agreement now in force between the Governments of the United States and the Republic of China. Such consultations include the entry of goods affected by this directive.

STANLEY NEHMER,
Chairman, Interagency Textile Administrative Committee, and Deputy Assistant Secretary for Resources.

THE SECRETARY OF COMMERCE
PRESIDENT'S CABINET TEXTILE ADVISORY COMMITTEE
WASHINGTON, D.C. 20230,
August 22, 1967.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of October 19, 1963, as amended on April 22, 1966, between the Governments of the United States and the Republic of China, and in accordance with the procedures outlined in Executive Order 11052 of September 28, 1962, as amended by Executive Order 11214 of April 7, 1965, you are directed, effective as soon as possible and for the period extending through September 30, 1967, to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of any cotton textiles and cotton textile products in Categories 34, 45, and 62, produced or manufactured in the Republic of China and which have been exported to the United States on or after October 1, 1966.

The foregoing directive is temporary in nature, and the entry of these categories from the Republic of China is expected to be the subject of a further directive to you pending the conclusion of consultations now in progress with the Government of the Republic of China concerning the possible further amendment, or replacement of the bilateral agreement now in force between the Governments of the United States and the Republic of China.

A detailed description of categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on July 7, 1966 (31 F.R. 9310).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of China and with respect to imports of cotton textiles and cotton textile products from the Republic of China have been determined by the President's Cabinet Textile Advisory Committee to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

A. B. TROWBRIDGE,
Secretary of Commerce, Chairman, President's Cabinet Textile Advisory Committee.

[70-4435]

VERMONT YANKEE NUCLEAR POWER CORP.

Order Directing the Filing of Documents and Briefs, and Oral Argument

AUGUST 23, 1967.

An amended application has been filed in this proceeding by Vermont Yankee Nuclear Power Corp. ("Vermont Yankee"), Rutland, Vt., and seven of its 10 sponsor-companies (collectively referred to as "Applicant companies"), under sections 6(b) and 10 of the Public Utility Holding Company Act of 1935 ("Act"), regarding the initial financing by Vermont Yankee of its proposed nuclear-powered electric generating plant through the issue of 100,000 shares of common stock, $100 par value per share, to its ten sponsor companies, in specified percentages, and by agreement, upon completion of the nuclear generating facilities each of the sponsors will purchase a like percentage of the total capacity and output of these generating facilities. The ten sponsor companies are electric-utility companies operating in the New England area, five of which are subsidiary companies of registered holding companies.

The proposed initial issue of 100,000 shares by Vermont Yankee is subject to section 6(b) of the Act; and the proposed acquisitions of the Vermont Yankee common stock by seven of the sponsor companies require Commission approval under section 10 of the Act. The acquisitions by the other three sponsor companies are not subject to the Act.

The notice of filing was issued on February 1, 1967 (Holding Company Act Release No. 15652), affording all interested persons not later than February 20, 1967, an opportunity to participate and to request a hearing on the application. On February 20, 1967, the Municipal Electric Association of Massachusetts ("Association"), on behalf of itself and its members, the city of Chicopee, Mass., and the Chicopee Municipal Lighting Plant, the town of Shrewsbury, Mass., and the Shrewsbury Electric Light Plant, and the town of Wakefield, Mass., and the Wakefield Municipal Light Department (collectively referred to as the "Applicant-intervenors") filed a "Notice of Appearance, Application for Intervention, and Request for Hearing."

The Applicant-intervenors allege generally that the proposed transactions are (a) detrimental to the public interest or the interest of investors and consumers, (b) not tending towards the economical and efficient development of an integrated public utility system, and (c) a restraint of trade in violation of the antitrust laws, the Federal Power Act, the Atomic Energy Act of 1954, and the Holding Company Act of 1935. In the application filed by the Applicant-intervenors it is requested that:

> * * * any Commission approvals or other actions be conditioned upon Vermont Yankee making available to each of the municipal electric utilities in Massachusetts a realistic opportunity to purchase stock and power output, and arrange for transmission thereof, on the same or equivalent basis as it is proposed to do these things for sponsor companies, giving effect as may be necessary to any differences in legal powers between the municipals and the sponsor companies. It is believed that a hearing may be necessary for this purpose, and for the purpose of establishing on the record the prices as estimated or agreed upon among the sponsor companies, although the Commission may have authority to fix satisfactory conditions without a hearing * * *.

In response thereto, the Applicant companies, on February 27, 1967, filed a "Motion To Strike Appearances, Applications for Intervention and Request for Hearing," with a brief in support thereof.

The Applicant-intervenors subsequently filed, on June 2, 1967, a "Motion To Extend Time for Answering Brief" (to the motion to strike) and an answering brief therewith. Thereafter, on July 10, 1967, the Applicant companies filed motions pursuant to Rules 2(d) and 7 of the Commission's rules of practice to require counsel to file in this proceeding powers of attorney, and certain other documents and statements relative to the status and interest of the Applicant-intervenors in this proceeding and the conditions they propose to have included in any order of the Commission approving the transactions involved herein. A reply to these motions was filed on July 24, 1967, by the Applicant-intervenors.

The Commission deems it appropriate that, in the interest of orderly procedure, the application for intervention and request for hearing and the opposition thereto be considered on briefs and oral argument. For that purpose it is necessary that the record in this proceeding be supplemented in some particular respects, as indicated hereinafter.

It is ordered, Therefore, that Applicant-intervenors or their counsel, as the case may be, file in this proceeding on or before September 5, 1967, each of the following:

(a) Written powers of attorney authorizing counsel to appear in this proceeding on behalf of Applicant-intervenors and any other Massachusetts municipality;

(b) The constitution and bylaws of the Association and any other documents deemed relevant to the Association's interest in this proceeding;

(c) A statement on behalf of each of the cities of Chicopee, Wakefield, and Shrewsbury and their respective electric utility departments indicating their authorization, by resolution or otherwise, to intervene for the purposes set forth in their application for intervention and request for hearing;

(d) A statement identifying which, if any, electric utility companies, including the Applicant companies, provide electric service to customers within the municipal service areas of any of the Applicant-intervenors.

It is further ordered, That on or before September 5, 1967, the Applicant-intervenors shall file a brief in this proceeding in support of their application for intervention and request for a hearing and for the relief sought herein. Such brief also shall, among other things, address itself to each of the following:

(a) The applicability to the transactions proposed herein of any specific provisions of the Federal Power Act, the Atomic Energy Act of 1954, and the Federal antitrust laws, and this Commission's jurisdiction to consider and apply such provisions in a proceeding under the Holding Company Act of 1935;

(b) The grounds, either in law or in fact, upon which the Applicant-intervenors claim that the proposed initial acquisitions of the stock of Vermont Yankee do not satisfy section 10(c)(2) of the Act. In this connection Applicant-intervenors may submit a separate statement specifying any issues of fact they desire to controvert, as required by the notice of filing in this proceeding;

(c) The grounds, either in law or in fact, upon which the Applicant-intervenors claims that the proposed initial acquisitions of the stock of Vermont Yankee cannot be approved by reason of section 10(b)(1) of the Act. In this connection Applicant-intervenors may submit a separate statement specifying any issues of fact they desire to controvert, as required by the notice of filing in this proceeding.

Applicant companies shall file on or before September 12, 1967, a brief in response and such amendments to the amended application on file as they deem appropriate in the light of the documents and statements filed by the Applicant-intervenors.

It is further ordered, That all documents, statements, and briefs shall be submitted and filed and served in accordance with Rules 23 and 23 of the Commission's rules of practice.

It is further ordered, That oral argument in this case shall be heard within 10 days after the aforesaid documents, statements, and briefs are filed. The Secretary of the Commission will advise the parties of the time and place of oral argument.

It is further ordered, That jurisdiction be, and it hereby is, reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues or questions which may arise in this proceeding, and to take such other action as may appear necessary or appropriate to the orderly disposition of the issues involved.

It is further ordered, That the Secretary of the Commission shall mail a copy of this order by registered mail to counsel for the Applicant companies and for the Applicant-intervenors, to the Vermont Public Service Board, the Massachusetts Department of Public Utilities, the Federal Power Commission, and the Atomic Energy Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[1] The stated effective date is the effective date proposed by Respondent.
[2] Respondent filing from initial certificated rate to initial contract rate.
[3] Pressure base is 14.65 p.s.i.a.
[4] Subject to upward and downward B.t.u. adjustment.
[5] Includes base rate of 15 cents plus upward B.t.u. adjustment before increase and base rate of 17 cents plus upward B.t.u. adjustment after increase (present B.t.u. content of gas is 1,105 B.t.u.'s per cubic foot).
[6] Formerly: Kansas-Colorado Utilities, Inc.
[7] The stated effective date is the first day after expiration of the statutory notice.
[8] Two-step periodic rate increase.
[9] Subject to a downward B.t.u. adjustment from 900 B.t.u.'s per cubic foot (present B.t.u. content is in excess of 900 B.t.u.'s per cubic foot).
[10] Periodic rate increase.
[11] Includes base rate of 16 cents plus upward B.t.u. adjustment before increase and base rate of 17 cents plus upward B.t.u. adjustment after increase (present B.t.u. content of gas is 1,214 B.t.u.'s per cubic foot).
[12] Includes base rate of 17 cents plus upward B.t.u. adjustment before increase and base rate of 18 cents plus upward B.t.u. adjustment after increase (present B.t.u. content of gas is 1,225 B.t.u.'s per cubic foot).
[13] Respondent filing from initial certificated rate to first periodic increased rate (initial contract rate is 17 cents).
[14] B.t.u. content of gas not stated.
[15] Redetermined rate increase.
[16] Subject to proportionate upward and downward B.t.u. adjustment from base of 1,000 B.t.u.'s per cubic foot.
[17] Includes base rate of 15 cents plus upward B.t.u. adjustment (1,008 B.t.u gas) before increase and base rate of 17.5 cents plus upward B.t.u. adjustment and 0.035 cent tax reimbursement after increase.
[18] Respondent filing from permanently certificated initial rate to initial contract rate.
[19] Subject to 1/100 cent upward B.t.u. adjustment for each B.t.u. in excess of 1,000 B.t.u.'s per cubic foot and proportionate downward B.t.u. adjustment from base of 1,000 B.t.u.'s per cubic foot (respondent states present B.t.u. content is in excess of 1,000 B.t.u.'s per cubic foot).
[20] Subject to proportionate upward and downward B.t.u. adjustment from base of 1,000 B.t.u.'s per cubic foot.
[21] Includes base rate of 15 cents plus upward B.t.u. adjustment before increase and base rate of 17 cents plus upward B.t.u. adjustment after increase 1,130 B.t.u. gas (Rate Schedule No. 93) and 1,118 B.t.u. gas (Rate Schedule No. 96).
[22] Rate of 16 cents plus upward B.t.u. adjustment suspended in Docket No. RI67-440 until Dec. 6, 1967. Gulf requests that the suspension proceeding be terminated and the related supplements be withdrawn.
[23] "Fractured" rate increase. Respondent is contractually due base rate of 19.5 cents plus upward B.t.u. adjustment. Initial contract rate is 17 cents.
[24] Includes base rate of 16 cents plus upward B.t.u. adjustment before increase and 18 cents plus upward B.t.u. adjustment after increase (1,087 B.t.u. gas—Gulf's Rate Schedule No. 207 and 1,000 B.t.u. gas Tennessee's Rate Schedule 190 and 186).
[25] Renegotiated rate increase.
[26] Includes base rate of 16 cents plus upward B.t.u. adjustment before increase and base rate of 17 cents plus upward B.t.u. adjustment after increase (1,081 B.t.u. gas).
[27] Contract agreement which provides for rate of 17 cents for 5-year period beginning July 1, 1967. Also provides that Shell will have the right to file for any higher just and reasonable rate established by the Federal Power Commission.
[28] Subject to plus cent upward B.t.u. adjustment for each additional B.t.u. in excess of 1,020 B.t.u. per cubic foot and proportionate downward B.t.u. adjustment (rates shown include 0.69 cent upward B.t.u. adjustment for 1,020 B.t.u. gas).
[29] Subject to a downward B.t.u. adjustment.
[30] Includes 1 cent charge paid by buyer for seller's relinquishment of processing rights.
[31] Includes 0.035 cent tax reimbursement.
[32] Subject to proportionate upward and downward B.t.u. adjustment from a base of 1,000 B.t.u.'s per cubic foot (present B.t.u. content of gas is 995 B.t.u.'s per cubic foot (Mobil's Rate Schedule No. 140) and 998 B.t.u.'s per cubic foot (Mobil's Rate Schedule No. 401).
[33] Footnote 34 not used.
[34] Includes base rate of 16 cents plus upward B.t.u. adjustment before increase and 17 cents plus upward B.t.u. adjustment after increase (1,008 B.t.u. gas (Shell's Rate Schedule No. 122) and 1,027 B.t.u. gas (Shell's Rate Schedule No. 164).
[35] "Fractured" rate increase. Respondent is contractually due base rate of 19.5 cents plus upward B.t.u. adjustment. Initial contract rate is 17 cents.
[36] Includes base rate of 16 cents plus upward B.t.u. adjustment before increase and 18 cents plus upward B.t.u. adjustment after increase (1,087 B.t.u. gas (Gulf's Rate Schedule No. 207 and 1,000 B.t.u. gas (Tennessee's Rate Schedule Nos. 190 and 186).
[37] "Fractured" rate increase. Respondent contractually due base rate of 19.5 cents, which is initial contract rate.
[38] Applicable to production from Woodward County (Panhandle Area).
[39] Includes 0.30 cent upward B.t.u. adjustment, which is based on 3/100 cent per Mcf for each B.t.u. per cubic foot of 1,000 B.t.u.'s (average B.t.u. content is 1,010 B.t.u. per cubic foot).
[40] Applicable to production from Woods, Dewey, Major, and Alfalfa Counties (Oklahoma "Other" Area).
[41] "Fractured" rate increase plus tax reimbursement. Respondent contractually due periodic increase to base rate of 19.5 cents.
[42] Includes 17 cents base rate plus upward B.t.u. adjustment before increase and 17.0 cents base rate plus upward B.t.u. adjustment plus 0.035 cent tax reimbursement after increase.
[43] Includes 17 cents base rate plus upward B.t.u. adjustment before increase and 19 cents base rate plus upward B.t.u. adjustment plus 0.035 cent tax reimbursement after increase.
[44] Includes 18 cents base rate plus upward B.t.u. adjustment before increase and 17.0 cents base rate plus upward B.t.u. adjustment plus 0.035 cent tax reimbursement after increase.
[45] Includes 16 cents base rate plus upward B.t.u. adjustment before increase and 17 cents base rate plus upward B.t.u. adjustment after increase. (Based on present B.t.u. content of gas which is 1,000 B.t.u.'s per cubic foot.)
[46] "Fractured" rate increase. Respondent contractually due a redetermined rate of 19.5 cents per Mcf.

Walter F. Kuhn (Operator) et al., request a retroactive effective date of January 1, 1967, for their proposed rate increase. Texaco, Inc. (Texaco), requests that its proposed rate increase be permitted to become effective as of July 1, 1967. Mobil Oil Corp. et al., and Mobil Oil Corp. request an effective date of August 20, 1967, for Supplement Nos. 6 and 3 to their FPC Gas Rate Schedule Nos. 140 and 401, respectively. Midhurst Oil Corp. (Operator) et al., request that their proposed rate increase be permitted to become effective as of July 24, 1967. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit earlier effective dates for the aforementioned producers' rate filings and such requests are denied.

Gulf Oil Corp. (Gulf), proposes a two-step periodic increase in rate from 15.0 cents to 17.0 cents, plus upward B.t.u. adjustment, under its FPC Gas Rate Schedule Nos. 96 and 98, for gas sold to Colorado Interstate Gas Co. from fields in Beaver County, Okla. (Panhandle Area).

On June 5, 1967, Gulf filed periodic increases from 15.0 cents to 16.0 cents, plus B.t.u. adjustment. Such filings were designated as Supplement Nos. 7 and 20 to Gulf's FPC Gas Rate Schedule Nos. 96 and 98, respectively, and were suspended by the Commission's order issued June 30, 1967, in Docket No. RI67-460, until December 6, 1967, and thereafter until made effective in the manner prescribed by the Natural Gas Act. The increased rate has not been made effective pursuant to section 4(e) of the Natural Gas Act and no monies have been collected subject to refund under the rate schedules involved. Gulf has requested that the rate proceeding in Docket No. RI67-460 be terminated and the related rate filings be permitted to be withdrawn.

Since the suspended 16.0-cent rate, plus B.t.u. adjustment, contained in Supplement Nos. 7 and 20 to Gulf's FPC Gas Rate Schedule Nos. 96 and 98, respectively, has not been made effective pursuant to section 4(e) of the Natural Gas Act and no monies have been collected subject to refund under the rate schedules involved, we believe that it would be in the public interest to grant Gulf's request to withdraw its aforementioned rate supplements and to terminate the related suspension proceeding in Docket No. RI67-460.

Shell Oil Co. and Shell Oil Co. (Operator) et al. (both referred to herein as Shell), have submitted contract amendments which provide for their proposed rate increases. We believe that it would be in the public interest to accept for filing Shell Oil Co.," and Shell Oil Co. (Operator) et al.," contract amendments to become effective on August 27, 1967, the proposed effective date, but not the proposed rates contained therein which are suspended as hereinafter ordered.

Except for the stay of the moratorium in Opinion No. 468, Sun Oil Co.'s (Sun), rate filing would be rejectable because the proposed rate is in excess of the applicable area ceiling determined in Opinion No. 468. If the moratorium is ultimately upheld upon judicial review, Sun's rate filing will be rejected ab initio.

With the exception of the rate increase filed by Sun which exceeds the applicable area ceiling established in the related quality statement filed pursuant to Opinion No. 468, as amended, all of the producers' proposed rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's statement of general policy No. 61-1, as amended (18 CFR Ch. 1, Pt. 2, § 2.56).

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) Good cause exists for permitting the withdrawal of Supplement Nos. 7 and 20 to Gulf's FPC Gas Rate Schedule Nos. 96 and 98, respectively, and for terminating the related suspension proceeding in Docket No. RI67-460.

(2) Good cause has been shown for accepting for filing Shell Oil Co. and Shell Oil Co. (Operator) et al., contract amendments, designated as Supplement No. 4 to Shell Oil Co.'s FPC Gas Rate Schedule No. 167, and Supplement Nos. 11 and 8 to Shell Oil Co. (Operator) et al., FPC Gas Rate Schedule Nos. 163 and 164, respectively, and for permitting such supplements to become effective on August 27, 1967, the proposed effective date.

(3) Except for the supplements set forth in paragraph (2) above, it is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Supplement Nos. 7 and 20 to Gulf's FPC Gas Rate Schedule Nos. 96 and 98, respectively, are permitted to be withdrawn and the suspension proceeding in Docket No. RI67-460 is terminated.

(B) Shell Oil Co. and Shell Oil Co. (Operator) et al., contract amendments, designated as Supplement No. 4 to Shell Oil Co.'s FPC Gas Rate Schedule No. 167, and Supplement Nos. 11 and 8 to Shell Oil Co. (Operator) et al., FPC Gas Rate Schedule Nos. 163 and 164, respectively, are accepted for filing and permitted to become effective on August 27, 1967.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in the above-designated supplements (except the supplements set forth in (B) above).

(D) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(E) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(F) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before October 4, 1967.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Acting Secretary.*

[4] Supplement No. 4 to Shell Oil Co.'s FPC Gas Rate Schedule No. 167.
[5] Supplement Nos. 11 and 8 to Shell Oil Co. (Operator) *et al.*, FPC Gas Rate Schedule Nos. 163 and 164, respectively.

[Docket No. CP68-51]

GRAND VALLEY TRANSMISSION CO.

Notice of Application

AUGUST 22, 1967.

Take notice that on August 14, 1967, Grand Valley Transmission Co. (Applicant), 72 East Fourth South Street, Salt Lake City, Utah 84111, filed in Docket No. CP68-51 a "budget-type" application pursuant to subsection (c) of section 7 of the Natural Gas Act, as implemented by Subsection (b) of § 157.7 of the regulations under the Act, for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate, during the 12-month period beginning October 1, 1967, or from the date of issuance of the authorization requested herein, whichever is later, routine natural gas purchase facilities to enable it to take into its certificated main pipeline system natural gas which is or will become available in its general supply area.

Total estimated cost of Applicant's proposed construction is not to exceed $30,000, with no single project expenditure to exceed $10,000, and will be financed initially from cash on hand or short-term bank loans. Applicant requests that the limitations of § 2.58(a) of the Commission's general policy be waived so as to allow the limits proposed above. Applicant states that strict application of said limits would result in investment limits too low to be practical.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before September 18, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT, *Secretary.*

[Docket No. CP68-46]

HUMBLE GAS TRANSMISSION CO.

Notice of Application

AUGUST 22, 1967.

Take notice that on August 11, 1967, Humble Gas Transmission Co. (Applicant), 1700 Commerce Building, New Orleans, La. 70112, filed in Docket No. CP68-46 an application pursuant to subsection (c) of section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the sale of natural gas for resale in interstate commerce, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate the following natural gas facilities:

(1) Two measuring stations, for the receipt of natural gas to be purchased by Applicant from producers in the Hatch Bend Field and North Richland Area, Richland Parish, La.; and

(2) A sales measuring station south of Natchez, Miss., on its Fowler-Baton Rouge Pipeline System.

Applicant also seeks authorization to sell and deliver to Mississippi Valley Gas Co. (Valley) volumes of natural gas for resale and distribution in the Beau Pre Road Area, Miss. Applicant states that it proposes to deliver Valley's natural gas through the sales measuring station proposed in (2) above. Applicant further states that Valley estimates its maximum daily and annual natural gas requirements at 90 Mcf and 5,000 Mcf, respectively.

Applicant estimates the total cost of the proposed facilities at approximately $5,734, said cost to be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (157.10) on or before September 14, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[Docket No. CP68-48]

HUMBLE GAS TRANSMISSION CO.

Notice of Application

AUGUST 22, 1967.

Take notice that on August 14, 1967, Humble Gas Transmission Co. (Applicant), 1700 Commerce Building, New Orleans, La. 70112, filed in Docket No. CP68-48 an application pursuant to subsection (b) of section 7 of the Natural Gas Act for permission and approval to abandon certain natural gas service, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks permission and approval to abandon service to Texas Gas Transmission Corp. (Texas) and Southern Natural Gas Co. (Southern) from its Monroe, La., Gas Field. Applicant states that no sales have been made from this field since October 1965, and therefore wishes to abandon said service. Applicant also proposes to cancel Rate Schedule P-2 covering the sales to Texas and Rate Schedule P-3 covering the sales to Southern.

Applicant states that it has a net investment in the facilities involved in the above-mentioned sales of $969.16.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before September 18, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[Docket No. CP68-49]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

AUGUST 23, 1967.

Take notice that on August 14, 1967, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP68-49 an application pursuant to subsection (b) of section 7 of the Natural Gas Act for permission and approval of the Commission to abandon a certain delivery point and the facilities associated therewith, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks permission and approval to abandon the delivery of natural gas to Northern Illinois Gas Co. (Illinois) at the village of Herscher delivery point, Kankakee County, Ill. Applicant also seeks permission and approval to abandon the measuring and regulating station used for the delivery described above. Applicant states that Illinois has stopped taking deliveries of natural gas at the delivery point described above as of July 26, 1967, and is providing such natural gas service to the village of Herscher from its own intrastate pipeline system. Applicant further states that there will be no decrease in the volumes of natural gas sold and delivered to Illinois as a result of the abandonment proposed above but they will be made through other existing delivery points between the parties. Applicant also states that there will be no change in the natural gas service now rendered to the village of Herscher as a result of the above-proposed abandonment.

Applicant states that the facilities proposed to be abandoned originally cost approximately $31,000. Applicant estimates the cost of removal of the facilities to be salvaged at approximately $1,500 and the estimated salvage value of such facilities at approximately $3,300.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before September 18, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely

filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP68-50]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

AUGUST 22, 1967.

Take notice that on August 14, 1967, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP68-50 an application pursuant to subsection (c) of section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the sale and delivery of volumes of natural gas for resale and distribution, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate a tap connection on its Gulf Coast main transmission pipeline and a measuring and regulating station, all located in Cape Girardeau County, Mo., for the sale and delivery of volumes of natural gas to Associated Natural Gas Co. (Associated) for resale and distribution in the village of Oak Ridge, Cape Girardeau County, Mo. Applicant states that Associated proposes to render such natural gas service to the village of Oak Ridge from volumes of natural gas that Applicant has heretofore been authorized to sell and deliver to Associated.

Applicant estimates the total cost of the facilities proposed at approximately $18,678, said cost to be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before September 18, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Secretary.

[F.R. Doc. 67-10088; Filed, Aug. 28, 1967; 8:45 a.m.]

[Docket No. CP68-47]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Application

AUGUST 22, 1967.

Take notice that on August 11, 1967, Texas Eastern Transmission Corp. (Applicant), Post Office Box 2521, Houston, Tex. 77001, filed in Docket No. CP68-47 an application pursuant to subsection (c) of section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate the following natural gas purchase and transportation facilities:

(1) Approximately 45 miles of 24-inch pipeline extending from the terminus of Applicant's 36-inch pipeline near Venice, La., to the Block 6 Field, Main Pass Area, Offshore Louisiana;

(2) Dual 24-inch pipeline crossings of the Mississippi River; and

(3) All facilities appurtenant thereto.

Applicant states that the facilities proposed above are required to transport natural gas which it proposes to purchase from Mobil Oil Corp. (Mobil) pursuant to a gas Purchase Contract between it and Mobil dated August 7, 1967. Applicant further states that these volumes of natural gas will improve its system reserves and deliverability and will enhance the flexibility of its system gas supply.

Applicant estimates the total cost of the proposed facilities at approximately $14,900,000, said cost to be financed initially through the use of Applicant's $100,000 revolving credit and later permanently financed through the issuance of bonds, debentures, stocks, or from its general funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before September 18, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

FEDERAL MARITIME COMMISSION

SOUTH ATLANTIC & CARIBBEAN LINE, INC., AND SACAL, V.I., INC.

Notice of Agreements Filed for Approval

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1321 H Street, NW., Room 609; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

John Mason, Hagan & Mason, 900 17th Street NW., Washington, D.C.

Agreement No. DC-26 between South Atlantic & Caribbean Line, Inc., and SACAL, V.I., Inc., a wholly owned subsidiary, provides for the transportation of cargo under through bills of lading between ports in Florida and ports in the Virgin Islands with transshipment at San Juan, P.R. The through rates will be combination rates, those separately published by South Atlantic & Caribbean Line, Inc., between Florida and Puerto Rico and those separately published by SACAL, V.I., Inc., between Puerto Rico and the Virgin Islands. South Atlantic & Caribbean Line, Inc., will issue a through bill of lading for cargo originating in Florida and SACAL, V.I., Inc. will

issue the bill of lading for cargo originating in the Virgin Islands. Each party will indemnify the other, from all expense and liability for damage, delay, loss, or misdelivery of goods while in its possession except if the damage, delay, loss, or misdelivery is caused by neglect or wanton misconduct of the other. Either party may terminate the agreement upon 30 days written notice to the other party except for breach by the other party when it may be cancelled forthwith.

The agreement shall become effective when approved by the Commission pursuant to section 15, Shipping Act, 1916.

Dated: August 24, 1967.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Assistant Secretary.

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF FULL-TIME STUDENTS WORKING OUTSIDE OF SCHOOL HOURS AT SPECIAL MINIMUM WAGES IN RETAIL OR SERVICE ESTABLISHMENTS OR IN AGRICULTURE

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 20 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR, Part 519), and Administrative Order No. 595 (31 F.R. 12981), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the act. The effective and expiration dates are as indicated below. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below $1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below $1 an hour in the base period.

(salesclerk, stock clerk, cleanup, checkout, 16.6 percent, 5-16-67 to 5-15-68, Replacement).

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 18th day of August 1967.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 439]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 24, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No MC 67 (49 CFR Part 340), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2923 (Sub-No. 1 TA), filed August 18, 1967. Applicant: DAVID AZORSKY and JOSEPH WEIN, a partnership, doing business as Daves Trucking Company, 31 Purdy Avenue, Port Chester, N.Y. 10573. Applicant's representative: Charles H. Trayford, 137 East 36th Street, New York, N.Y. 10016. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Essential oils, materials processed* from *essential oils, empty drums and cans*, between Stamford, Conn., on the one hand, and, on the other, East Rutherford, N.J., for 150 days. Supporting shipper: Elan Chemical Co., Inc., 671 Hope Street, Stamford, Conn. Send protest to:

Stephen P. Tomany, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 346 Broadway, New York, N.Y. 10013.

No. MC 17683 (Sub-No. 34 TA), filed August 18, 1967. Applicant: ELM CITY OIL CO., INC., 73 Emerald Street, Keene, N.H. 03431. Applicant's representative: Arthur A. Greene, Jr., 40 Stark Street, Manchester, N.H. 03101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in tank vehicles, from Springfield and Holyoke, Mass., to points in Windham and Windsor Counties, Vt., and Cheshire, Sullivan, Hillsboro, and Grafton Counties, N.H., for 180 days. Supporting shipper: Wyatt Massachusetts Terminal, Inc., 1063 Page Boulevard, Springfield, Mass. 01104. Send protests to: District Supervisor Ross J. Seymour, Bureau of Operations, Interstate Commerce Commission, 24 Hanover Street, Lebanon, N.H. 03766.

No. MC 30837 (Sub-No. 345 TA), filed August 18, 1967. Applicant: KENOSHA AUTO TRANSPORT CORPORATION, 4519 76th Street, Kenosha, Wis. 53141. Applicant's representative: Albert P. Barber (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Concrete pumping equipment*, mounted or unmounted on truck chassis, in straight or mixed truckload shipments, in secondary truckaway service from Gardena, Calif., to points in the United States, for 180 days. Supporting shipper: Thomsen Division, Royal Industries, 130 West Victoria Street, Gardena, Calif. 90247 (James R. Iverson, Controller). Send protests to: District Supervisor, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 52579 (Sub-No. 81 TA), filed August 18, 1967. Applicant: GILBERT CARRIER CORP., 441 Ninth Avenue, New York, N.Y. 10001. Applicant's representative: Aaron Hoffman (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel* on hangers, from New Smyrna, Fla., to points in the New York, N.Y., commercial zone as defined by the Commission, for 150 days. Supporting shipper: Kingly Manufacturing Corp., 1350 Broadway, New York, N.Y. Send protests to: Paul W. Assenza, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 346 Broadway, New York, N.Y. 10013.

No. MC 52579 (Sub-No. 82 TA), filed August 18, 1967. Applicant: GILBERT CARRIER CORP., 441 Ninth Avenue, New York, N.Y. 10001. Applicant's representative: Aaron Hoffman (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel*, loose on hangers, and *materials and supplies* used in the manufacture thereof, between Port Pierce, Fla., on the one hand, and, on the other, points in the New York, N.Y., commercial zone as defined by the Commission, points in Nassau and Westchester Counties, N.Y., and Bergen, Passaic, Essex, Hudson, and Union Counties, N.J., for 150 days. Supporting shipper: Blue Gem Apparel, 64 West 36th Street, New York, N.Y. 10018. Send protests to: Paul W. Assenza, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 346 Broadway, New York, N.Y. 10013.

No. MC 66562 (Sub-No. 2251 TA), filed August 18, 1967. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York, N.Y. 10017. Applicant's representative: W. H. Marx (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Commodities* generally moving in express service, including classes A and B explosives, (1) between Harrisburg and Sunbury, Pa., serving the intermediate point of Millersburg, Pa., from Harrisburg, Pa., in a northern direction over U.S. Highways 22-233, to intersection with Pennsylvania Highway 147 at Clarks Ferry Bridge; thence over Pennsylvania Highway 147 to Sunbury, Pa., and return over the same route. (2) Between Williamsport and Muncy, Pa., from Williamsport, Pa., in a southern direction over U.S. Highway 220, to intersection with Pennsylvania Highway 147; thence south on Pennsylvania Highway 147 to Muncy, and return over the same route. (3) Between Olean, N.Y., and Port Allegany, Pa., from Olean, in a southern direction over New York Highway 17 to intersection of New York Highway 305; thence south on New York Highway 305 to the intersection of Pennsylvania Highway 446; thence south on Pennsylvania Highway 446 to Pennsylvania Highway 155; thence south on Pennsylvania Highway 155 to Port Allegany, and return over same route. Restrictions: The service to be performed shall be limited to that which is auxiliary to or supplemental of express service of Railway Express Agency, Inc. Shipments transported shall be limited to those moving on through bills of lading or express receipts. Permission to tack requested: Applicant requests that the authority for the proposed operations, if granted, be construed as an extension, to be joined, tacked, and combined with R E A's existing authority in MC 66562 and subs thereunder, thereby, negating the restrictions against tacking or joinder customarily placed upon emergency and/or temporary authority, for 150 days. Supporting shippers: The Pierce Glass Co., Port Allegany, Pa., Backus Co., Smethport, Pa., Quaker State Oil Refining Corp., Oil City, Pa., Leonard Brynolf Johnson, 103 West Main Street, Smethport, Pa., Smethport Specialty Co., 1 Magnetic Avenue, Smethport, Pa., Pittsburgh Corning Corp., Port Allegany, Pa., Hamlin Bank & Trust Co., Smethport, Pa. Send protests to: Stephen P. Tomany, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 346 Broadway, New York, N.Y. 10013.

No. MC 111069 (Sub-No. 51 TA), filed August 17, 1967. Applicant: COLDWAY CARRIERS, INC., Post Office Box 32, Clarksville, Ind. 47130, State Highway 131. Applicant's representative: Ollie L. Merchant, 202 140 South Fifth Street, Louisville, Ky. 40202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Frozen prepared foods*, from Clarksville, Ind., and Louisville, Ky., to points in Alabama, Georgia, Indiana, Kentucky, Missouri, Ohio, Tennessee, and West Virginia, for 180 days. Supporting shipper: Standard Foods, Inc., 1101 East Washington Street, Louisville, Ky. 40206. Send protests to: District Supervisor R. M. Hagarty, Bureau of Operations, Interstate Commerce Commission, 802 Century Building, 36 South Pennsylvania Street, Indianapolis, Ind. 46204.

No. MC 118696 (Sub-No. 3 TA), filed August 18, 1967. Applicant: FERRE MOVING AND STORAGE, INC., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mattresses, new furniture, and kitchen cabinets*, from points in Indiana (except Munster, Milan, Jasper, and English, Ind.) to points in Kentucky, Ohio, Pennsylvania, North Carolina, New York, Virginia, Wisconsin, Illinois, Missouri, Iowa, Rhode Island, Connecticut, Massachusetts, Maryland, and Michigan (except Battle Creek, Kalamazoo, and Grand Rapids, Mich.), for 180 days. Supporting shippers: Craddock Furniture Corp., Evansville, Ind., George Koch Sons, Inc., Post Office Box 358, Evansville, Ind., Hauske-Harlan Furniture Manufacturing Co., Peru, Ind. 46970, Peabody Seating Co., Inc., North Manchester, Ind. 46962, Bartels Manufacturing Corp., Evansville, Ind. 47707, Imperial Cabinet Co., Inc., 1524 South Walnut, Muncie, Ind., Dunbar Furniture Corp. of Indiana, Adams County, Ind., Royalmetal Corp., Royal Road, Michigan City, Ind. 46360, Louisville, New Albany and Corydon RR. Co., Corydon, Ind. Send protests to: District Supervisor R. M. Hagarty, Bureau of Operations, Interstate Commerce Commission, 802 Century Building, 36 South Penn Street, Indianapolis, Ind.

No. MC 126600 (Sub 2 TA), filed August 18, 1967. Applicant: EHRSAM TRANSPORT, INC., 108 North Factory, Enterprise, Kans. 67441. Applicant's representative: Clyde N. Christey, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* as are dealt in, or used by wholesale and retail department stores, from points in Georgia and North Carolina to Abilene, Kans., under continuing contract with the A. L. Duckwall Stores Co., a corporation; Western Merchandise Co., a corporation, The A. L. Duckwall Stores Co., a corporation, doing business as Duckwall Warehouse Co.; and The A. L. Duckwall Stores Co., a corporation, doing business as Alco Discount, for 180 days. Supporting shippers: The A. L. Duckwall Stores Co., a corporation; Western Merchandise Co., a corporation; The A. L. Duckwall Stores Co., a corporation, doing business as Duckwall Warehouse Co.; and The A. L. Duckwall Stores Co., a corporation, doing business as Alco Discount, Opalena and Cottage Streets, Abilene, Kans. 67410. Send protests to: I. C. Peterson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 234 Federal Building, Topeka, Kans. 66603.

No. MC 129268 (Sub-No. 1 TA), filed August 21, 1967. Applicant: DAVID NELSON & SON, INC., 1346 54th Street, Kenosha, Wis. 53140. Applicant's representative: William C. Dineen, 412 Empire Building, 710 North Plankinton Avenue, Milwaukee, Wis. 53203. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *School equipment and component parts thereof*, finished and unfinished, and materials and supplies used in the manufacture thereof, between the manufacturing facilities of Arlington Seating Co., at Antioch, Aurora, and Chicago, Ill., Warsaw, Ind., and Racine and Kenosha, Wis., for 180 days. Supporting shipper: Arlington Seating Co., 8045 52d Street, Kenosha, Wis. 53140 (E. Pat Murphy, President). Send protests to: District Supervisor Lyle D. Helfer, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

PART II

Department of Agriculture

Consumer & Maketing Service

Milk in Minnesota-North Dakota Marketing Area

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 1060]

[Docket No. AO 380]

MILK IN MINNESOTA-NORTH DAKOTA MARKETING AREA

Decision on Proposed Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), public hearings were held upon a proposed marketing agreement and order regulating the handling of milk in the Minnesota-North Dakota marketing area. The hearings were held at Fargo, N. Dak., on August 15–19, 1966, pursuant to notice thereof issued on July 5, 1966 (31 F.R. 9351), and subsequently at reopened hearings (to consider Class I pricing provisions) held jointly with certain other Federal order markets at Denver, Colo., on November 16–17, 1966, and on April 11–12, 1967. Official notice is taken of the respective decisions issued by the Department on the basis of these reopened hearings (31 F.R. 14946) issued November 23, 1966, and (32 F.R. 6501) issued April 25, 1967, pursuant to notices issued November 4, 1966 (31 F.R. 14407), and April 4, 1967 (32 F.R. 5696).

Upon the basis of the evidence introduced at the hearings and the records thereof, the Deputy Administrator, Regulatory Programs, on April 28, 1967 (32 F.R. 6872; F.R. Doc. 67-4920) filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision, containing notice of opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings and general findings of the recommended decision (32 F.R. 6872; F.R. Doc. 67-4920) are hereby approved and adopted and are set forth in full herein subject to the following modifications:

Index of changes. 1. Under issue 3a(1) "Order provisions—Marketing area":

A. A paragraph is added immediately following the list of counties comprising the marketing area.

B. The 38th paragraph ("Swift, Pope, and Todd Counties * * *") following the list of cities and populations is revised.

C. Immediately following the paragraph described in B, above, four paragraphs are added.

D. The 12th paragraph ("Foremost Dairies proposed the exclusion * * *") which follows the text added pursuant to C, above, is revised, and immediately following, three paragraphs are added.

2. Under issue 3a(2) "Order provisions—Milk to be priced and pooled":

A. Immediately following the 13th paragraph under subheading "Pool plant definition", two paragraphs are added.

B. Under subheading "Producer, diverted milk and producer milk definitions", the 6th and 7th paragraphs are revised and a paragraph is added immediately following the 7th paragraph; the last paragraph of the discussion under this subheading is revised, and immediately following, three paragraphs are added.

3. Under issue 3c "Order provisions—Determination and level of class prices":

A. The 2d and 10th paragraphs under subheading "Class I price", are revised.

B. Two paragraphs are added following the discussion under subheading "Class II price".

C. The text of the third paragraph under subheading "Location differentials" is deleted and four paragraphs are substituted.

D. The sixth paragraph ("Distances should be measured * * *") following the text substituted pursuant to C, above, is revised.

4. Under issue 3d "Order provisions—Distribution of proceeds to producers" the second paragraph under the subheading "(2) Payments to producers" is revised and the paragraph immediately following is revised and is divided into two paragraphs.

The material issues of record relate to:

1. Whether the handling of milk produced for sale in the proposed marketing area is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products;

2. Whether marketing conditions show the need for the issuance of a milk marketing agreement or order which will tend to effectuate the policy of the Act; and

3. If an order is issued what its provisions should be with respect to:

a. The scope of regulation;

b. The classification and allocation of milk;

c. The determination and level of class prices;

d. Distribution of proceeds to producers; and

e. Administrative provisions.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearings and the records thereof:

1. *Character of commerce.* The handling of milk in the proposed marketing area is in the current of interstate commerce in milk and milk products.

The marketing area specified in the proposed order, hereinafter referred to as the "Minnesota-North Dakota marketing area" includes all the territory within 41 contiguous counties in the States of Minnesota (22 counties), North Dakota (16 counties), and South Dakota (3 counties).

The principal cities in this area are: Fargo, Grand Forks, Valley City, Devils Lake, Wahpeton, and Grafton, N. Dak.; Moorhead, Fergus Falls, Bemidji, Crookston, Thief River Falls, East Grand Forks, and Detroit Lakes, Minn. The specific counties in the proposed area are listed in the marketing area discussion.

There are more than 50 handlers engaged in the distribution of fluid milk in the marketing area who would be regulated under the terms of the order as recommended herein. The Grade A milk supply and distribution areas of a number of these handlers, representing a substantial proportion of the total volume of Grade A milk associated with the market, extend beyond the boundaries of the State in which their plants are located.

The Land O'Lakes Creameries, Inc., is a large distributor of bottled milk in the area and is one of the largest distributors of butter and manufacturers of nonfat dry milk in the United States. Their plants located in Grand Forks, N. Dak., and Thief River Falls, and Brainerd, Minn., distribute fluid milk products extensively in both Minnesota and North Dakota. Milk is received at such plants from producers and member plants located in both such States.

The Cass-Clay Creamery, Inc., another major cooperative handler, receives milk at its Fargo, N. Dak., plant from producers located in North Dakota and Minnesota. Grade A fluid milk products are distributed from this plant into certain areas of Minnesota, North Dakota, and South Dakota. Manufactured grade milk as well as a substantial part of the Grade A receipts at the Fargo plant is manufactured into butter, ice cream, and dry milk which are disposed of in large part in markets located in other States. In addition, this handler ships regularly a quantity of bulk milk to a plant located in Montana.

Located across the Red River from Fargo is the Fairmont Foods Co. plant in Moorhead, Minn. This handler also receives Grade A milk from producers located in both Minnesota and North Dakota. It distributes Grade A products on routes extending into North Dakota, South Dakota, and Minnesota.

Another large processor and distributor of Grade A fluid milk products is the Fergus Dairy of Fergus Falls, Minn. This cooperative organization receives a large volume of Grade A milk from producer members and from member cooperatives located in Minnesota, North Dakota, and South Dakota. The distribution area of this cooperative organization covers a wide territory in western Minnesota, North Dakota, and northeastern South Dakota.

Record evidence clearly shows the free movement of milk across the respective State lines. Distribution of milk on routes in the adjoining cities of Fargo, N. Dak., Moorhead, Minn., and also Grand Forks, N. Dak., and East Grand Forks, Minn., emanates both from plants located in North Dakota and in Minnesota. Further, products manufactured from surplus Grade A milk at certain of these plants are shipped to Chicago, New York, and to other markets throughout the United States and abroad.

2. *Need for an order.* Marketing conditions in the Minnesota-North Dakota marketing area are such that the issuance of a marketing agreement or order to regulate the handling of milk in the area will tend to effectuate the declared policy of the Act.

The Minnesota-North Dakota market as defined herein is characterized by unstable marketing conditions. The conditions which have resulted in unrest and instability in this area are typical of those often encountered elsewhere in the fluid milk industry in the absence of a well-defined, marketwide, classified pricing plan.

There is rather general agreement among producer interests in the market that the unstable marketing conditions in the area are such that an overall system of classification and pricing of milk should be adopted, and for such a system to be effected it must be created out of governmental authority.

The Minnesota-North Dakota market is a region of heavy milk production relative to population. Less than half of the producer milk which would be regulated is now used for Class I on an annual average. Thus, in an area relatively rural in nature the outlets available to producers for the sale of their milk in the highest valued uses are limited. This situation in a market which may be categorized as a "buyers market", has contributed to producer unrest and conditions of disorderly marketing in the attempts of producers to obtain proportionate shares of the higher valued Class I market.

The more than 50 handlers distributing milk in the area generally purchase milk from farmers according to their own pricing systems. There is, therefore, no uniformity in the type of pricing plans used in the area. Prices are not necessarily related to the uses of milk.

Since milk has a greater value when used for fluid products than for manufactured dairy products, the absence of a pricing system based on utilization creates disparities in handlers' costs of milk for the same uses. This, in turn, provides an incentive for handlers to shift the burden of such disparities to producers through still lower prices.

Certain handlers in the market with high proportions of their total utilization as Class I during the months of relatively low farm production purchase supplemental milk supplies from other handlers who have substantially lower utilization of their milk for Class I bottling purposes. In some cases the prices paid producers at the higher use plants are only slightly above those paid at the plants where such supplemental supplies are obtained. Also, the burden of carrying the necessary reserve supplies for the market is shifted to the suppliers of such supplemental milk.

Prices paid by certain distributors of Grade A milk are, therefore, determined in large part by the prices paid producers by one or another of the major handlers in the market. Hence, these prices are not based on the utilization of the particular handler involved.

In recent years, frequent price wars have adversely affected producer prices. Picketing of retail stores has been resorted to in an effort to secure higher milk prices for farmers. Further, milk producers in considerable numbers have shifted their patronage from one company to another in the hope that by realigning their cooperative affiliation they might increase the price they receive for their milk.

A uniform pricing plan applicable to all handlers buying milk for sale in the area would stabilize and improve marketing conditions in the area. Such a plan can be made effective in the area under the terms of a milk order issued pursuant to the provisions of the Agricultural Marketing Agreement Act, as amended.

An order which establishes a system of uniform prices, publicly announced and verified on an impartial basis, will eliminate the uncertainty about prices which has contributed to disorderly marketing conditions in the area. The order would contribute substantially to the improvement of many of the conditions complained of, and tend to effectuate the declared policy of the Act; namely by providing:

1. A regular and dependable procedure through public hearings for determining prices to producers at levels contemplated by the Act;

2. The establishment of uniform prices to handlers for milk received from producers according to a classified price plan based upon the utilization made of the milk;

3. An impartial audit of handlers' records to verify the payment of required prices;

4. A system for verifying the accuracy of the weight and butterfat content of milk purchased;

5. Uniform returns to producers supplying the market, based upon an equitable sharing among all producers of the lower returns for the sale of reserve milk which cannot be marketed in the Class I category; and

6. Marketwide information on receipts, sales, prices, and other data relating to milk marketing conditions in the area.

3. *Order provisions—a. Scope of regulation.* It is necessary to designate clearly what milk and which persons would be subject to the various provisions of the order. This is accomplished by providing specified definitions to describe the marketing areas involved and to describe the category of persons, plants, and milk products to which the applicable provisions of the order relate.

(1) *Marketing Area.* The Minnesota-North Dakota marketing area should include all the territory within the 41 contiguous counties as follows:

Counties in Western Minnesota	
Becker.	Marshall.
Beltrami.	Norman.
Big Stone.	Otter Tail.
Clay.	Pennington.
Clearwater.	Polk.
Douglas.	Red Lake.
Grant.	Roseau.
Hubbard.	Stevens.
Kittson.	Traverse.
Lake of the Woods.	Wadena.
Mahnomen.	Wilkin.

Counties in Eastern North Dakota	
Barnes.	Pembina.
Cass.	Ramsey.
Cavalier.	Ransom.
Dickey.	Richland.
Grand Forks.	Sargent.
Griggs.	Steele.
La Moure.	Traill.
Nelson.	Walsh.

Counties in Northeastern South Dakota	
Grant.	Roberts.
Marshall.	

For purposes of applying location differentials only, a base zone should be defined to include the Minnesota counties of Marshall, Polk, Pennington, Red Lake, Norman, and Clay; and the North Dakota counties of Grand Forks, Traill and Cass.

The 41-county area proposed for adoption represents a contiguous area roughly bisected by the Red River which marks the boundary separting Minnesota from North and South Dakota.

The sanitary requirements relative to the production, processing, and sale of fluid milk products are substantially the same throughout the area. Grade A products sold for human consumption throughout the area must meet the standards of health ordinances patterned after the U.S. Public Health Service Milk Ordinance and Code. Handlers who would be subject to full regulation distribute 25 percent or more of the milk sold in the area.

The 1960 census of population for the area proposed to be regulated was 639,666.[1] Two principal population centers are located in the Red River Valley area.

One comprises Cass County, N. Dak. (population 66,947), and Clay County, Minn. (population 39,060). These counties include two of the three largest cities in the marketing area, Fargo N. Dak., and Moorhead, Minn. The population of the two counties is about 16 percent of the total marketing area. The adjoining counties of Becker and Otter Tail, Minn., include the Cities of Fergus Falls (13,733) and Detroit Lakes (5,633) both less than 60 miles from Moorhead, Minn. The total population in this four-county area is about 30 percent of the total marketing area.

The other population center in the Red River Valley area surrounds Grand Forks, N. Dak., located approximately 75 miles north of Fargo.

Within the contiguous counties of Grand Forks, N. Dak. (population 48,677), and Polk, Minn. (population 36,182), are the cities of Grand Forks, N. Dak. (34,451); East Grand Forks, Minn. (6,998); and Crookston, Minn. (8,548); with a combined population equal to 8 percent of the total marketing area. The two counties have a population of 84,859, about 14 percent of the total marketing area.

Other cities in the area with populations in excess of 5,000 are shown below:

[1] All population figures hereinafter cited are based upon the 1960 census unless otherwise noted.

Minnesota		North Dakota	
Bemidji	9,888	Valley City	7,809
Thief River Falls	7,181	Devils Lake	6,290
Alexandria	6,713	Wahpeton	5,676
		Grafton	5,005

In general, except for the aforementioned cities, the remaining communities throughout the proposed marketing area are under 5,000 population each.

The largest urban centers in the three South Dakota counties of Grant, Marshall, and Roberts included in the marketing area, are Milbank, Grant County (3,560); Sisseton, Roberts County (3,218); and Britton, Marshall County (1,442).

The rural nature of much of the marketing area is evident. In 37 counties less than 50 percent of the total population is classified as urban.

Because a significant portion of the sales of fluid milk by handlers who would be regulated is in relatively rural communities it is important that the marketing area be defined on a county boundary basis rather than on a basis of city boundaries.

A 43-county area was proposed by Land O'Lakes Creameries, Inc., one of the principal handlers distributing fluid milk and milk products throughout the marketing area. This area, with certain proposed modifications, generally was supported by all the producer organizations as well as by the other principal handlers in the market.

The Red River Valley Milk Producers Pool, a bargaining group representing both members of cooperative associations, and nonmembers, and 8 producer cooperative associations doing business in the area were coproponents of a proposal (supported by Land O'Lakes Creameries) to extend the proposed 43-county area to include the 7 additional Minnesota counties of Beltrami, Big Stone, Clearwater, Hubbard, Lake of the Woods, Roseau, Swift, and that part of Polk County lying east of U.S. Highway 59, all located in the northeast segment of the marketing area. They proposed also to include the three South Dakota counties of Grant, Marshall, and Roberts, located in the northeast corner of the State.

With respect to the Minnesota counties proposed for inclusion in the marketing area controversy centered chiefly on the 4 counties of Stevens, Douglas, Todd, and Pope which were included in the 43-county area initially proposed by Land O'Lakes. Also in dispute was the inclusion of some or all of the seven-county area[1] proposed by Red River Valley Milk Producers Pool et al.

Concerning the area in North Dakota proposed to be regulated there was opposition to inclusion of some or all of the proposed area generally west of North Dakota Highway No. 1.

Two handlers proposed that in the event certain specified areas in North Dakota were to be regulated then the entire State of North Dakota should be included in the marketing area.

[1] The northeastern segment of the market and the 3 South Dakota counties as described.

Four major handlers have bottling plant facilities located in or near the two principal urban population centers discussed above, and distribute fluid milk and fluid milk products into these localities as well as throughout the marketing area.

The Land O'Lakes Creameries, Inc., is a major distributor of bottled milk in the proposed marketing area. They operate bottling plants located at Grand Forks, N. Dak. (Grand Forks County); Thief River Falls, Minn. (approximately 60 highway miles northeast of Grand Forks in Pennington County); and Crookston, Minn. (approximately 25 miles southeast of Grand Forks in Polk County). In addition to their bottling operations, ice cream is manufactured at the Grand Forks plant and the operations at the Crookston plant include cottage cheese manufacturing.

The Land O'Lakes plants located at Grand Forks, N. Dak., Thief River Falls, and Crookston, Minn., distribute fluid milk products throughout 29 of the 41 counties of the recommended marketing area. The Thief River Falls plant distributes bottled milk directly on routes in the area and also through member plants located in various localities throughout the market. In the Minnesota counties of Roseau and Lake of the Woods, Grade A milk is received by a member plant of Land O'Lakes, some of which is bottled at this plant and distributed in the city of Roseau. A portion of the Grade A receipts at this plant is shipped to the Land O'Lakes plant at Thief River Falls where it is packaged and distributed back into the counties of Roseau and Lake of the Woods.

The Cass-Clay Creamery, Inc., a cooperative association located at Fargo, N. Dak., is engaged in the processing and distribution of fluid milk and fluid milk products as well as the manufacture of butter, dry milk powder, and ice cream. Cass-Clay has fluid milk route distribution extending into about 26 of the 41 counties in the marketing area.

The Fairmont Foods Co. located at Moorhead, Minn., processes and distributes fluid milk products and manufactures ice cream and cottage cheese. Its distribution of Grade A fluid milk extends into all but 2 of the 41 counties in the proposed area. It also has significant sales in the South Dakota area included in the proposed marketing area, particularly around Sisseton, S. Dak.

The Fergus Dairy at Fergus Falls (Otter Tail County), Minn., processes fluid milk for bottling and manufactures butter, nonfat dry milk, and dry buttermilk.

In addition, the Fergus Dairy organization bottles all Class I milk sold by the North Star Dairy at Fergus Falls (Otter Tail County), Minn., the North Star Dairy at Detroit Lakes (Becker County), Minn., and the North Star Dairy plant at Fargo, N. Dak., which is owned by the Fergus Dairy. Further, they bottle all Grade A milk sold by B & W Dairy, Breckenridge, Wilkin County, Minn.; the Carlson Dairy, Alexandria, Douglas County, Minn.; and most of the packaged fluid milk products for the Morris Creamery Co., Morris, Stevens County, Minn. Overall, the Fergus Dairy sells in about 21 counties of the marketing area.

The four handlers described above receive milk from about 1,250 of approximately 1,360 dairy farmers who supply Grade A milk to plants which may qualify as pool plants under the recommended order. It is estimated that this milk from the 1,360 Grade A farms would amount to about 420 million pounds annually.

There are an estimated 56 bottling plants that have route disposition in the marketing area, most of which would be fully regulated under the order. One of these plants is located in South Dakota, 20 are located in North Dakota, and the remainder in Minnesota.

In addition, there are an estimated 21 plants which supply Grade A milk to plants which are distributing milk on routes in the marketing area. Except for 1 such plant located in Richland County, N. Dak., the remaining 31 plants are located in Minnesota.

There is extensive competition among handlers for fluid milk sales throughout the proposed marketing area. Of the 41 counties in the marketing area there are 13 in which each of the 4 largest handlers compete for sales, 11 counties where 3 of the 4 handlers compete, and 16 counties where 2 of the 4 do business. These handlers have 50 percent or more of the total business in 36 of the 41 counties in the proposed marketing area.

The Land O'Lakes plant at Thief River Falls supplies over half of the total sales in Kittson County, Minn. Its principal competitor for sales in this county is the Minnesota Dairy Co. located at Grand Forks, N. Dak. The Minnesota Dairy Co. is in competition with one or more of the major handlers in at least seven other Minnesota and North Dakota counties in the proposed marketing area.

In Grand Forks County, N. Dak., the Minnesota Dairy and the Land O'Lakes plants (both of which are located at Grand Forks, N. Dak.) each have about 40 percent of the total county sales. This area represents a major distribution area for the Land O'Lakes plants at Grand Forks and Thief River Falls. Over 42 percent of the combined sales from these two plants is sold in this county.

In the county of Wadena, Minn., the four major handlers have an aggregate of 35 to 45 percent of the total distribution and a plant located at Wadena (Wadena County) is shown to have about 40 percent of the distribution. Thus, the proportion of total county sales reflected by the four handlers and the local handler is substantial. The county is 1 of the 43 counties initially proposed by Land O'Lakes as part of the marketing area.

The addition to the marketing area of Beltrami and Hubbard Counties, Minn., was supported by the Bemidji Cooperative Creamery Association, a member creamery of Land O'Lakes, which operates a distributing plant in the city of Bemidji (Hubbard County), Minn.

About 55 percent of the Bemidji plant's bottled sales are in Beltrami County and about 10 percent in Hubbard County. The plant is estimated to have at least 40 percent of the total sales in Beltrami County and about 10 percent of the total distribution in Hubbard County.

Of the approximately 260 producers supplying this plant 50 are Grade A. In the past year about 25 to 28 percent of the plant's Grade A receipts were shipped in bulk to the Land O'Lakes bottling plant located at Thief River Falls, Minn. The Thief River Falls plant in turn packages fluid milk which is distributed in Beltrami County from a plant located at Blackduck (Beltrami County) Minn. The Blackduck plant accounts for about 6 percent of the sales in Beltrami County.

A Thief River Falls plant also supplies a major portion of the packaged fluid milk sold in the two-county area by another distributor located in Bemidji. The portion of total sales in Beltrami and Hubbard Counties sold by this distributor amounts to about 8 percent and 10 percent, respectively.

Another local plant receives its packaged milk supply from the Bemidji Creamery Association and has about 8 percent of the business in Beltrami County.

The Fairmont Foods plant at Moorhead has about 8 percent of the sales in Beltrami County and 5 percent in Hubbard County. The Cass-Clay Creamery, Inc., is estimated to have 30 percent of the fluid milk sales in Hubbard County.

The county of Clearwater, Minn., is primarily rural in character (8,864 population with a density of about eight persons per square mile) and although not an area of substantial sales volume it is within a general area of cross distribution by handlers who would be regulated under the order.

A proprietary handler with a bottling plant located at Brainard, Minn., opposed the inclusion of the Minnesota counties of Beltrami, Big Stone, Clearwater, Hubbard, Polk (east of U.S. Highway 59), and Swift, and the South Dakota counties of Grant, Marshall, and Roberts. This plant receives its regular supply of milk from 36 producers and receives supplemental milk supplies on a seasonal basis from two plants located respectively in Stearns County and Todd County, Minn.

This handler estimated that about 10 percent of the plant's Class I sales were on routes in the 43-county area initially proposed. However, with the exclusion (as proposed elsewhere in these findings) from the regulated area of Todd and Swift Counties, where the plant handler has several accounts, the percentage would be expected to be somewhat less. This could be more than offset by the fact that about 5 percent of the plant's sales are in Beltrami County, about 3 percent in the combined area of Clearwater and Polk Counties, and minor sales in Hubbard and Big Stone Counties, Minn., and Grant County, S. Dak.

A handler operating a plant located at Park Rapids (Hubbard County) Minn., also opposed the inclusion of Hubbard County. Estimates of this handler's proportion of total county sales range from 25 to over 50 percent. About 1 percent of this handler's sales is made in Becker County, from 3 to 4 percent in Wadena County and the remaining portion in Hubbard County. With the inclusion of Beltrami and Hubbard Counties for reasons discussed above, it may be expected that the plant located at Park Rapids will be fully regulated under the order. Another handler located at Nevis in Hubbard County is known to have sales in both Hubbard and Wadena Counties and probably would be fully regulated under the order. This handler did not testify at the hearing.

Some dispute centered on a six-county area in Minnesota comprising Big Stone, Swift, Douglas, Stevens, Pope, and Todd Counties.

The counties of Big Stone, Douglas, and Stevens should be included in the marketing area. At least 75 percent of the total fluid milk sales in Big Stone County are distributed by three of the four major handlers.

A proprietary plant operation located at Alexandria (Douglas County) is estimated to have at least 50 percent of the total sales in Douglas County. Although this handler is opposed to the inclusion of this county in the marketing area his total supply of milk for fluid use is obtained from two plants which are members of the Fergus Dairy organization. In addition, Fergus Dairy and Land O'Lakes Creameries are shown to have about 30 percent of the total county sales in addition to the 50 percent or more distributed by the local proprietary handler.

A similar situation exists in Stevens County where a proprietary handler who objected to the regulation of Stevens County is shown to have about 40 percent of the total county distribution. About 80 percent of this plant's receipts is from a member cooperative of the Fergus Dairy organization. An additional 30-40 percent of the total county sales is distributed by three of the four major handlers previously referred to.

Swift, Pope, and Todd Counties should not be included in the marketing area. A substantial proportion of the distribution in these counties is from plants whose major distribution is outside the area to be regulated and whose principal competition is from plants which would not be subject to regulation under the order.

A proprietary handler located and doing business in Douglas County and one operating in Stevens County excepted to the inclusion of the respective counties in the marketing area as adopted in the recommended decision. Another proprietary handler located outside of the marketing area as adopted but doing business in Douglas and Stevens Counties also excepted to their inclusion. A representative for the Red River Valley Milk Producers Pool, et al. excepted on their behalf to the exclusion of the counties of Pope and Todd from the recommended marketing area. The order proponents also excepted to the exclusion of Todd County.

Record evidence concerning marketing conditions and institutional factors relating to the dairy industry in these and other counties proposed for inclusion in the marketing area included figures introduced by several witnesses showing the proportion of total sales in each of the several counties that various handlers were estimated to have. In some cases there were substantial differences in such figures as they related to a particular handler's distribution of milk in certain counties.

Such estimates relating to a milk distributor located outside the marketing area but doing business within Pope and Todd Counties ranged from 28 to 55 percent with respect to Pope County and from 3 percent to 75 percent in the case of Todd County. With respect to these two counties, the record evidence was not extensive enough to resolve such differences and further, to support a conclusion that either of such counties should be included as a part of the defined marketing area.

On the other hand, there was substantial evidence to warrant the conclusion that Douglas and Stevens Counties are an integral part of the Minnesota-North Dakota marketing area. A careful review of the record, therefore, in light of exceptions filed does not show that a change in the marketing area from that recommended is warranted.

Concerning the North Dakota counties proposed to be included in the marketing area one handler with a bottling plant located at Rugby (Pierce County), N. Dak., proposed that North Dakota Highway No. 1 serve as the western boundary of the marketing area. The handler also proposed that if any territory west of this highway were included in the marketing area, then such area should include the entire State of North Dakota. This proposal was modified at the hearing to suggest that the two counties of Rolette and Pierce, N. Dak., where this plant has a substantial volume of its total fluid milk sales, be excluded from the marketing area.

Foremost Dairies, Inc., proposed that, in the event the eight North Dakota counties of: Dickey, Eddy, Foster, Griggs, Kidder, La Moure, Stutsman, and Wells are included in the marketing area, such area should be extended to include the entire State of North Dakota.

It is concluded that nine North Dakota counties, generally comprising the western tier of the 43-county area initially proposed by Land O'Lakes, should not be included in the marketing area. These counties (listed, generally on a north to south basis) are: Rolette, Towner, Pierce, Benson, Wells, Eddy, Foster, Kidder, and Stutsman.

Inclusion of the nine-county area would bring under full or partial regulation a number of handlers whose principal competition for sales is with handlers who would not be regulated under the order.

A substantial part of the distribution in Pierce and Rolette Counties comes from the plant in Rugby (Pierce County), N. Dak. An estimated 50 to 75 percent of

the total sales in Pierce County and some 25 to 35 percent in Rolette County emanate from the Rugby plant.

A handler whose plant is located at Bottineau, N. Dak. (outside and to the west of the area adopted), has about 20 percent of the business in Rolette County. This handler is the principal distributor in Bottineau County and is in competition for sales with handlers located at Minot, N. Dak.

A handler located at Maddock (Benson County) has the largest part of the total sales in Benson County.

A plant located at Cando (Towner County) accounts for about 30 percent of the sales in Towner County; the Rugby plant accounts for another 10 percent.

The counties of Pierce, Rolette, Towner, and Benson, therefore, constitute a primary sales area for these local handlers. While the area is also served to a minor extent from the Land O'Lakes plant at Grand Forks and the Fairmont plant at Moorhead, these handlers would not be disadvantaged in the absence of regulation of the four-county area. Orderly marketing does not require their inclusion in the marketing area.

The five North Dakota counties of Wells, Eddy, Foster, Kidder, and Stutsman likewise should not be included in the marketing area.

Over 50 percent of the total fluid milk business in each of the counties of Wells, Eddy, Foster, and Kidder is from plants located either within or to the west of these counties. More than half of the total sales in Stutsman County are supplied from plants so located and the remainder from plants located at Grand Forks and at Fargo and Moorhead.

Foremost Dairies proposed the exclusion of the five counties from the marketing area together with the counties of Dickey, Griggs, and La Moure so as to avoid full regulation under the order.

It excepted to the inclusion in the marketing area of the latter three counties as adopted (in the recommended decision issued Apr. 28, 1967) on the basis that its Mandan plant would be a partially regulated distributing plant under the terms of the order by virtue of its sales into these three counties.

This exception is overruled since the three counties are served in large part by handlers who would be fully regulated under the order.

Three of the four major handlers in the Minnesota-North Dakota marketing area have 40 percent or more (the estimates range from 40 to 88 percent) of the total fluid milk sales in Dickey County, over 55 percent of such sales in La Moure County, and in Griggs County two of the four handlers have 65 percent or more of the sales.

Of the Mandan plant's total fluid milk distribution, about 4.5 percent is in the three-county area.

A proprietary handler whose plant is located at Jamestown (Stutsman County) supported the inclusion of Stutsman County in the marketing area. Seventy percent of this handler's sales is in the city of Jamestown, and the remaining 30 percent is divided between Fargo and Moorhead. About one-half of 1 percent of the sales in Stutsman County is supplied by this handler. It was not shown that the absence of regulation of Stutsman County would seriously affect the sales operations of this handler.

There is cross distribution within the area in North Dakota excluded from the marketing area between handlers who are located within or to the west of such area and those handlers whose principal business is in the area proposed for regulation herewith.

However, it is neither administratively feasible nor necessary to include in the marketing area all territory in which handlers to be regulated distribute milk.

In the matter of the proposal to include the entire State of North Dakota, there was not sufficient evidence to permit serious consideration at this time.

Territory within the boundaries of the designated marketing area which is occupied by Government (municipal, State, or Federal) reservations, installations, institutions, or other establishments shall be considered as within the marketing area. No proposal was made to exempt sales by a handler in such territory (or to any such agency) from the provisions of the order. Also, no evidence was presented at the hearing which would justify such exemption.

To avoid any question as to the point of delivery in instances where such an installation is partly within and partly without the designated boundaries, the marketing area should include the entire area encompassed by such an installation.

All producer milk received at regulated plants must be made subject to classified pricing under the order regardless of whether it is disposed of within or outside the marketing area. Otherwise the effect of the order would be nullified and the orderly marketing process would be jeopardized.

If only a pool handler's "in-area" sales were subject to classification, pricing and pooling, a regulated handler with Class I sales both inside and outside the marketing area could assign any value he chose to his outside sales. He thereby could reduce the average cost of all his Class I milk below that of other regulated handlers having all, or substantially all, of their Class I sales within the marketing area. Unless all milk of such a handler were fully regulated under the order, he in effect would not be subject to effective price regulation. The absence of effective classification, pricing and pooling of such milk would disrupt orderly marketing conditions within the regulated marketing area and could lead to a complete breakdown of the order. If a pool handler were free to value a portion of his milk at any price he chooses, it would be impossible to enforce uniform prices to all fully regulated handlers or a uniform basis of payment to the producers who supply the market. It is essential, therefore, that the order price all the producer milk received at a pool plant regardless of the point of disposition.

Limited quantities (as provided) of Class I milk may be sold within the regulated marketing area from plants not under any Federal order. There is, of course, no way to treat such unregulated milk uniformly with regulated milk other than to regulate it fully. Nevertheless, it has been concluded that the application of "partial" regulation to plants having less association than required for market pooling would not jeopardize marketing conditions within the regulated marketing area.

The operator of the partially regulated plant is afforded the options of (1) Paying an amount equal to the difference between the Class I price and the uniform price with respect to all Class I sales made in the marketing area; (2) purchasing at the Class I price under any Federal order sufficient Class I milk to cover his limited disposition within the marketing area; or (3) paying his dairy farmers an amount not less than the value of all their milk computed on the basis of the classification and pricing provisions of the order (the latter representing an amount equal to the order obligation for milk which is imposed on fully regulated handlers).

While all fluid milk sales of the partially regulated plant are not necessarily priced on the same basis as fully regulated milk, the provisions described are, however, adequate under most circumstances to prevent sales of milk not fully regulated (pooled) from adversely affecting operation of the order and the fully regulated milk.

(2) *Milk to be priced and pooled.* The minimum Class I prices under the order are intended to apply to that milk which is produced in compliance with the Grade A inspection requirements of a duly constituted health authority and which is regularly received at plants substantially engaged in serving the fluid needs of the order market.

It is concluded elsewhere in this decision that a marketwide system of pooling proceeds for Grade A milk received from dairy farmers at pool plants is essential for the promotion of efficient and orderly marketing of milk in the marketing area.

It is also concluded that delivery performance should be the measure of whether a plant is sufficiently identified with the market to be fully subject to the pricing and pooling provisions of the order. It must necessarily apply uniformly to all plants.

The standards for pool participation are discussed below in connection with the definition of a pool plant.

Any plant regardless of its location should have equal opportunity to comply with the standards of regulation and have its producers share in the available Class I sales. Whether the plants and producers choose to supply the Minnesota-North Dakota order market will depend on the economic circumstances with which they are confronted such as prices, transportation costs and alternative outlets.

The specific standards of performance which may be used to determine which plants and what milk constitute the regular sources of supply, and therefore, should be fully subject to regulation, may be identified by appropriate

definition of the terms "plant," "route," "distributing plant," "supply plant," "pool plant," "nonpool plant," "handler," "producer," "producer-handler," "producer milk," and "other source milk."

Plant definition. A plant definition is needed to assist in defining the particular operations which are to be subject to regulation and to simplify the drafting of the other order provisions. Under the "plant" definition herein provided, all of the operations conducted on the premises of an establishment operated as a single unit for the purpose of receiving milk for assembly and transfer, or for processing and packaging milk and milk products are considered as operations of a plant. A facility or establishment functioning only as a transfer point for transferring milk from one tank truck to another tank truck, or as a distribution depot for storage of packaged fluid milk products in transit for route disposition should not be considered to constitute a plant.

Because of the difference in marketing practices and functions between distributing plants and supply plants, separate performance standards are provided for them. A "distributing plant" under the order would be defined as a plant that is approved by an appropriate health authority for the processing or packaging of Class I milk and from which any fluid milk product is disposed of during the month on routes. Plants which supply Grade A milk to distributing plants are termed "supply plants."

Route definition. To assist in the identification of those plants which are to be subject to full regulation a "route" definition is provided.

The term "route" would mean the delivery of any fluid milk product classified under the order as Class I to retail or wholesale outlets other than a delivery to another plant or to a distribution point.

Fluid milk products may be moved from a milk plant to a facility such as a warehouse, loading station or storage plant. The distribution from such latter point would be considered as a route from the milk plant. To do otherwise would be inappropriate because it would consider the disposition of fluid milk products to have been made at the temporary storage facility instead of at the location at which such products are received by retail and wholesale purchasers.

Disposition by a vendor is treated as a route disposition of the plant from which such disposition occurs.

Pool plant definition. A distributing plant would qualify as a pool plant under this order any month during the period of July through February in which at least 25 percent of the Grade A receipts at such plant during the month is disposed of as Class I milk. For any month during the period of March through June such qualifying percentage is 20 percent. The lesser minimum standards for the months of March through June would provide additional flexibility for a handler in qualifying his plant for pool status during these months when milk production of producers is generally higher than the market year-round average.

A further requirement that at least 15 percent of the distributing plant's Grade A receipts be disposed of as Class I sales within the marketing area on routes is designed to include in the pool only those plants which have more than an incidental association with this market.

These performance standards are designed to permit the inclusion in the market pool of producer milk at all plants which now furnish milk for fluid use in the area. These plants are located in a region of heavy milk production relative to population. Hence, the opportunity for making fluid sales locally is limited. Many of these plants which serve the local fluid market also operate as factories for manufacturing dairy products. Less than half of the producer milk which would be regulated is now used in Class I on an annual average. There are variations in the percentages of Class I use among plants and month-to-month differences in the same plants. Hence, the minimum percentage of Class I use which each distributing plant (or plant system) must maintain to be pooled should be less than the market average use. The proposed percentages of 25 percent and 20 percent in the respective months will provide this flexibility.

Many of the distributing plants are combination plants with manufacturing facilities to process the reserve supplies of the market not needed for fluid use. In the case of a handler operating more than one distributing plant it should be provided that the combined receipts and Class I disposition of all such plants may be the basis for determining the 25 percent requirement (20 percent, March through June). This will permit more efficient utilization of plant facilities.

To prevent inclusion in the marketwide pool of a plant whose primary association is with another market, each individual plant in such a system must continue to meet the requirement that 15 percent of its total Grade A receipts be distributed as Class I milk on routes within the marketing area.

A distributing plant meeting the pooling requirements of more than one order should in general be regulated under the order covering the area in which it has the greater proportion of its distribution. However, recognition should be given to the adverse effects of inadvertent shifting from month to month by a plant regularly associated with the Minnesota-North Dakota market.

A handler operating a pool distributing plant which would have been subject to regulation under this order and would continue to meet the pool plant standards provided herein generally should not become subject to another order unless it has disposed of more milk on routes in such other marketing area than in the Minnesota-North Dakota marketing area for 3 consecutive months. This will afford the handler reasonable notice that full regulation of his plant is shifting from one order to another and will afford him the opportunity to make adjustments in his business if he desires to do so.

If, nevertheless, the provisions of the other order require such plant to be pooled thereunder, the plant should be exempt from regulation under this order. In order that the market administrator may be fully apprised of the continuing status of such a plant, however, the operator thereof should, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

Provision should also be made to exempt from regulation under this order a plant which may, for 1 or 2 months, dispose of a greater proportion of milk in this marketing area than in the area of the order to which it has been subject to regulation if such other order contains a provision similar to that recommended herein.

A supply plant would qualify as a pool plant under this order in any month during which 25 percent or more of its receipts of Grade A milk from dairy farmers is shipped as fluid milk products to a distributing pool plant.

Demand for milk from supply plants is usually greatest during the season of low production. During the months of flush production direct farm supply of milk received at a distributing plant may be sufficient to supply the Class I outlets. During this part of the year it would be more economical to leave the milk received at supply plants in the country for manufacture into dairy products at such plants and use the milk received directly at distributing plants for Class I use.

The performance provisions should not force milk to be transported to distributing plants in the months of seasonally high production in order to maintain the eligibility of supply plants to pool.

Any supply plant, therefore, which meets the 25 percent shipping requirements as described for each of the months of August through November would be granted pool status during the following months of March through June without specified shipments. Such pool status would be automatic unless the operator of such plant notifies the market administrator in writing before the first day of any such month that he desires to withdraw his supply plant from pooling. The plant would thereafter be a nonpool plant until it again met the shipping requirements set forth above.

In his exceptions, one handler reiterated his proposal for a 20 percent in-area sales standard for pool distributing plants and a 40 percent (or slightly less) total Class I sales requirement in lieu of the 15 and 20–25 percent requirements, respectively, as proposed by the order proponents and as adopted herein. This handler suggested also that a supply plant be required to ship at least 40 percent of its producer receipts as fluid milk products to pool plant(s) in order to meet the pooling requirements of the order.

For reasons stated above, the standards adopted herein for the pooling of distributing and supply plants are

deemed to provide a reasonable and appropriate measure as to whether or not a plant is sufficiently identified with the market without, at the same time, excluding from pool participation handlers whose plants have been a regular and dependable source of fluid milk supply for the market.

In some markets reload points under the bulk handling method serve a function similar to that of a supply plant. The extent to which separate reloading facilities are now employed in moving bulk milk to this market is not clear from the record. In the absence of specific marketing data concerning reload points it is concluded that a definition of reload point should not be included in the order. Such a definition and its application to pricing, location differentials, and performance requirements may be considered at some future time if it appears that such a provision would facilitate the orderly marketing of milk under the order adopted herein.

Nonpool plants. A plant which supplies fluid milk to the market but in a lesser volume than that required to qualify as a pool plant under the standards set forth herein would be a nonpool plant. The term nonpool plant is further broken down to define such categories as "other order plant," "producer-handler plant," "partially regulated distributing plant," and "unregulated supply plant."

Handler definition. The impact of regulation under an order is on handlers. As herein provided, the definition includes (a) any person (including a cooperative association) in his capacity as the operator of one or more pool plants; (b) a person operating a partially regulated distributing plant; (c) a cooperative association with respect to producer milk diverted from a pool distributing plant to a nonpool plant for its account; (d) a cooperative association with respect to its members' milk delivered in a tank truck owned, operated by, under contract to, or under its control from the farm to a pool plant of another handler; (e) a person in his capacity as the operator of an other order plant; and (f) a producer-handler.

Designating as handlers the operators of the various types of plants that may be associated with the market is necessary so that the market administrator may require of them the reports to determine the regulatory status of the plants and the extent of the operators' obligations, if any, to the producer-settlement fund.

The record is not clear whether there is any governmental agency or institution (Federal, State, county, or municipal) which dispose of fluid milk products solely for use on it own premises or to its own facilities. If such an institution does exist, it should be exempt from regulation. This may be effected by specific exemption of such persons from "handler" status under the order.

While such an exempt institution would have no obligations to report to the market administrator, the order should provide that if milk is purchased from a pool plant by such an institution, such sales by the pool plant would be classified as Class I. Likewise, any disposition of milk by such an institution to pool plants would be classified as Class II.

Milk which would be surplus to the fluid requirements of such institutions would not be a source of supply which could be depended upon to fulfill the regular requirements of the market. It would bear the same relationship to the marketwide pool as does the surplus of producer-handlers, and it should be allocated in the same manner as a receipt from a producer-handler. Accordingly, milk received from such institutions should receive a Class II classification.

Cooperative associations whose members are suppliers of milk for the market here under consideration generally assume the responsibility of balancing their buying handlers' supplies with such handlers' needs for fluid milk. Milk not needed for fluid uses generally can be most economically handled by diversion directly to manufacturing plants. To facilitate such handling, a cooperative is accorded handler status for milk which it causes to be diverted to nonpool plants for its account.

A cooperative should be designated as a handler with respect to any milk delivered from the farm to a pool plant of another handler in a tank truck owned, operated by, under contract to, or under the control of such cooperative. This will afford a practicable basis of accounting for such milk. In addition, it will provide added flexibility to a cooperative's operations in allocating its members' milk among handlers.

If a tank truck picking up milk at the farm is operated under the supervision of a cooperative association, it is the association that verifies the weight and butterfat content of each producer's milk. Handlers have no control over and generally take no part in checking the weights and butterfat tests of milk at the farm. In some instances, handlers may not even know from which farms their milk is received.

The milk delivered by the cooperative as a bulk tank handler would be considered as a receipt of producer milk by the operator of the pool plant at which it was physically received. The pool plant operator's obligation for such milk to the producer-settlement fund, to the administrative fund and to the cooperative would be the same as for producer milk received directly from the farm of an individual producer.

In some instances, as discussed elsewhere in this decision (see the discussion concerning shrinkage allocation under heading "b. Classification and allocation of milk"), differences between the quantities of producer milk determined at the farm and ascertained as physically received by the operator of the pool plant would be considered a receipt of producer milk by the cooperative at the location of the pool plant. For such differences, the cooperative (instead of the pool plant operator) would be required to settle with the producer-settlement and administration funds.

Producer, diverted milk, and producer milk definitions. The term "producer" should include dairy farmers who regularly deliver Grade A milk to plants which are supplying fluid milk to the marketing area in the proportions specified in the pool plant standards adopted herein. Accordingly, the term "producer" should distinguish between farmers who meet the sanitary requirements for the production of Grade A milk and other dairy farmers whose milk may be qualified only for use in the manufacture of dairy products. Grade A milk intended for fluid consumption in the marketing area is required to be produced in compliance with sanitary standards of the States of Minnesota, North Dakota, or South Dakota, and/or county, municipal or other duly constituted health jurisdictions in the area.

"Producer milk" should be defined to include all skim milk and butterfat in Grade A milk received at a pool plant directly from a dairy farmer or from a cooperative association in its capacity as a handler. Producer milk would also include milk diverted under certain conditions from a pool plant to a nonpool plant by either a handler operating a pool plant or by a cooperative in its capacity as a handler diverting milk for its account. This definition will facilitate application of the various order provisions by specifying that milk for which each handler shall be responsible for paying the class prices established by the order according to his use of milk.

This definition will require the handler operating the pool plant at which milk is received from a cooperative as a handler pursuant to § 1000.10(c) to pay the cooperative at the uniform price the same as on milk received directly from producers.

A "diverted milk" definition is provided for easy reference throughout certain other provisions of the order.

Although a producer establishes his affiliation with the market through delivery of milk to a pool plant his milk occasionally may not be needed at pool plants. This is due to the day-to-day and seasonal variation in both production and sales. The variation in day-to-day sales is influenced in large part by the fact that most bottling operations are not conducted on a seven-day-a-week basis. Such milk can sometimes be used efficiently by diverting it directly from the farm to a nonpool manufacturing plant. In such cases the movement of such milk to a nonpool plant should be facilitated.

The order should provide that a dairy farmer may retain his producer status under certain conditions with respect to his Grade A milk diverted to a nonpool plant for the account of a handler. For the months of March through June when supplies in the market are usually the heaviest, such diversion of milk of a producer may be on an unlimited basis.

Unlimited diversion, however, is neither necessary nor desirable during the other months of the year when milk of producers is most needed to supply the Class I needs of the market. Proponents recommended that during the period of July through February, a cooperative association be permitted to divert for its account member producer milk not in excess of 50 percent of the milk physically received from its producer members at pool plants during the month. This limitation appears reasonable and should be adopted. Similarly, milk diverted by the operator of a pool plant for his account would be limited to 50 percent of the quantity of producer milk physically received at his plant during the month. In all cases, however, producer status with respect to a dairy farmer whose milk is so diverted during any month of July through February would be contingent upon the receipt of his Grade A milk at a pool plant on at least 3 days during the month. This will assure the producer's association with the fluid milk market during the months of the year when milk production is seasonally lower and more likely to be needed by distributing plants for bottling use.

In the recommended decision, the 3-day deliveries requirement was made applicable to all months of the year. This change from the recommended decision will contribute toward the more efficient marketing of milk during the months of March through June.

The percentage basis for computing limits on milk diversions will provide the flexibility needed by cooperatives and pool handlers to serve the market efficiently. It will not affect the pool adversely.

Should milk receipts from dairy farmers be diverted in excess of the limit set forth herein the diverting handler must specify the dairy farmers whose milk was over diverted and all of the milk of such dairy farmers not received at a pool plant during the month shall not be producer milk in such month.

Milk diverted to a nonpool plant will be considered as received by the diverting handler at the location of the plant to which diverted, for purposes of pricing such milk.

In order to preclude duplicate regulation of milk, provisions should be made for excluding as producers, persons whose milk is diverted to a plant at which such milk is subject to the price and payment provisions of any other order.

Under no circumstances would a delivery of producer milk from the farm to the plant of a producer-handler be considered as "diverted milk".

Exceptions were filed on behalf of the proponent cooperative association requesting that the order accommodate diversion of producer milk to nonpool plants from any pool plant whether it is a distributing or supply plant. The terms contained in the recommended order would have limited diversion of producer milk to nonpool plants from pool distributing plants only. This request should be adopted. The conditions which justify diversion of producer milk within the limits prescribed are generally applicable with respect to both distributing and supply plants.

Some plants in the market which would qualify as pool supply plants under the order do not have the necessary manufacturing facilities to process all their producer Grade A receipts not shipped to bottling plants for fluid needs. In such cases, the more economical handling of milk can be achieved by permitting the diversion of such producer milk from the supply plant by direct shipment from farm to the manufacturing plant. The "diverted milk" definition is amended from that recommended to accommodate this change.

Producer-handler definition. The term "producer-handler" should apply to any person who produces milk on his own farm(s) and operates a plant from which fluid milk products are distributed on routes in the marketing area and who receives no milk during the month from other dairy farmers or from sources other than pool plants and not more than 3,000 pounds of fluid milk products (including the milk equivalent of nonfluid products which are reconstituted into fluid milk products) from any source.

The producer-handler maintains control of his milk from its source at the farm until its ultimate disposition. He is, therefore, generally in a position to adjust his farm production closely to the needs of his fluid milk business and, in turn, assumes the burden of maintaining the reserve supply of milk associated with his fluid milk operations and of disposing of any surplus he may produce. When an individual operates a dairy farm and a fluid milk business in such manner it has not been necessary to require him to account for milk produced on his own farm at a particular minimum price.

The competition of a producer-handler with regulated handlers in this market makes it appropriate that exemption from pooling and pricing be contingent upon his meeting certain requirements. Such requirements are necessary to assure that his sales of milk will not have a disruptive effect on the orderly marketing of milk in the regulated market.

The producer-handler should not, with minor exception, be permitted to receive fluid milk products from any source except his own farm production. If a producer-handler were permitted to obtain milk from unregulated sources, this would allow him an undue advantage compared to regulated handlers. Other handlers incur obligations to the pool on unregulated milk used in Class I disposition, but producer-handlers are exempt from pooling. Further, such use of unregulated milk by producer-handlers would be inequitable to producers. It would permit use in the fluid market of unregulated milk without such milk being subject to the order's allocation and payment provisions, which provide proper apportionment to producers of returns from Class I dispositions.

A limitation of 3,000 pounds of fluid milk products each month which may be received from sources other than his own farm production will permit the producer-handler to purchase supplemental milk from pool plants and will provide certain flexibility in the use of nonfluid milk products which may be reconstituted into fluid milk products.

Proponents suggested a limitation of 50,000 pounds as the amount of fluid milk products which might be received by a producer-handler. Such a figure is unreasonable. In this market the producer-handlers operate small family size units. The 3,000 pounds provided herein will be ample to meet the needs of the producer-handlers for supplemental supplies.

Receipts of milk at a pool plant from producer-handlers should be considered as a receipt of other source milk. This procedure is appropriate, otherwise producer-handlers who do not share their own Class I sales would share in the Class I sales of other handlers in the market. At the same time the producer-handler would not be bearing proper share of the reserve supplies associated with such Class I sales.

Various business arrangements, involving superficial association with the milk production operation, may be used to acquire an appearance of true producer-handler operation. To preclude the use of such devices the order should provide that a producer-handler furnish proof satisfactory to the market administrator that (a) the care and management of all the dairy animals and other resources necessary to produce the entire volume of fluid milk products handled (except for milk which is permitted to be received within the 3,000 pound limitation) is the personal enterprise of and at the personal risk of such person, and (b) the operation of the processing and distributing business is the personal enterprise of and at the personal risk of such person. A producer-handler would be required to make such reports of his receipts and utilization as the market administrator deems necessary to verify the status of such person's operation and to facilitate verification of transactions with other handlers.

Other source milk definition. A definition of "other source milk" is necessary to facilitate the application of the order to the various categories of receipts at a regulated plant.

Other source milk should include all skim milk and butterfat contained in or represented by (a) fluid milk products utilized by the handler in his operation (except producer milk, fluid milk products received from pool plants, and fluid milk products in inventory at the beginning of the month), (b) all manufactured dairy products from any source (including those produced at the plant) which are reprocessed or converted into another product during the month, and (c) any disappearance of products other than fluid milk products which are not otherwise accounted for under the order.

In order to verify the actual utilization of milk received from producers, it is necessary that the market administrator be in a position to reconcile all receipts of milk and dairy products with the disposition records of the plant. If such records cannot be reconciled, the handler must be held responsible for the shrinkage or the overrun which occurs as a result of the discrepancy between records of receipts and disposition. Otherwise, the handler with improper records would

be in a position to gain an advantage over his competitors who properly account for all milk and dairy products received. It is equally necessary that the handler be required to account for all nonfluid dairy products received in a form in which they can be converted into Class I products. Otherwise, a handler by failing to keep records of receipts of nonfat dry milk and similar products which can be reconstituted into skim milk or other fluid products could gain a competitive advantage over other handlers in the market.

b. *Classification and allocation of milk.* A classified use plan should be established to insure that all milk and milk products handled by handlers fully or partially regulated under the order are fully accounted for according to the various uses in such handlers' plants. Milk is disposed of in the market in a wide variety of forms, representing different proportions of butterfat and skim milk components of milk. These proportions may be greatly changed from the proportions of butterfat and skim milk in the milk as first received. Accounting for milk and milk products on a skim milk and butterfat basis, and pricing such skim milk and butterfat in accordance with the form in which (or the purpose for which) used is the most appropriate means of securing complete accounting on all milk involved in the market transactions.

This accounting system common in Federal orders, will insure uniformity in application of the classification and pricing provisions of the order to all handlers supplying and/or distributing milk in the market.

Fluid milk product. A definition of "fluid milk products" is provided in the order to implement the drafting of the classification provisions of the order.

Under the proposed definition herein provided, the term "fluid milk product" includes milk, skim milk, flavored milk, concentrated milk, buttermilk, milk drinks (plain or flavored), sour cream and sour cream products labeled Grade A, cream or any mixture in fluid form of cream and milk or skim milk. The term includes these products in fluid, frozen, fortified (including "dietary" milk products) or reconstituted form but does not include sterilized products in hermetically sealed containers and such products as yogurt, eggnog, aerated cream in dispensers, ice cream mix, frozen dessert mix, and evaporated or condensed milk or skim milk.

Classes of milk. The fluid milk products which are classified in Class I are required by the appropriate health authorities in the marketing area to be made from milk or milk products procured from Grade A approved sources. The extra cost incurred by producers in producing quality milk and in getting it delivered to the market in the condition and in the quantities needed by the market necessitates a price for milk used in Class I products somewhat above the price of milk used in manufactured products. The higher price must be at a level which will provide sufficient incentive to producers to encourage the production of the quantity of milk needed for the Class I products plus the necessary reserve to cover daily fluctuations in market demand.

Milk in excess of the market's Class I needs at any time must be disposed of for use in manufactured products. These products are less perishable than fluid milk products and they compete on a national market with similar products made from unapproved milk. Milk so used must be classified as Class II milk and priced according to its value in such outlets.

The products included in Class I may be unmodified or may be modified by the addition of nonfat dry milk, as is commonly practiced in the case of skim milk drinks and buttermilk, for example. On the other hand the product may be concentrated by evaporation as in the case of concentrated whole milk for fluid consumption.

Products such as evaporated or condensed milk which are either packaged in hermetically sealed containers or which are used in the manufacture of other milk products should be classified as Class II products. Milk disposed of for Class II uses is classified on the basis of its initial disposition. When any Class II product is reprocessed or reused in another product it should be treated as a receipt of other source milk. This procedure minimizes the assessment of reclassification charges since priority of assignment under the accounting procedure is given to current receipts of fluid milk. Concentrated milk which may be restored to its original form in the home through the addition of water, as well as reconstituted fluid milk products, compete for the same Class I sales as whole milk. Accounting for such products on the basis of original volume, including all the water originally associated with the solids, is necessary to insure equity among handlers and to return to producers the full use value of their milk.

Fortified fluid milk products present a special classification and accounting problem. Fortification of fluid milk products customarily is accomplished by the addition of nonfat dry milk to fluid milk or skim milk to yield a finished product of higher nonfat milk solids content than that of an equivalent amount of whole milk. Reconstitution, on the other hand, involves the process of "floating" concentrated milk solids in water to yield a weight of product approximately equal to the weight of milk from which the concentrated product was first made by the removal of water.

To maintain proper accounting for fortified fluid milk products the nonfat milk solids added to such items should be converted to their skim milk equivalent. This is necessary to insure uniformity of application of the accounting system. It is not necessary, however, to price as Class I all the water originally associated with the added solids. The additional solids used in fortification cannot be considered as displacing producer milk in Class I except to the extent that the volume of product is increased. The addition of solids to make a more desirable product may in fact increase the sales of producer milk, and in any event would not displace producer milk in Class I beyond the minor increase in volume which results.

In the case of fortified fluid milk products the skim milk to be classified as Class I milk should be only that contained in an equal volume of unmodified product of the same nature and butterfat content, excluding the dry weight of any nonmilk additive such as flavoring, etc. The skim milk equivalent of the nonfat milk solids not classified as Class I milk should be classified as Class II milk.

Handlers maintain inventory of milk and milk products which must be considered in accounting for receipts and utilization. The accounting procedure will be facilitated by providing for Class II classification on only that portion of ending inventory of fluid milk products which is in bulk storage in the plant. All fluid milk products on hand in packaged form in the plant should be classified as Class I.

This will facilitate handlers' reconciliation of inventory products with that of the market administrator. Products on truck on or off the premises and products in distribution outlets or in transit may be considered by some handlers as disposed of and therefore, would be classified by them as Class I. The treatment of products in distribution points or in transit differs with the individual handlers. It is not uncommon for handlers to consider products on loaded trucks as still in inventory.

The classification as Class I of all packaged fluid milk products will result in such products which are on hand at the end of the month, either in the plant, on loaded trucks, or in distribution points, being classified uniformly as Class I regardless of whether they are considered as being in inventory or as being already disposed of.

Packaged fluid milk products on hand on the effective date of the order, however, should be classified as Class II, since these items were not classified and priced as Class I in the prior month.

To insure that all handlers pay the current month's Class I price for producer milk disposed of during the month, it is provided that if the Class I price increases, the handler will be charged the difference between the Class I price for the current month and the Class I price for the preceding month on the quantity of ending inventory assigned to Class I in the preceding month. Likewise, if the Class I price decreases, the handler will receive a corresponding credit.

The allocation section should provide that inventory of packaged fluid milk products on hand at the beginning of the month be subtracted from Class I utilization before making the other assignments therein provided.

Inventory of fluid milk products in bulk form will be subtracted under the allocation procedure, from any available Class II disposition in the following month prior to the allocation of current fluid milk receipts. The higher use value of any fluid milk product in inventory, which is allocated to Class I milk in the following month, should be reflected in

returns to producers. This is accomplished by a reclassification charge on such milk at the difference between the Class II price of the preceding month and the Class I price of the current month.

Inasmuch as a handler may receive milk from other order plants and unregulated supply plants as well as producer milk or milk from other pool plants, any of these sources may contribute to his inventory situation at the end of the month. The assignment provisions herein adopted insure that milk from nonpool sources assigned to the surplus class in the prior month (and thus available for reclassification under the inventory allocation procedure this month) will either have been so assigned pro rata with producer milk or is milk which by its very nature is surplus. Furthermore, any other order milk so assigned will have been priced at the comparable surplus class in the order of origin. In either case, therefore, the reclassification charge is appropriate.

Skim milk and butterfat in fluid milk products dumped or disposed of by a handler for livestock feed should be classified as Class II milk. Such outlets often represent the most efficient means for disposing of surplus milk. Transportation and handling costs are such that it may be uneconomical to ship relatively small quantities of unneeded milk to trade outlets. In the case of route returns of such products as homogenized milk and chocolate milk, it is difficult and impractical to salvage the butterfat for further use. Such butterfat which is not salvageable should be classified as Class II when dumped or disposed of for livestock feed.

It would not be practicable to permit in an unlimited manner the dumping of skim milk and butterfat by pool plant handlers. Neither would it be appropriate to classify such skim milk and butterfat, for which no better outlet is available, in other than Class II. Accordingly, the order should clearly specify a Class II classification for skim milk and butterfat dumped, provided that the market administrator is notified in advance and afforded the opportunity to verify the dumping.

Waste and loss of skim milk and butterfat experienced in plant operations are referred to as "shrinkage." Since shrinkage represents disappearance of milk for which the handler must account but for which no direct return is realized, it should be considered as Class II milk to the extent that the amount is reasonable and is not the result of incomplete or faulty records.

The maximum shrinkage allowance in Class II at each pool plant should be 2 percent of producer milk (except that diverted to a nonpool plant or for which a cooperative association is the handler pursuant to § 1060.13(c)), plus 1.5 percent of producer milk from a cooperative as a handler and bulk fluid milk products from pool plants of other handlers and less 1.5 percent of bulk fluid milk products transferred to other plants (except pool plants of the same handler). A 1.5 percent shrinkage allowance would be allowed on bulk fluid milk products received from other order plants and unregulated supply plants (exclusive of the quantity for which Class II utilization is requested by the handler).

As provided elsewhere in this decision, a cooperative would be the handler for milk delivered from producers' farms to the pool plant of another handler in a tank truck owned and operated by or under contract to such cooperative. When a cooperative is a handler under such conditions, the operator of a pool plant receiving this bulk tank milk directly from the farm would settle with the pool and the cooperative for such milk in the same manner as a receipt from producers. However, the full 2 percent allowance for shrinkage would be permitted the handler only if he is purchasing the milk on the basis of farm weights and has so notified the market administrator. Otherwise, the maximum shrinkage in Class II allowed the handler on such milk would be 1.5 percent, and the cooperative would be responsible for any difference between the gross weight of producer milk received in the tank truck at the farms and that delivered to pool plants. This procedure is followed in a number of other Federal orders and provides a reasonable basis for the allocation of the shrinkage allowance in those instances wherein the cooperative is the responsible handler with respect to milk picked up at producers' farms in bulk tank trucks.

In those instances in which a pool plant operator is not purchasing farm tank milk (from a cooperative as a handler) on the basis of farm weights, any difference between the quantities of producer milk determined at the farm and ascertained as physically received by the operator of the pool plant would be considered a receipt of producer milk by the cooperative at the location of the pool plant. The cooperative would report such differences, which may reasonably be expected to be within 0.5 percent of the quantity of producer milk determined on the basis of farm weights during the month, to the market administrator for inclusion in the monthly pool computation. Up to 0.5 percent of the total producer farm tank milk involved would be reported and pooled as Class II; any such difference in excess of the maximum allowable Class II shrinkage of 0.5 percent would be Class I. The cooperative would be responsible for settling with the producer-settlement fund for the total quantity of shrinkage it reported. If the quantity of bulk tank milk physically received at a pool plan from a cooperative during the month is the same as or greater than the sum of the farm weights, the cooperative would have no settlement to make with the producer-settlement fund on such milk. However, in those instances wherein the quantities of milk physically received at pool plants are greater than the farm weights, the pool plant operator's obligation to the cooperative and the producer-settlement fund would be on the basis of the weights ascertained at his plant.

Plants which are operated in a reasonably efficient manner and for which accurate records of receipts and utilization are maintained should not have plant losses in excess of the maximums provided. Any shrinkage in excess of the maximums should be classified as Class I milk. This is reasonable and necessary to strengthen the classified pricing plan and will tend to encourage maintenance of adequate records and efficient handling of milk.

It is appropriate to limit the volume of unregulated supply plant milk and other order milk that may be classified in Class II as shrinkage since these types of receipts are allocated pro rata to class uses along with the quantities received from pool plants and producers. Under the allocation system provided, such other source milk will share with producer milk in any shrinkage allocated to Class I when the specified Class II shrinkage limitations are exceeded. No specific shrinkage limit is necessary on unregulated or other order milk that does not share a pro rata assignment and thus is allocated first to Class II uses, since the allocation procedure insures assignment of such milk to Class II in an amount at least equal to the shrinkage that may be associated therewith.

To insure an equitable assignment of total shrinkage to the two categories of receipts (i.e., receipts for which there is a percentage limitation for Class II shrinkage assignment and receipts for which there is no such limitation), the total shrinkage should be prorated to these two categories.

Transfers. Fluid milk products may be disposed of to other plants for processing. It is necessary, therefore, to provide specific rules so that the classification of such transfers may be determined under this order.

Fluid milk products transferred by a handler to a pool plant of another handler should be classified as Class I milk unless utilization as Class II milk is claimed for both plants on the reports submitted for the month to the market administrator. However, sufficient Class II utilization must be available at the transferee plant for such assignment after prior allocation of receipts of unregulated milk, other order milk, inventory, and appropriate assignment of shrinkage. Moreover, if other source milk of the type to which surplus value inherently applies (such as nonfat dry milk) has been received at the transferor plant during the month, the skim milk or butterfat in fluid milk products involved in such transfer should be classified so as to allocate the least possible Class I utilization to such other source milk. In the case of a transferor handler who received other source milk from an unregulated supply plant or other order plant, the transferred quantity, up to the total of such receipts, should not be Class I to a greater extent than would be applicable to a like quantity of such other source milk received at the transferee plant.

Fluid milk products transferred from a pool plant to a producer-handler and such products transferred or diverted in packaged form to a nonpool plant (not an other order plant) should be classified as Class I milk.

Fluid milk products transferred or diverted in bulk to a nonpool plant that is neither an other order plant nor a producer-handler plant which is located not more than 300 miles by the shortest highway distance as determined by the market administrator from the nearer of the city halls of Fargo or Grand Forks, N. Dak., shall be classified as Class I milk unless certain conditions are met: The operator of the nonpool plant, if requested, should make his books and records available to the market administrator for the purpose of verifying the receipts and utilization of milk in such nonpool plant. Provision for verification by the market administrator is reasonable and necessary to insure proper application of the classification procedures prescribed in the order.

The skim milk and butterfat so diverted or transferred should be assigned following the assignment of utilization at such nonpool plant to receipts of packaged fluid milk products from pool plants and other order plants. This assignment is in accord with the classification of such packaged products to Class I at the plant of origin. Other utilization at the nonpool plant should be assigned on the basis that any Class I utilization disposed of on routes in the marketing area should be first assigned to the skim milk and butterfat in the fluid milk products so transferred or diverted to the nonpool plant from pool plants, and next pro rata to receipts from other order plants and thereafter to receipts from dairy farmers who the market administrator determines constitute the regular source of supply of Grade A milk for such nonpool plant. Further, any Class I utilization disposed of on routes in the marketing area of another order should be first assigned to receipts from plants fully regulated by such order, and next pro rata to receipts from pool plants and other order plants not regulated by such order and thereafter to receipts from dairy farmers whom the market administrator determines constitute the regular source of supply of Grade A milk for such nonpool plant. The remaining quantities of skim milk and butterfat transferred to the nonpool plant should be assigned to the skim milk and butterfat in any transfers of milk, skim milk, and cream in bulk from the nonpool plant to pool plants, and should be classified as if it were a direct transfer from one pool plant to another pool plant with Class II utilization indicated. If this results in transfers from pool plants of two or more handlers being classified as Class I such classification should be shared pro rata between the handlers unless, at or before the time of reporting, the plant operators indicate agreement on a different sharing of such Class I classification.

If such assignment does not cover all transfers to the nonpool plant, assignment of additional quantities to Class II use in the nonpool plant would be limited to available Class II utilization in the plant and similar use of any shipments from the nonpool plant to other plants (pool or nonpool) excluding any duplication of such classification of milk received at the nonpool plant from other pool plants or other order plants.

The treatment of transfers provided serves to coordinate classification of milk disposed of to nonpool plants with milk disposed of by other order plants to the same nonpool plants.

Fluid milk products transferred or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant which is located more than 300 miles by the shortest highway distance as determined by the market administrator from the nearer of the city halls of Fargo or Grand Forks, N. Dak., should be Class I milk.

Within the 300-mile range the manufacturing facilities are adequate to insure the orderly disposition of the market's reserve supply and milk moving a greater distance can be presumed to be for Class I uses. Hence, on shipments beyond such distance with the following exception, it is not necessary and it is not administratively feasible for the order to provide classification on the basis of verified utilization in the nonpool plant to which shipment is made.

While it is not feasible to move whole milk long distances except for Class I use, cream may be shipped a considerable distance for use in ice cream and other Class II items. Cream transferred as Class II (and so reported by the transferring handler) to a nonpool plant located beyond the 300-mile range, therefore, should be so classified without requiring verification of its use by the market administrator at the nonpool plant, provided that prior to shipment the market administrator is given sufficient notice to allow him to verify the shipment, and the container of such cream is tagged as being for manufacturing purposes only, and this is so invoiced.

Such a provision will assure the availability of outlets for surplus cream irrespective of distance from the market and at the same time reduce the expense of verifying the use of such cream.

In the case of fluid milk products transferred from pool plants to fully regulated plants under another order, specific rules should apply to coordinate the classification under both orders. Specifically, fluid milk products transferred to an other order plant in excess of receipts from such plant in the same category (packaged, bulk designated for surplus disposal, or bulk milk not so designated) should be classified in the classes to which allocated as a fluid milk product under the other order. If the operators of both the transferor and transferee plants so request in the reports of receipts and utilization filed with their respective market administrators, transfers in bulk form should be classified as Class II to the extent that Class II utilization (or comparable utilization under such other order) is available for such assignment pursuant to the allocation provisions of the transferee order. If, however, information concerning the classification to which allocated under the order is not available to the market administrator for purposes of establishing classification pursuant to this paragraph, classification should be as Class I, subject to adjustment when such information is available. For these purposes also if the transferee order provides for more than two classes of utilization, milk allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and milk allocated to other classes should be classified as Class II.

If the form in which a fluid milk product is transferred to an other order plant is not defined as a fluid milk product under such other order, classification should be in accordance with the form in which it leaves the transferor plant. This would be the case where the classification of a product differs in the shipping and receiving markets and, accordingly, identical classification will not be possible. These differences exist primarily because the health authorities in different areas have varying requirements with respect to the use of Grade A milk in some milk products. Hence, the order provisions must be designed to accommodate the differences in classification which might exist in this order compared to any order market from which such product is received.

Milk from nonpool plants and from other order plants. It is necessary to provide for integration into the regulatory plan of the order, milk which is disposed of in the marketing area, but which is not subject to classified pricing under any order or which is regulated under another order.

Such milk may enter the market in two ways. It may be distributed directly on routes by a partially regulated plant or by a plant subject to regulation under another order. It may also be received as other source milk by a fully regulated plant. In the latter instance it may consist of receipts from an other order plant, from an unregulated supply plant, or even from manufacturing plants or dairy farmers whose milk is not eligible for Grade A milk. It might also consist of the surplus of a producer-handler or of nonfat milk solids which are reconstituted into a fluid milk product.

Regardless of the source of the milk or its method of entry into the market, provision must be made for treating such milk in a manner which will protect, to the extent consistent with the Act, the regulatory plan of the order. A uniform program for treating such milk was made effective by amendments to all orders which were in effect on July 1, 1964, following the decision of the Assistant Secretary of June 19, 1964 (29 F.R. 9214).

The findings and conclusions of such decision relating to this matter are equally applicable to the Minnesota-North Dakota marketing area. The June 19, 1964, decision therefore is hereby adopted as a part of this decision.

The conditions described therein as generally applicable to all marketing areas under regulation at that time, are equally applicable to the Minnesota-North Dakota marketing area.

It is necessary, therefore, that the provisions of this order relating to the integration of other source milk do not differ materially from similar provisions of other orders. The provisions herein recommended are identical in principle to the general amendments made to all orders following the June 19, 1964, decision of the Assistant Secretary, and are recommended for adoption in the interest of continuing a coordinated program among markets and providing for the uniform treatment of regulated milk in the several markets.

This decision sets forth in detail the procedure to be followed in allocating over a handler's total utilization the milk that may be received from the several types of nonpool sources. It provides for a payment into the producer-settlement fund on unregulated milk which is allocated to Class I.

This decision also prescribes the obligations of a partially regulated distributing plant with respect to record keeping and reporting, as well as defining the circumstances under which such a plant would be required to make payments to the producer-settlement fund.

6. Determination and level of class prices. In order to promote and maintain orderly marketing conditions in the Minnesota-North Dakota marketing area, minimum Class I and Class II prices for producer milk must be established at levels which will reflect economic conditions affecting the market supply and demand for milk and its products and tend to obtain an adequate supply of milk to meet the fluid needs of the market plus a necessary reserve for fluctuations in demand. Of the estimated 420 million pounds of Grade A milk received annually by handlers in the market who are expected to be fully regulated, less than half of such milk is required for fluid uses. There is, therefore, no indication that supplies are inadequate or tending to become inadequate for the Minnesota-North Dakota market.

The level of Class I price must not be so high as to attract additional supplies to the market under current marketing conditions where milk supply for fluid needs is entirely adequate. Such overattraction of milk supplies would tend to shift agricultural resources into the production of unnecessary and uneconomic surpluses which would depress the blend price to producers. Yet the price must exceed the manufactured milk price by a sufficient amount to encourage producers to produce milk of the high quality required for the fresh fluid needs of the market.

Class II prices should be established at a level which will assure a market for milk delivered by producers in excess of Class I needs. Such prices should not encourage the development of milk supplies for use as Class II products.

Class prices as well as uniform prices to producers should be computed and announced for milk of 3.5 percent butterfat content. This is the prevailing practice among handlers in the market.

Class I price. For an 18-month period beginning with the effective date of the order, the Class I price for milk of 3.5 percent butterfat content should be established at an annual level of $0.86 per hundredweight higher than the average price paid for manufacturing grade milk in Minnesota and Wisconsin during the preceding month. For the period through April 1968, 20 cents should be added to such differential.

The Class I price for any plant located outside of the base zone should be adjusted for location at the rate of 1.2 cents for each 10 road miles or fraction thereof that such plant is located from the perimeter of the base zone. Such location adjustments should be added to the Class I price if the plant is located in North or South Dakota and should be subtracted from such price if the plant is located in Minnesota.

The manufacturing milk price in Minnesota and Wisconsin to be used as the basic formula for determining Class I prices is reported by the Department of Agriculture each month and for the purpose of pricing Class I milk should be converted to a 3.5 percent butterfat basis using a butterfat differential equal to 12 percent of the wholesale price of butter at Chicago. The price so adjusted is used as a basic formula for establishing Class I prices in most Federal milk orders.

The purpose for which such basic formula price is used in other order markets is pertinent to establishment of proper Class I price levels in the recommended order market. This pricing factor (Minnesota-Wisconsin manufacturing grade milk pricing series), common to most milk orders, is an appropriate measure of the general economic factors underlying the price for milk used in manufactured dairy products. Because the market for most manufactured dairy products is nationwide, prices for such products and the milk used in them reflect, to a large extent, changes in general economic conditions affecting the supply and demand for milk. By using manufacturing milk prices as a formula factor in determining Class I prices it is possible to reflect such general economic factors automatically in the Class I price.

Since this marketing area is located in a region of heavy milk production in relation to population, there is considerably more milk manufactured in the area than is disposed of for Class I uses. In order to compensate producers for producing milk of Grade A quality which is needed for Class I sales, the Class I milk price must be somewhat higher than producers of manufacturing grade milk receive. However, if the Class I price more than compensates producers for the extra cost of Class I milk production, they are encouraged unnecessarily to shift from manufacturing grade milk production to the production of Grade A quality milk. If additional Grade A milk supplies cannot be disposed of in Class I outlets, such milk must be utilized in manufactured dairy products at a price competitive with dairy products made from manufacturing grade milk. Because dairy products made from Grade A milk bring no premium in the market place over those made from manufacturing grade milk, farmers producing Grade A milk for use in such products can obtain no higher price for Grade A milk so used than the prevailing rate for manufacturing grade milk. Hence, in establishing a Class I price, particularly for this area where large quantities of Grade A milk in excess of those needed for Class I sales already exist, it is essential that the Class I price be maintained at a level which will not encourage greater supplies of Grade A milk to be produced, thereby adding only to the volume which must be manufactured.

Since the Class I price must be so closely attuned to the manufacturing milk price, the only feasible method of accomplishing such alignment is to base the Class I price directly on such manufacturing milk price.

The propolled Class I price together with the proposed Class II price (as described later) and a Class I utilization of 45 percent would have given a market blend price of $3.64. This price is in excess of prices paid producers by the handlers in 1965 by an amount which reflects the increases in milk prices which have occurred on a national level since that time.

The Cass-Clay Creamery is located in Fargo and the Fairmount Foods plant in Moorhead. The Fergus Dairy plant in Fergus Falls, Minn., is about 55 miles to the southeast. One of Land O'Lakes' principal bottling plants is located at Thief River Falls, Minn., about 116 miles north of Fargo. None of the handlers operating these plants pays its producers on a strictly classified price plan. The average price per hundredweight of 3.5 percent milk paid by each of them to their producers during 1965 was $3.54 by Cass-Clay, $3.66 by Fairmont Foods, $3.52 by Fergus Dairy and $3.57 by Land O'Lakes. The Minnesota Dairy Co. of Grand Forks is one of the principal handlers in this area. The price per hundredweight paid its producers for milk containing 3.5 percent butterfat for 1965, was estimated to be $3.85 on the average, plus an additional 13 cents per hundredweight hauling subsidy.

There is, however, a wide variation in the utilization of the above handlers. Substantially more than half of the Grade A milk received by Cass-Clay and Fergus Dairy is used in the manufacture of dairy products. The combined utilization of the four plants of Land O'Lakes (located at Thief River Falls, Crookston, and Brainerd, Minn., and Grand Forks, N. Dak.) approximates 60 percent Class I. The Fairmont Foods plant at Moorhead, Minn., also utilizes the greater part of its receipts as Class I milk. At the plant of the Minnesota Dairy Co., virtually all producer receipts are used for Class I purposes.

An identical Class I price should apply to all plant locations within the base zone (discussed in detail under the heading "Location differentials"). This zone encompasses the Fargo-Moorhead and Grand Forks, N. Dak., metropolitan areas. These cities and their environs are the areas of greatest population concentration and more than half of the market's Class I sales are made therein. Also included in the base zone are other nearby cities of smaller population with

which there is a considerable exchange of Class I sales.

Producer association proponents for the Minnesota-North Dakota order proposed (modified slightly from that noticed) a Class I price of 20 cents above the Twin Cities Class I price for plants located at least 210 but not more than 235 airline miles from a designated basing point in St. Paul, Minn. Such pricing zone would include fluid milk plants located at Fargo, Grand Forks, and Valley City, N. Dak., and at Moorhead, East Grand Forks, Crookston and Thief River Falls, Minn.

Both producers and handlers stressed the importance of proper Class I price alignment for the Minnesota-North Dakota marketing area with Class I prices in nearby markets, particularly that of the Minneapolis-St. Paul market.

It is essential in aligning Class I prices in the proposed area compared to Minneapolis-St. Paul to avoid any price incentive for Minneapolis-St. Paul milk to move into this area which already has more Grade A milk than can be disposed of in Class I sales. The Minneapolis-St. Paul order Class I price is modified by a supply-demand adjustor with a maximum of 24 cents. Hence, such price can be 24 cents less than the proposed Class I price under this order. Since the adjustor is currently at minus 24 cents, the Minneapolis-St. Paul Class I price would currently be 24 cents less than the proposed price for this area.

On the basis of the record of the regional hearing at Denver on April 11, 1967 (which reopened the hearing held at Fargo, N. Dak., in August 1966), it was concluded that for the purpose of Class I pricing through April 1968 the minimum basic formula price under the subject Federal orders should not be less than $4.65. It was further concluded that 20 cents should be added through April 1968 to Class I price differentials otherwise to be effective. The Minnesota-North Dakota market pricing should reflect these conclusions. The resulting provisions likewise will assist to maintain reasonable alignment with the Minneapolis-St. Paul market.

This price difference should not divert milk from the Minneapolis area to this area because transportation costs would offset the price difference.

Fargo and Grand Forks, N. Dak., and Moorhead, Minn., are among the principal cities in the market from which milk is distributed. The adjoining cities of Fargo-Moorhead are approximately 240 road miles from Minneapolis-St. Paul. Correspondingly, Grand Forks is about 312 miles distant from Minneapolis and St. Paul. Milk may be moved into the Minnesota-North Dakota market from plants located in Minneapolis or St. Paul at a transportation cost of approximately 29 cents per hundredweight to Fargo-Moorhead and 37 cents to Grand Forks. The Class I prices in the Fargo-Moorhead and Grand Forks areas should not, therefore, exceed the Class I prices for the Twin Cities order by more than about these transportation costs.

Ideally, Class I prices in the Minnesota-North Dakota market should reflect local milk supply and sales relationships as well as maintaining reasonable alignment with other market prices. Although the area has an ample supply of Grade A milk to meet current demands, complete data with respect to receipts and sales of milk in the area are not available. Any price adjustment mechanism which would be designed to reflect such supply and sales relationships in a pricing formula would not, therefore, be practical at this time. Furthermore, the conditions of supply and sales are likely to be somewhat different under a program of orderly pricing than those which have prevailed in recent years.

For this reason, a limit of 18 months is provided for the Class I price provisions of the order. This will afford an opportunity to review the provisions at a hearing in the light of marketing conditions at that time. Such review could also include consideration of supply and sales relationships for adjustment purposes.

Class II price. The Class II price should be the average price per hundredweight for manufacturing grade milk f.o.b. plants in Minnesota and Wisconsin, as reported by the U.S. Department of Agriculture, adjusted to a 3.5 percent butterfat test.

The order proponents initially proposed that the Class II price be established at the level of the Minnesota-Wisconsin manufacturing grade milk price, adjusted to 3.5 percent butterfat test. They modified this proposal at the hearing to request a Class II price level 6 cents per hundredweight below the "series" level. There was general agreement by producers and handlers alike that the Class II milk price for the market should be based upon the Minnesota-Wisconsin price series. There was less agreement as to the amount, if any, that the Class II price should be set below the series price. Support in this matter ranged from a zero to a minus 6 cents per hundredweight adjustment.

Large quantities of reserve supplies of milk for the market are utilized in the manufacture of butter and nonfat dry milk. These operations are confined to several large plants. There is much variation in the handling and marketing of surplus milk at the plants of other handlers. Some milk utilized for Class I purposes in the market is handled at plants with limited manufacturing facilities. However, a number of plants which would be pool plants under the orders maintain manufacturing operations, especially for such items as ice cream and cottage cheese. Throughout the year, particularly in the spring months of heavy production, producer milk not needed for fluid uses is moved to manufacturing plants by the handler who regularly receives the milk or by the cooperative association responsible for marketing such producer milk.

Prices paid by manufacturing plants may differ because of changes in the relative prices of the product which they manufacture and because of variations in the quantities of milk available for manufacturing purposes. Handlers often will dispose of excess milk to those plants which are paying the highest price at the time of such disposal. Because of smaller volume and inefficient means of handling, it is possible that some handlers may at times incur losses in handling their necessary reserve supplies of milk. The handling of such reserve milk is incidental, however, to the handling of fluid milk.

The price for manufacturing milk should be at a level which will provide the highest possible returns to producers in the market while at the same time encouraging the orderly marketing of such milk. A Class II price based on the average Minnesota-Wisconsin manufacturing milk price should adequately meet these pricing objectives. The desirability of using a competitive pay price is based on the premise that in the highly competitive dairy industry, average prices which are paid in the areas where there is substantial competition for manufacturing milk provide as good a measure of its value as can be obtained. The Minnesota-Wisconsin price series is representative of prices paid to farmers for about one-half of the manufacturing grade milk sold in the United States. In Minnesota about 84 percent of the milk sold off farms is of manufacturing grade and in Wisconsin, about 58 percent.[1] There are many plants in these states which are competing for such milk supplies. This price series reflects a price level determined by competitive conditions which are affected by demand in all of the major uses of manufactured dairy products. Further, it reflects the supply and demand of manufactured dairy products within a highly coordinated marketing system which is national in scale.

Plants which handle most of the Class II milk for this market are either located in Minnesota or receive a major portion of their supply from producers located in Minnesota. All of these plants are in competition for supplies with plants whose paying prices are included in the Minnesota-Wisconsin price series. It is necessary, therefore, that the prices paid by handlers under the order be commensurate with those paid by their competitors if their milk supply is to be maintained.

One cooperative association excepted to the Class II pricing formula as set forth in the recommended decision. They reiterate their desire for a Class II formula 6 cents below the "series" price based in part on the fact that an administrative assessment would be levied on such milk and partly on the fact that transportation costs from western Minnesota to the East were greater than from plants located in eastern Minnesota or Wisconsin.

A review of record evidence, however, in light of exceptions filed does not show such a modification to the recommended formula to be warranted, for reasons set forth herein.

[1] Official notice is taken of the "Supplement for 1963-64 to Dairy Statistics through 1960," Statistical Bulletin No. 303, Economic Research Service, USDA, June 1966.

Butterfat differentials. The recommended classification system provides for a full accounting of all skim milk and butterfat utilized in all products. While milk is priced to handlers at a basic test of 3.5 percent, it is intended that each handler's cost for milk shall reflect the proportions of skim milk and butterfat in each class. This is accomplished by adjusting the class prices to each handler by appropriate butterfat differentials.

The Class I butterfat differential adopted herein is the same as that used in a substantial number of other orders and is determined by multiplying the Chicago butter price by 0.12.

This differential, which would have averaged 1.2 cents in 1965 (a variation that year from 7 to 7.6 cents), is a reasonable representation of the value of butterfat when disposed of in the fluid items indicated in this class.

The Class II butterfat differential of 11.5 percent of the Chicago butter price is likewise comparable with its counterpart in a number of other orders throughout the country. It will vary from month to month as the butter price varies. Hence, it will facilitate the movement of butterfat in that milk which is not needed for fluid use to manufacturing outlets. The Class II butterfat differential will appropriately reflect the values of butterfat and skim milk components in milk used in manufacturing operations.

The use of the Chicago butter price as a basis for establishing butterfat differentials will provide assurance for both producers and handlers that such differentials reflect changes in the butterfat values in the national market. The differentials adopted were suggested by proponents of regulation.

The butterfat differential used in making payments to producers should be calculated at the average of the return actually received from the sale of butterfat in producer milk. The rate to be used for this purpose would be the average of the Class I and Class II butterfat differentials weighted by the proportion of butterfat in producer milk classified in each class. Thus, producer returns for butterfat will reflect the average value of their butterfat in the two classes provided in this order. The producer butterfat differential does not affect a handler's obligation and its sole purpose is to prorate returns among producers to the extent their milk differs from the basic 3.5 percent butterfat test.

Location differentials. Location differentials should be incorporated in the order to provide appropriate adjustment in the Class I price and uniform price based upon the location of any plant at which producer milk is received. Class I milk because of its bulky and perishable nature incurs high transportation costs if moved a considerable distance. Milk delivered directly by farmers to handlers' plants located close to the area where such milk is distributed to consumers is therefore more valuable to the handler than milk obtained at a plant many miles from the market.

The Fargo-Moorhead metropolitan area and Grand Forks, N. Dak., are the principal cities from which fluid milk products are distributed throughout the recommended marketing area. They represent the points where there is the largest concentration of population and therefore are the areas of largest milk sales to consumers.

A base zone within which there would be identical price treatment for all handlers so located should include the Minnesota counties of Marshall, Polk, Pennington, Red Lake, Norman, and Clay and the North Dakota counties of Grand Forks, Traill, and Cass. This zone encompasses the Fargo-Moorhead metropolitan area and Grand Forks, N. Dak. The perimeter of the zone where it intersects the roads leading to the various plants which would be regulated (roads on routes with the least road mileage) provides appropriate basing points for determining location adjustments to prices at such plants.

The Class I and uniform price applicable at any such plant, therefore, which is located outside of the base zone should be subject to a plus or minus adjustment of 1.2 cents for each 10 road miles or fraction thereof that such plant is located from the perimeter of such base zone. The measurement for this purpose should be based upon the shortest all-weather-road miles as determined by the market administrator. The location adjustment would be added to the prices at plants located in North or South Dakota and subtracted at plants located in Minnesota.

In the recommended decision issued April 28, 1967, provision was made for a base zone (no location adjustment) to encompass plants of handlers located less than 70 road miles from the nearer of Fargo or Grand Forks. A 10-cent plus or minus adjustment was recommended for any plant located 70 but less than 80 road miles of the two cities and an additional 1.2 cents for each successive 10 miles beyond 80 miles.

A reappraisal of the location differentials was made in light of exceptions filed. The changes from the recommended decision adopted herein are intended to achieve insofar as possible a higher degree of uniformity in prices to all handlers f.o.b. the market and maintain the historical price differential which existed in the past among the plants to be brought under regulation.

These location differentials provide higher prices for milk received at pool plants located west and southwest of the Minnesota-North Dakota State boundary, and lower prices for milk received at plants in the heavy production areas of Minnesota.

Milk production in the portion of the marketing area west of the Red River decreases rapidly as one proceeds away from the river. Supplemental supplies needed by handlers located there must be received from plants located either in Grand Forks or Fargo, or further to the east in Minnesota. Thus, the appropriate price level is the prevailing price in the high production area to the east plus the cost of transporting the milk into the Dakotas. Historically prices paid by handlers in central and western North Dakota have reflected this difference.

Some handlers so located opposed the higher price on the grounds that it would place them at a competitive disadvantage in selling milk in the eastern part of the State where no location differential is applicable.

It is recognized that handlers so located may find it more difficult to compete for Class I sales in the cities of Grand Forks and Fargo. However, producers should not be required to receive a lesser value for their milk to enable a handler to distribute milk in an area where he has a natural disadvantage.

As one moves east and southeast from the Grand Forks and Fargo-Moorhead areas into the areas of heavy milk production, prices should be reduced by the cost of moving such milk from such areas to Fargo or Grand Forks.

Distances should be measured by highway mileage rather than by airline miles as was proposed by the proponents. Because of the condition of the highways, load limits, etc., the actual highway miles which milk is transported may vary widely in relation to the airline mileage. Further, there are many secondary roads not hard-surfaced that may be used by milk haulers to provide the most economical means of moving milk to the market. Roads that are accessible on a year-round basis, whether or not they are hard-surfaced, as specified in the recommended decision, should be used as the basis of determining applicable location adjustments.

The rate of 1.2 cents per hundredweight per 10 road miles reflects the approximate costs of moving milk to city plants in this market. The location differentials, as proposed, will establish prices at each pool plant which will permit such pool plants to compete among themselves on the basis of prices adjusted to reflect transportation costs.

Uniform prices to be paid producers supplying plants at which location differentials are applicable should likewise be adjusted by the same amounts to reflect the value of the milk at the point to which the milk is delivered.

No location differential should apply to Class II milk. Such milk need not be moved to the area centers of population to be sold. Handlers should not be encouraged to move milk long distances for Class II purposes at the expense of dairy producers since Class II products incur little freight cost and prices for such products vary little with location. The Class II milk should be manufactured as near as possible to the source of production and the product should be transported rather than the milk.

A method is provided for determining, if necessary, the priority of milk from various plants allocated to Class I for the purpose of computing the aggregate location differential to be allowed.

To insure that milk will not be moved unnecessarily at producers' expense, the order should contain a provision to determine whether milk transferred between plants may receive the location differential credit. This should provide that, for

the purpose of calculating such credit fluid milk products received from pool plants shall be assigned to any Class I milk at the transferee plant that is in excess of the sum of producer milk receipts at such plant and receipts from other order plants and unregulated supply plants which are assigned to Class I. Such assignment would be made first to shipping plants having the same or higher prices, next to plants with a lower price in sequence according to the location differential applicable at each plant. This will provide an equitable basis for facilitating the movement of milk between pool plants for Class I purposes. Likewise, it will tend to discourage the unnecessary moving of milk between pool plants for other than Class I purposes at the expense of producers.

Use of equivalent prices. If for any reason a price quotation required by the order for computing class prices or for other purposes is not available in the manner described, the market administrator should use a price determined by the Secretary to be equivalent to the price which is required. Including such provision in the order will leave no uncertainty with respect to the procedure which shall be followed in the absence of any price quotations which are customarily used and thereby will prevent any unnecessary interruption in the operation of the order.

d. *Distribution of proceeds to producers.* The order should contain provisions whereby the payments made by handlers for milk at class prices are converted to uniform prices to be paid to producers. The provisions should specify also the terms under which such payments must be made.

(1) *Type of pool.* The order should provide for market pooling of the value of producer milk used by all handlers.

Under a market pool the total money obligation of all handlers in the market for producer milk is combined to compute a uniform price applicable to all producer milk.

To accomplish this purpose it is necessary that there be an exchange of money among handlers such that each handler is able to pay the marketwide uniform price. The transfer of money is made through a producer-settlement fund established by the market administrator. Each handler pays into the producer-settlement fund any plus difference between the value of his milk at the market uniform price based on the market utilization of all handlers, and the value of his milk computed at the class prices. A handler whose milk has a lesser value at the class prices than at the market uniform price receives payment for the difference from the producer-settlement fund. This arrangement enables each handler to pay the uniform price to producers subject to butterfat and location differentials.

The marketwide pool will insure that each producer supplying the market will receive a return reflecting his pro rata share of Class I and Class II utilization. Each producer will receive a "blend" price for his milk which will reflect the average utilization of all pool plants in the market. Each handler, however, will pay for milk according to the class prices.

The marketwide pooling of returns to producers will promote efficient handling of milk in the area. Some plants disposing of milk in the recommended marketing area have little, if any, facilities for manufacturing reserve milk. Such plants normally limit their receipts of producer milk to the quantity needed for Class I in the flush production season and procure from other plants supplemental supplies of milk for Class I during the short production season. Other plants have some manufacturing facilities or outlets available to market surplus supplies, and thus are able to carry adequate supplies of milk throughout the year.

A marketwide pool will enable the handlers with manufacturing facilities, or any cooperative association, to handle the reserve supplies and yet pay to producers the same price as is paid by handlers who do not assume the responsibility of carrying the necessary reserve. The lower return for the reserve milk in the market will thereby be apportioned equally among all producers in the market. Under an individual-handler pooling system as proposed by two handlers, this burden would be carried by individual groups of producers.

Many handlers in the proposed Minnesota-North Dakota marketing area depend on one of several associations for their "balancing" supplies, and the cooperatives assume responsibility in disposition of milk in excess of handlers' needs. It would be impossible for such associations to maintain equitable returns to producer members without the operation of a market pool.

Two handlers proposed an individual-handlers method of pooling. For the reasons set forth above, it has been concluded that a marketwide pool is necessary and that an individual-handler pool would be inappropriate.

(2) *Payments to producers.* Each handler under the order should pay each producer for milk received from such producer and for which payment is not made to a cooperative association at not less than the applicable uniform price.

A partial payment for milk delivered during the first 15 days of the month would also be required on or before the last day of the month at not less than the Class II price for the preceding month without deduction for hauling. Final payment to producers would be required on or before the 18th day of the month at the applicable uniform price for the preceding month, less partial payments and authorized deductions.

Provision should be made for a cooperative association, which is acting in the capacity of a handler on diverted milk, or a handler operating a pool plant, to receive payment for the producer milk it caused to be delivered to a pool plant.

A partial payment at the applicable Class II price for the preceding month, without deduction for hauling, would be required on or before the 30th day of the month for milk so delivered during the first 15 days of such month. A final settlement would be required on or before the 13th day after the end of the month in which such milk was delivered. This settlement will be made on the basis of the applicable class prices, less partial payment and authorized deductions.

Further, each handler should pay a cooperative association for milk received from such association in its capacity as a handler on bulk tank milk pursuant to § 1060.10(c) of the order. A partial settlement for such milk received during the first 15 days of the month should be made at not less than the Class II price for the preceding month. The final settlement for the value of such milk should be made at the applicable uniform price, less partial payments.

In making payments to producers, the handler should be required to furnish each producer a supporting statement. This statement should show the pounds and butterfat tests of milk received from such producer, the rate of payment for such milk, if such rate is other than the applicable minimum rate, and any deductions claimed by the handler.

(3) *Producer-settlement fund.* All producers will receive payment at the rate of the marketwide uniform price each month. Because the payment due from each handler for producer milk at the applicable class prices may be more or less than he is required to pay directly to producers, a method of equalizing this difference is necessary. A producer-settlement fund should be established for this purpose. A handler whose obligation for producer milk received during the month is greater than the amount he is required to pay producers for such milk at the applicable uniform prices would pay the difference into the producer-settlement fund and each handler whose obligation for producer milk is less than the applicable uniform price values would receive payment of the difference from the fund. Provision for the establishment and maintenance of the producer-settlement fund as set forth in the attached order is similar to that contained in other Federal orders with marketwide pools.

For efficient functioning of the producer-settlement fund, a reasonable reserve should be set aside at the end of each month. This is necessary to provide for such contingencies as the failure of a handler to make payment of his monthly billing to the fund or the payment to a handler from the fund by reason of an audit adjustment. The reserve, which would be operated as a revolving fund and adjusted each month, is established in the attached order at not less than 4 nor more than 5 cents per hundredweight of producer milk in the pool for the month.

Any payments on partially regulated milk received by the market administrator from any handler would be deposited in the producer-settlement fund. Money thus deposited would be included in the uniform price computation and thereby be distributed to all producers on the market.

e. *Administrative provisions.* Provisions should be included in the order with respect to the administrative steps necessary to carry out the proposed regulation.

In addition to the definitions discussed earlier in this decision, which define the scope of the regulation, certain other terms and definitions are desirable in the interest of brevity and to assure that each usage of the term denotes the same meaning. Such terms as are defined in the attached order are common to many other Federal milk orders.

(1) *Market Administrator.* Provision should be made for the appointment by the Secretary of a market administrator to administer the order and to set forth the powers and duties for such agency essential to the proper functioning of such office.

(2) *Records and reports.* Provisions should be included in the order requiring handlers to maintain adequate records of their operations and to make reports necessary to establish classification of producer milk and payments due therefore. Such reports are necessary for the computation of the uniform price and determination of each plant's continuing status under the order. The maintenance of adequate records is necessary to enable the market administrator to verify receipts and utilization as reported by the handlers and to verify that the several financial obligations arising under the order are fully discharged.

It is essential that handlers' reports be submitted to the market administrator not later than the 7th day after the end of each month. The market administrator should announce the uniform price for the previous month's milk by the 12th day of each month. Handlers should submit payments due to the producer-settlement fund on or before the 12th day after the end of the month. The payroll report of each handler should be submitted to the market administrator on or before the 20th day of each month. It should include such information as weight, butterfat tests, payments for milk and authorized deductions.

Handlers should maintain and make available to the market administrator all records and accounts of their operations, together with facilities which are necessary to determine the accuracy of information reported to the market administrator or any other information upon which the classification of producer milk depends. The market administrator must likewise be permitted to check the accuracy of weights and tests of milk and milk products received and handled, and to verify all payments required under the orders.

Detailed reports to the market administrator and complete records available for his inspection by all handlers would be used to determine whether the plants of such handlers qualify as pool plants. Reports of handlers operating nonpool plants from which fluid milk products are distributed in the marketing area would also be used by the market administrator to compute the amounts payable to the producer-settlement fund on such unpriced milk.

A cooperative association having authority to market milk for member producers should have available to it information on the use of such milk by individual handlers in order that member milk may be directed to those handlers needing Class I milk. This will promote orderly marketing by enabling the efficient allocation among handlers of available milk supplies and assist producers in maximizing their returns. A provision, therefore, should be included to authorize the market administrator to provide this information when it is requested by such an association. For the purpose of this report, the utilization of member milk in each handler's plant would be prorated to each class in the same ratio as all producer milk is allocated to each class during the month.

It is necessary that handlers retain records to prove the utilization of milk and that proper payments were made therefor. Since books and records of all handlers cannot be completely audited immediately after receipt of the milk, it becomes necessary to keep such records for a reasonable period of time.

The order should provide limitations on the period of time handlers shall be required to retain books and records and on the period of time in which obligations under the orders shall terminate. Provision made in this regard is identical in principle with the general amendment (made to all milk orders which were in operation on July 30, 1947), following the Secretary's decision of January 26, 1949 (14 F.R. 444). That decision covering the retention of records and limitation of claims, is equally applicable in this situation and is adopted as a part of this decision.

(3) *Expense of administration.* Each handler should be required to pay to the market administrator, as his proportionate share of the cost of administering the order, 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, on producer milk (including milk of such handler's own production) and on other source milk allocated to Class I (except milk so assessed under another Federal order).

The market administrator must have sufficient funds to enable him to administer properly the terms of the order. The Act provides that such cost of administration shall be financed through an assessment on handlers. A principal function of the market administrator is to verify the receipts and disposition of milk from all sources. Equity in sharing the cost of administration of the order among handlers will be achieved, therefore, by applying the administrative assessment on the basis of Grade A milk received from dairy farmers at a plant and on other source milk allocated to Class I milk.

The order provides that a cooperative association may act as the handler for milk of members which is delivered in tank trucks directly from the farm to pool plants of other handlers.

The cooperative is considered the handler for such milk only for the purpose of accounting to the individual producers. Such milk is producer milk at the plant of the receiving handler and is treated the same as any other direct receipt from producers. Therefore the handler who receives the milk should pay the administrative assessment on it.

The order specifies minimum performance standards that must be met to obtain regulated status. Operators of plants not meeting such standards are required to either (1) make specified payments into the producer-settlement fund on route distribution in the marketing area in excess of offsetting purchases of Federal order Class I milk, or (2) otherwise pay into such fund and/or to dairy farmers an amount not less than the classified use value of his receipts from dairy farmers computed as though such plant were a fully regulated plant.

The market administrator, in administering an order as it applies to the nonpool route distributor, must incur expenses in essentially the same manner as in applying the order to pool handlers. However, the order is not applicable to such distributor to the same extent as to regulated handlers. Hence, payment of the administrative assessment on his in-area sales reasonably would constitute his pro rata share of administrative expense.

In the case of unregulated milk which enters the market through a regulated plant for Class I use, it is the regulated handler who utilizes the unregulated milk and who must report to the market administrator the receipt and use of such milk. Also, the receipts and utilization of all milk at his plant are subject to verification by the market administrator. Hence, it is appropriate that the regulated handler be responsible for payment of the administrative assessment on such regulated milk.

The order is designed so that the cost of administration is shared equitably among all handlers distributing milk in the proposed marketing area. However, to prevent duplication an assessment should not be made on other source milk on which an assessment was made under another Federal order.

In view of the anticipated volume of milk and the costs of administering orders in markets of comparable circumstances, it is concluded that an initial rate of 4 cents per hundredweight is necessary to meet the expenses of administration. Provision should be made to enable the Secretary to reduce the amount of the administrative assessment without the necessity of amending the order.

A higher assessment rate may prevail when the order is first issued since part of the assessment is used each month to provide a reserve fund for operational expenses. Once the necessary reserve has been established, the assessment rate to handlers is reduced to whatever rate is needed to meet operating expenses. This may be done at any time experience in the market reveals that a lesser rate will provide sufficient revenue for proper administration of the order.

(4) *Marketing services.* Provisions should be made in the order for furnishing marketing services to producers, such as verifying the tests and weights of producer milk and furnishing market information. These services should be provided by the market administrator

and the cost should be borne by producers for whom the services are rendered. If a cooperative association is performing such services for its member-producers and is approved for such activity by the Secretary, the market administrator may accept this in lieu of his own service.

Milk produced on a handler's own farm should be exempt from marketing service deductions, even though it is subject to the other provisions of the order. There are no payments to producers to verify on such milk and, therefore, no need to provide the same marketing services as are provided other producers.

There is need for a marketing service program in connection with the administration of the order in this area. Orderly marketing will be promoted by assuring individual producers that they have obtained accurate weights and tests of their milk. Complete verification requires that butterfat tests and weighs of individual producer deliveries reported by the handler are accurate.

An additional phase of the marketing service program is to furnish producers with correct market information. Efficiency in the production, utilization, and marketing of milk will be promoted by providing for the dissemination of current market information on a market-wide basis to producers.

To enable the market administrator to furnish these marketing services, provision should be made for a maximum deduction of 5 cents per hundredweight with respect to receipts of milk from producers for whom he renders such marketing services. Comparison of the number of producers involved and the expected volume of milk with that of other markets indicates that a 5-cent rate is reasonable and should provide the funds necessary to conduct the program. If later experience indicates that marketing services can be performed at a lesser rate, provision is made whereby the Secretary may adjust the rate downward without the necessity of a hearing.

Miscellaneous. A "base and excess" plan of distributing returns for milk among producers and designed to encourage more even production throughout the year was suggested by one handler. Although such a plan was supported on the record by certain handlers and producer groups, the data concerning the seasonality of production of all producers who supply the market are not extensive enough to permit consideration of a base-excess plan for this market at this time.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or to reach such conclusions are denied for the reasons previously stated in this decision.

General findings. (a) The proposed marketing agreement and order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed marketing agreement and order will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Minnesota-North Dakota Marketing Area", and "Order Regulating the Handling of Milk in the Minnesota-North Dakota Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

Referendum order; determination of representative period; and designation of referendum agent. It is hereby directed that a referendum be conducted among producers to determine whether the issuance of the attached order regulating the handling of milk in the Minnesota-North Dakota marketing area, is approved or favored by the producers, as defined under the terms of the proposed order, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of June 1967 is hereby determined to be the representative period for the conduct of such referendum.

A. T. Radigan and Edward T. Coughlin are hereby designated agents of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders (7 CFR 900.300 et seq.), such referendum to be completed on or before the 30th day from the date this decision is issued.

Signed at Washington, D.C., on August 22, 1967.

GEORGE L. MEHREN,
Assistant Secretary.

Order[1] Regulating the Handling of Milk in the Minnesota-North Dakota Marketing Area

GENERAL DEFINITIONS

Sec.
1060.1 Act.
1060.2 Minnesota-North Dakota marketing area.
1060.3 Route.
1060.4 Department.
1060.5 Chicago butter price.

DEFINITION OF PERSONS

1060.6 Person.
1060.7 Secretary.
1060.8 Producer.
1060.9 Cooperative association.
1060.10 Handler.
1060.11 Producer-handler.

DEFINITIONS OF MILK AND MILK PRODUCTS

1060.15 Producer milk.
1060.16 Diverted milk.
1060.17 Other source milk.
1060.18 Fluid milk product.

DEFINITIONS OF PLANTS

1060.20 Plant.
1060.21 Distributing plant.
1060.23 Supply plant.
1060.29 Pool plant.
1060.24 Nonpool plant.

MARKET ADMINISTRATOR

1060.30 Designation.
1060.31 Powers.
1060.32 Duties.

REPORTS, RECORDS AND FACILITIES

1060.38 Reports of receipts and utilization.
1060.36 Payroll reports.
1060.37 Other reports.
1060.38 Records and facilities.
1060.39 Retention of records.

CLASSIFICATION OF MILK

1060.40 Skim milk and butterfat to be classified.
1060.41 Classes of utilization.
1060.42 Shrinkage.
1060.43 Responsibility of handlers and reclassification of milk.
1060.44 Transfers.
1060.45 Computation of skim milk and butterfat in each class.
1060.46 Allocation of skim milk and butterfat to be classified.

MINIMUM PRICES

1060.50 Basic formula price.
1060.51 Class prices.
1060.52 Butterfat differentials to handlers.
1060.53 Location differentials to handlers.

APPLICATION OF PROVISIONS

1060.60 Producer-handlers and exempt institutions.
1060.61 Plants subject to other Federal orders.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, governing proceedings to formulate marketing agreements and marketing orders have been met.

Sec.
1060.62 Obligation of handler operating a partially regulated distributing plant.

DETERMINATION OF UNIFORM PRICE

1060.70 Computation of the net pool obligation of each pool handler.
1060.71 Computation of uniform price.

PAYMENTS

Sec.
1060.80 Time and method of payment.
1060.81 Butterfat differential to producers.
1060.82 Location differentials to producers and on nonpool milk.
1060.83 Producer-settlement fund.
1060.84 Payments to the producer-settlement fund.
1060.85 Payments out of the producer-settlement fund.
1060.86 Adjustment of accounts.
1060.87 Marketing services.
1060.88 Expense of administration.
1060.89 Termination of obligation.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

1060.90 Effective time.
1060.91 Suspension or termination.
1060.92 Continuing obligations.
1060.93 Liquidation.

MISCELLANEOUS PROVISIONS

1060.100 Agents.
1060.101 Separability of provisions.

AUTHORITY: The provisions of this Part 1060 issued under secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

§ 1060.0 Findings and determinations.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Minnesota-North Dakota marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commerical activity specified in, a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including a handler's own farm production);

(b) Other source milk allocated to Class I milk pursuant to § 1060.46(a) (4) and (8) and the corresponding steps in § 1060.46(b); and

(c) Class I milk disposed of in the marketing area from a partially regulated distributing plant that exceeds the hundredweight of Class I milk received during the month at such plant from pool plants and other order plants.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Minnesota-North Dakota marketing area shall be in conformity to, and in compliance with, the following terms and conditions:

The provisions of §§ 1060.0 to 1060.101, both inclusive, of the proposed order contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on April 28, 1967 (32 F.R. 6872; F.R. Doc. 67-4920), shall be and are the terms and conditions of this order and are set forth in full herein subject to the following revisions:

Changes are made in §§ 1060.2, 1060.16, 1060.41(b)(5) (iii), (vi), and (vii), 1060.46(a)(4)(iii), 1060.53 (a) and (b)(1), 1060.80(c) (introductory text and (2)), and 1060.82(a).

GENERAL DEFINITIONS

§ 1060.1 Act.

"Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

§ 1060.2 Minnesota-North Dakota marketing area.

(a) "Minnesota-North Dakota marketing area" (hereinafter referred to as the "marketing area") means all the territory within the boundaries of the counties listed below, including territory wholly or partly within such boundaries occupied by Government (municipal, State, or Federal) reservations, installations, institutions or other similar establishments:

MINNESOTA

Becker.	Marshall.
Beltrami.	Norman.
Big Stone.	Otter Tail.
Clay.	Pennington.
Clearwater.	Polk.
Douglas.	Red Lake.
Grant.	Roseau.
Hubbard.	Stevens.
Kittson.	Traverse.
Lake of the Woods.	Wadena.
Mahnomen.	Wilkin.

NORTH DAKOTA

Barnes.	Pembina.
Cass.	Ramsey.
Cavalier.	Ransom.
Dickey.	Richland.
Grand Forks.	Sargent.
Griggs.	Steele.
La Moure.	Traill.
Nelson.	Walsh.

SOUTH DAKOTA

Grant.	Roberts.
Marshall.	

(b) The "base zone" shall include that portion of the marketing area in the counties of Clay, Marshall, Norman, Pennington, Polk, and Red Lake, all in the State of Minnesota; and the counties of Cass, Grand Forks, and Traill, all in the State of North Dakota.

§ 1060.3 Route.

"Route" means a delivery to a wholesale or retail outlet either directly or through a distributing facility such as a distribution point, a plant store, or a vendor of a fluid milk product classified as Class I pursuant to § 1060.41(a)(1), other than a delivery to a pool plant or a nonpool plant.

§ 1060.4 Department.

"Department" means the U.S. Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified in this part.

§ 1060.5 Chicago butter price.

"Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago as reported during the month by the Department.

DEFINITIONS OF PERSONS

§ 1060.6 Person.

"Person" means any individual, partnership, corporation, association, institution, or other business unit.

§ 1060.7 Secretary.

"Secretary" means the Secretary of Agriculture of the United States or such other officer or employee of the United States as is authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture of the United States.

§ 1060.8 Producer.

"Producer" means any person, other than a producer-handler as defined in any order (including this part) issued pursuant to the Act, who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, which milk is (a) received at a pool plant, or (b) diverted as producer milk pursuant to § 1060.16.

§ 1060.9 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) Is qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act;"

(b) Has full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or its products for its members; and

(c) Has its entire activities under the control of its members.

§ 1060.10 Handler.

"Handler" means:

(a) Any person (including any cooperative association) in his capacity as the operator of one or more pool plants;

(b) Any cooperative association with respect to producer milk which it causes to be diverted for its account from a pool plant pursuant to § 1060.16;

(c) Any cooperative association with respect to the milk of its member producers which is delivered directly from the farm to the pool plant of another handler in a tank truck owned, operated by, under contract to, or under the control of such cooperative association. The milk for which a cooperative association is a handler pursuant to this paragraph shall be deemed to have been received at the location of the pool plant to which it was delivered;

(d) Any person who operates a partially regulated distributing plant. This definition shall not apply to a governmentally owned and operated institution which is exempt from the provisions of this part pursuant to § 1060.60(b); and

(e) A producer handler, or any person who operates an other order plant as described in § 1060.61;

§ 1060.11 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant and who received no milk during the month from other dairy farmers or from sources other than pool plants and not more than 3,000 pounds of milk and fluid milk products (including the milk equivalent of nonfluid products which are reconstituted into fluid milk products) during the month from any source. Such person must provide proof satisfactory to the market administrator that (a) the care and management of all the dairy animals and other resources necessary to produce the milk are the personal enterprise of and at the personal risk of such person, and (b) the operation of the processing and distributing business is the personal enterprise of and at the personal risk of such person.

Definitions of Milk and Milk Products

§ 1060.15 Producer milk.

"Producer milk" means all the skim milk and butterfat contained in Grade A milk:

(a) Received during the month at a pool plant directly from a producer or a handler pursuant to § 1060.10(c);

(b) Diverted subject to the provisions of § 1060.16 from a pool plant to a nonpool plant other than an other order plant or a producer-handler plant; or

(c) Received by a cooperative association handler pursuant to § 1060.10(c) from producers in excess of the quantity delivered to pool plants.

§ 1060.16 Diverted milk.

"Diverted milk" means, for any month, milk produced by a dairy farmer which a pool plant handler or a handler pursuant to § 1060.10(b) caused to be moved from the farm to a nonpool plant (other than the plant of a producer-handler) if such movement is specifically reported and the conditions of paragraphs (a) or (b), and (c) of this section have been met. Such milk shall be deemed to have been received by the diverting handler at the location of the nonpool plant to which diverted in applying §§ 1060.53 and 1060.82. The diversion of producer milk is subject to the following conditions:

(a) During March through June a cooperative association handler pursuant to § 1060.10(b) may divert for its account without limit the milk of any member producer. During the months of July through February such handler may divert an aggregate quantity not exceeding 50 percent of the milk of all such producers whose milk has been received at a pool plant(s) for at least 3 days during the month.

(b) During March through June a handler in his capacity as the operator of a pool plant may divert for his account without limit the milk of any producer, other than a member of a cooperative association which has diverted milk pursuant to paragraph (a) of this section. During the months of July through February such handler may divert an aggregate quantity not exceeding 50 percent of the milk of all such producers whose milk has been received at his pool plant(s) for at least 3 days during the month.

(c) In the event milk receipts from dairy farmers are diverted in excess of the applicable percentages pursuant to paragraphs (a) and (b) of this section the diverting handler shall specify the dairy farmers whose milk was overdiverted. Only the milk of such dairy farmer(s) which is received at a pool plant during the month shall be producer milk for such month.

§ 1060.17 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Fluid milk products received from any source except:

(1) Producer milk;

(2) Fluid milk products received from pool plants; or

(3) Inventory of fluid milk products on hand at the beginning of the month; and

(b) Products, other than fluid milk products, received from any source (including those produced at the plant) which are reprocessed or converted into or combined with another product in the plant during the month, and any disappearance of products other than fluid milk products not otherwise accounted for.

§ 1060.18 Fluid milk product.

"Fluid milk product" means milk, skim milk, flavored milk, concentrated milk, buttermilk, milk drinks (plain or flavored), sour cream and sour cream products labeled Grade A, cream or any mixture in fluid form of cream and milk or skim milk. The term includes these products in fluid, frozen, fortified (including "dietary" milk products) or reconstituted form but does not include sterilized products in hermetically sealed containers and such products as yogurt, eggnog, aerated cream in dispensers, ice cream mix, frozen dessert mix and evaporated or condensed milk or skim milk.

Definitions of Plants

§ 1060.20 Plant.

"Plant" means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products are received, processed and/or packaged. Separate facilities used only as a reload point for transferring bulk milk from one tank truck to another shall not be a plant under this definition. Facilities used only as a distribution point for storing fluid milk products in transit on routes shall not be a plant under this definition.

§ 1060.21 Distributing plant.

"Distributing plant" means a plant that is approved by an appropriate health authority for the processing or packaging of Grade A milk and from which fluid milk products are disposed of during the month on routes.

§ 1060.22 Supply plant.

"Supply plant" means a plant from which a fluid milk product that is acceptable to the appropriate health authority for distribution in the marketing area as Grade A is moved during the month to a distributing plant.

§ 1060.23 Pool plant.

"Pool plant" means any plant meeting the conditions of paragraph (a) or (b) of this section except the plant of a handler exempted pursuant to § 1060.60 and § 1060.61: *Provided*, That if a portion of a plant is physically separated from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(a) A distributing plant from which during the month there is disposed:

(1) As Class I milk on routes in the marketing area not less than 15 percent of Grade A milk receipts at such plant; and

(2) As Class I milk on routes or by transfer to another plant and classified as Class I pursuant to § 1060.44 not less than the applicable percentage of such plant's receipts of Grade A milk:

(i) March through June, 20 percent;

(ii) July through February, 25 percent: *Provided*, That all distributing plants operated by a handler may be considered as one plant for the purpose of meeting the applicable percentage requirement of this subparagraph if the handler submits a written request to the market administrator prior to the delivery period for which such consideration is requested; and

(b) A supply plant from which not less than 25 percent of its producer receipts at such plant during the month is shipped as fluid milk products to pool plants qualified pursuant to paragraph (a) of this section: *Provided*, That a supply plant which qualified pursuant to this paragraph in each of the immediately preceding months of August through November shall be a pool plant for the months of March through June unless the plant operator requests the market administrator in writing that such plant not be a pool plant, such nonpool status to be effective the first month following such notice and thereafter until the plant qualifies as a pool plant on the basis of shipments.

§ 1060.24 Nonpool plant.

"Nonpool plant" means any milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products (labeled Grade A) in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is a supply plant and is neither an other order plant nor a producer-handler plant.

Market Administrator

§ 1060.30 Designation.

The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 1060.31 Powers.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1060.32 Duties.

The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with satisfactory surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 1060.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses except those incurred under § 1060.87, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(g) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends and by such other means as are necessary;

(h) Publicly disclose to handlers and producers at his discretion, unless otherwise directed by the Secretary, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 1060.35 to 1060.37, inclusive, or has not made payments pursuant to §§ 1060.80, 1060.84, 1060.86, 1060.87, and 1060.88.

(i) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(j) Publicly announce on or before:

(1) The 6th day of each month, the Class I price and butterfat differential for the month computed pursuant to §§ 1060.51(a) and 1060.52(a), respectively; and the Class II price and butterfat differential for the immediately preceding month computed pursuant to §§ 1060.51(b) and 1060.52(b), respectively; and

(2) The 12th day of each month, the uniform price and the butterfat differential computed pursuant to §§ 1060.71 and 1060.81, respectively, both applicable to milk delivered during the immediately preceding month;

(k) On or before the 12th day of each month, report to each cooperative association which so requests the amount and class utilization of milk received by each handler during the immediately preceding month from such cooperative association in its capacity as a handler pursuant to § 1060.10(c) and directly from members of such cooperative association. For the purpose of this report the milk so received shall be prorated to each class in proportion to the utilization by such handler in each class remaining after allocation pursuant to § 1060.46(a)(1) through (10) and the corresponding steps of § 1060.46(b); and

(l) Whenever required for purpose of allocating receipts from other order plants pursuant to § 1060.46(a)(9) and the corresponding step of § 1060.46(b), the market administrator shall estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose;

(m) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products from an other order plant, the classification to which such receipts are allocated pursuant to § 1060.46 pursuant to such report, and thereafter any change in such allocation required to correct errors disclosed in verification of such report; and

(n) Furnish to each handler operating a pool plant who has shipped fluid milk products to an other order plant, the classification to which the skim milk and butterfat in such fluid milk products were allocated by the market administrator of the other order on the basis of the report of the receiving handler; and, as necessary, any changes in such classification arising in the verification of such report.

Reports, Records, and Facilities

§ 1060.35 Reports of receipts and utilization.

On or before the 7th day after the end of each month each handler who operates a pool plant(s) shall report for each such plant to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The receipts at each plant of milk from each producer (including such handlers' own production), the average butterfat test, the pounds of butterfat contained therein, the number of days on which milk was received from such producer, and the total quantity of milk and butterfat received from each handler pursuant to § 1060.10(c);

(b) The quantities of skim milk and butterfat contained in (or used in the production of) fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk;

(d) The utilization of skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of fluid milk products on routes in the marketing area;

(f) The pounds of skim milk and butterfat contained in all fluid milk products on hand, both in bulk and in packages, at the beginning and at the end of the month;

(g) Such other information with respect to receipts and utilization as the market administrator may prescribe; and

(h) Each handler specified in § 1060.10 (d) who operates a partially regulated distributing plant shall report as required in this section, except that receipts of Grade A milk shall be reported in lieu of those in producer milk. Such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of in the marketing area as Class I milk on routes.

§ 1060.36 Payroll reports.

On or before the 20th day after the end of each month each handler, except a producer-handler or a handler making payments pursuant to § 1060.62(b), shall submit to the market administrator his producer payroll (or in the case of a handler making payments pursuant to § 1060.62(a), his payroll for dairy farmers delivering Grade A milk) for receipts during the preceding month which shall show:

(a) The total pounds of milk, the average butterfat test thereof, and the pounds of butterfat received from each producer and cooperative association and the number of days on which milk was received from such producer;

(b) The amount of payment to each producer and cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 1060.37 Other reports.

(a) Each producer-handler and each handler making payments pursuant to § 1060.62(b) shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe;

(b) Each handler pursuant to § 1060.10 (c) shall report to the market administrator in detail and on forms prescribed by the market administrator on or before the 7th day after the end of each month the quantities of skim milk and butterfat in producer milk delivered to each pool plant in such month and all other producer milk for which it is a handler;

(c) Each handler who receives milk from producers, payment for which is to be made to a cooperative association pursuant to § 1060.80(b), shall report to such cooperative association with respect to each such producer, on forms approved by the market administrator, as follows:

(1) On or before the 20th day of the month, the total pounds of milk received during the first 15 days of the month;

(2) On or before the seventh day after the end of the month:

(i) The pounds per shipment, the total pounds of milk and the average butterfat test of milk received from such producer during the month;

(ii) The amount or rate and nature of any deductions; and

(iii) The amount of any payments to such producer pursuant to § 1060.86.

§ 1060.38 Records and facilities.

Each handler shall maintain and make available to the market administrator, during the usual hours of business, such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and tests for butterfat and other content of all milk and milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products in inventory at the beginning and end of each month; and

(d) Payments to dairy farmers and cooperative associations, including the amount and nature of any deductions and the disbursement of money so deducted.

§ 1060.39 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of 3 years to begin at the end of the month to which such books and records pertain: *Provided*, That if within such 3-year period, the market administrator notifies the handler in writing that the retention of such books and records, or specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

Classification of Milk

§ 1060.40 Skim milk and butterfat to be classified.

(a) The skim milk and butterfat which are required to be reported pursuant to § 1060.35 and § 1060.37(b) shall be classified each month by the market administrator pursuant to the provisions of §§ 1060.41 through 1060.46; and

(b) If any water contained in the milk from which a product is made is removed before the product is utilized or disposed of by the handler, the pounds of skim milk utilized or disposed of in such product shall be considered to be a quantity equivalent to the nonfat milk solids contained in such product plus all the water originally associated with such solids.

§ 1060.41 Classes of utilization.

Subject to the conditions set forth in §§ 1060.42 through 1060.46, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including that used to produce reconstituted skim milk) and butterfat:

(1) Disposed of in the form of a fluid milk product except:

(i) Fluid milk products classified as Class II pursuant to paragraph (b) (2) and (3) of this section;

(ii) Fluid milk products which are fortified with nonfat milk solids shall be Class I in an amount equal only to the weight of an equal volume of an unfortified product of the same butterfat content;

(2) Contained in inventory of packaged fluid milk products on hand at the end of the month; and

(3) Not accounted for as Class II milk;

(b) *Class II milk.* Class II milk shall be:

(1) Skim milk and butterfat used to produce any product other than a fluid milk product;

(2) Skim milk and butterfat disposed of:

(i) For livestock feed; or

(ii) Dumped after prior notification to and opportunity for verification by the market administrator;

(3) The weight of skim milk in any fortified fluid milk product in excess of the pounds classified as Class I milk pursuant to paragraph (a)(1)(ii) of this section;

(4) In inventory of bulk fluid milk products on hand at the end of the month;

(5) Skim milk and butterfat, respectively, in actual shrinkage at each pool plant allocated pursuant to § 1060.42(b)(1) but not in excess of:

(i) Two percent of producer milk except that received from a handler pursuant to § 1060.10(c) or diverted pursuant to § 1060.16 to a nonpool plant;

(ii) Plus 1.5 percent of milk received in bulk tank lots from other pool plants;

(iii) Plus 1.5 percent of producer milk received from a handler pursuant to § 1060.10(c), except that if the handler operating the pool plant files notice with the market administrator that the purchase of such milk is on the basis of farm tests and weights determined by farm bulk tank calibrations, the applicable percentage shall be two percent;

(iv) Plus 1.5 percent of milk received in bulk tank lots from other order plants exclusive of the quantity for which Class II utilization was requested by the operators of both plants;

(v) Plus 1.5 percent of milk in bulk tank lots from unregulated supply plants, exclusive of the quantity for which Class II utilization was requested by the handler;

(vi) Less 1.5 percent of milk in bulk tank lots transferred from pool plants to other plants; and

(vii) Plus 0.5 percent of milk received by a cooperative handler pursuant to § 1060.10 (b) and (c) from producers as determined by farm tests and weights measured by farm bulk tank calibrations, unless the exception in subparagraph (5)(iii) of this paragraph applies; and

(6) Skim milk and butterfat in shrinkage allocated pursuant to § 1060.42(b)(2).

§ 1060.42 Shrinkage.

The market administrator shall allocate shrinkage over a handler's receipts at each pool plant as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler at each plant; and

(b) Prorate the resulting amounts among the receipts of skim milk and butterfat contained in:

(1) The net quantity of producer milk and other milk specified in § 1060.41(b)(5) (except milk diverted to a nonpool plant pursuant to § 1060.15); and

(2) Other source milk exclusive of that specified in § 1060.41(b)(5).

§ 1060.43 Responsibility of handlers and reclassification of milk.

(a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise; and

(b) Any skim milk and butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 1060.44 Transfers.

Skim milk or butterfat in the form of a fluid milk product shall be classified:

(a) At the utilization indicated by the transferee and transferor handlers in their reports pursuant to § 1060.35, otherwise as Class I milk, if transferred from a pool plant to another pool plant subject in either event to the following conditions:

(1) The skim milk or butterfat so assigned to either class shall be limited to the amount thereof remaining in such class in the transferee plant after computations pursuant to § 1060.46(a)(9) and the corresponding step of § 1060.46(b);

(2) If the transferor handler received during the month other source milk to be allocated pursuant to § 1060.46(a)(4) and the corresponding step of § 1060.46(b), the skim milk and butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor handler received during the month other source milk to be allocated pursuant to § 1060.46 (a)(8) or (9) and the corresponding steps of § 1060.46(b), the skim milk and butterfat so transferred up to the total of such receipts shall not be classified as Class I milk to a greater extent than would be applicable to a like quantity of such other source milk received at the transferee plant, if such classification would change the classification of producer milk on the market or the classification of such other source milk received by the transferor handler during the month;

(b) As Class I milk, if transferred from a pool plant to a producer-handler or to an exempt government institution as defined in § 1060.60;

(c) As Class I if transferred from a pool plant in packaged form to a nonpool plant that is neither an other order plant nor a producer-handler plant;

(d) As Class I milk, if transferred or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant and is located more than 300 miles by shortest highway distance as determined by the market administrator, from the nearer of the city halls of Fargo or Grand Forks, N. Dak., except that cream so transferred may be classified as Class II if the handler claims classification of such cream in Class II in his report pursuant to § 1060.35, the handler tags the container of such cream as for manufacturing purposes only (and so noticed on invoice), and the handler gives the market administrator sufficient notice to allow him to verify the shipment;

(e) As Class I milk if transferred or diverted in bulk to a nonpool plant that is neither an other order plant nor a producer-handler plant and is not more than 300 miles by shortest highway distance as determined by the market administrator from the nearer of the city halls of Fargo or Grand Forks, N. Dak., unless the requirements of subparagraphs (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

(1) The transferring or diverting handler claims classification pursuant to the assignment set forth in subparagraph (3) of this paragraph in his report submitted to the market administrator pursuant to § 1060.35 for the month within which such transaction occurred;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat so transferred or diverted shall be classified on the basis of the following assignment of utilization at such nonpool plant in excess of receipts of packaged fluid milk products from all pool plants and other order plants;

(i) Any Class I utilization disposed of on routes in the marketing area shall be first assigned to the skim milk and butterfat in the fluid milk products so transferred or diverted from pool plants, next pro rata to receipts from other order plants and thereafter to receipts from dairy farmers who the market administrator determines constitute regular sources of supply of Grade A milk for such nonpool plant;

(ii) Any Class I utilization disposed of on routes in the marketing area of another order issued pursuant to the Act shall be first assigned to receipts from plants fully regulated by such order, next pro rata to receipts from pool plants and other order plants not regulated by such order, and thereafter to receipts from dairy farmers who the market administrator determines constitute regular sources of supply for such nonpool plant;

(iii) Class I utilization in excess of that assigned pursuant to subdivisions (i) and (ii) of this subparagraph shall be assigned first to remaining receipts from dairy farmers who the market administrator determines constitute the regular source of supply for such nonpool plant and Class I utilization in excess of such receipts shall be assigned pro rata to unassigned receipts at such nonpool plant from all pool and other order plants;

(iv) To the extent that Class I utilization is not so assigned to it the skim milk and butterfat so transferred or diverted shall be classified as Class II milk;

(v) If any skim milk or butterfat is transferred to a second nonpool plant under this paragraph, the same conditions of audit, classification and allocation shall apply;

(f) As follows, if transferred to an other order plant in excess of receipts from such plant in the same category as described in subparagraph (1), (2), or (3) of this paragraph:

(1) If transferred in packaged form, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated as a fluid milk product under the other order (including allocation under the conditions set forth in subparagraph (3) of this paragraph);

(3) If the operators of both the transferor and transferee plants so request in the reports of receipts and utilization filed with their respective market administrators, transfers in bulk form shall be classified as Class II to the extent of the Class II utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the transferee order;

(4) If information concerning the classification to which allocated under the other order is not available to the market administrator for purposes of establishing classification pursuant to this paragraph, classification shall be as Class I subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, milk allocated to a class consisting primarily of fluid milk products shall be classified as Class I and milk allocated to other classes shall be classified as Class II; and

(6) If the form in which any fluid milk product is transferred to another order plant is not defined as a fluid milk product under such other order, classification shall be in accordance with the provisions of § 1060.41.

§ 1060.45 Computation of skim milk and butterfat in each class.

For each month the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization submitted pursuant to § 1060.35 by each handler and shall compute the pounds of skim milk and butterfat in each class at all pool plants of such handler. Allocation pursuant to § 1060.46 and computation of obligations pursuant to § 1060.70 shall be

based upon the combined utilization so computed.

§ 1060.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1060.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk classified as Class II pursuant to § 1060.41(b)(5);

(2) Subtract from the pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants as follows:

(i) From Class II milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Except for the first month this order is effective, subtract from the remaining pounds of skim milk in Class I, the pounds of skim milk in inventory of packaged fluid milk products on hand at the beginning of the month;

(4) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products for which Grade A certification is not established, or which are from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order, and from exempt institutions as defined in § 1060.60(b);

(5) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II, but not in excess of such quantity:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant:

(a) For which the handler requests Class II utilization; or

(b) The pounds of skim milk in receipts which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I milk (exclusive of transfers between pool plants of the same handler) the sum of the pounds of skim milk in producer milk, receipts of fluid milk products from pool plants of other handlers, and receipts of fluid milk products in bulk from other order plants; and

(ii) The pounds of skim milk in receipts of fluid milk products in bulk from an other order plant in excess of similar transfers to such plant, if Class II utilization was requested by the operator of such plant and the transferee handler but not in excess of the pounds of skim milk remaining in Class II milk;

(6) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products in bulk (and for the first month this order is effective, in packaged fluid milk products) on hand at the beginning of the month;

(7) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (5)(i) of this paragraph;

(9) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraph (5)(ii) of this paragraph;

(i) In series beginning with Class II, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II utilization of skim milk announced for the month by the market administrator pursuant to § 1060.32(i) or the percentage that Class II utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I milk, the remaining pounds of such receipts;

(10) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from pool plants of other handlers according to the classification assigned pursuant to § 1060.44(a); and

(11) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

MINIMUM PRICES

§ 1060.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the U.S. Department of Agriculture for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The resulting price shall be rounded to the nearest full cent. For the purpose of computing Class I prices from the effective date hereof through April 1968, the basic formula price shall not be less than $4.06.

§ 1060.51 Class prices.

Subject to the provisions of §§ 1060.52 and 1060.53, the minimum class prices per hundredweight of milk for the month shall be as follows:

(a) *Class I price.* For the first 11 months from the effective date of this section, the price for Class I milk shall be the basic formula price for the preceding month plus $0.86, and plus 20 cents through April 1968.

(b) *Class II price.* The price for Class II milk shall be the basic formula price.

§ 1060.52 Butterfat differentials to handlers.

For milk containing more or less than 3.5 percent butterfat, the class prices for the month pursuant to § 1060.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at a rate rounded to the nearest one-tenth cent determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.120;

(b) *Class II price.* Multiply the Chicago butter price for the month by 0.115.

§ 1060.53 Location differentials to handlers.

(a) For producer milk received at a pool plant or diverted to a nonpool plant located outside the base zone and classified as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section and for other source milk for which a location adjustment is applicable, the price computed pursuant to § 1060.51(a) shall be adjusted 1.2 cents for each 10 road miles or fraction thereof that such plant is located beyond the perimeter of the base zone.

(b) For the purposes of calculating such adjustments:

(1) All distances shall be by shortest hard-surfaced highways and/or all-weather-roads, as determined by the market administrator;

(2) The adjustment pursuant to this section shall be added to the Class I price if the plant is located in North or South Dakota and shall be subtracted from such price if the plant is located in Minnesota; and

(3) Transfers of fluid milk products between pool plants shall be assigned Class I milk disposition at the receiving plant, in excess of the sum of receipts at such plant from producers (including receipts from a cooperative association as a handler of bulk tank milk pursuant to § 1060.10(c)) and the pounds assigned as Class I milk to receipts from other order plants and unregulated supply plants. Such assignment is to be made first to shipping plants priced at the same price, next to plants having a higher price, and then in sequence to plants having a lower price, beginning with the plant at which the highest price would apply.

APPLICATION OF PROVISIONS

§ 1060.60 Producer-handlers and exempt institutions.

(a) Sections 1060.40 through 1060.46, 1060.50 through 1060.54, 1060.70, 1060.71, and 1060.80 through 1060.88 shall not apply to a producer-handler; and

(b) None of the provisions of this part shall apply to a governmentally owned and operated institution which disposes of Class I milk solely for use on its own premises or to its own facilities. Sales of fluid milk products from a pool plant to such an institution shall be Class I and receipts of fluid milk products at a pool plant from such an institution shall be Class II.

§ 1060.61 Plants subject to other Federal orders.

The provisions of this order shall not apply with respect to a plant of a handler specified in paragraph (a) or (b) of this section except that such handler shall, with respect to his total receipts and disposition of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and shall allow verification of such reports by the market administrator:

(a) A distributing plant from which the Secretary determines a greater proportion of fluid milk products is disposed of on routes in another marketing area regulated by another order issued pursuant to the Act and such plant is fully subject to regulation of such other order: *Provided*, That a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of its Class I disposition on routes is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated by such other order; and

(b) A distributing plant which meets the requirements set forth in § 1060.23(a) which also meets the requirements of another marketing order on the basis of its distribution in such other marketing area and from which the Secretary determines a greater quantity of milk is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is nevertheless fully regulated under such other marketing order.

§ 1060.62 Obligation of handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1060.35(h) and 1060.36 the information necessary to compute the amount specified in paragraph (a), he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1060.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price of the respective order if so allocated to Class I milk. There shall be included in the obligation so computed a charge in the amount specified in § 1060.70(f) and a credit in the amount specified in § 1060.84(b)(2) with respect to receipts from an unregulated supply plant, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph.

(ii) If the operator of the partially regulated distributing plant so requests, and provides with his report pursuant to §§ 1060.35(b) and 1060.36, a similar report with respect to the operations of any other nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1060.23(b), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

(2) From this obligation there will be deducted the sum of (i) the gross payments made by such handler for Grade A milk received during the month from dairy farmers at such plant and like payments made by the operator of a supply plant(s) included in the computations pursuant to subparagraph (1) of this paragraph, and (ii) any payments to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant;

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct (except that deducted under a similar provision of another order issued pursuant to the Act) the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants;

(3) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(4) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location (not to be less than the Class II price).

DETERMINATION OF UNIFORM PRICE

§ 1060.70 Computation of the net pool obligation of each pool handler.

The net pool obligation of each pool handler as described in § 1060.10 (a), (b), and (c) during each month shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class as computed pursuant to § 1060.46(c), by the applicable class prices (adjusted pursuant to §§ 1060.53 and 1060.53);

(b) Add the amount obtained from multiplying the pounds of overage deducted from each class pursuant to § 1060.46(a)(11) and the corresponding step of § 1060.46(b) by the applicable class prices;

(c) Add the amount computed from multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1060.46(a)(6) and the corresponding step of § 1060.46(b);

(d) Add (or subtract, pursuant to the proviso of this paragraph) the amount computed from multiplying the difference between the appropriate Class I price of the preceding month and the appropriate Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1060.46(a)(3) and the corresponding step of § 1060.46(b): *Provided*, That if the Class I price for the current month is less than the Class I price for the preceding month, the result shall be a minus amount;

(e) Add the amount equal to the difference between the value at the Class I price applicable at the pool plant and the value at the Class II price, with respect to skim milk and butterfat from other source milk subtracted from Class I pursuant to § 1060.46(a)(4) and the corresponding step of § 1060.46(b); and

(f) Add an amount equal to the value at the Class I price adjusted for location of the nearest nonpool plant(s) from which an equivalent volume was received with respect to skim milk and butterfat subtracted from Class I pursuant to § 1060.46(a)(5) and the corresponding step of § 1060.46(b).

§ 1060.71 Computation of uniform price.

For each month the market administrator shall compute a uniform price as follows:

(a) Combine into one total the values computed pursuant to § 1060.70 for all handlers who filed reports pursuant to §§ 1060.35 and 1060.37(b) for the month and who made the payments pursuant to §§ 1060.80 and 1060.84 for the preceding month;

(b) Add or subtract for each one-tenth percent that the average butterfat content of milk represented by the values specified in paragraph (a) of this section is less or more, respectively, than 3.5

percent, the amount obtained by multiplying such difference by the butterfat differential pursuant to § 1060.81 and by multiplying the result by the total hundredweight of such milk;

(c) Add an amount equal to the total value of minus location differentials computed pursuant to § 1060.82(a);

(d) Subtract an amount equal to the total value of the plus location differentials computed pursuant to § 1060.82(a);

(e) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(f) Divide the resulting amount by the sum of the following for all handlers included in these computations;

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1060.70(f); and

(g) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

PAYMENTS

§ 1060.80 Time and method of payment.

Each handler shall make payment for milk received from producers or cooperative associations as follows:

(a) To each producer for whom payment is not made pursuant to paragraph (b) or (c) of this section:

(1) A final settlement on or before the 15th day after the end of each month during which producer milk was received, at not less than the uniform price for such milk, adjusted by the butterfat differential computed pursuant to § 1060.81, subject to the location adjustment to producers pursuant to § 1060.82, and less the following amounts:

(i) The payments made pursuant to subparagraph (2) of this paragraph;

(ii) Marketing service deductions pursuant to § 1060.87; and

(iii) Any deductions authorized by the producer: *Provided*, That if by such date such handler has not received full payment for such month pursuant to § 1060.85, he may reduce his total payment to all producers uniformly by not less than the amount of reduction in payment from the market administrator; the handler shall, however, complete such payments not later than the date for making such payments pursuant to this paragraph next following receipt of the balance from the market administrator;

(2) A partial payment on or before the last day of each month with respect to producer milk received during the first 15 days of the month at not less than the Class II price for the preceding month (without deduction for hauling);

(b) (1) On or before the second day prior to the date payments are due individual producers as specified in this section, pay to a cooperative association which so requests and which the market administrator determines is authorized by its members to collect payments for their milk and which promises in writing to reimburse the handler the amount of any actual loss incurred by him because of any member's claim on the part of the cooperative association of the payments pursuant to paragraph (a) of this section an amount equal to the sum of the individual payments otherwise payable to such producers. The foregoing payment shall be made with respect to milk of each producer whom the cooperative association certifies is a member effective on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association; and

(2) A copy of each such request, promise to reimburse, and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion through audit of the records of the cooperative association pertaining thereto.

Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination;

(c) To a cooperative association which is a handler pursuant to § 1060.10 (a) or (b) for milk which it caused to be delivered to such handler:

(1) A final settlement on or before the 13th day after the end of the month in which the skim milk or butterfat was received, an amount equal to not less than the applicable class prices for all skim milk and butterfat so delivered, less the amount of payment made pursuant to subparagraph (2) of this paragraph;

(2) A partial payment on or before the 26th day of each month at not less than the applicable Class II price for the preceding month (without deduction for hauling) for all skim milk and butterfat so delivered during the first 15 days of the current month;

(d) In making payments to producers pursuant to paragraph (a) of this section, each handler shall furnish each producer with a supporting statement in such form that it may be retained by the producer, which shall show:

(1) The month and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 1060.80, 1060.81, and 1060.82;

(4) The rate which is used in making payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (c) (2) of this section and § 1060.87, together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

§ 1060.81 Butterfat differential to producers.

The uniform price for producer milk shall be increased or decreased for each one-tenth of 1 percent that the butterfat content of such milk is above or below 3.5 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to Class I and Class II milk pursuant to § 1060.46 by the respective butterfat differential for each class, determined pursuant to § 1060.52, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth cent.

§ 1060.82 Location differentials to producers and on nonpool milk.

(a) For producer milk received at a pool plant or diverted to a nonpool plant located outside the base zone, the uniform price shall be adjusted at the rate set forth in § 1060.53.

(b) For purposes of computation pursuant to §§ 1060.84(b)(2) and 1060.85, the uniform price shall be adjusted at the rates set forth in § 1060.53 applicable at the location of the nonpool plant(s) from which the milk was received.

§ 1060.83 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all funds received pursuant to paragraph (a) of this section and out of which he shall make all payments required pursuant to paragraph (b) of this section:

(a) Payments made by handlers pursuant to § 1060.62 (a) and (b), and §§ 1060.84 and 1060.86;

(b) Payments due handlers pursuant to §§ 1060.85 and 1060.86: *Provided*, That payments due any handler shall be offset by payments due from such handler pursuant to §§ 1060.62, 1060.84, 1060.86, 1060.87, and 1060.88.

§ 1060.84 Payments to the producer-settlement fund.

On or before the 12th day after the end of the month each handler shall pay to the market administrator the amount, if any, by which the total amounts specified in paragraph (a) of this section exceed the amount specified in paragraph (b) of this section: *Provided*, That payment made by a cooperative association as a handler shall not relieve the transferee handler of any obligation on any such milk which is due the cooperative association, or otherwise due pursuant to §§ 1060.80 through 1060.88:

(a) The sum of:

(1) The total of the net pool obligation computed pursuant to § 1060.70 for such handlers; and

(2) In the case of a cooperative association which is a handler pursuant to § 1060.10(c), the minimum amounts due from other handlers pursuant to § 1060.80 (c) (2); and

(b) The sum of:

(1) The amount required to be paid producers (including payments to producers through cooperative associations) pursuant to § 1060.80 before deductions authorized by the producer or cooperative association or for marketing services pursuant to § 1060.87; and

(2) The value at the uniform price(s) applicable at the location of the plant(s) from which received (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1060.70(e).

§ 1060.85 Payments out of the producer-settlement fund.

On or before the 14th day after the end of each month the market administrator shall pay (subject to the proviso of § 1060.83) to each handler the amount if any by which the amount computed pursuant to § 1060.84(b) exceeds the amount computed pursuant to § 1060.84 (a). The market administrator shall offset any payment due any handler against payments due from such handler. If the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 1060.86 Adjustment of accounts.

(a) Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due the market administrator or any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of the amount due and payment therefor shall be made within 5 days if such amount is due the market administrator, or on or before the next date for making payments to producers or a cooperative association, if such amount is due them. Whenever such audit discloses errors resulting in moneys due such handler from the market administrator, payment shall be made within 5 days.

§ 1060.87 Marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to producers other than to himself pursuant to § 1060.80(a)(1) shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from producers during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of milk received from, and to provide market information to, such producers. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall, in lieu of the deductions specified in paragraph (a) of this section, make such deductions from the payments to be made directly to producers pursuant to § 1060.80(a)(1), as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association (of which such producers are members) rendering such services.

(c) When requested by the cooperative association a statement shall be supplied the cooperative association showing for each producer for whom such deduction is made the amount of such deduction, the total delivery of milk, and unless otherwise previously provided, the butterfat test.

§ 1060.88 Expense of administration.

As his pro rata share of the expense of the administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of each month four cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to skim milk and butterfat contained in:

(a) Producer milk (including a handler's own farm production);

(b) Other source milk allocated to Class I milk pursuant to § 1060.46(a) (4) and (8) and the corresponding steps in § 1060.46(b); and

(c) Class I milk disposed of in the marketing area from a partially regulated distributing plant that exceeds the hundredweight of Class I milk received during the month at such plant from pool plants and other order plants.

§ 1060.89 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The months during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producers or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the 2-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notified a handler, the said 2-year period, with respect to such obligation, shall not begin to run until the 1st day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1060.90 Effective time.

The provisions of this part, or any amendments hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 1060.91.

§ 1060.91 Suspension or termination.

The Secretary may suspend or terminate any or all of the provisions of this part after such reasonable notice as the Secretary shall give whenever he finds that it obstructs or does not tend to effectuate the declared policy of the Act. This part shall, in any event, terminate whenever the provisions of the Act authorizing it cease to be in effect.

§ 1060.92 Continuing obligations.

(a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator or such other person as the Secretary may designate shall (1) continue in such capacity until removed by the Secretary; (2)

from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and (3) If so directed by the Secretary, execute assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property and claims vested in the market administrator or such person pursuant thereto.

§ 1060.93 Liquidation.

Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such liquidating agent as the Secretary may designate shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1060.100 Agents.

The Secretary may, by designa... writing, name any officer or emp... the United States to act as his a... representative in connection with ... the provisions of this part.

§ 1060.101 Separability of provi...

If any provision of this part, or ... plication to any person or circum... is held invalid, the application o... provision, and of the remaining ... sions of this part, to other persons ... cumstances shall not be affected ... by.

LIST OF CFR SECTIONS AFFECTED

1949–1963

This volume contains a compilation of the "List of Sections Affected" for all titles of the Code of Federal Regulations for the years 1949 through 1963. All sections of the CFR which have been expressly affected by documents published in the daily Federal Register are enumerated.

Reference to this list will enable the user to find the precise text of CFR provisions which were in force and effect on any given date during the period covered.

FEDERAL REGISTER

Area Code 202 Phone 963-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue ($1.5 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1967, and specifies how they are affected.

Title 3—THE PRESIDENT

Proclamation 3802

NATIONAL EMPLOY THE PHYSICALLY HANDICAPPED WEEK, 1967

By the President of the United States of America

A Proclamation

Millions of American families know, firsthand, the painful and frustrating limitations of physical disability.

Those handicaps, cruel as they are, need not be totally disabling. Our society should not be deprived of the skills and talents of disabled men and women. Many of those men and women have a remarkable capacity for achievement despite their disability.

It is part of America's promise that every citizen should have the opportunity to escape from perpetual dependence, make the most of his capacities, and take a full part in community life.

Government and private organizations have long worked to reduce the consequences of disability. Research, health conservation programs, and medical and rehabilitation facilities have all combined to lessen the residual damage of disease and injury.

The Federal Government is assisting States and communities in training the handicapped for jobs in a continually changing job market. It offers leadership to business and industry to increase the range of job opportunities for the handicapped. It encourages voluntary organizations to create the necessary climate of acceptance for the full admission of the handicapped into the mainstream of everyday life.

Yet pockets of prejudice still exist, particularly against certain categories of the more severely disabled.

We must continue to educate our citizens—employers and workers, healthy and handicapped—about the benefits of developing and using every person's skills.

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America, in consonance with the joint resolution of Congress approved August 11, 1945 (59 Stat. 530), designating the first full week of October of each year as National Employ the Physically Handicapped Week, do hereby call upon the people of our Nation to observe the week beginning October 1, 1967, for such purpose.

During this 20th anniversary year of the President's Committee on Employment of the Handicapped, I urge all public and private organizations and all citizens to renew their dedication to this volunteer effort to further job opportunities for the handicapped. Let us work together for their meaningful participation in the world of work, and in a life of dignity.

I urge all the Governors of States, mayors of cities, and other public officials, as well as leaders of industry, educational and religious groups, labor, civic, veterans', agricultural, women's, scientific, professional, and fraternal organizations, and all other interested organizations and individuals, including the handicapped themselves, to participate in this observance.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-eighth day of August in the year of our Lord nineteen hundred and sixty-seven, and of the Independence of the United States of America the one hundred and ninety-second.

[F.R. Doc. 67-10258; Filed, Aug. 29, 1967; 9:50 a.m.]

Executive Order 11368

MODIFYING RATES OF INTEREST EQUALIZATION TAX AND AMENDING EXECUTIVE ORDER NO. 11211

WHEREAS section 4911(b)(3) of the Internal Revenue Code of 1954 fixes the rates of the interest equalization tax generally applicable in the case of acquisitions of stock and debt obligations made after January 25, 1967 and before August 30, 1967 at approximately 150 percent of the rates set forth in section 4911(b)(1) of the Code; and

WHEREAS the rates set forth in section 4911(b)(1) of the Internal Revenue Code of 1954 would, in the absence of a determination made by the President under section 4911(b)(2), be generally applicable in the case of acquisitions made on or after August 30, 1967; and

WHEREAS I have determined that the rates of tax prescribed in section 4911(b)(1) of the Internal Revenue Code of 1954 are lower than the rates of tax necessary to limit the total acquisitions by United States persons of stock of foreign issuers and debt obligations of foreign obligors within a range consistent with the balance-of-payments objectives of the United States; and

WHEREAS it is now appropriate that Executive Order No. 11211,[1] dated April 2, 1965 (effective April 5, 1965), relating to the exclusion from the interest equalization tax for original or new Japanese issues as required for international monetary stability, be modified;

NOW, THEREFORE, by virtue of the authority vested in me by sections 4911(b)(2) and 4917(a) of the Internal Revenue Code of 1954, by section 301 of title 3 of the United States Code, and as President of the United States, it is hereby ordered as follows:

SECTION 1. *Rates of Tax.*

(a) *Rates applicable to acquisitions of stock.* The tax imposed by section 4911 of the Internal Revenue Code of 1954 on the acquisition of stock shall be equal to 18.75 percent of the actual value of the stock.

(b) *Rates applicable to acquisitions of debt obligations.* The tax imposed by section 4911 of the Internal Revenue Code of 1954 on the acquisition of a debt obligation shall be equal to a percentage of the actual value of the debt obligation measured by the period remaining to its maturity and determined in accordance with the following table:

If the period remaining to maturity is:	The tax, as a percentage of actual value, is:
At least 1 year, but less than 1¼ years	1.31 percent
At least 1¼ years, but less than 1½ years	1.63 percent
At least 1½ years, but less than 1¾ years	1.88 percent
At least 1¾ years, but less than 2¼ years	2.31 percent
At least 2¼ years, but less than 2¾ years	2.88 percent
At least 2¾ years, but less than 3½ years	3.44 percent
At least 3½ years, but less than 4½ years	4.44 percent
At least 4½ years, but less than 5½ years	5.44 percent
At least 5½ years, but less than 6½ years	6.38 percent
At least 6½ years, but less than 7½ years	7.25 percent
At least 7½ years, but less than 8½ years	8.13 percent
At least 8½ years, but less than 9½ years	8.88 percent
At least 9½ years, but less than 10½ years	9.63 percent
At least 10½ years, but less than 11½ years	10.38 percent
At least 11½ years, but less than 13½ years	11.88 percent
At least 13½ years, but less than 16½ years	12.88 percent
At least 16½ years, but less than 18½ years	14.19 percent
At least 18½ years, but less than 21½ years	15.31 percent
At least 21½ years, but less than 23½ years	16.31 percent
At least 23½ years, but less than 26½ years	17.19 percent
At least 26½ years, but less than 28½ years	17.94 percent
28½ years or more	18.75 percent

[1] 3 CFR, 1964–1965 Comp., p. 296; 30 F.R. 4385.

SEC. 2. *Authority of Secretary of Treasury.* The Secretary of the Treasury or his delegate is authorized to prescribe from time to time such regulations, rulings, directions, and instructions (not inconsistent with the provisions of section 4911 of the Internal Revenue Code of 1954) as he shall deem necessary to carry out the purposes of section 1 of this order.

SEC. 3. *Amendment to Executive Order No. 11211.* Executive Order No. 11211 of April 2, 1965, is amended as follows:

(a) by striking out so much of the text of section 1 as precedes subsection (a) and inserting in lieu thereof, "The tax imposed by section 4911 of the Internal Revenue Code of 1954 shall not apply to an acquisition by a United States person of a debt obligation (as defined in section 4920(a)(1) of the Code) repayable exclusively in United States currency which is (i) issued or guaranteed as to payment of principal and interest by the Government of Japan, or (ii) issued, with the prior approval of the Government of Japan, by a corporation organized under the laws of Japan which is neither a company regulated under the Investment Company Act of 1940 (54 Stat. 847; 15 U.S.C. 80a-1 to 80a-52) nor formed or availed of for the principal purpose of acquiring stock or debt obligations of a Japanese or other foreign issuer or obligor, other than stock or debt obligations described in section 4916(a) of the Code, provided that—"

(b) by inserting after section 1 the following new section—

"Section 1A. The tax imposed by section 4911 of the Internal Revenue Code of 1954 shall not apply to an acquisition by a United States person of stock acquired pursuant to the exercise of a right (without the payment of additional consideration) to convert into stock, a debt obligation which was acquired under the exemption created by section 1, provided that—

"(a) such debt obligation had never been acquired by a person other than a United States person; and

"(b) such stock is acquired as all or part of an original or new issue as to which there is filed such notice of acquisition as the Secretary of the Treasury or his delegate may prescribe by regulation."

SEC. 4. *Effective Date.* Sections 1 and 2 of this order shall be effective with respect to acquisitions of stock of foreign issuers and debt obligations of foreign obligors made after August 29, 1967, other than acquisitions described in paragraphs (2) and (4) of section 3(c) of the Interest Equalization Tax Extension Act of 1967. Section 3 of this order shall be effective with respect to acquisitions made after November 1, 1967.

THE WHITE HOUSE,
August 28, 1967.

[F.R. Doc. 67-10259; Filed, Aug. 29, 1967; 9:50 a.m.]

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 610—HOURS OF DUTY

Standards

Section 610.305 is amended by adding paragraph (d) to allow the issuance of an administrative order excusing certain wage board employees from duty without charge to leave or loss of pay under circumstances in which employees paid on an annual basis would be so excused.

§ 610.305 Standards.

An administrative order may be issued under this subpart when:

* * * * *

(d) The circumstances are such that an administrative order under paragraph (a), (b), or (c) of this section is not appropriate and the department or agency under its regulations excuses, or is authorized to excuse, without charge to leave or loss of compensation, employees paid on an annual basis.

(5 U.S.C. 6104; E.O. 10562, 19 F.R. 8079, 3 CFR 1954–1958 Comp., p. 201)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment, Department of Agriculture)

SUBCHAPTER C—SPECIAL PROGRAMS

[Amdt. 5]

PART 777—PROCESSOR WHEAT MARKETING CERTIFICATE REGULATIONS

Miscellaneous Amendments

The following amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (see secs. 379a to 379j, 52 Stat. 31, as amended, 7 U.S.C. 1379a to 1379j), to provide a change to the Republication of the Processor Wheat Marketing Certificate Regulations (31 F.R. 13502). The amendment contains substantially the same provisions as included in a notice of proposed rule making published in the FEDERAL REGISTER pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U.S.C. 553) on August 10, 1967, in which the public was invited to provide its views and suggestions within a 15-day period. No written comments or suggestions have been received as a result of this notice. However, in view of the limited time between the date the proposed rule making was published with a proposed effective date of September 1, 1967, and such date, the effective date has been changed to October 1, 1967.

Since these provisions must be acted on immediately or are needed immediately in the administration of the regulations, it is hereby found and determined that compliance with the 30-day effective date requirements of section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U.S.C. 553) is impracticable and contrary to the public interest and that this amendment shall be effective on the effective date provided below.

This amendment requires processors to make remittance for purchase of marketing certificates to a Federal Reserve Bank or Branch Bank, if the Commodity Office has not requested that the remittance be made directly to that office. This change is being made to expedite the deposit of Government funds.

The Republication of the Processor Wheat Marketing Certificate Regulations is amended as follows:

The amendment would read as follows:

1. Section 777.3(y) is added to read as follows:

§ 777.3 Definitions.

* * * * *

(y) "Federal Reserve Bank" or "FRB" means the Federal Reserve Bank or Branch which serves the area in which the processor's remitting office is located or such other Federal Reserve Bank or Branch as is designated by the Kansas City Commodity Office. (See listing of banks in Appendix VI.)

§ 777.10 [Amended]

2. Section 777.10(b) is amended to read as follows:

(b) *Sale by CCC.* CCC will sell certificates to food processors and others who offer to purchase certificates from CCC and who pay to CCC the face value of the certificates plus such interest as may be required by the regulations of this part. Offers to purchase certificates for wheat processed in a specific processing report period may be made by submission of a processing report as provided in § 777.12, with a remittance payable to Commodity Credit Corporation for the cost of the certificates, or by submission of the remittance with advice that it is for purchase of wheat marketing certificates and identification of the processor number of the plant and the processing period. Offers to purchase certificates not applicable to a specific processing period shall be made by submission of a remittance with advice that it is for purchase of CCC–148, Wheat Marketing Certificates, and the name and address of the payee to be shown on the certificates. All offers to purchase certificates and related remittances shall be made to the FRB unless the Commodity Office has requested that the remittances be sent to that office. Payment for certificates shall be deemed to have been made when payment is received at the FRB or the Commodity Office, except that if the due date for payment without interest falls on a Saturday, Sunday, holiday, or other nonwork day of the FRB or Commodity Office, and payment is received on the next succeeding work day, it shall be deemed to have been received on the due date. Form CCC–145 will be issued for certificates sold by CCC, except that when certificates are purchased for wheat processed in a specific processing report period, CCC will establish a credit in favor of the food processor for the amount of the certificates purchased in lieu of issuing Form CCC–145.

3. Section 777.10(d) is amended by striking out the third sentence.

§ 777.12 [Amended]

4. Section 777.12(a) is amended to read as follows:

(a) *General.* Processing reports shall be submitted by each food processor as defined in § 777.3(f). Descriptions of the processing reports are set forth in §§ 777.13 and 777.14 and detailed instructions are provided in Appendices II and III. Processing reports which are accompanied by remittances for purchase of certificates shall be submitted to the FRB unless the Commodity Office has requested that the remittance be made directly to that office. Processing reports not accompanied by remittances shall be submitted to the Commodity Office. Addresses of FRB's are listed in Appendix VI.

5. Section 777.12(c) is amended by striking out the second sentence, and by adding at the end thereof the following: "If the due date of a report falls on a Saturday, Sunday, holiday, or other nonwork day of the FRB or Commodity Office, and the report is received on the next succeeding workday, it shall be deemed to have been submitted on the due date."

6. Section 777.12(g) is amended to read as follows:

(g) *Corrected processing reports.* If it is found that an incorrect processing report has been submitted, the food processor shall promptly prepare and submit a corrected processing report with the applicable beginning and ending dates for the period involved indicated thereon. A consolidated corrected report may, with the approval of the Director,

be submitted to cover more than one processing report period. Such report shall be identified as a "Corrected Report" and transmitted with a letter of explanation. If the processor is entitled to a certificate refund, he shall submit the corrected report to the Kansas City Commodity Office and indicate whether the amount of the refund should be paid to him or held for application to a subsequent report. If the processor is required to purchase additional certificates, he shall submit the corrected report together with his remittance for such certificates to the FRB, unless the Commodity Office requests that it be submitted directly to that office. If such certificates are surrendered to CCC later than the 15th calendar day after the close of the processing report period in which the wheat was processed into the food products, the cost of any certificates acquired from CCC shall be the face value thereof plus interest at the rate of six percent per annum starting on the 16th calendar day after the close of the processing report period until the date of surrender of the certificates. Any food processor, who has made an incorrect processing report, corrected such report as provided in this section, and surrendered any additional certificates due with the corrected report, will not be subject to the forfeitures referred to in § 777.8 to the extent that the Administrator determines that the error in the report was due to an honest mistake and was not intentional or the result of gross negligence.

§ 777.15 [Amended]

7. Section 777.15 is amended by changing (b) of the first sentence to read as follows: "(b) to support all reports required by the regulations in this part."

8. Appendix II is amended by changing the first sentence to read as follows:

Food processors reporting on the weight of wheat basis shall submit an original and one copy of Processing Report-Weight of Wheat Basis, Form CCC-160, as set forth in § 777.12(a).

9. Appendix III is amended by changing the first sentence to read as follows:

Food processors reporting on a food product conversion factor basis shall submit an original and one copy of the Processing Report-Conversion Factor Basis, Form CCC-159, as set forth in § 777.12(a).

10. Appendix VI is added as follows:

APPENDIX VI—LIST OF FEDERAL RESERVE BANKS AND BRANCHES

Federal Reserve Bank	Address

Effective date. This amendment shall be effective with respect to remittances made beginning on October 1, 1967.

Signed at Washington, D.C., on August 24, 1967.

E. A. JAENKE,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 67-10147; Filed, Aug. 29, 1967; 8:47 a.m.]

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER E—DETERMINATION OF SUGAR COMMERCIALLY RECOVERABLE

[§ 831.4, Rev. 1, Supp. 4]

PART 831—BEET SUGAR AREA

Rates of Recoverability; 1967 Crop

Section 831.14 is added to read as follows:

§ 831.14 Rates of recoverability, 1967 crop.

The hundredweight of sugar, raw value, commercially recoverable from sugar beets of the 1967 crop shall be computed by multiplying the net weight thereof in tons, at the time of delivery to a processor, by the rate of commercially recoverable sugar which is applicable under the following provisions of this section:

(a) For sugar beets marketed within a settlement area under any type of agreement other than an "individual test" or a "combined individual-cossette test" contract, the rate of commercially recoverable sugar per ton of beets with respect to each settlement area is established as follows:

Settlement area by factories in States	1965-66 average sugar content	Rate of commercially recoverable sugar
	Percent	*Hundredweight*
Idaho, Oregon:		
Idaho Falls	15.94	2.911
Rupert (Mini-Cassia), Twin Falls	16.41	2.996
Utah:		
Lewiston (Ogden)	15.65	2.860
Minnesota, Iowa, North Dakota:		
East Grand Forks, Moorhead, Crookston, Drayton	14.67	2.681
Chaska, Mason City	14.79	2.703
Great Lake States:		
Bay City	15.09	2.756
Illinois	14.46	2.640
Ottawa	15.17	2.770

(b) For sugar beets marketed under "individual test" contracts, and for those sugar beets marketed for processing by the Empire State Sugar Co., Inc. of New York, the rate of commercially recoverable sugar per ton of beets shall be computed by multiplying 20 hundredweight by the percentage of sugar content of such beets, and then multiplying the result by 87.5 percent (the average extraction rate, as adjusted for shrink, (effective for such beets). This computation can be shortened by the use of the factor of 0.1750. As an example, a content of 16.37 when multiplied by 0.1750 would result in a rate of commercially recoverable sugar of 2.868 hundredweight.

(c) For sugar beets marketed under "combined individual-cossette test" contracts, other than those sugar beets marketed for processing by the Empire State Sugar Co., Inc. of New York, the rate of commercially recoverable sugar per ton of beets for a producer shall be computed by multiplying 20 hundredweight by the adjusted percentage of sugar content of the beets delivered by such producer and then multiplying the result by 91.3 percent (the average extraction rate effective for such beets). This computation can be shortened by the use of the factor of 0.1826. As an example, an adjusted content of 16.27 would result in a rate of commercially recoverable sugar of 2.969 hundredweight. The adjusted percentage of sugar content for each producer shall be obtained by multiplying the weighted average percentage of sugar content of the beets delivered by him by a factor the numerator of which shall be the appropriate factor cossette test average set forth below and the denominator of which shall be the weighted average sugar content of all beets delivered to the factory at such time as the Agricultural Stabilization and Conservation State Committee determines that at least 97 percent of the current crop of beets has been delivered to such factory.

Settlement areas by factories in States	1965-66 average sugar content (Percent)
Idaho, Oregon, Washington:	
Nyssa-Nampa	15.16
Toppenish, Moses Lake	15.20
Utah:	
Centerfield	15.86
Garland	15.73
Layton	15.75
West Jordan	15.96
Wyoming, Montana:	
Worland	16.01
Hardin	16.17
Sidney	15.94
Billings-Lovell	16.36
Great Lakes States:	
Alma	15.86
Caro	15.61
Carrollton	14.80
Croswell	15.10
Sebewaing	15.49

Statement of bases and considerations. Section 831.4 (29 F.R. 11824) provides the method of determining and establishing amounts of sugar commercially recoverable from sugarbeets and provides that the rates shall become effective when public notice thereof is given in the FEDERAL REGISTER.

Pursuant to that regulation, this supplement sets forth the rates of recoverability as determined for the 1967 crop. Definitive rates are specified for the various settlement areas wherein sugar beets are marketed under "cossette test" contracts. Within these areas, the rates give effect to 1965-66 average percentages of sugar content and the 1961-65 national average extraction rate of beet sugar, raw value, of 91.3 percent.

In lieu of an extensive table of definitive rates applicable to sugar beets of various percentages of sugar content as marketed under "individual test" contracts, this supplement provides that the rate of recoverability per ton of beets of any given percentage of sugar content so marketed may be computed by multiplying such content by the factor of 0.1750. This factor gives effect to the average rate of extraction of sugar, raw value, of 87.5 percent, as applicable to individual test beets. Listings of the applicable rates (expressed in hundredths) will be available for inspection at ASCS county offices in sugar-beet producing counties. Similarly, for beets marketed under "combined individual-cossette test" contracts, a factor of 0.1826 may be used to give effect to the average extraction rate of 91.3 percent. The difference between 91.3 and 87.5 percent represents the average "shrink" in percentage of sugar content between the time of delivery and the time of processing for all beets of the crops of 1961-65 marketed under individual test contracts. The lower percentage is not specified for beets marketed under combined individual-cossette tests because the results of such tests include adjustments to the cossette basis.

The percentages of 91.3 and 87.5, as determined herein for the 1967 crop, compare with percentages of 91.9 and 87.9 for the 1966 crop.

When the "combined individual-cossette test" contract was first adopted, the sugar content of each producer's beets was adjusted by a factor. This factor was computed by dividing the factory cossette test average for the current year by the weighted average sugar content of all beets delivered to the factory for the same crop determined by individual tests. Objections were raised by some producers over the delay in Sugar Act payments because a grower's adjusted percentage of sugar content could be determined only after all sugar beets delivered to the factory were processed and the factory cossette test computed for the current year. For the 1963 crop, partial payments were made in one settlement area to alleviate the delay. To avoid costs involved in making of payments on a "partial" basis, the revised determination applicable to the 1964 and subsequent crops (29 F.R. 11824) provides that the 7-year factory cossette test average be substituted for the current year's factory cossette test average in calculating the factor to be applied to individual growers' sugar content. Thus, the factor can be computed and payments can begin before all of the current crop are processed.

Because the factory in New York has only 2 years of past production, that area will be considered as an "individual test" area, even though the sugar beets are marketed to that factory under a "combined individual-cossette test" contract.

Accordingly, I hereby find and conclude that the foregoing determination will effectuate the applicable provisions of the Act.

(Sec. 403, 61 Stat. 932; 7 U.S.C., secs. 902, 903, 904, 61 Stat. 930, as amended; 5 U.S.C. 1132, 1133, 1134)

Effective date: Date of publication.

Signed at Washington, D.C., on August 25, 1967.

CHARLES L. PARKER,
Acting Deputy Administrator, State and County Operations.

SUBCHAPTER G—DETERMINATION OF PROPORTIONATE SHARES

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

Proportionate Shares for Farms for the 1968 Crop of Sugar Beets Not Required

The following determination is issued pursuant to section 302 of the Sugar Act of 1948, as amended.

§ 850.212 Proportionate shares for the 1968 crop of sugar beets not required.

It is hereby determined that proportionate shares for farms will not be established in the Domestic Beet Sugar Area for the 1968 crop of sugar beets. This determination has been made on the bases and considerations set forth in the following statement.

STATEMENT OF BASES AND CONSIDERATIONS

Under the provisions of the Sugar Act, the Secretary is required to determine for each crop of sugar beets whether the production of sugar therefrom will, in the absence of proportionate shares, be greater than the quantity needed to enable the area to meet its quota and provide a normal carryover inventory, as estimated by the Secretary for the area for the calendar year during which the larger part of the sugar from such crop normally would be marketed. The foregoing determination may be made for a crop only after notice and opportunity for an informal public hearing. If the Secretary determines that the production of sugar from any crop of sugar beets will, in the absence of proportionate shares, be in excess of the quantity needed to enable the area to meet its quota and provide a normal carryover inventory, he is required to establish proportionate shares for farms in the area in accordance with the pertinent provisions of the Act.

General. For the 1968 crop of sugar beets, the national acreage requirement was established at 1,435,000 acres, an increase of 60,000 acres over the previous year's national requirement. This acreage level was recommended by a majority of the growers and processors with the view of providing an effective inventory on January 1, 1967, at the midpoint of the range (82 to 90 percent of the following year's estimated quota) indicated by the Congress as the appropriate range when the quota for the area was increased

in 1966.[1] Despite the increase in the national requirement, 1966-crop plantings were about 70,000 acres below those for the previous crop. Latest estimates indicate that sugar production for that crop was or will be about 160,000 tons less than 1966 calendar year marketings. Thus, the effective inventory on January 1, 1967, was reduced an equivalent quantity below that of a year earlier and represented about 74 percent of this year's quota for the area, as contrasted with 84 percent a year earlier.

Proportionate shares were not established for the 1967 crop. Recent information from beet sugar companies indicates that plantings will approximate 1,210,000 acres. If this acreage is utilized for beets and the yield of sugar per planted acre is the same as that indicated for 1966 (2.326 tons), about 2,815,000 tons of sugar would be produced. This would be over 400,000 tons less than this year's quota (3,218,667 tons) for the area. Assuming that the area will market its full quota in 1967, the resultant effective inventory on January 1, 1968, would approximate 1,978,000 tons or about 61.5 percent of such quota.

Informal public hearing. At a public hearing in San Francisco, Calif., on July 18, 1967, views and recommendations were requested on the need for establishing proportionate shares for the 1968 crop. In the notice of hearing, it was pointed out that any oral or written views proposing that proportionate shares be established should include recommendations as to level of the national acreage requirement and the details of a program.

The spokesman for about 97 percent of the beetgrowers in the country recommended that proportionate shares not be established for the 1968 crop, in view of the probable (low) effective inventory of beet sugar on January 1, 1968. He observed that, generally, sugar beet growers prefer governmental handling of acreage allocations, but that they could not advocate proportionate shares under present conditions. Several briefs were received from individual grower associations for whom the witness spoke supporting this position.

The representative of one producing area expressed interest in expanded acreage and, essentially, wanted to be assured of authority to market the sugar produced therefrom. He also recommended that proportionate shares not be established for the 1968 crop of sugar beets.

No recommendations were received from growers in two States where production of sugar beets began in 1966 or from the growers in one old-producing locality. The growers in these localities represent about 3 percent of the total beetgrowers in the Domestic Beet Sugar Producing Area.

As for the 1967 crop, a major farm organization recommended that proportionate shares be established for 1968. In their presentation they pointed out, among other things, that (1) the 1967 sugar beet planting experience demonstrates that removal of proportionate shares is not effective as a means of obtaining increased acreages, (2) production management can best be achieved by continuity of proportionate shares coupled with appropriate increases in prices to producers and (3) the maintenance of a reasonable balance between beet sugar production and quota requirements is essential if prices profitable to growers are to be attained. Along with the recommendation that shares be established, it was suggested that (a) the national requirement be established at 1,586,000 acres, (b) planted acreage records for the years of 1963, 1964, and 1965 be used to establish shares and (c) 3 percent of each State acreage allocation be set aside to meet new producer needs and for adjustments, including those to alleviate hardships.

The spokesman for all of the sugar beet processors recommended that proportionate shares not be established in light of low 1967 plantings and the small effective inventory likely to prevail on January 1, 1968. He emphasized the need for all-out production effort in 1968 to bring inventories of beet sugar more in line with the level contemplated by the 1965 amendments to the Sugar Act.

Determination. This determination provides that proportionate shares will not be establisehd for farms in the Domestic Beet Sugar Area for the 1968 crop of sugar beets.

The effective inventory of beet sugar on January 1, 1967, was about 2,378,000 tons. Although the 1967 crop is unrestricted, it is estimated that the effective inventory on January 1, 1968, will be lower than a year earlier by at least 400,000 tons if this year's quota is fully marketed. An effective inventory of only 1,978,000 tons would represent about 61.5 percent of the area's 1968 marketing opportunities if they are the same as this year's. This would be almost 800,000 tons below the midpoint of the range indicated as appropriate by the Congress when the act was extended in 1965.

If the effective inventory on January 1, 1969, is to be built up to the midpoint of the appropriate range, increased plantings are necessary in 1968. In fact, using average yields of sugar per planted acre realized for the crops of 1963 through 1966, a total of 1,740,000 acres would be needed. This would be well in excess of the largest acreage achieved in the past. The processing of the beets from this acreage would require near capacity, if not capacity operations at existing facilities.

The interest in sugar beets has varied considerably between States and within States during the past few years. In both 1965 and 1966, growers in some States fully utilized their proportionate shares and would have planted additional acreages, if available. In some other States, notably in 1966, farmers fell far short of utilizing their acreages. Indications are that 1967 plantings in some of these latter States are considerably below those in 1966. In a few States, farmer interest exceeds the acreage that processors can contract within their factory capacities. Establishment of proportionate shares and State allocations with due recognition of the statutory criteria of past production and ability to produce would deprive farmers in States where the interest in sugar beets is most intense of the opportunity of planting the acreage they desire. In addition, the time-consuming process of reallocating acreage from growers who do not wish to use all of their entitlement to others under a proportionate share program would infringe upon the opportunity of some growers to plant the acreage they desire even in States where interest is not great.

After a careful review of all the testimony and briefs submitted and of the latest information available, it is hereby determined that the production of sugar from the 1968 crop of sugar beets in the Domestic Beet Sugar Area, in the absence of proportionate shares, will not be greater than the quantity needed to enable the area to meet its quota and provide a normal carryover inventory.

The Department anticipates that processors will offer contracts containing fair terms to all old growers willing to grow beets with an expectation of reasonably economic returns.

Accordingly, I hereby find and conclude that the foregoing determination will effectuate the applicable provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153; secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U.S.C. 1131, 1132)

Effective date: Date of publication.

Signed at Washington, D.C., on August 23, 1967.

ORVILLE L. FREEMAN,
Secretary.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 281, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b)(1)(ii) of § 910.581 (Lemon Regulation 281; 32 F.R. 11984) are hereby amended to read as follows:

§ 910.581 Lemon Regulation 281.

* * * * *

(b) *Order.* (1) * * *

(ii) District 2: 265,050 cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 25, 1967.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

PART 953—IRISH POTATOES GROWN IN SOUTHEASTERN STATES

Expenses and Rate of Assessment

Notice of rule making regarding the proposed expenses and rate of assessment, to be effective under Marketing Agreement No. 104 and Order No. 953 (7 CFR Part 953), regulating the handling of Irish potatoes grown in certain designated counties of Virginia and North Carolina was published in the FEDERAL REGISTER July 26, 1967 (32 F.R. 11037). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons an opportunity to submit written data, views, or arguments pertaining thereto not later than 15 days following publication in the FEDERAL REGISTER. None was filed.

After consideration of all relevant matters, including the proposals set forth in the aforesaid notice which were recommended by the Southeastern Potato Committee, established pursuant to said marketing agreement and this part, it is hereby found and determined that:

§ 953.204 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred by the Southeastern Potato Committee, established pursuant to Marketing Agreement No. 104 and Order No. 953 to enable such committee to perform its functions pursuant to the provisions of the aforesaid agreement and order during the fiscal period ending October 31, 1967, will amount to $3,000.00.

(b) There shall be no assessments charged during said fiscal period.

(c) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 104 and this part.

(Sec. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 25, 1967.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Order Amending Order, as Amended, Regulating Handling

Correction

In F.R. Doc. 67-9987, appearing in the issue for Thursday, August 24, 1967, at page 12157, make the following changes:

1. In § 989.9(c), preceding the last sentence, add the sentence "No advanced preparation by handlers will be necessary to comply with the amended order."

2. a. On page 12158, second column, in the paragraph that begins "*It is, therefore, ordered,*" delete the words "all raisins held for the account of the committee as surplus tonnage raisins shall be redesignated as reserve tonnage raisins and".

b. In the same paragraph, change the colon at the end of the paragraph to a semicolon and add the words, "and pursuant thereto, all raisins held for the account of the committee as surplus tonnage raisins, including carryover from crops prior to 1967, are redesignated as reserve tonnage raisins:".

3. In § 989.54(c), line 3, delete the word "such".

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 7788; Amdts. 45-4, 47-4]

PART 45—IDENTIFICATION AND REGISTRATION MARKING

PART 47—AIRCRAFT REGISTRATION

Three-Digit and Temporary Registration Numbers

These amendments to Parts 45 and 47 provide specifically for the use of temporary registration numbers, sometimes called "fly-away" numbers. This action is taken on the basis of Notice 66-40 that was published in the FEDERAL REGISTER on November 18, 1966 (31 F.R. 14696).

Notice 66-40 proposed to provide specifically for the use of "fly-away" numbers, and to reserve three-digit aircraft identification numbers for use on FAA aircraft and as "fly-away" numbers.

The comments generally favored the portion of the proposed amendment that specifically provided for the use of "fly-away" numbers. In finalizing the amendment, those provisions were placed in a new section, § 47.31, for editorial reasons. This new section also includes, in paragraph (a), a general description of "fly-away" numbers.

Two comments were received that opposed the proposed requirements that no "fly-away" number could be assigned to, or displayed on, more than one aircraft at the same time and that records of each assignment of such a number to an aircraft be kept for 1 year. It was contended that adoption of these proposals would cause an economic and administrative hardship on aircraft manufacturers and it was therefore requested that the existing system of issuing only one "fly-away" number to each manufacturer or aircraft dealer be retained.

Under the present practice, several aircraft of a given manufacturer are identified on delivery flights by the same identification number but the radio call number used consists of that number plus the last two digits of the aircraft serial number. Since there can be several aircraft in flight at the same time with the same identification number, it is possible that a duplication of aircraft radio call numbers could occur. Because of this, the agency has determined that the proposal requiring a different "fly-away" number for each aircraft in flight is necessary to insure safety, and therefore that portion of the proposal is adopted as proposed in the notice. Upon further consideration it appears that the record-keeping requirements contained in the notice are unnecessary for the use of "fly-away" numbers on purely domestic flights since the records normally kept by manufacturers and dealers will provide sufficient documentation. However, the records required in the notice are considered necessary for nondomestic flights with "fly-away" numbers which are being authorized for the first time by this amendment. Therefore, the holders of "fly-away" numbers will be required to keep a record, for FAA inspection, of the assignment of each number to an aircraft on flights for delivery outside the United States. For these nondomestic flights the airworthiness certificate and the Dealer's Aircraft Registration Certificate, both carried in the aircraft, will furnish documentation as complete as a regular certificate of aircraft registration. Section 47.16(d) reflects these changes.

The intent of Notice 66-40 was to provide for the assignment of fly-away numbers only in connection with Dealer's Aircraft Registration Certificates, and the proposed notice so provided. To avoid the possibility of any confusion as to this intent, a sentence has been added to § 47.16(d) to specifically state the rule (inherent in Notice 66-40) that the assignment of any fly-away numbers to a person automatically lapses upon the expiration of all of that person's Dealer's Aircraft Registration Certificates. The provision limiting the fly-away numbers assigned to any person to those "necessary for his business" means, of course, that as many may be assigned as are reasonably needed for the conduct of the activities specified in § 47.61. Finally, the scope of the permitted use of these numbers has been stated more explicitly in § 47.16(e).

A number of comments opposed any limitation on the issuance of one to three symbol numbers. Several of these comments also contended that there would be no useful purpose served by specifically issuing one to three symbol numbers to "fly-away" users. In response to these comments, the FAA has determined that five symbol numbers can be acceptably used as "fly-away" numbers. In addition, further study of the rules governing the issuance of one to three symbol numbers is considered necessary. Therefore, the portion of Notice 66-40 that relates to one to three symbol numbers is being withdrawn pending further study.

The current acceptable procedure for the use of identification marks for export aircraft is contained in section 1.100-1 of the Civil Aeronautics Manual, as confirmed in effect by Advisory Circular 20-33, dated February 9, 1965. This procedure is superseded by this amendment.

In consideration of the foregoing, Parts 45 and 47 are amended, effective September 29, 1967, as follows:

1. The parenthetical clause of § 45.21 (b) (1) is amended to read as follows:

§ 45.21 General.

* * * * *

(b) * * *

(1) * * * (except that on aircraft intended for immediate delivery to a foreign purchaser or bearing a temporary registration number, the marks may be affixed with readily removable material).

* * * * *

2. The second sentence of § 47.15(a) is amended to read as follows:

§ 47.15 Identification number.

(a) * * * This paragraph does not apply to an aircraft manufacturer who applies for a group of U.S. identification numbers under paragraph (c) of this section; a person who applies for a special identification number under paragraphs (d) through (g) of this section; or a holder of a Dealer's Aircraft Registration Certificate who applies for a temporary registration number under § 47.16. * * *

* * * * *

3. The following new section is added after § 47.15:

§ 47.16 Temporary registration numbers.

(a) Temporary registration numbers are issued by the FAA to manufacturers, distributors, and dealers who are holders of Dealer's Aircraft Registration Certificates for temporary display on aircraft during flight allowed under Subpart C of this part.

(b) The holder of a Dealer's Aircraft Registration Certificate may apply to the FAA Aircraft Registry for as many temporary registration numbers as are necessary for his business. The application must be in writing and include—

(1) Sufficient information to justify the need for the temporary registration numbers requested; and

(2) The number of each Dealer's Aircraft Registration Certificate held by the applicant.

There is no charge for these numbers.

(c) The use of temporary registration numbers is subject to the following conditions:

(1) The numbers may be used and reused—

(i) Only in connection with the holder's Dealer's Aircraft Registration Certificate;

(ii) Within the limitations of § 47.69 where applicable, including the requirements of § 47.67; and

(iii) On aircraft not registered under Subpart B of this part or in a foreign country, and not displaying any other identification markings.

(2) A temporary registration number may not be used on more than one aircraft in flight at the same time.

(3) Temporary registration numbers may not be used to fly aircraft into the United States for the purpose of importation.

(d) The assignment of any temporary registration number to any person lapses upon the expiration of all of his Dealer's Aircraft Registration Certificates. When a temporary registration number is used on a flight outside the United States for delivery purposes, the holder shall record the assignment of that number to the aircraft and shall keep that record for at least 1 year after the removal of the number from that aircraft. Whenever the owner of an aircraft bearing a temporary registration number applies for an airworthiness certificate under Part 21 of this chapter he shall furnish that number in the application. The temporary registration number must be removed from the aircraft not later than the date on which either title or possession passes to another person.

4. Section 47.69(b) is amended to read as follows:

§ 47.69 Limitations.

* * * * *

(b) Within the United States, except when used to deliver to a foreign purchaser an aircraft displaying a temporary registration number and carrying an airworthiness certificate on which that number is written;

* * * * *

(Secs. 307(c), 313, Title V, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354, 1401 et seq.); 49 CFR 1.4(b) (32 F.R. 5607))

Issued in Washington, D.C., on August 22, 1967.

NOTE: The record-keeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

D. D. THOMAS,
Acting Administrator.

[Airspace Docket No. 67-SW-87]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the New Orleans, La. (NAS New Orleans—Alvin Callender Field), control zone.

The New Orleans, La. (NAS New Orleans—Alvin Callender Field), control zone is described in § 71.171 (32 F.R. 2121). A portion of the control zone is described as "* * * within 2 miles each side of the Navy New Orleans TACAN 040° radial extending from the 5-mile radius zone to 7 miles NE of the TACAN. * * *"

The Navy New Orleans TACAN is scheduled for decommissioning September 1, 1967. It is therefore necessary to amend the New Orleans, La. (NAS New Orleans—Alvin Callender Field), control zone by deleting controlled airspace which is based on the TACAN.

Since this amendment lessens the burden on the public, notice and public procedures hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001, e.s.t., September 1, 1967, as hereinafter set forth.

In § 71.171 (32 F.R. 2121) the New Orleans, La. (NAS New Orleans—Alvin Callender Field), control zone is amended by deleting "* * * within 2 miles each side of the Navy New Orleans TACAN 040° radial extending from the 5-mile radius zone to 7 miles NE of the TACAN, * * *."

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Fort Worth, Tex., on August 22, 1967.

A. L. COULTER,
Acting Director, Southwest Region.

[F.R. Doc. 67-10141; Filed, Aug. 29, 1967; 8:46 a.m.]

[Airspace Docket No. 67-SO-84]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On July 11, 1967, a notice of proposed rule making was published in the FEDERAL REGISTER (32 F.R. 10213), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Camden, S.C., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001, e.d.s.t., November 9, 1967, as hereinafter set forth.

In § 71.181 (32 F.R. 2148) the following transition area is added:

CAMDEN, S.C.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Woodward Field (lat. 34°17'08" N., long. 80°33'53" W.); within 2 miles each side of the 040° bearing from the Camden RBN (lat. 34°17'02" N., long. 80°33'42.5" W.), extending from the 7-mile radius area to 8 miles northeast of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348(a))

Issued in East Point, Ga., on August 23, 1967.

JAMES G. ROGERS,
Director, Southern Region.

[F.R. Doc. 67-10142; Filed, Aug. 29, 1967; 8:46 a.m.]

[Airspace Docket No. 67-WA-35]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to extend the time of designation of Temporary Restricted Area R-4902, Nashua, N.H.

A planned relocation of the classified operations conducted in R-4902 to a new location was delayed due to unforeseeable technical difficulties and the time of designation was extended to October 31, 1967, by Airspace Docket No. 66-WA-2 which was published in the FEDERAL REGISTER (31 F.R. 13013) on October 29, 1966.

The Department of the Navy on July 11, 1967, advised the Federal Aviation Administration that it is now evident that unanticipated construction and procurement slippages will preclude the transfer of operations to the new location prior to January 1968. Therefore, due to a continuing urgent military requirement in the direct interest of national defense, the Navy has requested that the designation of R-4902, as presently configured and controlled, be extended to January 31, 1968.

Since the Department of the Navy has stated that the continued designation of the area is of urgent military necessity, the Administrator has determined that it is contrary to the public interest to comply with the notice, public procedure, and effective date requirements of the Administrative Procedure Act and, therefore, this amendment may become effective in less than 30 days.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 73.49 (32 F.R. 2319) R-4902 Nashua, N.H. (Temporary), is amended as follows: "Time of designation: 0900 local time to sunset, November 4, 1965, through October 31, 1967," is deleted, and "Time of designation: 0900 local time to sunset, November 4, 1965, through January 31, 1968," is substituted therefor.

(Secs. 307(a), 307(f), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on August 22, 1967.

WILLIAM K. MORGAN,
Acting Director, Air Traffic Service.

[F.R. Doc. 67-10143; Filed, Aug. 29, 1967; 8:46 a.m.]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Advertising Claims for Spray Deodorant

§ 15.139 Advertising claims for spray deodorant.

(a) The Commission rendered an advisory opinion in regard to some proposed advertising claims for a personal deodorant spray.

(b) Specifically, the Commission considered the propriety of the following two claims: (1) That the product meets the U.S. Government requirements for safety and effectiveness and (2) that no other medicated personal deodorant spray equals its safety and effectiveness.

(c) In regard to the first claim, the Commission said there were no specific standards or requirements officially recognized by the U.S. Government relating to the safety and effectiveness of personal deodorant sprays. Under these circumstances, therefore, the Commission said it would be improper to claim that such requirements exist and that the product meets those requirements.

(d) With respect to the second claim, the Commission said that opinion evidence indicated there are other medicated deodorant sprays on the market which are equally as safe and effective as the product in question. In view of this opinion evidence, and in the absence of reports of properly controlled studies establishing the validity of the claim, the Commission said that it could not give its approval to the second claim.

(38 Stat. 717, as amended; 15 U.S.C. 41-58)

Issued: August 29, 1967.

By direction of the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

[F.R. Doc. 67-10136; Filed, Aug. 29, 1967; 8:46 a.m.]

PART 15—ADMINISTRATIVE OPINIONS AND RULINGS

Advertising Allowances by Book Publisher

§ 15.140 Advertising allowances by book publisher.

(a) The Commission rendered an advisory opinion in regard to the legality of a book publisher's promotional plan calling for the payment of advertising allowances. Specifically, the Commission ruled that the proposed plan would be in compliance with section 2(d) of the Clayton Act, as amended.

(b) Under the terms of the proposed plan, the book publisher proposes to offer to retailers, wholesalers and retailers who purchase through wholesalers advertising allowances equal to 75 percent of the actual cost for newspaper and magazine advertisements at local rates, but not to exceed 10 percent of the net value of confirmed orders for the advertised titles. Additionally, allowances will be paid for the use of stuffers, circulars and catalogs, but not to exceed 10 percent of the dealers' net purchases. Regardless of which method of advertising is used, promotional payments will not exceed 10 percent of the buyers' total net purchases.

(38 Stat. 717, as amended; 15 U.S.C. 41-58; 49 Stat. 1526; 15 U.S.C. 13, as amended)

Issued: August 29, 1967.

By direction of the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 67-201]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

Certificates of Shipments of Alcoholic Beverages in Vessels of Not Over 500 Net Tons

At present, foreign service Form 149 is used for consular certification of certain shipments of alcoholic beverages. Such certification is required by section 7, Anti-Smuggling Act (19 U.S.C. 1707). It has been decided that the form of such a certificate may be prescribed in the Customs Regulations and the foreign service form may be eliminated. Accordingly, paragraphs (a) and (b) of § 4.13 of the Customs Regulations are amended to read as follows:

§ 4.13 Alcoholic liquors on vessels of not over 500 net tons.

(a) When a vessel of not over 500 net tons which arrives from a foreign port or a hovering vessel, has on board any alcoholic liquors, a certificate respecting the importation of any spirits, wines, or other alcoholic liquors on board, other than sea stores, shall be delivered to the boarding officer with the inward foreign manifest. Each such certificate shall consist of a declaration of the master of the vessel, together with the certificate of a consular officer of the United States or other authorized person, and shall cover only one shipment from one consigner to one consignee or firm of consignees. The document shall be in substantially the following form:

DECLARATION OF MASTER AND CERTIFICATE COVERING SHIPMENT OF SPIRITS, WINES, OR OTHER ALCOHOLIC LIQUORS ON A VESSEL OF 500 NET TONS OR LESS (19 U.S.C. 1707)

Declaration of Master. I declare that the following merchandise is being shipped in accordance with the facts here stated as true and correct to the best of my information and belief:

Date of shipment: _____
Marks, numbers, and quantities: _____
Port of arrival: _____
Consignor: _____
Full description of goods: _____
Consignee: _____

_____
(Signature)

Master of the _____
(Name of vessel)

_____
(Port of shipment)

_____, 19__
(Date)

(Use whichever alternative applies:)

Certificate of Consular Officer. I certify that the above declaration was this day produced and signed before me by the individual whose signature appears, that I am satisfied he is the person he represents himself to be, that I have delivered one copy

hereof to him, and that I have retained a copy in my files.

Service number not required. _____ (Post)

Tariff item No. 56(a) (no fee). _____ (Date)

_____ (Signature)

_____ (Title)

Certificate of Other Authorized Person. I certify that I have been designated by letter of _____, 19--, from (insert name of officer), American (title) at (place), to provide certifications upon declarations made by masters under § 7 of the Anti-Smuggling Act of 1935 (19 U.S.C. 1707), that the above declaration was this day produced and signed before me by the individual whose signature appears, that I am satisfied he is the person he represents himself to be, that I have no interest in the shipment described, that I have delivered one copy hereof to the person making the declaration, and that I have forwarded one copy to the American (Embassy, Consulate General, Consulate) at (place).

[CONSULAR IMPRESSION SEAL] _____ (Port of shipment)

_____ 19--

(Date)

[SEAL NOT REQUIRED] _____ (Signature)

_____ (Title)

The provisions of this paragraph, read together with those of § 91.4, Title 22, Code of Federal Regulations, constitute the joint regulations contemplated for issuance by the Secretary of State and the Secretary of the Treasury under section 1707, title 19, United States Code.

(b) When any shipment of spirits, wines, or other alcoholic liquors found on board a vessel not exceeding 500 net tons is not accompanied by a certified declaration as described in paragraph (a) of this section but is shown to have a bona fide destination outside the United States, the master shall furnish a landing bond on customs Form 7593 with an authorized corporate surety.

* * * * *

(R.S. 251, sec. 7, 49 Stat. 520; 19 U.S.C. 66, 1707)

The foregoing change, in imposing no new burden upon persons subject to the Anti-Smuggling Act of 1935, simplifies agency procedures and is deemed to fall within the exceptions to notice of proposed rule making as stated in section 553 of title 5, United States Code (Supp. II, 1966). Good cause is therefore found that general notice and public procedure thereon are impracticable and unnecessary.

Effective date. The regulations contained in this order shall become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] LESTER D. JOHNSON,
Commissioner of Customs.

Approved: July 24, 1967.

TRUE DAVIS,
Assistant Secretary of the Treasury.

For the Secretary of State.

Dated: August 21, 1967.

IDAR RIMESTAD,
Deputy Under Secretary of State for Administration.

[F.R. Doc. 67-10148; Filed, Aug. 29, 1967; 8:47 a.m.]

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

SUBCHAPTER J—OTHER CONSULAR SERVICES

[Dept. Reg. 108.566]

PART 91—IMPORT CONTROLS

Joint Regulations Under Anti-Smuggling Act of 1935

Pursuant to the authority conferred upon the Secretary of State and the Secretary of the Treasury by section 7 of the Anti-Smuggling Act of August 5, 1935 (19 U.S.C. 1707), the joint regulations approved by the Secretary of State and the Acting Secretary of the Treasury on September 28, 1935, which were published as Treasury Decision 47886, are revoked, and the following regulations are prescribed:

§ 91.4 Alcoholic liquors on vessels of not over 500 tons.

(a) Upon request of interested shippers or masters of vessels at ports in the consular district other than the place where the consular office is situated, consular officers shall designate one or more reputable individuals residing in each such port, as authorized persons to witness the signatures of the masters of vessels of not over 500 net tons when affixed to declarations covering shipments of alcoholic liquors destined to the United States, and to issue certificates therefor as contemplated by section 7 of the Anti-Smuggling Act of 1935 (49 Stat. 520; 19 U.S.C. 1707). Any person so designated by a consular officer to issue such certificates shall state in each of his certificates that he has no interest in the shipment described therein. Having delivered the original document to the master, he shall forward the duplicate to the consular office for retention.

(b) Consular officers shall, with respect to declarations of masters of vessels of not over 500 net tons in instances in which the port of shipment is the same place as, or conveniently near to, the location of the consular office, supply their certifications directly as contemplated by the said section of the Anti-Smuggling Act. They shall retain, over the interval prescribed in the applicable records retirement schedule, a copy of each document so certified by them. They shall similarly retain the copies of the certifications supplied by authorized persons in outlying ports of the consular district, as set forth in the preceding subsection.

(c) This section, read together with § 4.13, Title 19, of the Code of Federal Regulations,[1] comprises the joint regulations contemplated for issuance by the Secretary of State and the Secretary of the Treasury under section 7 of the Anti-Smuggling Act of 1935.

The foregoing change, in imposing no new burden upon persons subject to the Anti-Smuggling Act of 1935, simplifies agency procedures and is deemed to fall within the exceptions to notice of proposed rule making as stated in section 553 of Title 5, United States Code (Supp. II, 1966). Good cause is therefore found that general notice and public procedure thereon are impracticable and unnecessary.

Effective date. The regulations contained in this order shall become effective 30 days after publication in the FEDERAL REGISTER.

For the Secretary of State.

IDAR RIMESTAD,
Deputy Under Secretary of State for Administration.

MAY 15, 1967.

For the Secretary of the Treasury.

TRUE DAVIS,
Assistant Secretary of the Treasury.

JULY 24, 1967.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 5A—Federal Supply Service, General Services Administration

PART 5A-1—GENERAL

Brand Name or Equal Purchase Descriptions

The table of contents for Part 5A-1 is amended to add the following new entries:

Sec.
5A-1.307 Purchase descriptions.
5A-1.307-1 Applicability.
5A-1.307-4 Brand name products or equal.
5A-1.307-5 Limitations on use of "brand name or equal" purchase descriptions.
5A-1.307-7 Bid evaluation and award, "brand name or equal" descriptions.
5A-1.307-8 Procedure for negotiated procurements and small purchases.

Subpart 5A-1.3—General Policies

Section 5A-1.307 is added to include requirements regarding the use of brand name or equal purchase descriptions.

§ 5A-1.307 Purchase descriptions.

§ 5A-1.307-1 Applicability.

Where it has been determined in accordance with § 1-1.307-1(b) of this title that only a particular brand name product has features which are essential to the Government's requirements, the purchase description shall specify the brand name of the product without adding the words "or equal." In such cases, the procurement should be made by negotiation (see also subparagraphs (2), (3), and (13) of § 1-3.210(a) of this title).

§ 5A-1.307-4 Brand name products or equal.

(a) *Referencing of brand name products.* Brand name or equal purchase descriptions shall reference all brand name products known to be acceptable and of current manufacture. Where the use of a brand name or equal purchase description results in the purchase of an acceptable brand name product which was not referenced in the description (an "equal" product), a reference to that brand name product should be included in the purchase description for subsequent procurements. Where it is found that a referenced brand name product is no longer manufactured, the reference thereto should be deleted from the purchase description. In the case of a "brand name or equal" description approved by the Central Office for general use (see § 5A-1.307-5(b)(1)) such additions and deletions should be made immediately by the buying activity and reported to the Procurement Operations Division which will arrange for formal revision of the purchase description.

(b) *Specifying salient characteristics.* (1) It is imperative that brand name or equal purchase descriptions specify each physical, functional, or other characteristic of the referenced brand name products which is essential to the intended end use. (For the effect of failure to specify an essential characteristic, see § 5A-1.307-7.) However, care must be taken to avoid specifying characteristics which cannot be reasonably demonstrated as materially affecting the intended end use of the product since this would tend to restrict competition unnecessarily. Depending upon the particular product involved and its intended end use, it may be essential to specify:

(i) Kind of material.
(ii) Dimensions.
(iii) Weight limitations, where weight is significant.
(iv) Electrical or chemical requirements.
(v) Principles of operation.
(vi) Restrictive or significant environmental conditions.
(vii) Essential operating or use conditions.
(viii) If part of an assembly, the location within the assembly.
(ix) Equipment with which the item is to be used.
(x) Special features.

(2) When describing salient characteristics, permissible tolerances should be indicated. Care must be taken to avoid specifying an exact characteristic (e.g., a specific dimension) of a particular brand name product as set forth in a commercial catalog description, except where that exact characteristic is essential to the Government's need. The contracting officer must be prepared to justify such a requirement.

§ 5A-1.307-5 Limitations on use of "brand name or equal" purchase descriptions.

(a) *General.* The use of brand name or equal purchase descriptions in solicitations for bids or offers in the limited circumstances described in § 1-1.307-5 of this title is intended to promote maximum competition by encouraging the offering of products which are equal in all material respects to the brand name products referenced in such descriptions. The identification of items by the use of brand name or equal descriptions is not intended to indicate a preference for the brand name products referenced in the descriptions, but is to indicate the quality and characteristics of products that will meet the Government's needs (see (a) of the clause in § 1-1.307-5 of this title). Brand name or equal descriptions shall not be used as a means of procuring a particular brand name product under the guise of competitive procurement to the exclusion of other products which would meet the actual needs (see § 5A-1.307-1).

(b) *Approval required.* A "brand name or equal" purchase description shall not be used unless:

(1) The purchase description is one which has been approved by the Standardization Division, i.e., those issued on GSA Form 419, Stock Item Purchase Description, by the Procurement Operations Division; those issued formally by the Standardization Division as numbered purchase descriptions; or those previously approved for use in Federal Supply Schedule invitations for bids; or

(2) In the case of a brand name or equal description which has not been approved by the Standardization Division (see subparagraph (1) of this paragraph), its use has the prior approval of the Chief, Procurement Branch, in the Procurement Operations Division, or the Chief, Buying Division, in the regional office (Chief, Procurement Division, in the case of Region 9). Such approval shall not be given unless the approving official is satisfied that use of the description is permissible under § 1-1.307-5 of this title and this § 5A-1.307.

§ 5A-1.307-7 Bid evaluation and award, "brand name or equal" descriptions.

A bid may not be rejected for failure of the offered product to match a characteristic of a referenced brand name product if that characteristic was not specified in the brand name or equal description. However, if it is clearly established that such unspecified characteristic is essential to the intended end use, the invitation is defective and no award may be made. In such cases, if time permits, the requirement should be readvertised using a purchase description which fully advises bidders of all the essential characteristics.

§ 5A-1.307-8 Procedure for negotiated procurements and small purchases.

The policies and procedures in § 1-1.307 of this title and this § 5A-1.307 for the use of brand name or equal purchase descriptions also apply to competitive negotiated procurements. However, they are not applicable to small purchases of stock items made by competitive negotiation under § 5A-72.103 of this chapter. Brand name or equal descriptions shall not be used in noncompetitive procurements where the required item is a particular make or model or is available from only one source (see § 1-3.210 of this title).

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); and CFR 5-1.304(c))

Effective date. These regulations are effective upon publication in the FEDERAL REGISTER.

Dated: August 23, 1967.

L. E. SPANGLER,
Acting Commissioner, Federal Supply Service.

[F.R. Doc. 67-10176; Filed, Aug. 29, 1967; 8:50 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 17476; FCC 67-962]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, Television Broadcast Stations; Wenatchee, Wash.

Report and order. In the matter of amendment of § 73.606(b), *Table of Assignments* (Wenatchee, Wash.); Docket No. 17476, RM-1009.

1. The Commission has before it for consideration its notice of proposed rule making in Docket No. 17476, FCC 67-631, released May 26, 1967, and published in the FEDERAL REGISTER on June 1, 1967, 32 F.R. 7919, which proposes the assignment of UHF Channel 27 to Wenatchee, Wash.

2. The rule making proceeding was initiated by the Commission in response to the request of Columbia Empire Broadcasting Corp. (Columbia), licensee of Station KNDO, Channel 23, Yakima, Wash. Columbia plans to operate a television station at Wenatchee which during its initial stages would be operated as a satellite of KNDO. Programs from KNDO would be supplied to Wenatchee by means of a microwave link, but Columbia intends to have sufficient studio facilities to provide for origination of slides, films, and station identification. Wenatchee, county seat of Chelan County, is located in central Washington and has a population of 16,726 persons according to the 1960 U.S. census.

3. No opposition to the proposal to assign Channel 27 to Wenatchee was received. However, during the period for comments, Galen Gilyard of Wenatchee filed a petition requesting the assignment of Channel 30 to Wenatchee, in which he merely states his intention to file an application for authority to construct a station on this channel. The

Giffyard petition does not contain a showing of need for a second commercial assignment to Wenatchee. The Commission is considering this request as a comment in the instant proceeding in reaching its decision.

4. Wenatchee residents now receive TV signals from translators and a local CATV system, since direct reception of television stations is virtually impossible without the aid of sophisticated receiving apparatus. The sole assignment, Channel *18, is reserved for noncommercial educational use. Available UHF channels are not scarce in this area. Channel 27 has been selected as the most efficient assignment which meets the required minimum distance separations and provides sufficient transmitter site flexibility.

5. Although two parties have each expressed an interest in operating a station in Wenatchee, it does not appear whether either of them wishes to have two unreserved channels assigned. The Commission does not normally assign two commercial channels to communities with populations less than 25,000, and only one assignment is being made herein.

6. Accordingly, pursuant to the authority contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended: *It is ordered*, That, effective October 2, 1967, the Table of Assignments in § 73.606(b) of the Commission rules is amended insofar as the city listed below is concerned, to read as follows:

City	Channel No.
Wenatchee, Wash.....	*18, 27

NOTE: Appropriate offsets for the UHF channels will be supplied in a subsequent Order.

7. *It is further ordered*, That the petition of Galen E. Giffyard, requesting the assignment of Channel 39 to Wenatchee, is dismissed as moot.

8. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: August 24, 1967.

Released: August 25, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[FCC 67-979]

PART 97—AMATEUR RADIO SERVICE

Suspension and Revocation of Licenses and Issuance of Cease and Desist Orders

Order. In the matter of deletion of §§ 97.139, 97.141, and 97.143 of the Amateur Radio Service rules.

1. The Commission has under consideration Amateur Radio Service rule § 97.139, which relates to the revocation of amateur radio station licenses and to the issuance of Cease and Desist Orders, and §§ 97.141 and 97.143, which relate to the suspension of amateur radio operator licenses.

2. The language in §§ 97.139 and 97.141 is substantially repetitious of rule provisions set forth in Part 1 of the Commission's rules relating to practice and procedure. The Commission finds, therefore, that these rule sections are unnecessary and superfluous and should be deleted from Part 97.

3. Section 97.143 provides that the effective date of an Order of Suspension will not be stated therein but will, instead, be given in a supplementary notice to be sent after the licensee receives the suspension order. The Commission finds that this "second notice" procedure is of no particular benefit to licensees and is a burden to the Commission. Accordingly, it is determined that § 97.143 should also be deleted. It is noted that Orders of Suspension will state their effective dates therein in conformance with license suspension authority and procedures as set forth in section 303(m)(2) of the Communications Act of 1934, as amended.

4. The rule changes herein ordered are procedural and editorial only and, therefore, compliance with the provisions for notice and public procedure is unnecessary and they may be made effective immediately. Authority for this rule change is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended.

5. In view of the foregoing: *It is ordered*, That, effective September 1, 1967, §§ 97.139, 97.141, and 97.143 are deleted.

(Secs. 4, 303, 48 Stat., as amended 1066, 1082; 47 U.S.C. 154, 303)

Adopted: August 24, 1967.

Released: August 25, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Eufaula National Wildlife Refuge, Ala., and Yazoo National Wildlife Refuge, Miss.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ALABAMA

EUFAULA NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Eufaula National Wildlife Refuge, Ala., is permitted only on the area designated by signs as open to hunting. This open area, comprising 180 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of mourning doves subject to the following special conditions:

(1) Hunting dates are as follows: September 30; October 7; October 14; October 21, and October 28.

(2) Each hunter must have on his person a validated refuge hunting permit. Hunters will be selected by an impartial drawing to be held September 18 on the refuge. Applications for the hunt will be accepted only during the period September 8–15 and may be submitted by mail or in person to the Refuge Manager, Eufaula National Wildlife Refuge, Post Office Box 258, Eufaula, Ala. 36027.

(3) No hunters will be permitted within hunting areas before 11:45 a.m., e.s.t., each day.

(4) All firearms must be encased and/or unloaded when outside designated hunting area.

(5) Each hunter who successfully takes a limit of mourning doves must leave the hunting area immediately.

(6) Retrievers used by hunters shall be under the control of the owner at all times.

(7) All hunters must check in and out of the refuge at the designated checking station.

(8) All litter (paper, empty shell boxes, etc.) must be removed by individual hunters.

(9) Wounded or dead doves falling outside the hunting area may be recovered but firearms must be left inside hunting area.

(10) Vehicle parking will be limited to areas designated by refuge personnel.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 28, 1967.

MISSISSIPPI

YAZOO NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Yazoo National Wildlife Refuge, Miss., is permitted on the areas designated by signs as open to hunting. This open area, comprising approximately 800 acres, is delineated on a map available at the refuge headquarters, Route 1, Hollandale, Miss., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of mourning doves, subject to the following special conditions:

(1) The open season extends from September 16, through September 30, 1967; Sundays excluded.

(2) Carrying of loaded firearms in vehicles is prohibited, and shooting from vehicles or shooting from or across State or county roads is prohibited.

(3) All empty shells, boxes, and other litter must be removed by the individual hunter.

(4) Retrievers used by hunters shall be under the control of the owner at all times.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 30, 1967.

WALTER A. GRESS,
Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 21, 1967.

[F.R. Doc. 67-10126; Filed, Aug. 29, 1967; 8:45 a.m.]

PART 32—HUNTING

Baskett Slough National Wildlife Refuge, Oreg.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER. The limited time ensuing from the date of the adoption of the Federal migratory game bird regulations to and including the establishment of State hunting seasons makes it impracticable to give public notice of proposed rule making.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

OREGON

BASKETT SLOUGH NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Baskett Slough National Wildlife Refuge is permitted only on the areas designated by signs as open to hunting. The open area, comprising 560 acres, is delineated on maps available at refuge headquarters, William L. Finley National Wildlife Refuge, Corvallis, Oreg., or Ankeny National Wildlife Refuge, Jefferson, Oreg., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 730 Northeast Pacific Street, Portland, Oreg. 97208.

Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special conditions:

(1) Mourning doves may be hunted during the period from October 21, to November 5, 1967, inclusive.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 9, 1967.

PAUL T. QUICK,
Regional Director, Portland, Oreg.

[F.R. Doc. 67-10127; Filed, Aug. 29, 1967; 8:45 a.m.]

PART 32—HUNTING

Aransas National Wildlife Refuge, Tex.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

TEXAS

ARANSAS NATIONAL WILDLIFE REFUGE

The public hunting of deer with bow and arrow on the Aransas National Wildlife Refuge, Tex., is permitted from October 1, through October 31, 1967, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 43,000 acres prior to the arrival of the first fall migrant whooping crane and comprising 17,200 acres after the arrival of the first fall migrant whooping crane, is delineated on maps available at refuge headquarters, Austwell, Tex., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with applicable State and Federal regulations covering the hunting of deer, subject to the following special conditions:

(1) All hunters must register at the refuge headquarters prior to entering the hunting area and must check out at the refuge headquarters when leaving the area.

(2) All vehicles must stay on shell surfaced roads and may not travel across country or on certain restricted roads due to the terrain hazards and wildlife protective measures involved.

(3) No deer may be taken from, on, or across any road, trail, or other right-of-way.

(4) Hunting is prohibited within 100 yards of cattle watering troughs and windmills.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 31, 1967.

PHILLIP S. MORGAN,
Refuge Manager, Aransas National Wildlife Refuge, Austwell, Tex.

AUGUST 15, 1967.

[F.R. Doc. 67-10128; Filed, Aug. 29, 1967; 8:45 a.m.]

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 931]

FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Expenses and Fixing of Rate of Assessment for 1967–68 Fiscal Period and Carryover of Unexpended Funds

Consideration is being given to the following proposals submitted by the Northwest Fresh Bartlett Pear Marketing Committee, established pursuant to the marketing agreement and Order No. 931 (7 CFR Part 931), regulating the handling of fresh Bartlett pears grown in Oregon and Washington, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and likely to be incurred by the Northwest Fresh Bartlett Pear Marketing Committee, during the period July 1, 1967, through June 30, 1968, will amount to $12,500;

(2) That the rate of assessment for such period, payable by each handler in accordance with § 931.41 be fixed at one cent ($0.01) per standard western pear box or an equivalent quantity, of pears.

(3) That unexpended funds in excess of expenses incurred during the fiscal period ended June 30, 1967, in the amount of $4,688.43, be carried over as a reserve in accordance with § 931.42 of the said marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 25, 1967.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-10155; Filed, Aug. 29, 1967; 8:48 a.m.]

[7 CFR Part 971]

LETTUCE GROWN IN LOWER RIO GRANDE VALLEY IN SOUTH TEXAS

Expenses and Rate of Assessment

Consideration is being given to approval of the expenses and rate of assessment, hereinafter set forth, which were recommended by the South Texas Lettuce Committee, established pursuant to Marketing Agreement No. 144 and Marketing Order No. 971 (7 CFR Part 971). This marketing order program regulates the handling of lettuce grown in the Lower Rio Grande Valley in South Texas and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals may file the same with the Hearing Clerk, Room 112-A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the 15th day after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposals are as follows:

§ 971.208 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period August 1, 1967, through July 31, 1968, by the South Texas Lettuce Committee for its maintenance and functioning and for such purposes as the Secretary determines to be appropriate, will amount to $21,150.

(b) The rate of assessment to be paid by each handler in accordance with the marketing agreement and this part shall be two cents ($0.02) per carton of lettuce handled by him as the first handler thereof during said fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period ending July 31, 1968, may be carried over as a reserve.

(d) Terms used in this section have the same meaning as when used in the said marketing agreement and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C.

Dated: August 25, 1967.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 74]

[Docket No. 17683; FCC 67-864]

LOW POWER BROADCAST AUXILIARY STATIONS

Operation in Aural Broadcast STL Band

In the matter of amendment of Parts 2 and 74 of the Commission rules and regulations to permit the operation of low power broadcast auxiliary stations in the 942–952 Mc/s Aural Broadcast STL Band; Docket No. 17683, RM-993.

1. On June 29, 1966, National Broadcasting Co., Inc. (NBC) filed a petition for rule making (RM-993) requesting that low power broadcast auxiliary stations of the kind described in § 74.437 of the Commission rules, be permitted to operate in the 942–952 Mc/s band. Under present rules the operation of such devices is limited to the 26.10–26.48 Mc/s band and the 450–451 Mc/s band. The 942–952 Mc/s band is currently allocated to Aural Broadcast STL (studio-transmitter link) stations and Aural Broadcast intercity relay stations, except that in Alaska, Hawaii, and the U.S. possessions, it may also be used by certain other classes of fixed stations.

2. In support thereof, NBC points out that the remote broadcast pickup bands currently available for these low powered devices, which are usually a form of "wireless microphone", are also used by higher powered portable and mobile transmitters and their associated base stations and that in many cases both are used at the same location to cover the same event, thereby creating a serious interference problem. NBC goes on to say that the complexity of program coverage, particularly television programs, has grown to the point where the presently available frequencies are inadequate. After a review of frequencies currently allocated to the broadcast auxiliary services NBC concludes that the 942–952 Mc/s band is best suited for the proposed use. It notes that broadcast STL and intercity relay stations employ highly directional transmitting and receiving antennas and are so installed as to have a clear optical path between the transmitting and receiving points. Thus, the strong signals provided to insure reliability are not likely to receive harmful interference from low powered devices such as are contemplated, particularly since they are unlikely to be used in the vicinity of the STL or intercity receivers.

3. American Broadcasting Co., Inc. (ABC) filed a statement supporting the NBC petition. ABC also calls attention to the vastly increased needs for these low powered communication devices. It notes that in a recently televised golf tournament, seventeen color television cameras were used, requiring three separate control points and the use of 15 remote pickup units. The remote pickup units are used for program production coordination, cueing, talkbacks, as well as actual program transmissions. In the case of events of major national importance where several networks cover the same event, the concentration of remote pickup units in a given area becomes unmanageable within the presently available spectrum. Both NBC and ABC agree that within present technology, small, low powered devices of the "wireless microphone" type can be produced to operate in the 942–952 Mc/s portion of the spectrum and which will provide a badly needed service to broadcasters.

4. The increasing use of hand carried and self-powered TV cameras at golf matches, football games, track meets, and other similar sporting events, at large assemblages such as political conventions, and in on-the-spot coverage of new stories, has created a new need. These cameras are complete TV stations including a low powered microwave transmitter to deliver the picture signals to a nearby receiving location but in spite of extensive miniaturization they are still somewhat unwieldy. A substantial improvement in size, weight, and picture quality can be achieved if certain necessary control functions are supplied from an external source. Among these are the synchronizing signals and adjustment of the camera iris to control the amount of light entering the camera. Such signals can be transmitted over a low powered broadcast auxiliary station operating in the 942–952–Mc/s band. The required communication range would be short, in most cases only a few hundred feet, and the use of synchronizing signals from a common source would eliminate the objectionable "roll-over" of the picture when switching between cameras. Control of the camera iris by the program director would result in better picture quality and allow the cameraman to concentrate on aiming the camera to better follow the action. Operation in the 942–952 Mc/s band would be particularly advantageous because the directive transmitting antenna could be made physically small and thus permit its mounting on the parabolic "dish" used to pick up the signals from the camera transmitter. This would insure proper aiming of the control signals whenever the signals from the camera were being used.

5. The subject petition is deemed to have sufficient merit to warrant the institution of rule making proceedings. The petition and the supporting statement contain persuasive reasons for considering permissive use of the 942–952 Mc/s broadcast auxiliary fixed service band by low powered communication devices. The use can be accommodated within a band already allocated for broadcast auxiliary use, thus avoiding the allocation of additional spectrum space. The hazard of interference to stations operating in this band in accordance with the basic allocation, seems small and in any event use of the frequencies by the proposed low-powered devices would be on a secondary basis, providing full interference protection to regular services.

6. Accordingly, pursuant to the authority contained in sections 4(i), and 303(c) of the Communications Act of 1934, as amended, it is proposed to amend § 2.106 of the Commission rules by inserting a footnote designator NG ——— in column 7 of the Table of Frequency Allocations under the band 942–952 Mc/s and adding the following footnote at the appropriate place:

NG ——— low power broadcast auxiliary stations licensed pursuant to the provisions of § 74.437 of this chapter may be authorized to operate in the band 942–952 Mc/s subject to the condition that no harmful interference is caused to stations operating in accordance with the Table of Frequency Allocations.

7. It is further proposed to amend § 74.437 (c), (e), and (g) of the Commission rules to read as follows:

§ 74.437 Special rules relating to low power broadcast auxiliary stations.

* * * * *

(c) The license of a low-power broadcast auxiliary station authorizes the transmission of cues and orders to production personnel and participants in broadcast programs and in the preparation therefor, the transmission of program material by means of a wireless microphone worn by a performer or other participant in a program during rehearsal and during the actual broadcast, or the transmission of comments, interviews, and reports from the scene of a remote broadcast. Low power broadcast auxiliary stations operating in the 942–952 Mc/s band may in addition, transmit synchronizing signals and various control functions to portable or hand-carried TV cameras which employ low-power radio signals in lieu of cables to deliver picture signals to the control point at the scene of a remote broadcast. Such transmissions shall be intended for reception at a receiving point within the same studio, building, stadium, or similar limited indoor or outdoor area or at the location of a nearby remote pickup broadcast mobile station where they will be relayed to a broadcasting station for simultaneous or delayed broadcast.

* * * * * *

(e) The operation of low-power broadcast auxiliary stations will be authorized only in the bands 26.10–26.48 Mc/s, 450–451 Mc/s and 942–952 Mc/s. Transmitting units may be operated on any frequency within the band of frequencies for which the station is licensed: *Provided*, That the emissions are confined to the authorized band. Transmitting units are not required to maintain a constancy of frequency beyond that necessary to insure compliance with the requirements of this paragraph. The emission bandwidth shall not be greater than that necessary for satisfactory transmission.

* * * * *

(g) Low-power broadcast auxiliary stations will not be licensed for a power input to the plate of the final radio frequency amplifier in excess of 1 watt and all operation thereof is subject to the condition that no harmful interference is caused to remote pickup broadcast base and mobile stations, aural broadcast STL and intercity relay stations, international aeronautical fixed stations, or international fixed public stations. Unusual transmitting antennas or antenna elevations shall not be used to deliberately extend the range of these low power devices beyond the limited areas defined in paragraph (c) of this section.

* * * * *

8. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested parties may file comments on or before October 3, 1967, and reply comments on or before October 13, 1967. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

9. In accordance with the provision of § 1.419 of the rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished to the Commission.

Adopted: August 24, 1967.

Released: August 25, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-10169; Filed, Aug. 29, 1967; 8:49 a.m.]

[47 CFR Part 15]

[Docket No. 17364]

RADIO FREQUENCY DEVICES

Low Power Communications Devices; Order Further Extending Time for Filing Comments

In the matter of amendment of rules, Part 15, Subpart E—Low-Power Communications Devices; Docket No. 17364, RM 449, RM 463.

The Commission has before it for consideration a petition of Sears Roebuck and Co., Chicago, Ill., to extend the time for filing comments in this proceeding from August 22, 1967, to September 11, 1967.

The petitioner's interest in the proceeding stems from the fact it sells garage door control radio devices to the public. The petitioner proposes to submit detailed and extensive technical and

[1] Commissioner Cox absent.

other data concerning the proposed rules but will require a brief period in which to finalize its comments.

The comments of Sears Roebuck and Co. should be of interest to the Commission in this proceeding and, accordingly, it appears that the public interest would be served by granting the brief extension requested.

It is ordered, Pursuant to § 0.281(b) of the Commission's rules, that the time for filing comments in this proceeding is further extended to September 11, 1967, and that the time for filing reply comments is further extended to September 27, 1967.

Adopted: August 22, 1967.

Released: August 23, 1967.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 67-10171; Filed, Aug. 29, 1967; 8:46 a.m.]

[47 CFR Part 73]

[Docket No. 17694; FCC 67-988]

UHF TELEVISION BROADCAST CHANNELS

Table of Assignments; Ironwood, Mich.

In the matter of amendment of the Table of Assignments in § 73.606(b) of the Commission's rules and regulations to assign a UHF television broadcast channel to Ironwood, Mich.; Docket No. 17694, RM-1142.

1. On April 28, 1967, Walter H. Kalata filed a petition for rule making (RM-1142) requesting that a commercial television channel be assigned to Ironwood, Mich. In support thereof, the petitioner states that: (1) Based on his personal survey, an adequate economic base exists to support a television broadcast facility; (2) the community needs and desires a local outlet; (3) the facility could serve at least 50,000 persons in Upper Michigan and Northern Wisconsin; (4) the present principal television service is provided by a community antenna system carrying distant signals not serving the specific needs of the Ironwood area; (5) the closest television broadcast stations are located at a distance of from 78 to 176 miles from Ironwood; (6) a VHF channel previously assigned to Ironwood for commercial use was reassigned to Rhinelander, Wis., and was not replaced with another commercial assignment; (7) Ironwood is the commercial, recreational, and cultural center of an area consisting of several counties in Michigan and Wisconsin; and (8) the Civil Aeronautics Board has designated the Ironwood Airport as the regional airport for commercial airline service in this area. Petitioner acknowledges that the Ironwood region has not had any economic growth in the past years, but claims that trends indicate economic resurgence and contends that a television broadcast facility would contribute to the redevelopment of the region. Petitioner states that if a channel is assigned to Ironwood, he will, within a reasonable time, initiate engineering studies preparatory to applying for authority to construct and operate a new television broadcast station on such channel as might be assigned.

2. According to the 1960 U.S. Census, the city of Ironwood has a population of 10,265, and is the county seat and largest city of Gogebic County (population of 25,370). It now has no unreserved channel assigned. The closest television broadcast station is located at Rhinelander, Wis., approximately 70 miles away (Channel 12+, formerly assigned to Ironwood). Ironwood is located just within the Grade B contour of that station. According to the 1967 TV Factbook, the city is served by a CATV system that carries five U.S. signals and one Canadian signal.

3. An examination of the assignment possibilities at Ironwood indicates that Channel 24 meets the minimum mileage separation requirements of our rules and is the most efficient assignment using the criteria employed in developing the overall UHF assignment plan.

4. Accordingly, pursuant to the authority contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend the Table of Assignments in § 73.606(b) of the Commission's rules by assigning Channel 24 to Ironwood, Mich.

5. Pursuant to applicable procedures set out in § 1.415 of the Commission rules, interested parties may file comments on or before October 3, 1967, and reply comments on or before October 13, 1967. All submissions by parties to this proceeding or by persons acting in behalf of such parties must be made in written comments, reply comments or other appropriate pleadings.

6. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all written comments, replies, pleadings, briefs, or other documents shall be furnished the Commission.

Adopted: August 24, 1967.

Released: August 25, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

Notices

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Antidumping—ATS 643.2-W]

REFRIGERATION COMPRESSORS FROM DENMARK

Notice of Tentative Determination

AUGUST 22, 1967.

Information was received on May 31, 1966, that refrigeration compressors manufactured by Danfoss Manufacturing Co. (Danfoss Denmark), Nordborg, Denmark, were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.). This information was the subject of an "Antidumping Proceeding Notice" which was published pursuant to § 14.6(d), Customs Regulations, in the FEDERAL REGISTER of July 9, 1966, on page 9425 thereof.

I hereby make a tentative determination that refrigeration compressors manufactured by Danfoss Manufacturing Co. (Danfoss Denmark), Nordborg, Denmark, are not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

Statement of reasons on which this tentative determination is based. 1. The information developed in this case discloses that the proper basis for the fair value comparison is between exporter's sales price and the weighted-average adjusted third country price.

2. Exporter's sales prices were calculated on the basis of the prices at which almost 95 percent of the imported compressors are sold in the United States. From these prices there were deducted the included duty, inland freight in the United States, ocean freight and Danish inland freight, and the cost of selling in the United States.

3. The weighted-average adjusted third country prices were represented by the net adjusted prices of all sales to third countries of models of the types practically identical to the imported models. Deductions have been made for included agents' commissions, interest and banking charges, insurance premiums, delivery costs, and special services where appropriate.

4. Exporter's sales price was not lower than weighted-average adjusted third country price in any instance.

Such written submissions as interested parties may care to make with respect to the contemplated action will be given appropriate consideration by the Secretary of the Treasury.

If any person believes that any information obtained by the Bureau of Customs in the course of this antidumping proceeding is inaccurate or that for any other reason the tentative determination is in error, he may request in writing that the Secretary of the Treasury afford him an opportunity to present his views in this regard.

Any such written submissions or requests should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20226, in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

This tentative determination and the statement of reasons therefor are published pursuant to § 14.8(a) of the Customs Regulations (19 CFR 14.8(a)).

[SEAL] MATTHEW J. MARKS,
Acting Assistant Secretary of the Treasury.

Bureau of Land Management

[A 997]

ARIZONA

Notice of Proposed Withdrawal and Reservation of Lands

The Bureau of Reclamation, Department of the Interior, has amended their application A 997, published as F.R. Doc. 67-8213, Vol. 32, page 10619, July 18, 1967, to eliminate therefrom the following described lands:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 5 N., R. 1 W.,
Sec. 17, S½S½;
Sec. 19, lots 2, 3, and 4, SE¼NW¼, E½SW¼, and SE¼;
Sec. 20, N½ and N½SW¼;
Sec. 21, N½.

The area described above totals approximately 1,284.04 acres in Maricopa County.

There are, therefore, approximately 11,572.41 acres remaining in the Maricopa County area in the application; for a total aggregate of approximately 30,803.25 acres remaining therein.

Pursuant to the regulations in 43 CFR, Part 2311, such lands will be at 10 a.m. on September 21, 1967, relieved of the segregative effect of the above mentioned application.

Dated: August 22, 1967.

FRED J. WEILER,
State Director.

[F.R. Doc. 67-10139; Filed, Aug. 29, 1967; 8:45 a.m.]

[S 487]

CALIFORNIA

Notice of Classification of Public Lands for Multiple Use Management

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986; 43 U.S.C. 1411-18) and to the regulations in 43 CFR Parts 2410 and 2411, the public lands in paragraph 3 are classified for multiple use together with any lands located in the areas described in paragraph 3 that may become public lands in the future. Publication of this notice segregates the lands from appropriation only under the agricultural land laws (43 U.S.C. Chs. 7 and 9; 25 U.S.C. 334) and from sales under section 2455 of the Revised Statutes (43 U.S.C. 1171) and the lands shall remain open to all other applicable forms of appropriation, including the mining and mineral leasing laws, except as to lands described in paragraph 4 of this notice which are further segregated from the operation of the mining laws (30 U.S.C. Ch. 2).

As used herein, "Public Lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269) as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. Comments were received following publication of the notice of proposed classification (32 F.R. 5377). Comments were also received at the Public Hearing of April 12, 1967, at Sonora, Calif., and for the 48 days thereafter. All comments concerning the proposed classification were carefully considered and evaluated. None of the comments offered sufficient information to warrant a change in the notice of proposed classification. The record showing reaction to the classification made by members of the public attending or interested in the hearing is on file and can be examined in the Folsom District Office, Folsom, Calif.

3. The public lands affected by this classification are located within the following described areas and are shown on the Tuolumne-Mariposa Planning Unit Classification Map, on file in the Folsom District Office, 630 Natoma Street, Folsom, Calif., and on the Sacramento Land Office records, Bureau of Land Management, 650 Capitol Mall, Sacramento, Calif.:

MOUNT DIABLO MERIDIAN, CALIFORNIA

TUOLUMNE & MARIPOSA COUNTIES

Block No. I

All public lands in:

T. 1 N., R. 13 E.,
Secs. 1, 2, and 3;
Secs. 10 to 15, inclusive;
Secs. 21, 22, 26, and 29.
T. 2 N., R. 13 E.,
Secs. 26 to 27, inclusive;
Secs. 34 to 36, inclusive.
T. 1 N., R. 14 E.,
Secs. 5 to 8, inclusive;
Secs. 17 to 20, inclusive.
T. 2 N., R. 14 E.,
Secs. 3, 4, 8, 9, 17, 19, and 20;
Secs. 29 to 32, inclusive.
T. 3 N., R. 14 E.,
Secs. 12, 13, 14, 23, 24, 25, 27, 34, 35, and 36.

Except the following public lands:

T. 1 N., R. 14 E.,
Sec. 5, E½SE¼SW¼NW¼.
T. 2 N., R. 14 E.,
Sec. 29, lots 3 and 6, and lots 8 to 13, inclusive;
Sec. 30, lots 5 and 12, lots 18 to 19, inclusive, and lots 21 and 28;
Sec. 32, lots 16 and 17.

Block No. II

All public lands in:

T. 1 N., R. 14 E.,
Secs. 27, 28, 33, and 34.
T. 1 N., R. 15 E.,
Secs. 28 and 29.
T. 1 N., R. 16 E.,
Sec. 4, E½;
Secs. 9, 16, 17, 19, and 20;
Sec. 21, W½;
Secs. 30 and 31.
T. 2 N., R. 16 E.,
Sec. 31, SE¼;
Sec. 35;
Sec. 33, E½.
T. 1 S., R. 13 E.,
Secs. 1, 11, 12, and 13.
T. 1 S., R. 14 E.,
Secs. 2 to 30, inclusive;
Secs. 34 to 36, inclusive.
T. 2 S., R. 14 E.,
Secs. 1, 2, 3, 12, 13;
Secs. 22 to 27, inclusive;
Secs. 33 to 36, inclusive.
T. 3 S., R. 14 E.,
Secs. 1 to 4, inclusive;
Secs. 9 to 16, inclusive.
T. 1 S., R. 15 E.,
Secs. 1 to 5, inclusive;
Secs. 7 to 11, inclusive;
Secs. 16 to 21, inclusive;
Secs. 29 to 32, inclusive.
T. 2 S., R. 15 E.,
Secs. 5 to 8, inclusive;
Secs. 17 to 20, inclusive;
Secs. 29 to 32, inclusive.
T. 3 S., R. 15 E.,
Secs. 5 to 8, inclusive;
Secs. 17 and 18.
T. 1 S., R. 16 E.,
Sec. 6.

Except the following public lands:

T. 1 N., R. 16 E.,
Sec. 9, Mineral Survey 4746.
T. 2 N., R. 16 E.,
Sec. 33, lot 12 (exclusive of M.S. 5033).
T. 1 S., R. 14 E.,
Sec. 2, lot 68;
Sec. 3, lot 15.
T. 1 S., R. 16 E.,
Sec. 7, lot 18 and Saturn and Jupiter Quartz Mining Claims.

Block No. III

All public lands in:

T. 1 S., R. 13 E.,
Secs. 22 to 28, inclusive;
Secs. 33 to 36, inclusive.
T. 2 S., R. 15 E.,
Secs. 1 to 4, inclusive;
Secs. 9 to 16, inclusive;
Secs. 21 to 28, inclusive;
Secs. 33 to 36, inclusive.
T. 1 S., R. 16 E.,
Secs. 19 to 22, inclusive;
Secs. 27 to 34, inclusive.
T. 2 S., R. 16 E.

Except the following public lands:

T. 1 S., R. 15 E.,
Sec. 22, lot 5 and M.S. 5035B;
Sec. 32, lots 5, 6, 7, 13, and 14.
T. 2 S., R. 15 E.,
Sec. 4, lot 8;
Sec. 9, SW¼NE¼SW¼ and NW¼SE¼SW¼;
Sec. 26, S½S½;
Sec. 35, NE¼NE¼.
T. 2 S., R. 16 E.,
Sec. 5, lot 4;
Sec. 17, NE¼NE¼.

Block No. IV

All public lands in:

T. 3 S., R. 15 E.,
Secs. 1 to 4, inclusive;
Secs. 9 to 16, inclusive;
Secs. 23 to 27, inclusive;
Secs. 34 to 36, inclusive.
T. 4 S., R. 15 E.,
Secs. 1 and 2;
Secs. 11 to 14, inclusive;
Secs. 23 and 24.
T. 3 S., R. 16 E.
T. 4 S., R. 16 E.,
Secs. 1 to 21, inclusive.
T. 3 S., R. 17 E.,
Secs. 7 to 36, inclusive.
T. 4 S., R. 17 E.,
Secs. 1 to 18, inclusive;
Secs. 22 to 27, inclusive;
Sec. 36.
T. 3 S., R. 18 E.,
Sec. 19;
Secs. 25 to 36, inclusive.
T. 4 S., R. 18 E.
T. 5 S., R. 18 E.,
Secs. 1 to 5, inclusive.

Except the following public lands:

T. 3 S., R. 16 E.,
Sec. 1, lot 1;
Sec. 4, lot 3 (portion west of lot 65) and lot 10;
Sec. 9, lot 12;
Sec. 11, lot 3.
T. 4 S., R. 16 E.,
Sec. 19, SE¼SW¼.
T. 3 S., R. 17 E.,
Sec. 19, lot 18;
Sec. 29, lots 44 and 46;
Sec. 30, lot 15.
T. 4 S., R. 17 E.,
Sec. 28, SE¼NW¼, E½SW¼, and SE¼SE¼.
T. 4 S., R. 18 E.,
Sec. 14, lot 12;
Sec. 23, lot 4;
Sec. 26, lot 3;
Sec. 27, lot 9;
Sec. 28, Talk Quartz Lode mining claim;
Sec. 29, Mountain Queen Lode mining claim;
Sec. 30, Ohio Placer mining claim;
Sec. 31, Permit Lode and Milburn Lode mining claims;
Sec. 32, Triumph Lode mining claim;
Sec. 33, lot 7;
Sec. 35, Penobscot Lode mining claim.

BLOCK No. V

All public lands in:

T. 2 N., R. 14 E.,
Sec. 1, lot 1, NE¼SW¼, N½NW¼SW¼, SW¼NW¼SW¼, N½SE¼SW¼, SE¼SE¼SW¼, and E½W½SW¼SE¼;
Sec. 24, lots 5, 7, 11, and NE¼SE¼.
T. 2 N., R. 15 E.,
Sec. 3, lot 1;
Sec. 4, lots 14 and 15;
Sec. 6, lots 1, 2, 7, 8, 9, 13, 18, 14, and 15, NW¼SE¼ and E½SE¼;
Sec. 8, SE¼NW¼;
Sec. 17, NE¼NW¼ and NW¼SE¼;
Sec. 18, lot 2 (exclusive of Mountain Quail Lode mining claim), lots 3, 4, and 5, E½NE¼, SE¼NW¼NW¼ (exclusive of Mountain Quail Lode mining claim), SE¼NW¼ (exclusive of Bosovich Lode and Mountain Quail Lode mining claims), SE¼SW¼, NE¼SE¼, Bosovich Lode mining claim (exclusive of SW¼NE¼ and Tuscany Lode mining claim), Mountain Quail Lode mining claim, and Tuscany Lode mining claim);
Sec. 19, lots 1 to 9, inclusive, lots 5 to 11, inclusive, NE¼NE¼, W½NE¼, NE¼NW¼, NE¼SW¼, and SE¼SW¼ (exclusive of Mineral Survey 5014);
Sec. 20, NW¼NW¼ and W½SW¼;
Sec. 30, lots 6, 7, and 8, NE¼, NE¼NW¼ (exclusive of Mineral Survey 5014), and SE¼NW¼.
T. 3 N., R. 16 E.,
Sec. 10, lot 8;
Sec. 16, E½NE¼NE¼ and S½NE¼.
T. 1 S., R. 16 E.,
Sec. 20, lot 1, lot 39, and Pipe Dream Lode mining claim.
T. 7 S., R. 17 E.,
Sec. 6, SW¼NE¼.

The public lands in the areas described aggregate approximately 77,241 acres.

4. As provided in paragraph 1 above, the following lands are segregated from appropriation under the mining laws (aggregating approximately 5,443 acres):

MOUNT DIABLO MERIDIAN

T. 1 N., R. 14 E.,
Sec. 6, lots 10 to 14, inclusive, lots 16, 17, 18, and lots 20 to 24, inclusive;
Sec. 17, W½NE¼;
Sec. 19, N½SE¼ and SW¼SE¼;
Sec. 30, SW¼SW¼NE¼, SW¼NW¼, S½SE¼NW¼, and N½SW¼.
T. 2 N., R. 14 E.,
Sec. 17, N½NE¼SE¼ and SW¼NE¼SE¼;
Sec. 24, lots 5, 7, 11, and NE¼SE¼;
Sec. 30, lots 20, 24, 28, and portion of Mineral Survey 6307;
Sec. 31, lots 1, 6, 16, 18, 21, and 25 (exclusive of withdrawn portion of Mineral Survey 6307), SW¼NE¼, E½NW¼, and NW¼SE¼;
Sec. 32, lots 10, 11, 12, and 19.
T. 2 N., R. 15 E.,
Sec. 6, lots 14 and 15;
Sec. 8, SE¼NW¼;
Sec. 18, lot 2 (exclusive of Mountain Quail Lode mining claim), lots 3, 4, and 5, E½NE¼, SE¼NW¼NW¼ (exclusive of Mountain Quail Lode mining claim), SE¼NW¼ (exclusive of Bosovich Lode and Mountain Quail Lode mining claims), SE¼SW¼, NE¼SE¼, Bosovich Lode mining claim (exclusive of SW¼NE¼ and Tuscany Lode mining claim), Mountain Quail Lode mining claim, and Tuscany Lode mining claim;
Sec. 19, lots 1 to 9, inclusive, lots 5 to 11, inclusive, NE¼NE¼, W½NE¼, NE¼NW¼, NE¼SW¼, and SE¼SW¼ (exclusive of Mineral Survey 5014);
Sec. 20, NW¼NW¼ and W½SW¼;
Sec. 30, lots 6, 7, and 8, NE¼, NE¼NW¼ (exclusive of Mineral Survey 5014), and SE¼NW¼.
T. 2 N., R. 16 E.,
Sec. 16, E½NE¼NE¼ and S½NE¼;
Sec. 21, SW¼SE¼;
Sec. 28, N½ (exclusive of NE¼NE¼ and Mineral Survey 5033).

T. 1 S., R. 14 E.,
Sec. 34, E½SE¼NE¼, NE¼SW¼, and SW¼SE¼;
Sec. 27, W½E½;

[Oregon 015031]

OREGON

Order Providing for Opening of Public Lands

AUGUST 24, 1967.

1. In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1272), as amended June 26, 1936 (49 Stat. 1976; 43 U.S.C. 315g), the following lands have been reconveyed to the United States:

WILLAMETTE MERIDIAN

T. 25 S., R. 30 E.,
Sec. 16, SW¼ and SW¼SE¼.

The areas described aggregate 200 acres.

2. The lands are located in Harney County. They are semiarid in character and are not suitable for farming.

3. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands are hereby open to application, petition, location, and selection. All valid applications received at or prior to 10 a.m., September 29, 1967, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

4. The United States did not acquire minerals in the lands described herein.

5. Inquiries concerning the lands should be addressed to the Chief, Division of Lands and Minerals Program Management and Land Office, Post Office Box 2965, Portland, Oreg. 97208.

VIRGIL E. STARR,
Acting Chief,
Branch of Lands.

[F.R. Doc. 67-10169; Filed, Aug. 29, 1967; 8:49 a.m.]

National Park Service

[Order No. 43]

CHIEF AND REGIONAL CHIEFS, DIVISION OF PROPERTY MANAGEMENT AND GENERAL SERVICES

Delegation of Authority

1. The Chief, Division of Property Management and General Services, may enter into and administer contracts each in an amount not in excess of $200,000 for supplies, equipment, and services in conformity with applicable regulations and statutory authority and subject to the availability of appropriations.

2. The Regional Chiefs, Division of Property Management and General Services may enter into and administer contracts not in excess of $50,000 for supplies, equipment or services for all offices for which they have been assigned procurement responsibility.

3. Revocation: This order supersedes National Park Service delegations of authority Order No. 16 and Order No. 23.

(205 DM 11.1, 26 F.R. 11742; 245 DM 1.1, 27 F.R. 6396)

Dated: August 4, 1967.

GEORGE B. HARTZOG, JR.,
Director.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

IOWA, KANSAS, AND NORTH DAKOTA

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321 of the Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1961), it has been determined that in the hereinafter-named counties in the States of Iowa, Kansas, and North Dakota natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

IOWA

Crawford. Tama.

KANSAS

Butler. Marion.
Harvey. McPherson.

NORTH DAKOTA

Eddy. Kidder.
Foster.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1968, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 25th day of August 1967.

ORVILLE L. FREEMAN,
Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-276]

GEORGIA INSTITUTE OF TECHNOLOGY

Notice of Issuance of Provisional Construction Permit

No request for a hearing or petition to intervene having been filed following publication of the notice of proposed action in the FEDERAL REGISTER, the Atomic Energy Commission has issued, effective as of the date of issuance, Provisional Construction Permit No. CPRR-100 to Georgia Institute of Technology. This permit authorizes the Institute to receive, transport, possess, and store, but not to assemble, the disassembled reactor component parts and fuel obtained from The University of Akron on the Institute's campus in Atlanta, Ga.

The provisional construction permit was issued as set forth in the Notice of Proposed Issuance of Provisional Construction Permit published in the FEDERAL REGISTER on August 2, 1967, 32 F.R. 11241.

Dated at Bethesda, Md., this 21st day of August 1967.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

[F.R. Doc. 67-10162; Filed, Aug. 29, 1967; 8:49 a.m.]

[Docket No. 50-301]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN MICHIGAN POWER CO.

Notice of Receipt of Application for Construction Permit and Facility License

Wisconsin Electric Power Co. and its subsidiary, Wisconsin Michigan Power Co. (the applicants), 231 West Michigan Street, Milwaukee, Wis., pursuant to section 104(b) of the Atomic Energy Act of 1954, as amended, have filed an application, dated July 17, 1967, for authorization to construct and operate a second pressurized water nuclear reactor at the applicants' Point Beach site. The site is located on the west shore of Lake Michigan in the town of Two Creeks, Manitowoc County, Wis., approximately 30 miles north-northeast of Milwaukee.

The proposed reactor, designated by the applicant as the Point Beach Nuclear Plant Unit No. 2, is a duplicate of the Point Beach Nuclear Plant Unit No. 1 which is currently being constructed at the same site. Both reactors are designed for initial operation at approximately 1,306 thermal megawatts with a net electrical output of approximately 454 megawatts.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 22nd day of August 1967.

For the Atomic Energy Commission.

PETER A. MORRIS,
Director,
Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 12819; Order E-25592]

CONTINENTAL AIR LINES, INC.

Order of Investigation and Suspension Regarding Proposed Increased Rates on Baby Poultry

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 28th day of August 1967.

By tariff revision bearing the posting date of August 16, 1967, and marked to become effective September 20, 1967, Continental Air Lines, Inc. (Continental), proposes to increase its rates on baby poultry. The proposal, applicable to the entire system of the carrier, will raise the rates from the current level of 175 percent of the applicable general commodity rates to 250 percent.

The justification presented by the carrier essentially is that, because of stacking losses, even the proposed higher rates for baby poultry would yield lower revenues than any other commodity in the same amount of space.

By Order E-25538, dated August 16, 1967, the Board suspended and set for investigation identical proposals filed by American Airlines, Inc. (American), The Flying Tiger Line, Inc. (Tiger), Trans World Airlines, Inc. (TWA), and by United Air Lines, Inc. (United), marked to become effective September 1, 1967. The carriers' justification was essentially the same as that submitted by Continental in support of this proposal. The Board based the foregoing action chiefly on the ground that the carriers' justification was not adequate to support the sharp increase proposed.

Consistent with its foregoing action, and for the same reasons, the Board finds that Continental's proposal may be unjust, unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. The Board has further decided to suspend the proposal pending investigation. This investigation will be consolidated with that instituted by Order E-25538, supra.

In addition, the proposals made by American and Tiger set for investigation and suspended by Order E-25588, supra, have been brought forward without change on a subsequent tariff page. The reissue of these suspended rates will, accordingly, be suspended and investigated.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof:

It is ordered, That:

1. An investigation be instituted to determine whether the Exception Ratings to General Commodity Rates of 250 percent (of the general commodity rates) applicable to "Poultry, Baby" for account of "AA," "CO," and "PT" appearing in Item No. 120 on 96th Revised Page 204 of Airline Tariff Publishers, Inc., Agent, CAB No. 8 (Agent J. Aniello series), and rules, regulations, and practices affecting such ratings, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful ratings, and rules, regulations, or practices affecting such ratings;

2. Pending hearing and decision by the Board, the Exception Ratings to General Commodity Rates of 250 percent (of the general commodity rates) applicable to "Poultry, Baby" for account of "AA," "CO," and "PT" appearing in Item No. 120 on 96th Revised Page 204 of Airline Tariff Publishers, Inc., Agent, CAB No. 8 (Agent J. Aniello series) are suspended and their use deferred to and including November 20, 1967, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The foregoing investigation is consolidated with that instituted by Order E-25588, dated August 16, 1967; and

4. Copies of this order shall be filed with the tariffs, and served upon Continental Air Lines, Inc., which is hereby made a party to this proceeding, and upon all other parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 17445-17448; FCC 67M-1428]

ST. ANTHONY TELEVISION CORP. (KHMA-TV) AND DELTA TELE-RADIO CORP.

Order Regarding Procedural Dates

In re applications of St. Anthony Television Corp. (KHMA-TV), Houma, La., Docket No. 17446, File No. BMPCT-6128, for extension of time within which to construct; St. Anthony Television Corp. (KHMA-TV), Houma, La., Docket No. 17447, File No. BMPCT-6129, for modification of construction permit; and St. Anthony Television Corp. (KHMA-TV) (Assignor) Houma, La., and Delta Teleradio Corp., Panama City, Fla. (assignee), Docket No. 17448 File No. BAPCT-378, for assignment of construction permit.

The Hearing Examiner having under consideration the "Petition for Continuance" filed jointly by the two above-named parties on August 22, 1967, requesting a continuance of the presently scheduled procedural dates in the above-entitled matter;

It appearing, that counsel for all of the parties have consented to a grant of the request, and that good cause has been shown therefor;

It is ordered, That:

Exchange of exhibits presently scheduled for September 6, 1967, is continued to November 6, 1967;

Informal engineering conference presently scheduled for September 11, 1967, is continued to November 13, 1967;

Notification of witnesses presently scheduled for September 18, 1967, is continued to November 20, 1967; and

Hearing presently scheduled for September 25, 1967, is continued on November 27, 1967.

Issued: August 23, 1967.

Released: August 24, 1967.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[Docket No. 17174; FCC 67M-1429]

SIOUX EMPIRE BROADCASTING CO.

Order Continuing Hearing

In re application of Elder C. Stangland and Wallace L. Stangland, doing business as Sioux Empire Broadcasting Co., Sioux Falls, S. Dak., Docket No. 17174, File No. BP-15191; for construction permit.

The Acting Chief Hearing Examiner having under consideration a communication dated August 23, 1967, from counsel of KISD, Inc., requesting a rescheduling of the exchange date for exhibits now set for August 25, 1967, and a continuation of the hearing now scheduled for September 5, 1967;

It appearing, that counsel for KISD, Inc., has informally advised the Acting Chief Hearing Examiner that he has only recently been retained by the licensee;

It further appearing, from this communication that Samuel Miller, Esq., counsel for Sioux Empire Broadcasting Co., is opposed to the extension of any procedural dates;

It further appearing, that the Hearing Examiner assigned to this matter and Bureau counsel both are currently on leave;

It further appearing, that good cause exists why the request should be granted;

Accordingly, it is ordered, That the request is granted, and that the date for exchange of exhibits is on or before September 8, 1967; and

It is further ordered, That the hearing now scheduled for September 5, 1967, be and the same is hereby continued without date until Hearing Examiner may reschedule same.

Issued: August 24, 1967.

Released: August 28, 1967.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP68-52]

ARKANSAS LOUISIANA GAS CO.

Notice of Application

AUGUST 22, 1967.

Take notice that on August 14, 1967, Arkansas Louisiana Gas Co. (Applicant), Post Office Box 1734, Shreveport, La. 71102, filed in Docket No. CP68-52 an application pursuant to subsection (c) of section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the sale and delivery of volumes of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate approximately 3,500 feet of 3½ inch market lateral and related facilities, extending from Applicant's existing Line "T" to the site of the plant of International Paper Co. (Paper), Hot Spring County, Ark. Applicant also seeks authorization to sell and deliver to Paper, through the facilities proposed above, volumes of interruptible natural gas for use by an industrial customer. Applicant states that Paper estimates its peak daily and annual natural gas requirements at 1,250 Mcf and 193,450 Mcf, respectively. Applicant states further that the proposed deliveries of natural gas to Paper are to be made on an interruptible basis so as not to interfere with Applicant's ability to meet the requirements of its firm customers.

Applicant estimates the total cost of the facilities proposed at approximately $14,490, said cost to be financed from cash on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before September 18, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

[F.R. Doc. 67-10132; Filed, Aug. 29, 1967; 8:45 a.m.]

[Docket No. CP60-99]

NORTHERN NATURAL GAS CO.

Notice of Application

AUGUST 22, 1967.

Take notice that on May 10, 1960, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, Nebr. 68102, filed in Docket No. CP60-99 an application pursuant to subsection (c) of section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the transportation of natural gas in interstate commerce, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate certain natural gas gathering and processing facilities, such facilities to be located in the Laverne Field, Beaver County, Okla., and called the "Highland System". Applicant also seeks authorization to transport in interstate commerce volumes of natural gas purchased in the above-mentioned Laverne Field from Cabot Carbon Co. (Cabot), the principal seller, Eason Oil Co. (Eason) and Ozark Mahoning Co. (Ozark), pursuant to gas purchase contracts between the parties dated March 17, 1960. Applicant states that the gas proposed to be purchased will materially enhance its gas supply position.

Applicant was granted temporary authority to construct and operate the facilities proposed herein by letter order issued August 8, 1960. In addition, Cabot, Eason, and Ozark have been granted permanent authorization for the sales described above.

Applicant estimates the total cost of the facilities proposed at approximately $1,550,700, said cost to be financed from cash on hand and cash generated from operations.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before September 18, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

FEDERAL RESERVE SYSTEM

OTTO BREMER CO.

Order Granting Determinations Under Bank Holding Company Act

In the matter of the application of Otto Bremer Co., St. Paul, Minn., pursuant to section 4(c)(8) of the Bank Holding Company Act of 1956 for determinations re the proposed Farmers Insurance Agency, Inc., American Insurance Agency, Inc., International State Insurance Agency, Inc., Farmers Agricultural Credit Co., Inc., and Carrington Credit Co. (Dockets Nos. BHC-75, BHC-76, BHC-77, BHC-78, BHC-79).

Otto Bremer Co., St. Paul, Minn., a bank holding company within the meaning of section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. sec. 1841 (a)), filed requests for determinations by the Board of Governors of the Federal Reserve System that the activities planned to be undertaken by its proposed subsidiaries, Farmers Insurance Agency, Inc., American Insurance Agency, Inc., International State Insurance Agency, Inc., Farmers Agricultural Credit Co., Inc., and Carrington Credit Co., are of the kind described in section 4(c)(8) of the Act (12 U.S.C. sec. 1843(c)(8)) and § 222.5(b) of the Board's Regulation Y (12 CFR 222.5(b)), so as to make it unnecessary for the prohibitions of section 4(a) of the Act, respecting the ownership of shares in nonbanking companies, to apply in order to carry out the purposes of the Act.

Pursuant to the requirements of section 4(c)(8) of the Act, and in accordance with the provisions of §§ 222.5(b) and 222.7(a) of the Board's Regulation Y (12 CFR 222.5(b), 222.7(a)), a hearing was held on these matters on January 20, 1966. Applicant requested that the report and recommended decision of the Hearing Examiner be waived, which request was granted, and attendant thereupon Applicant waived the right to file exceptions permitted by § 263.12(a) of the Board's Rules of Practice for Formal Hearings (12 CFR 263.12(a)). For the reasons set forth in the statement[1] of this date, and on the basis of the entire record,

It is hereby ordered, That the activities planned to be undertaken by each of the proposed companies, Farmers Insurance Agency, Inc., American Insurance Agency, Inc., International State Insurance Agency, Inc., Farmers Agricultural Credit Co., Inc., and Carrington Credit Co., are determined to be so closely related to the business of banking or of managing or controlling banks as to be a proper incident thereto and as to make it unnecessary for the prohibitions of section 4(a) of the Bank Holding Company Act of 1956 to apply in order to carry out the purposes of the Act: *Provided, however*, That each of these determinations is subject to revocation if the facts upon which it is based should cease to obtain in any material respect.

Dated: at Washington, D.C., this 23rd day of August 1967.

By order of the General Counsel of the Board of Governors, acting on behalf of the Board pursuant to delegated authority.

[SEAL] MERRITT SHERMAN, *Secretary.*

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.; Temporary Reg. D-7]

POSTMASTER GENERAL

Delegation of Authority Regarding Post Office and Custom House, St. Paul, Minn.

1. *Purpose.* This regulation delegates authority to the Postmaster General to perform the functions of operation, maintenance, and protection of the Post Office and Customhouse, St. Paul, Minn.

2. *Effective date.* This delegation of authority is effective September 1, 1967.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, authority is hereby delegated to the Postmaster General to perform the functions of operation, maintenance, and protection of the Post Office and Customhouse, St. Paul, Minn.

b. The authority herein delegated may be redelegated to any officer or employee of the Post Office Department.

c. The authority hereby delegated shall be exercised in accordance with all applicable laws and regulations of the General Services Administration.

Dated: August 23, 1967.

LAWSON B. KNOTT, Jr., *Administrator of General Services.*

OFFICE OF EMERGENCY PLANNING

ALASKA

Notice of Major Disaster

Pursuant to the authority vested in me by the President under Executive Order 10427 of January 16, 1953, Executive Order 10737 of October 29, 1957, and Executive Order 11051 of September 27, 1962 (18 F.R. 401, 22 F.R. 8799, 27 F.R. 9683); Reorganization Plan No. 1 of 1958, Public Law 85-763, and Public Law 87-296; by virtue of the Act of September 30, 1950, entitled "An Act to authorize Federal assistance to States and local governments in major disasters, and for other purposes" (42 U.S.C. 1855-1855g), as amended; notice is hereby given that the declaration of "major disaster" by the President in his letter dated August 21, 1967 reading in part as follows:

I have determined that the damage in the various areas of the State of Alaska, adversely affected by severe storms and floods beginning on or about August 12, 1967, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 81-875.

I do hereby determine the following area in the State of Alaska to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of August 21, 1967:

Area of Tanana River Basin as defined by the Basin Map Plate 17—contained in Tanana River Basin, report—House Document No. 137—86th Congress, 1st session.

Dated: August 23, 1967.

FARRIS BRYANT, *Director, Office of Emergency Planning.*

SECURITIES AND EXCHANGE COMMISSION

[70-4539]

ALABAMA POWER CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

AUGUST 24, 1967.

Notice is hereby given that Alabama Power Co. ("Alabama"), 600 North 18th Street, Birmingham, Ala. 35202, an exempt holding company and an electric utility subsidiary company of The Southern Co. ("Southern"), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Alabama proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, $28 million principal amount of first mortgage bonds, ——— percent Series due 1997. The interest rate of the bonds (which will be a multiple of one-eighth of 1 percent) and the price, exclusive of accrued interest, to be paid to Alabama (which will be not less than 99 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The bonds will be issued under an indenture dated as of January 1, 1942, between Alabama and Chemical Bank New York Trust Co., trustee, as heretofore supplemented and as to be further supplemented by a supplemental indenture to be dated as of October 1, 1967.

The proceeds from the issue and sale of the bonds will be applied by Alabama, together with the proceeds from the proposed sale of 20,000 shares of its common stock to Southern, pursuant to the order of the Commission dated April 14, 1967 (Holding Company Act Release No. 15711), and from other funds available, to finance its 1967 construction program (presently estimated at $80,834,000), to reimburse its treasury for the retirement of previously outstanding bonds, to pay short-term bank loans, and for other corporate purposes.

The issuance and sale of the bonds has been expressly authorized by the Alabama Public Service Commission, the State commission of the State in which Alabama is organized and doing business. The application states that no other State commission and that no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Estimates of fees and expenses to be incurred in connection with the proposed transactions are to be filed by amendment.

Notice is further given that any interested person may, not later than September 22, 1967, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 1-4078]

TEL-A-SIGN, INC.

Order Suspending Trading

AUGUST 24, 1967.

The common stock of Tel-A-Sign Inc., being listed and registered on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934, and being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such Exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such security on the American Stock Exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period August 25, 1967, through September 3, 1967, both dates inclusive.

By the Commission.

[Notice 461]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 25, 1967.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission, under the Commission's Deviation Rules Revised, 1957 (49 CFR 211.1(c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 3560 (Deviation No. 15), GENERAL EXPRESSWAYS, INC., 1205 South Platte River Drive, Denver, Colo. 80223, filed August 17, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cleveland, Ohio, over Interstate Highway 80 to junction Interstate Highway 95, thence over Interstate Highway 95 to junction U.S. Highway 1 near Leonia, N.J., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) Cleveland, Ohio, over U.S. Highway 422 to junction Ohio Highway 8, thence over Ohio Highway 8 to Canton, Ohio, (2) from Canton, Ohio, over U.S. Highway 30 to junction Pennsylvania Turnpike near Irwin, Pa., thence over Pennsylvania Turnpike to junction U.S. Highway 11, thence over U.S. Highway 11 to Harrisburg, Pa., thence over U.S. Highway 22 to junction unnumbered highway near Paxtonia, Pa., thence over unnumbered highway via Paxtonia, Manadahill, Grantville, East Hanover, Jonestown, and Fredericksburg, Pa., to junction U.S. Highway 22, thence over U.S. Highway 22 to junction unnumbered highway near Bethel, Pa., thence over unnumbered highway via Bethel and Strausstown, Pa., to junction U.S. Highway 22, thence over U.S. Highway 22 to junction unnumbered highway near Walbert, Pa., thence over unnumbered highway via Allentown, Bethlehem, Buxtown, and Wilson, Pa., to Easton, Pa., thence over U.S. Highway 22 to junction unnumbered highway (formerly portion U.S. Highway 22), thence over unnumbered

highway to Clinton, N.J., thence over unnumbered highway via Annandale, Lebanon, Pattenburg, and Whitehouse, N.J., to junction U.S. Highway 22 thence over U.S. Highway 22 to junction New Jersey Highway 24, thence over New Jersey Highway 24 to junction U.S. Highway 1 near Elizabeth, N.J., and (3) from Boston, Mass., over U.S. Highway 1 to junction Alternate U.S. Highway 1, near Wickford, R.I., thence over Alternate U.S. Highway 1 to junction U.S. Highway 1, near Wakefield, R.I., thence over U.S. Highway 1 to Poquonock Bridge, Conn., thence over unnumbered highway via Groton, Conn., to junction Alternate U.S. Highway 1, at or near New London, Conn., thence over Alternate U.S. Highway 1 to junction U.S. Highway 1, at or near East Lyme, Conn., thence over U.S. Highway 1 via Philadelphia, Pa., to Washington, D.C. (also from Philadelphia over U.S. Highway 13 to junction U.S. Highway 40, thence over U.S. Highway 40 to Baltimore, Md., thence over U.S. Highway 1 to Washington, D.C.), and return over the same routes.

No. MC 80430 (Deviation No. 7), GATEWAY TRANSPORTATION CO., INC., 2130 South Avenue, La Crosse, Wis. 54601, filed August 16, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: Between Chicago, Ill., and St. Louis, Mo., over Interstate Highway 55, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Chicago, Ill., over U.S. Highway 54 to junction Illinois Highway 43, thence over Illinois Highway 43 to junction U.S. Highway 66, thence over U.S. Highway 66 to Edwardsville, Ill., thence over Illinois Highway 159 to Collinsville, Ill., thence over U.S. Highway 40 to St. Louis, Mo., and return over the same route.

MOTOR CARRIERS OF PASSENGERS

No. MC 1515 (Deviation No. 397), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, Ohio 44113, filed August 21, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers*, in the same vehicle with passengers, over deviation routes as follows: (1) From Cincinnati, Ohio, over Interstate Highway 71 to junction U.S. Highway 227, thence over U.S. Highway 227 to Carrollton, Ky., (2) from Florence, Ky., over Kentucky Highway 18 to junction Interstate Highway 71, (3) from Florence, Ky., over U.S. Highway 42 to junction Interstate Highway 71, and (4) from junction U.S. Highways 42 and 127 (approximately 5 miles north of Warsaw, Ky.) over U.S. Highway 127 to junction Interstate Highway 71, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Louisville, Ky., over old U.S. Highway 42 via Prospect and Carrollton, Ky., to Cincinnati, Ohio, thence over U.S. Highway 42 via Lebanon, Xenia, and London, Ohio, to Delaware, Ohio, and return over the same route.

No. MC 1515 (Deviation No. 398) (Cancels Deviation No. 332), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, Ohio 44113, filed August 21, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of passengers, and their baggage, and express and newspapers in the same vehicle with passengers, over deviation routes as follows: (1) From Erie, Pa., over Interstate Highway 79 to junction Interstate Highway 90, thence over Interstate Highway 90 to junction Pennsylvania Highway 98, thence over Pennsylvania Highway 98 to junction combined U.S. Highways 6, 19, and 322 approximately 4 miles west of Meadville, Pa., and (2) from junction U.S. Highway 19 and Pennsylvania Highway 258 over Pennsylvania Highway 258 to junction Interstate Highway 79, thence over Interstate Highway 79 to junction U.S. Highway 19 approximately 2 miles south of Zelienople, Pa., with the following access routes: (a) From Mercer, Pa., over U.S. Highway 62 to junction Interstate Highway 79, (b) from junction U.S. Highway 19 and Interstate Highway 80 (approximately 2 miles south of Mercer, Pa.) over Interstate Highway 80 to junction Interstate Highway 79, (c) from junction U.S. Highway 19 and Pennsylvania Highway 208 (at Lounsburg, Pa.) over Pennsylvania Highway 208 to junction Interstate Highway 79, (d) from junction U.S. Highways 19 and Pennsylvania Highway 108 (at Harlansburg, Pa.), over Pennsylvania Highway 108 to junction Interstate Highway 79, (e) from junction U.S. Highways 19 and 422 over U.S. Highway 422 to junction Interstate Highway 79, (f) from junction U.S. Highway 19 and Pennsylvania Highway 488 (at Portersville, Pa.) over Pennsylvania Highway 488 to junction Interstate Highway 79, and (g) from junction U.S. Highway 19 and Pennsylvania Highway 68 (at Zelienople, Pa.) over Pennsylvania Highway 68 to junction Interstate Highway 79, and return over the same routes, for operating convenience only.

The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (1) From junction U.S. Highways 422 and 19 at a point approximately 11 miles east of New Castle, Pa., over U.S. Highway 19 via Portersville and Zelienople, Pa., to Pittsburgh, Pa., (2) from Erie, Pa., over U.S. Highway 19 to Kearsarge, Pa., thence over Pennsylvania Highway 99 to Cambridge Springs, Pa., thence over U.S. Highway 6 to Conneaut Lake, Pa., (3) from Pittsburgh, Pa., over U.S. Highway 19 to junction Pennsylvania Turnpike, at the Perry Highway Interchange near Warrendale, Pa., and (4) from junction U.S. Highways 19 and 422 approximately 11 miles east of New Castle, Pa., over U.S. Highway 19 to junction U.S. Highway 6, thence over combined U.S. Highways 19 and 6 to junction U.S. Highway 219 approximately 4 miles west of Meadville, Pa., and return over the same routes.

No. MC 29567 (Deviation No. 11), CONTINENTAL SOUTHERN LINES, INC., Box 4167, Alexandria, La. 71301, filed August 14, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, and baggage of passengers in separate vehicles, over a deviation route as follows: Between junction Interstate Highway 10 and Texas Highway 13 and Lake Charles, La., over Interstate Highway 10, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Beaumont, Tex., over Texas Highway 12 (formerly Texas Highway 135) via Deweyville, Tex., to the Texas-Louisiana State line, thence over Louisiana Highway 12 (formerly Louisiana Highway 7) via De Quincy, La., to junction U.S. Highway 171, thence over U.S. Highway 171 to junction U.S. Highway 90, thence over U.S. Highway 90 to Lake Charles, La., and return over the same route.

No. MC 59238 (Deviation No. 7), VIRGINIA STAGE LINES, INCORPORATED, 41st and Water Streets, Charlottesville, Va. 22902, filed August 14, 1967. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over a deviation route as follows: Between junction U.S. Highway 250 and Interstate Highway 64 (near Short Pump, Va.) and Richmond, Va., over Interstate Highway 64, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: Between Staunton, Va., and Richmond, Va., over U.S. Highway 250.

By the Commission.

[Notice 1039]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

AUGUST 25, 1967.

The following publications are governed by Special Rule 1.247 of the Commission's rules of practice, published in the FEDERAL REGISTER issue of April 20, 1966, which became effective May 20, 1966.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

MOTOR CARRIERS OF PROPERTY

No. MC 109637 (Sub-No. 324) filed August 18, 1967. Applicant: SOUTHERN TANK LINES INC., 4107 Bells Lane, Louisville, Ky. 40211. Applicant's representative: G. R. Thom (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from Pascagoula, Miss., and points within 10 miles thereof, to points in the United States (except Alaska and Hawaii). NOTE: Applicant states it holds no authority to which the proposed authority might be tacked, however, applicant much prefers to avoid the encumbrance of a no-tacking provision, if that is possible.

HEARING: September 26, 1967, in Room T-13009, Federal Office Building, 701 Loyola Avenue, New Orleans, La., before Examiner Joseph T. Fittipaldi.

No. MC 103435 (Sub-No. 196) (Republication), filed January 11, 1967, published FEDERAL REGISTER issue of February 2, 1967, and republished this issue. Applicant: UNITED-BUCKINGHAM FREIGHT LINES, East 4005 Broadway Street, Spokane, Wash. 99202. Applicant's representative: George R. LaBissoniere, 930 Logan Building, Seattle, Wash. 98101. By application filed January 11, 1967, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over regular routes (a) of general commodities, (1) between Minneapolis, Minn., and Hettinger, N. Dak., from Minneapolis, over U.S. Highway 12 to Hettinger, and return over the same route, and (2) from Bowman, N. Dak., to Miles City, Mont., over U.S. Highway 12, and return over the same route, and (b) of general commodities, except those of unusual value, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Chillicothe, Mo., and Cameron, Mo., from Chillicothe over U.S. Highway 36 to Cameron, and return over the same route, serving no intermediate points on the above-described routes, as alternate routes for operating convenience only.

A report of the Commission, Review Board Number 1, decided August 16, 1967, and served August 21, 1967, as amended, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle over regular routes of, (a) *general commodities*, (1) between Minneapolis, Minn., and Hettinger, N. Dak., over U.S. Highway 12, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's regular-route operations between Minneapolis, on the one hand, and, on the other, Miles City, Mont., and (2) between Bowman, N. Dak., and Miles City, Mont., over U.S. Highway 12, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's regular-route operations between Minneapolis, Minn., on the one hand, and, on the other, Miles City, (b) *commodities of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment*, between Hettinger and Bowman, N. Dak., over U.S. Highway 12, serving no intermediate points, and

(c) *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Chillicothe and Cameron, Mo., over U.S. Highway 36, serving no intermediate points, as an alternate route for operating convenience only, restricted against the transportation of traffic moving between points in the St. Louis, Mo.-East St. Louis, Ill., commercial zone, on the one hand, and, on the other, points in the Kansas City, Mo-Kans., commercial zone: with the authority granted hereinabove, to the extent it authorizes the transportation of dangerous explosives, limited in point of time to a period expiring 5 years from the date of issuance of the certificate issued pursuant to this proceeding; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act, and the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 126674 (Sub-No. 2) (Republication) filed December 7, 1966, published FEDERAL REGISTER issue of December 29, 1966, and republished this issue. Applicant: RONALD E. ACHESON, doing business as ACHESON TRUCKING, Box 328, Port Recovery, Ohio 45686. Applicant's representative: Donald W. Smith, 511 Fidelity Building, Indianapolis, Ind. 46204. By application filed December 7, 1966, applicant seeks a permit authorizing operation, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes of, specified commodities from, to, and between points in Indiana and described counties in Michigan and Ohio, for named shippers. A report of the Commission, Operating Rights Review Board Number 3, decided June 20, 1967, and served July 14, 1967, as amended, finds that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes of, (1) *dry animal and poultry feeds and animal health aids and sanitation products*, (a) from Fort Wayne, Ind., to points in Berrien, Kalamazoo, Van Buren, Allegan, Barry, St. Joseph, Eaton, Hillsdale, Calhoun, and Branch Counties, Mich., and Fulton, Henry, Putnam, Van Wert, Darke, Mercer, Hancock, Seneca, Marion, Delaware, Preble, and Miami Counties, Ohio, to Fort Wayne, Ind., restricted to service performed under a continuing contract or contracts with Allied Mills, Inc., of Chicago, Ill., and (b) from points in Hamilton, Williams, Fulton, Lucas, Defiance, Henry, Paulding, Putnam, Hancock, Seneca, Van Wert, Allen, Hardin, Mercer, Auglaize, Darke, Shelby, Logan, Champaign, Miami, Clark, Preble, Montgomery, Greene, Butler, Warren, Clinton, Clermont, and Brown Counties, Ohio, to Richmond, Ind., restricted to service performed under a continuing contract or contracts with the Ralston Purina Co., of Richmond, Ind., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act, and with the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order; a notice of the authority actually granted will be published

in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication during which period any proper party in interest may file an appropriate petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 126201 (Republication), filed May 3, 1966, published FEDERAL REGISTER issue of June 3, 1966, and republished this issue. Applicant: SCHUSTER GRAIN COMPANY, INC., Seventh Avenue SE., Le Mars, Iowa. Applicant's representative: J. Max Harding, Box 2028, Lincoln, Nebr. 68501. By application filed May 3, 1966, applicant seeks a permit authorizing operation, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of (1) animal feed and feed ingredients, insecticides and pesticides from the plantsite or warehouse facilities of Supersweet Feeds at Le Mars, Iowa, to points in Minnesota, South Dakota, and Nebraska, and (2) feed ingredients from destinations in (1) above to origin in (1) above, limited to a service to be performed under a continuing contract with Supersweet Feeds of Le Mars, Iowa. The application was referred to Examiner Lawrence A. Van Dyke, Jr., for hearing and recommendation of an appropriate order thereon. Hearing was held on May 29, 1967, at Sioux City, Iowa. A report and order of the Commission, Division 1, served July 12, 1967 which became effective August 11, 1967, served August 18, 1967, finds that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes of, (1) *animal and poultry feeds, insecticides, and pesticides* (except liquids in bulk), from the plantsite and warehouse facilities of Supersweet Feeds Division of International Milling Co., Inc., located at or near Le Mars, Iowa, to points in Minnesota, South Dakota, and Nebraska, and

(2) *Animal and poultry feed ingredients* (except liquids in bulk), from points in Minnesota, South Dakota, and Nebraska to the origin points described in (1) above, limited to a transportation service performed under a continuing contract with Supersweet Feeds Division of International Milling Co., Inc., of Le Mars, Iowa, subject to the conditions (a) that applicant shall maintain separate accounting systems for its for-hire carriage and other business operations, and (b) that applicant shall not at the same time and in the same vehicle transport property both as a private carrier and as a carrier for hire, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240.)

MOTOR CARRIERS OF PROPERTY

No. MC-F-9843 (Correction) (BEND-PORTLAND TRUCK SERVICE, INC.—Control—PEOPLES WAREHOUSE, INC.), published in the August 9, 1967, issue of the FEDERAL REGISTER, on page 11504. The notice should read Household goods as defined by the Commission, as a common carrier, over *irregular routes*, etc., in lieu of over regular routes.

No. MC-F-9869. Authority sought for purchase by AERO TRUCKING, INC., Post Office Box 306, Monroeville, Pa., of a portion of the operating rights of JACK'S DELIVERY SERVICE, INC., Rear 181 Greenwich Avenue, Greenwich, Conn., and for acquisition by EDWARD J. CONTO, also of Monroeville, Pa., JACK M. GEORGE, M.D., Columbus, Ohio, and JAMES N. GEORGE, M.C., Rochester, N.Y., of control of such rights through the purchase. Applicants' attorneys: John E. Fay, 79 Lafayette Street, Hartford, Conn. 06106, and A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Operating rights sought to be transferred: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier*, over irregular routes, between Greenwich, Conn., on the one hand, and, on the other, points within 10 miles of Greenwich. Vendee is authorized to operate as a *common carrier* in Ohio, Pennsylvania, West Virginia, Kentucky, Illinois, Michigan, New York, Indiana, Wisconsin, Connecticut, Delaware, Maryland, Massachusetts, New Jersey, Rhode Island, Virginia, Tennessee, Alabama, Mississippi, Maine, Vermont, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-9870. Authority sought for control and merger by COMMERCIAL MOTOR FREIGHT, INC. (OHIO CORP.), 525 Cleveland Avenue, Columbus, Ohio, of the operating rights and property of D.G. & U. TRUCK LINES, INC., 701 Hiddeson Avenue, Greenville, Ohio, and for acquisition by S. M. BOSTIC, 4980 Cemetery Road, Hilliard, Ohio 43026, of control of such rights and property through the transaction. Applicants' attorneys: R. L. Ratchford, 525 Cleveland Avenue, Columbus, Ohio 43215, and William E. Rance, 1200 West Fifth Avenue, Columbus, Ohio 43212. Operating rights sought to be controlled and merged: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier*, over regular routes, between Dayton, Ohio, and Muncie, Ind., serving all intermediate points, and the off-route points of Brookville and Trotwood, Ohio, and Yorktown, Ind., between Anderson, Ind., and Muncie, Ind., serving all intermediate points; between Cincinnati, Ohio, and Oxford, Ohio, serving the intermediate points of Bevis, Dunlap, Ross, Millville, and McConigle, Ohio, with restrictions; over two alternate routes for operating convenience only; *general commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, uncrated commodities in bulk, and those requiring special equipment, between Dayton, Ohio, and Arcanum, Ohio, between junction Ohio Highway 49 and unnumbered highway (approximately 1 mile northwest of Fort McKinley, Ohio), and Trotwood, Ohio, between Phillipsburg, Ohio, and Ithaca, Ohio, serving the intermediate and off-route points of Brookville, Trotwood, Lewisburg, Ithaca, Verona, Gordon, and Pyrmont, Ohio, and points within 5 miles of Dayton, Ohio, in connection with the three routes described next above; *general commodities*, excepting, among others, household goods and commodities in bulk, over irregular routes, between points in Montgomery, Preble, Miami, and Drake Counties, Ohio, and Randolph, Wayne, Henry, Delaware, and Madison Counties, Ind., on the one hand, and, on the other, Cox Municipal Airport, Montgomery County, Ohio (municipal airport for Dayton, Ohio), with restriction. COMMERCIAL MOTOR FREIGHT, INC. (OHIO CORP.), is authorized to operate as a *common carrier* in Ohio, Indiana, West Virginia, and Pennsylvania. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

[Notice 1101]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

AUGUST 25, 1967.

The following publications are governed by Special Rule 1.247 of the Commission's rules of practice, published in the FEDERAL REGISTER issue of April 20, 1966, which became effective May 20, 1966.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

MOTOR CARRIERS OF PROPERTY

The application immediately following are assigned for hearing at the time and place designated in the notice of filing as here published in each proceeding. All of the proceedings are subject to the special rules of procedure for hearing outlined below:

SPECIAL RULES OF PROCEDURE FOR HEARING

(1) All of the testimony to be adduced by applicant's company witnesses shall be in the form of written statements which shall be submitted at the hearing at the time and place indicated.

(2) All of the written statements by applicant's company witnesses shall be offered in evidence at the hearing in the same manner as any other type of evidence. The witnesses submitting the written statements shall be made available at the hearing for cross-examination, if such becomes necessary.

(3) The written statements by applicant's company witnesses, if received in evidence, will be accepted as exhibits. To the extent the written statements refer to attached documents such as copies of operating authority, etc., they should be referred to as written statement as numbered appendices thereto.

(4) The admissibility of the evidence contained in the written statements and the appendices thereto, will be at the time of offer, subject to the same rules as if the evidence were produced in the usual manner.

(5) Supplemental testimony by a witness to correct errors or to supply inadvertent omissions in his written statement is permissible.

No. MC 115331 (Sub-No. 232), filed August 23, 1967. Applicant: TRUCK TRANSPORT, INCORPORATED, 707 Market Street, St. Louis, Mo. 63101. Applicant's representative: Thomas F. Kilroy, 913 Colorado Building, 1341 G Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Perlite and vermiculite*, in bulk, between points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Minnesota, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, and District of Columbia.

HEARING: September 11, 1967, before Examiner Parks M. Low, in Room 2588K, Federal Building, 219 South Dearborn Street, Chicago, Ill.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

[F.R. Doc. 67-10159; Filed, Aug. 29, 1967; 8:48 a.m.]

[Notice 448]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 25, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67 (49 CFR Part 340) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIER OF PROPERTY

No. MC 33641 (Sub-No. 68 TA), filed August 21, 1967. Applicant: IML FREIGHT, INC., Post Office Box 2277, 2175 South 3270 West Street, Salt Lake City, Utah 84110. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General Commodities* (except those, requiring armored vehicles or armed guards, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), (1) between the plantsites and warehouses of Rockwell-Standard Corp. at or near Winchester, Ky., and Louisville, Ky.: From Winchester, Ky., over U.S. Highway 60 to junction Interstate Highway 64 (near Jett, Ky.), and thence over Interstate Highway 64 to Louisville, and return over the same route, serving no intermediate points, and (2) between the plantsites and warehouses of Rockwell-Standard Corp. at or near Winchester, Ky., and Cincinnati, Ohio.: (a) From Winchester, over U.S. Highway 227 to Paris, Ky., and thence over U.S. Highway 27 to Cincinnati, and return over the same route, serving no intermediate points, and (b) from Winchester, Ky., over U.S. Highway 227 to junction Interstate Highway 75 (near Winchester, Ky.), and thence over Interstate Highway 75 to Cincinnati, Ohio, and return over the same route, serving no intermediate points. NOTE: Applicant intends to tack the proposed authority with its presently held authority at Louisville, Ky., and Cincinnati, Ohio, for 180 days. Supporting shipper: Rockwell-Standard Corp., Transmission and Axle Division, Winchester, Ky. Send protests to: John T. Vaughan, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2224 Federal Building, Salt Lake City, Utah 84111.

No. MC 53639 (Sub-No. 63 TA), filed August 21, 1967. Applicant: HUBER & HUBER MOTOR EXPRESS INC., Post Office Box 1000, Staunton, Va. 24401. Authority sought to operate as a *common carrier*, by motor vehicle over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, and commodities requiring special equipment), serving the plantsites and warehouse of Rockwell-Standard Corp. at or near Winchester, Ky., as an off-route point in connection with carrier's existing regular authority to serve Lexington, Ky. NOTE: Applicant states that it intends to lack authority sought with that previously held and that it intends to interline the traffic with another carrier for 180 days. Supporting shipper: Rockwell-Standard Corp., Transmission and Axle Division, Winchester, Ky. 40391. Send protests to: George S. Hales, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 215 Campbell Avenue SW., Roanoke, Va. 24011.

No. MC 109637 (Sub-No. 325 TA), filed August 21, 1967. Applicant: SOUTHERN TANK LINES, INC., 4107 Bells Lane, Louisville, Ky. 40211. Applicant's representative: David Newton (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fluorine*, in bulk, in U.S. Government-owned tank semitrailers, from the Metropolis, Ill., works of Allied Chemical Corp., to Rohm & Haas Co., at Redstone Arsenal, at or near Huntsville, Ala., and *empty tank semitrailers*, on return, for 150 days. Supporting shippers: A. H. Belcher, Supervisor Purchasing Department, Rohm & Haas Co., Redstone Research Laboratories, Huntsville, Ala. 35807. Send protests to: Wayne L. Merlatt, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 426 Post Office Building, Louisville, Ky. 40202.

No. MC 112613 (Sub-No. 5 TA), filed August 21, 1967. Applicant: T. ACHENBERG TRANSPORTATION CO., 208 Sheridan Street, Perth Amboy, N.J. 08861. Applicant's representative: Bert Collins, 140 Cedar Street, New York, N.Y. 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Materials and supplies as are used in the manufacture, sale, and distribution of toilet preparations* (except in bulk), from Perth Amboy, N.J., to points in Essex and Hudson Counties, N.J., and New York, N.Y., for the account of Chesebrough-Pond's Inc., for 150 days. Supporting shipper: Chesebrough-Pond's Inc., John Street, Clinton, Conn. 06413. Send protests to: Robert S. H. Vance, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1060 Broad Street, Newark, N.J. 07102.

No. MC 114364 (Sub-No. 145 TA), filed August 21, 1967. Applicant: WRIGHT MOTOR LINES, INC., Post Office Box

1191, Cushing, Okla. 74023. Applicant's representative: Carl L. Wright (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in containers, from Wichita and Hutchinson, Kans., to points in Utah, for 180 days. Supporting shipper: The Western Food Products Co., Inc., Nelson Morgan, Traffic Manager, Post Office Box 552, Hutchinson, Kans. 67501. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 350, American General Building, 210 Northwest Sixth, Oklahoma City, Okla. 73102.

No. MC 119295 (Sub-No. 3 TA), filed August 21, 1967. Applicant: FORREST L. CAGLE AND RAY E. CAGLE, a partnership, doing business as CAGLE BROS. TRUCKING SERVICE, 59th Street and Butler Road, Post Office Box 14187, Maryvale Station, Phoenix, Ariz. 85031. Applicant's representative: Pete H. Dawson, 4453 East Piccadilly Road, Phoenix, Ariz. 85018. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood products*, from Shelton, Wash., to Tuba City, Kayenta, Chinle, and Window Rock, Ariz., for 150 days. Supporting shipper: Simpson Timber Co., 2000 Washington Building, Seattle, Wash. 98101. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 3427 Federal Building, Phoenix, Ariz. 85025.

No. MC 124078 (Sub-No. 289), filed August 21, 1967. Applicant: SCHWERMAN TRUCKING CO., 611 South 28th Street, Milwaukee, Wis. 53215. Applicant's representative: Richard H. Prevette (same points in as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, from West Des Moines, Iowa, to Kansas City, Kans., for 150 days. Supporting shipper: Penn-Dixie Cement Corp., 60 East 42d Street, New York, N.Y. 10017 (R. J. Janer). Send protests to: District Supervisor Lyle D. Heifer, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 123717 (Sub-No. 10 TA), filed August 21, 1967. Applicant: NORMAN JOSEPH CHOPLIN, doing business as JOE CHOPLIN, 1301 North Spring, Independence, Mo. 64165. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, Mo. 64105. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dairy replacement products including mocha mix, desertwhip, affair, baker's topping, Caterblend, Cater-S, and other specialty products*; from facilities of Presto Food Products, Inc., in Kansas City, Mo., to its distributors located at points in Nebraska and Colorado, for 180 days. Supporting shipper: Presto Food Products, Inc., 1602 Forest Avenue, Kansas City, Mo. 64008. Send protests to: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1100 Federal Office Building, 911 Walnut, Kansas City, Mo. 64106.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary.*

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

AUGUST 25, 1967.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

State Docket No. H-4969, filed August 8, 1967. Applicant: AMBURN FREIGHT LINE, INC., Industrial Park, Eldora, Iowa. Applicant's representative: William M. Dunn, 1123 Edington, Eldora, Iowa. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, between the junction of U.S. Highway 65 and Iowa Highway 57 to junction U.S. Highway 65 and Iowa Highway 175, thence over Iowa Highway 175 to Ellsworth, Iowa, for operating convenience only. The purpose of this application is to serve as a connecting link between the authority presently held by the Applicant and the anticipated purchase by the Applicant of the authority held by Severaid Motor Freight, Story City, Iowa. Both intrastate and interstate authority sought.

HEARING: No date has been set. Requests for procedural information, including the time for filing protests concerning the application should be addressed to the Iowa State Commerce Commission, State Capitol, Des Moines, Iowa 50319, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary.*

[F.R. Doc. 67-10161; Filed, Aug. 30, 1967; 8:48 a.m.]

CUMULATIVE LIST OF PARTS AFFECTED—AUGUST

Guide to Record Retention Requirements

[Revised as of January 1, 1967]

This useful reference tool is designed to keep businessmen and the general public informed concerning published requirements in laws and regulations relating to record retention. It contains over 900 digests detailing the retention periods for the many types of records required to be kept under Federal laws and rules.

The "Guide" tells the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest also includes a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,000 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: 40 cents

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 963-3626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Rules and Regulations

Title 7—AGRICULTURE

Chapter II—Consumer and Marketing Service (Consumer Food Programs), Department of Agriculture

PART 215—SPECIAL MILK PROGRAM FOR CHILDREN

Regulations are hereby amended, revised, and reissued for the operation of the Special Milk Program for Children pursuant to the authority contained in the Child Nutrition Act of 1966, Public Law 89-642, 80 Stat. 885.

Sec.
215.1 General purpose and scope.
215.2 Definitions.
215.3 Administration.
215.4 Apportionment of funds to States.
215.5 Payments to States.
215.6 Use of funds.
215.7 Requirements for participation.
215.8 Reimbursement payments.
215.9 Effective date for reimbursement.
215.10 Reimbursement procedure.
215.11 Special responsibilities of State Agencies.
215.12 Claims against schools or child-care institutions.
215.13 Administrative analyses and audits.
215.14 Nondiscrimination.
215.15 Miscellaneous provisions.
215.16 Program information.

AUTHORITY: The provisions of this Part 215 issued under sec. 3, 80 Stat. 886, 42 U.S.C. 1772.

§ 215.1 General purpose and scope.

This part announces the policies and prescribes the general regulations with respect to the Special Milk Program for Children, under Public Law 89-642, and sets forth the general requirements for participation in the Program. The Act reads in pertinent part as follows:

Sec. 3. There is hereby authorized to be appropriated for the fiscal year ending June 30, 1967, not to exceed $110 million; for the fiscal year ending June 30, 1968, not to exceed $115 million; and for each of the 2 succeeding fiscal years not to exceed $120 million, to enable the Secretary of Agriculture, under such rules and regulations as he may deem in the public interest, to encourage consumption of fluid milk by children in the United States in (1) nonprofit schools of high school grade and under, and (2) nonprofit nursery schools, child-care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children. For the purposes of this section "United States" means the 50 States and the District of Columbia. The Secretary shall administer the Special Milk Program provided for by this section to the maximum extent practicable in the same manner as he administered the Special Milk Program provided for by Public Law 85-478, as amended, during the fiscal year ended June 30, 1966.

§ 215.2 Definitions.

For the purpose of this part, the term:

(a) "Act" means the Child Nutrition Act of 1966.

(b) "Adult staff members and employees" means all persons who are staff members and employees of a school or child-care institution, including all faculty, supervisory and other personnel, but excluding camp counselors under 21 years of age.

(c) "Adults enrolled for care and training" means (1) students enrolled in school classes above the 12th grade level, and (2) all persons 21 years or older attending camps or receiving care and training as enrollees of institutions.

(d) "Attendance unit" means a building or a complex of buildings and supporting facilities in which instruction is provided for classes of high school grade or under.

(e) "Child-care institution" means any nonprofit nursery school (other than nursery schools falling within the definition of school in this section), child-care center, settlement house, summer camp or similar nonprofit institution, devoted to the care and training of children. "Child-care institution" as used in this part includes, where applicable, the authorized sponsoring agency which has entered into an agreement under the Program for a child-care institution.

(f) "CSMSS" means the Consumer and Marketing Service of the U.S. Department of Agriculture.

(g) "CFPDO" means Consumer Food Programs District Office(s), of the Consumer and Marketing Service of the U.S. Department of Agriculture.

(h) "Cost of Milk" means the net purchase price paid by the school or child-care institution to the milk supplier for milk delivered to the school or child-care institution. This shall not include any amount paid to the milk supplier for servicing, rental of or installment purchase of milk service equipment.

(i) "Department" means the U.S. Department of Agriculture.

(j) "Distribution costs" means direct expenses incurred by the school or child-care institution in connection with the sale, handling and service of milk. This may include expenses incident to acquisition or rental of necessary milk service equipment.

(k) "Fiscal year" means a period of 12 calendar months, beginning with July 1 of any calendar year and ending with June 30 of the following calendar year.

(l) "Milk" means unflavored milk which meets State and local standards for fluid whole milk and flavored milk made from fluid whole milk which meets such standards, except that, in those areas of Alaska and Hawaii where a sufficient supply of fresh fluid whole milk cannot be obtained, "milk" shall include recombined or reconstituted fluid whole milk.

(m) "National School Lunch Program" means the program authorized by the National School Lunch Act.

(n) "Needy children" means children who cannot afford to make any payment at all for milk served to them.

(o) "Needy schools" means schools which, because of poor local economic conditions, are determined by State Agencies, or CFPDO where applicable, to be in need of special assistance in order to serve milk without charge to needy children, and which either (1) are participating in the National School Lunch Program at assigned reimbursement rates averaging more than 9 cents per Type A lunch, from Federal funds, or (2) have no noon food service.

(p) "Nonpricing program" means a program which does not sell milk to children. This shall include any such program in which children are normally provided milk, along with food and other services, in a school or child-care institution financed by a tuition, boarding, camping or other fee, or by private donations or endowments.

(q) "Nonprofit food service" or "nonprofit milk service" means food or milk service maintained by or on behalf of the school or child-care institution for the benefit of the children, all of the income from which is used solely for the operation or improvement of such food or milk service.

(r) "Nonprofit private school" means a nonpublic school that is exempt from income tax under the Internal Revenue Code, as amended.

(s) "OIG" means the Office of the Inspector General of the U.S. Department of Agriculture.

(t) "Pricing program" means a program which sells milk to children. This shall include any such program in which maximum use is made of Program reimbursement payments in lowering, or reducing to "zero," wherever possible, the price per half pint which children would normally pay for milk.

(u) "Program" means the Special Milk Program for Children.

(v) "School" means the governing body responsible for the administration of a public or nonprofit private "school" of high school grade or under, as recognized under the laws of the State. "School of high school grade or under" shall include preschool programs operated as part of the school system. The term "school" also includes a nonprofit agency to which the school has delegated authority for the operation of its nonprofit milk service.

(w) "School Breakfast Program" means the program authorized by section 4 of the Child Nutrition Act of 1966.

(x) "SLD" means the School Lunch Division, Consumer Food Programs, of the Consumer and Marketing Service of the U.S. Department of Agriculture.

(y) "State" means any of the 50 States, and the District of Columbia.

(a) "State Agency" means the educational agency or other agency of a State.

§ 215.3 Administration.

(a) Within the Department, C&MS shall act on behalf of the Department in the Administration of the Program. Within C&MS, SLD, and CFPDO shall be responsible for Program administration.

(b) To the extent practicable and permissible under State law, responsibility for the administration of the Program in schools and child-care institutions within a State shall be in the educational agency of the State: *Provided, however,* That another State Agency, upon request by an appropriate State official, may be approved by CFPDO to administer the Program in child-care institutions.

(c) CFPDO shall administer the Program in any nonprofit private schools and in child-care institutions in which the Program is not administered by the State.

(d) Each State Agency desiring to take part in the Program shall enter into a written agreement with the Department for the administration of the Program in the State in accordance with the provisions of this part. Such agreement shall show the class or classes of schools and child-care institutions in which the State Agency will administer the Program. Such agreement shall cover a fiscal year and may be extended at the option of the Department.

(e) References in this part to "CFPDO where applicable" are to CFPDO as the agency administering the Program in nonprofit private schools and child-care institutions in which the Program is not administered by the State.

§ 215.4 Apportionment of funds to States.

(a) As soon as possible after the beginning of each fiscal year for which funds are made available by the Congress, SLD shall apportion such funds among the States in the following manner: First, 1 percent of the funds shall be held by SLD in an uncommitted reserve to meet unforeseen contingencies. The remainder shall be apportioned among the States on the basis of the payments made to schools and child-care institutions for Program reimbursement during the preceding fiscal year. SLD shall advise each State Agency of the amount of funds which will be available to it for Program reimbursement during that fiscal year.

(b) C&MS shall withhold a share of the funds apportioned to any State for the Program for the nonprofit private schools and child-care institutions of that State if the State Agency does not administer the Program in such schools and child-care institutions. The funds withheld by C&MS shall be an amount which bears the same ratio to the Program funds apportioned to that State as the amount of the reimbursement payments of all nonprofit private schools and child-care institutions of the State during the preceding fiscal year bears to the amount of the reimbursement payments of all schools and child-care institutions in the State during the preceding fiscal year.

(c) The State Agency, or CFPDO where applicable, in establishing rates of reimbursement (within the maximum rates) shall consider the Program funds available to it, the class or classes of schools and child-care institutions in which it will administer the Program and the necessity of extending Program operations over the entire fiscal year. The State Agency, or CFPDO where applicable, shall make funds available for child-care institutions and summer camps (including anticipated June operations therein) in a proportion related to the Program reimbursement paid to these categories of participants during the preceding fiscal year, and shall make funds available for new programs in these categories. Adjustments in rates of reimbursement shall be made from time to time as necessary in order for the State Agency, or CFPDO where applicable, to maintain Program reimbursement for the full fiscal year for which funds are made available.

(d) The State Agency, or CFPDO where applicable, shall be responsible for controlling Program reimbursement obligations so as to keep within the funds made available to it.

(e) SLD reserves the right to request any State Agency at any time during the third or fourth quarter of any fiscal year to justify its need for the full amount of funds apportioned to it. If SLD determines that a State Agency has not justified the need to retain the full amount of funds apportioned to it, SLD shall adjust the State's Letter of Credit by the amount determined to be in excess of the State's need.

(f) In the event that a State Agency justifies the need for funds in excess of the amount of its apportionment, additional funds will be provided to such State Agency to the extent they are available for such purpose, either from the amount remaining in the contingency reserve fund retained by SLD or from funds not needed in other States. Such justification shall be based on the need for additional funds resulting from factors that could not be anticipated.

§ 215.5 Payments to States.

(a) Funds shall be made available to each State Agency with which the Department has an agreement by means of a consolidated Letter of Credit issued by C&MS to an appropriate Federal Reserve Bank in accordance with procedures applicable to C&MS for food service programs. A Program Limitation Letter detailing the funds available to the State Agency for each of the food service programs shall accompany the Letter of Credit.

(b) The State Agency shall obtain funds needed to reimburse schools and child-care institutions through presentation by designated State officials of a Payment Voucher on Letter of Credit to a local commercial bank for transmission to the appropriate Federal Reserve Bank, in accordance with procedures prescribed by C&MS and approved by the U.S. Treasury Department. The State Agency shall draw only such funds as are needed to pay claims certified for payment and shall use such funds without delay to pay the claims. State Agencies shall report information on the status of Program funds on a monthly basis to C&MS on a form provided by C&MS.

(c) Notwithstanding the foregoing provisions of this section, Program funds shall be made available to the State Agency in the District of Columbia by means of Treasury Department checks.

(d) Each State Agency shall return to C&MS any Federal funds paid to it under the Program which are unobligated at the end of the fiscal year. Such return shall be made as soon as practicable but in any event not later than 90 days following demand made by CFPDO. Each State Agency shall also pay to C&MS any interest paid or credited on Federal funds paid to the State Agency under the Program.

§ 215.6 Use of funds.

Funds made available under this Program shall be used to increase the consumption of milk through reimbursement payments to schools and child-care institutions in connection with the purchase of milk for service to children.

§ 215.7 Requirements for participation.

(a) Any school or child-care institution not participating in the Program in the previous fiscal year shall make written application for participation to the State Agency, or CFPDO where applicable.

(b) As a minimum, applications shall provide information on each of the items listed below, except that State Agencies may obtain some of the required information from other program forms or special inquiries or other sources prior to approval of a school or child-care institution for participation. Further exceptions may be made with respect to any of the items which SLD determines are not pertinent or necessary in the proper administration of the Program in the specific types of schools or child-care institutions for which a State Agency is responsible under its agreement with the Department.

(1) The name, location, and mailing address of the school or child-care institution;

(2) The type of nonprofit school or child-care institution;

(3) Whether the school or child-care institution is public or private;

(4) The total number of persons regularly having access to the milk service, including as separate items the average daily number of (i) children, (ii) adult staff members and employees, (iii) adults enrolled for care and training, and (iv) total persons in attendance;

(5) Whether the period of attendance is during the morning, afternoon, all day or on a 24-hour basis;

(6) If the application is for a school, whether the school is participating in the National School Lunch Program or in the School Breakfast Program, or both, and, if not, whether the school is planning to apply for participation in the National School Lunch Program or in the School Breakfast Program, or both;

(7) Whether the applicant school or child-care institution operates its food or milk service under a contractual arrangement with a concessionaire or food service management company. If the applicant is a child-care institution, a copy of the contract must be attached to the application;

(8) The opening date and closing date of operation, within a fiscal year;

(9) The number of days of operation per week;

(10) A description of the milk service in sufficient detail to enable a determination of whether the school or child-care institution operates a pricing or nonpricing program;

(11) The net delivered cost of milk per half pint (after discount);

(12) The price per half pint at which the school or child-care institution offers children milk in a pricing program;

(13) A description of specific service practices planned for encouraging increased milk consumption by children, if the school or child-care institution offers children milk in a nonpricing program; and

(14) In addition, if applicant is a needy school as defined under paragraph (e) of § 215.2, and desires special assistance under the Program, (i) the reason why the school has not participated in the Program, (ii) the reason why the school believes it is eligible to participate in the Program as a needy school, (iii) any special problems in obtaining delivery of milk, (iv) the estimated number of needy children and (v) the proposed number of servings of milk without charge per child per day.

(c) Any school which operates the food or milk service in any attendance unit under a contractual arrangement with a concessionaire or food service management company or under similar arrangement shall not be eligible for participation in the Program with respect to such attendance unit, even though the school or such attendance unit obtains no profit from the operation of such food or milk service: *Provided, however,* That this does not exclude from participation any school:

(1) That contracts with a dairy or other milk supplier for the rental of milk service equipment and related services as a means of increasing the availability of milk;

(2) Whose food or milk service is operated by a private nonprofit organization, such as a parent-teacher association, under delegation of authority from school officials; or

(3) That maintains food or milk service, such as a snack bar, operated by students for the benefit of student activities, if (i) supplemental to regular nonprofit food or milk service or as the only food or milk service maintained, the school uses the student-operated facilities as a means of increasing the availability of milk rather than to employ other labor for that purpose, (ii) the milk served through the student-operated facilities is purchased and sold for the account of nonprofit food or milk service, and (iii) any payments made by the school to the student-operated facility, for labor and other costs in connection with the service of milk to children, bear a direct relationship to the amount of services rendered.

(d) A child-care institution that is a summer camp, in which the only opportunity to make milk available, additional to milk regularly served with meals, is through canteens or trading posts operated for attending children, may be approved for participation in the Program, subject to the same conditions on the use of canteens or trading posts as are established by paragraph (c)(2) of this section for the use of student-operated facilities.

(e) A child-care institution which operates its food or milk service under a contractual arrangement with a concessionaire or food service management company or under a similar arrangement may be approved for participation in the Program, after CFPDO has approved the arrangement. To be approved by CFPDO the arrangement must provide for:

(1) A specific fee for the management service, with the child-care institution procuring the food or reimbursing the concessionaire, food service management company, or other person for food expenditures made on behalf of the child-care institution;

(2) The service of milk in accordance with the plan for increasing milk consumption outlined in the application executed by the child-care institution;

(3) The maintenance of milk-purchase and other records necessary to enable the child-care institution to claim Program reimbursement; and

(4) The retention of the records for a period of 3 years after the end of the fiscal year to which they pertain, for audit and review at a reasonable time and place by the State Agency, OIG, or C&MS.

(f) Any school or child-care institution approved for participation in the Program shall enter into a written agreement with the State Agency or, where CFPDO is responsible for Program administration, with the Department. The school or child-care institution shall agree to:

(1) Conduct nonprofit food and milk services or, in the event no food service is maintained, conduct a nonprofit milk service;

(2) Claim reimbursement only for milk as defined in this part and in accordance with the provisions of sections 215.8 and 215.10;

(3) Submit claims for reimbursement in accordance with procedure established by the State Agency, or CFPDO where applicable;

(4) Maintain full and accurate records of its milk program, and retain such records for a period of 3 years after the end of the fiscal year to which they pertain; and

(5) Upon request, make all records pertaining to its milk program available to the State Agency and to OIG or C&MS for audit and administrative review, at a reasonable time and place.

§ 215.8 Reimbursement payments.

(a) Reimbursement payments shall be made for milk purchased for service to children by participating schools and child-care institutions, except that reimbursement shall not be made for the first half pint of milk served as part of a Type A lunch by schools participating in the National School Lunch Program or the first half pint of milk served as part of a reimbursed breakfast under the School Breakfast Program.

(b) In pricing programs, the maximum rate of reimbursement shall be 4 cents per half pint in schools that serve Type A lunches under the National School Lunch Program and in schools that serve breakfasts under the School Breakfast Program. For other schools and for child-care institutions having pricing programs, the maximum rate of reimbursement shall be 2 cents per half pint. Schools and child-care institutions having pricing programs shall make maximum use of the reimbursement payments received under the Program to reduce the price of milk to children. The full amount of the payments shall be reflected in reduced prices to children, except that such payments may be used by schools or child-care institutions to defray distribution costs. Distribution costs shall not exceed 1 cent per half pint. Exceptions to this provision may be granted by the State Agency, or CFPDO where applicable, in instances where the situation in a school or child-care institution justifies distribution costs above 1 cent per half pint, but in no case shall distribution costs be allowed above 1½ cents per half pint. When milk is purchased at more than one price, the price to the child shall be based on the lowest cost milk.

(c) Less-than-maximum rates of reimbursement may be assigned to pricing programs, or rates assigned to such programs may be reduced on a monthly or annual basis where necessary to obtain a proper relation between rates of reimbursement and (1) the price of milk to children, (2) the cost of milk based on the lowest cost, and (3) the distribution costs approved by the State Agency, or CFPDO where applicable, pursuant to paragraph (b) of this section. In operations having centralized fiscal control, adjustments of rates of reimbursement may be made either on an individual attendance unit or on a schoolwide basis. In no event shall allowance for distribution costs exceed the approved distribution costs per half pint multiplied by the total number of half pints on which reimbursement is paid for the fiscal year.

(d) Schools and child-care institutions having nonpricing programs shall, at the time they apply for participation, submit for approval the specific service practices by which they plan to encourage increased milk consumption by children. Reimbursement payments to such schools and child-care institutions shall be made at the rate of 2 cents per half pint, provided the specific service practices for increasing milk consumption as

outlined in the approved application have been placed into effect and remain in effect.

(c) Notwithstanding any other provisions of this section, the State Agency, or CFPDO where applicable, may reimburse needy schools as defined in § 215.2 (o), for milk served without charge to needy children, at a rate equal to the lowest cost milk, to such schools, provided that such cost is within the range of the milk prices prevailing in the area.

§ 215.9 Effective date for reimbursement.

(a) A State Agency, or CFPDO where applicable, may grant written approval to begin operations under the Program prior to the receipt of the application from the school or child-care institution. Such written approval shall be attached to the subsequently filed application, and the agreement executed by the school or child-care institution shall be effective from the date upon which the school or child-care institution was authorized to begin operations: *Provided, however,* That such effective date shall not be earlier than the calendar month preceding the calendar month in which the agreement is executed by the State Agency or by the Department.

(b) Reimbursement payments pursuant to § 215.8 shall be made on milk purchased for service to children at any time during the effective period of an agreement between a school or child-care institution and the State Agency or the Department.

§ 215.10 Reimbursement procedure.

(a) Each State Agency, or CFPDO where applicable, shall require schools to submit a Claim for Reimbursement on a calendar month basis: *Provided, however,* That not more than 10 days of a beginning or ending month of Program operations in the fiscal year may be combined with the claim of the month immediately following the beginning month or preceding the ending month. Any Claim for Reimbursement combining the ending month of 1 fiscal year and the beginning month of the next fiscal year shall not be permitted. Any Claim for Reimbursement for any fiscal year, not received by the State Agency, or CFPDO where applicable, within 90 days after the closing date of the fiscal year, shall be disqualified from payment, except where the State Agency, or CFPDO where applicable, considers that a Claim for Reimbursement has been filed late because of circumstances beyond the control of the school or child-care institution.

(b) Each Claim for Reimbursement shall contain information on each of the items listed below, except that State Agencies may obtain the approval of SLD to secure some of the required information from applications for participation in the Program, or from other approved sources, without requiring the submission of information on each of the items on each claim: *Provided, however,* That in no way shall this exception relieve the State Agency from checking compliance in pricing programs pursuant to paragraphs (b) and (c) of § 215.8, nor shall this exception relieve any school or child-care institution from responsibility for conducting a pricing program in accordance with its agreement with the State Agency.

(1) The name, location, and mailing address of the school or child-care institution;

(2) The month and year for which claim is made;

(3) The total number of half pints of milk purchased for service to children;

(4) For any school that participates in the National School Lunch Program or the School Breakfast Program, or both, the number of half pints of milk not eligible for reimbursement because served to children as part of a Type A lunch or as a part of a reimbursed breakfast under the School Breakfast Program;

(5) The number of half pints of milk served to adult staff members and employees or adults enrolled for care and training as a beverage, as determined by the school or child-care institution pursuant to paragraph (d) of this section;

(6) The number of half pints of milk claimed for Program reimbursement;

(7) The rate of reimbursement per half pint, as assigned in the agreement between the school or child-care institution and the State Agency or the Department;

(8) The total amount of program reimbursement claimed;

(9) The net cost of milk per half pint paid by the school or child-care institution to the milk supplier;

(10) Where milk has been offered in a pricing program, the price per half pint at which such milk was made available to children; and

(11) In the case of needy schools, (i) number of half pints of milk served without charge to needy children, and (ii) average daily number of needy children to whom milk was served;

(12) Notwithstanding any other provision of this section, the State Agency, or CFPDO where applicable, need not include the information provided for under subparagraphs (7) and (8) of this paragraph if automatic data processing equipment is utilized for processing claims submitted under the Program.

(c) In submitting a Claim for Reimbursement, each school or child-care institution shall certify that the claim is true and correct; that records are available to support the claim; that the claim is in accordance with the existing agreement; and that payment therefor has not been received. Any school or child-care institution that does not offer children milk in a pricing program shall also certify that the specific service practices for encouraging increased milk consumption by children as described in its application for participation are in operation.

(d) Milk served as a beverage to adult staff members and employees and adults enrolled for care and training is not eligible for reimbursement. The number of half pints of milk served adults to be reported by a school or child-care institution in a Claim for Reimbursement shall be determined by actual daily count, or as a percentage of the total milk purchased. In the absence of a record of actual daily count:

(1) In making claims for reimbursement, schools with no adults enrolled for care and training shall report 3 percent of the total milk purchased as the quantity of milk served to adults;

(2) Schools with adults enrolled for care and training and child-care institutions other than camps shall report as the quantity of milk served to adult staff members and employees and adults enrolled for care and training, a number of half pints equal to the total milk purchased multiplied by a percentage adjustment factor assigned by the State Agency, or CFPDO where applicable, at the time the school or child-care institution enters the Program and annually thereafter on the basis of the ratio of the total number of adults to the total persons in average daily attendance, regularly having access to the milk service.

(3) Camps shall report as the quantity of milk served to adult staff members and employees and adults enrolled for care and training, a number of half pints, determined on a Claim for Reimbursement Work Sheet, equal to the total milk purchased multiplied by the percentage that the total number of adults was of total number of persons in attendance, regularly having access to the milk service, during the month for which Claim for Reimbursement is submitted to the State Agency, or CFPDO where applicable; or

(4) If no milk was served as a beverage to adult staff members and employees and adults enrolled for care and training, "zero" shall be reported as the quantity of milk served to adults.

(e) Any school or child-care institution having both pricing and nonpricing programs may claim reimbursement for: (1) The milk purchased for service in the pricing program, or (2) the milk purchased for service in the nonpricing program, or (3) the milk purchased for service in both types of program. When reimbursement is claimed for milk purchased for service in both types of program, the school or child-care institution shall be reimbursed at a rate of 2 cents per half pint, and to the extent feasible shall use the Program reimbursement to lower the price of the milk to children in the pricing program.

(f) Claims for Reimbursement covering milk purchased for service in pricing programs shall be reviewed by the State Agency, or CFPDO where applicable, to assure that the proper relationship exists between the cost of milk, the allowable distribution cost, the price of milk to children and the assigned rate of reimbursement. Adjustments shall be made in rates of reimbursement, where necessary, in accordance with the provisions of this part.

(g) Schools in the National School Lunch Program and in the School Breakfast Program may not be reimbursed at a rate in excess of 3 cents per half pint for milk purchased for service in a pricing program to children participating in summer activities operated by the school after the expiration of the regular school term, unless (1) the summer program is regarded by the school authorities as a regular part of school activities, (2) the program sponsor who signed the agreement covering the regular school term will be responsible for the operation of the summer program, and (3) the children who attend and participate in such activities are under the care and jurisdiction of the school officials.

(h) Schools in the National School Lunch Program and in the School Breakfast Program experiencing late delivery of cafeteria equipment or fire or other situations beyond school control, forcing delay or suspension of the service of Type A lunches or approved breakfasts for more than 30 days during the course of the school year may not be reimbursed at a rate in excess of 3 cents per half pint for milk served to children in a pricing program during the period of delay or suspension, unless the reason for the delay is satisfactorily explained in writing to the State Agency, or CFPDO where applicable.

(i) Schools offering milk in a pricing program in more than one school attendance unit may be regarded by the State Agency, or CFPDO where applicable, as a single school or as individual schools for reimbursement purposes. If regarded as a single school, reimbursement shall not be made at a rate in excess of 3 cents per half pint for any unit unless all units participate in either the National School Lunch Program or the School Breakfast Program. If the units are regarded as individual schools, the State Agency, or CFPDO where applicable, may assign reimbursement at a rate not in excess of 4 cents per half pint to those units that are participating in the National School Lunch Program or in the School Breakfast Program, and distribution costs may be approved pursuant to paragraph (b) of § 215.8, (1) on an individual unit basis, or (2) on a schoolwide basis.

§ 215.11 Special responsibilities of State Agencies.

(a) *Program administration.* Each State Agency shall provide or cause to be provided, adequate personnel for Program administration.

(b) *State conducted audit programs.* A State Agency may submit for approval by OIG a plan whereby it will conduct audits in schools and child-care institutions in which it administers the Program. Any State Agency satisfactorily conducting such an audit program as of the effective date of this part may be deemed to have an approved plan or such State Agency may submit its plans for formal approval. Audits performed by or on behalf of State Agencies shall meet standards prescribed by OIG and shall be reviewed by OIG to the extent necessary to determine compliance therewith, such review to be made not less than once each year. OIG shall have the right to perform test audits of schools and child-care institutions, and to make audits on a statewide basis, if it determines that the State audit program is not functioning satisfactorily or if the State terminates its audit program.

(c) *Accounting for Program funds.* Each State Agency shall maintain a separate account of all Federal funds made available to it under the Program each fiscal year and shall maintain a current record of payments made to schools and child-care institutions and of any unexpended balance remaining on hand. All payments made from such funds shall be made only upon properly certified vouchers.

(d) *Records and reports.* Each State Agency shall maintain current records on Program operations in schools and child-care institutions, and submit monthly reports to CFPDO on such operations, on a form provided by SLD. Such records shall be maintained for a period of 3 years after the end of the fiscal year to which they pertain.

(e) *Investigations.* Each State Agency shall promptly investigate complaints received or irregularities noted in connection with the operation of the Program and shall take appropriate action to correct any irregularities. State Agencies shall maintain on file evidence of such investigations and actions. OIG shall make investigations at the request of the State Agency or if SLD or CFPDO determines investigations by OIG are appropriate.

§ 215.12 Claims against schools or child-care institutions.

(a) If a State Agency receives information or has reason to believe that a claim or a portion of a claim for reimbursement submitted by a school or child-care institution is not properly payable under this part, it shall not pay the claim or such portion of the claim and shall advise the school or child-care institution of the reasons for nonpayment or disallowance. The school or child-care institution may submit to the State Agency evidence and information to justify the total amount claimed, or may submit a reclaim for the portion disallowed, with appropriate justification therefor. The State Agency may make reimbursement in the amount it believes is warranted by the evidence, subject, however, to the provisions of paragraph (e) of this section.

(b) If a State Agency receives information or has reason to believe that a payment already made to a school or child-care institution was not proper under this part, it shall advise the school or child-care institution of the amount and basis of the alleged overpayments and may request a refund or advise the school or child-care institution that the amount overpaid is being deducted from subsequent claims. The school or child-care institution shall have full opportunity to present evidence and information to the State Agency to justify the amount of reimbursement paid. If the State Agency determines that the evidence is not sufficient, the State Agency shall collect the amount of the overpayment from the school or child-care institution, by refund or by deduction from subsequent claims for reimbursement made by the school or child-care institution. If new evidence becomes available to the school or child-care institution, it may, within a reasonable time after the collection, make a reclaim for all or a portion of the amount so collected, and the State Agency may pay the amount of any reclaim it believes is warranted by the evidence, subject, however, to the provisions of paragraph (c) of this section.

(c) The State Agency may refer any matter in connection with this section to CFPDO and SLD for determination of the action to be taken.

(d) The State Agency shall retain for OIG audit and review all records for a period of 3 years after the end of the fiscal year to which they pertain. *Provided however,* That when notified by OIG or C&MS, State Agencies shall retain all records pertaining to action taken under this section for longer periods of time pending completion of an audit, investigation, or legal proceedings and until their disposition is authorized.

(e) If SLD does not concur with the State Agency action in paying a claim or a reclaim, or in failing to collect an overpayment CFPDO shall assert a claim against the State Agency for the amount of such claim, reclaim or overpayment. In all such cases, the State Agency shall have full opportunity to submit to SLD evidence or information concerning the action taken. If in the determination of SLD, the State Agency's action was unwarranted, the State Agency shall promptly pay to C&MS the amount of the claim, reclaim, or overpayment.

(f) The amounts recovered by the State Agency from schools and child-care institutions may be utilized, first, to make reimbursement payments for milk served during the fiscal year for which the funds were initially available, and second, to repay any State funds expended in the reimbursement of claims under the program and not otherwise repaid. Any amounts recovered which are not so utilized shall be returned to C&MS in accordance with the requirements of § 215.5(d).

(g) With respect to schools or child-care institutions in which CFPDO administers the Program, when CFPDO disallows a claim or a portion of a claim, or makes a demand for refund of an alleged overpayment, it shall notify the schools or child-care institutions of the reasons for such disallowance or demand and the schools or child-care institutions shall have full opportunity to submit evidence or to file reclaim for any amount disallowed or demanded in the same manner afforded in this section to schools or child-care institutions administered by State Agencies.

§ 215.13 Administrative analyses and audits.

Each State Agency shall provide C&MS with full opportunity to conduct administrative analyses (including visits to schools and child-care institutions), and OIG with full opportunity to conduct audits of all operations of the State Agency under the Program. Each State Agency shall make available its records, including records of the receipt and expenditure of funds under the Program,

upon a reasonable request by C&MS or OIG. OIG shall also have the right to make audits of the records and operations of any school or child-care institution. In making administrative analyses or audits for any fiscal year, the State Agency and OIG in connection with audits of operations under the jurisdiction of a State Agency, may disregard any overpayment which does not exceed $5 or does not exceed the amount which is established under State law, regulation or procedure as a minimum amount for which claim will be made for State losses generally: *Provided, however*, That no overpayment shall be disregarded where there are unpaid claims of the same fiscal year from which the overpayment can be deducted, or where there is evidence of violation of Federal or State statutes.

§ 215.14 Nondiscrimination.

The Department's regulation on nondiscrimination in federally assisted programs are set forth in Part 15 of this title. The Department's agreements with State Agencies, the State Agencies' agreements with schools and child-care institutions, and the CFPDO agreements with nonprofit private schools and child-care institutions shall contain the assurances required by the said regulations.

§ 215.15 Miscellaneous provisions.

(a) *Disqualification and noncompliance.* Any State Agency or any school or child-care institution may be disqualified from future participation if it fails to comply with the provisions of this part and its agreements with the Department or the State Agency. This does not preclude the possibility of other action being taken through other means available where necessary, including prosecution for fraud under applicable Federal statutes. If any part of the money received by the State Agency or by any nonprofit private school or child-care institution in which CFPDO administers the Program, by an improper or negligent action, is diminished, lost, misapplied or diverted from the Program by the State Agency, or by the school or child-care institution to which such funds are disbursed, SLD may order such money to be replaced. Until the money is replaced, no subsequent payment shall be made to the State Agency or to the school or child-care institution causing the loss. The State Agency or the school or child-care institution shall have full opportunity to submit evidence, explanation or information concerning instances of noncompliance or diversion of funds before a final determination is made in such cases.

(b) *Saving clause.* Any or all of the provisions of this part may be withdrawn, or amended, at any time by the Department: *Provided, however*, That any withdrawal or amendment shall not be made without due prior notice in writing to the State Agencies or to nonprofit private schools or child-care institutions in which the Program is administered by CFPDO.

(c) *State requirements.* Nothing contained in this part shall prevent a State Agency from imposing additional requirements for participation in the Program which are not inconsistent with the provisions of this part.

§ 215.16 Program information.

Schools and child-care institutions desiring information concerning the Program should write to their State educational agency, or the appropriate Consumer Food Programs District Office of C&MS as indicated below:

(a) In the States of Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia:

Consumer Food Programs, Northeast District Office, C&MS, U.S. Department of Agriculture, 346 Broadway, New York, N.Y. 10013.

(b) In the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia:

Consumer Food Programs, Southeast District Office, C&MS, U.S. Department of Agriculture, 1795 Peachtree Street NE, Atlanta, Ga. 30309.

(c) In the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin:

Consumer Food Programs, Midwest District Office, C&MS, U.S. Department of Agriculture, 536 South Clark Street, Chicago, Ill. 60605.

(d) In the States of Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas:

Consumer Food Programs, Southwest District Office, C&MS, U.S. Department of Agriculture, 500 Ervay Street, Dallas, Tex. 75201.

(e) In the States of Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming:

Consumer Food Programs, Western District Office, C&MS, U.S. Department of Agriculture, 630 Sansome Street, San Francisco, Calif. 94111.

NOTE: The reporting and/or recordkeeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

These regulations shall be effective upon publication in the FEDERAL REGISTER.

RODNEY E. LEONARD,
Deputy Assistant Secretary.

AUGUST 25, 1967.

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 811, Amdt. 11]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

Miscellaneous Amendments

Basis and purpose and statement of bases and considerations. The purpose of this amendment to Sugar Regulation 811 (31 F.R. 15581, 32 F.R. 2609, 3085, 4015, 6387, 7011, 7521, 7581, 8577, 9149, 9949) is to determine and to prorate deficits in quotas established pursuant to the Sugar Act of 1948, as amended (61 Stat. 922, as amended), hereinafter referred to as the "Act."

Section 204(a) of the Act provides that the Secretary shall from time to time determine whether any area or country will be unable to fill its quota or the proration of a deficit. On the basis of evidence submitted by Panama and Nicaragua prior to August 1 these countries will be unable to supply more than 32,815 and 52,889 short tons, raw value, respectively. Accordingly, it is hereby found that Panama will fall short of filling its quota by 461 short tons, raw value, and that Panama and Nicaragua will be unable to fill deficit prorations previously made to them of 4,528 and 7,198 short tons, raw value, respectively. Pursuant to section 202(d)(4) it is hereby determined that the amount of the short fall in the quota for Panama is within a reasonable tolerance under the circumstances prevailing in 1967 and that the quota for future years will not be subject to reduction by reason of such shortfall. Pursuant to sections 202 and 204 of the Act, the quotas for Panama and Nicaragua are herein established at 32,815 and 52,889 tons, raw value, respectively, representing the quantity of sugar each country has indicated it will be able to supply in 1967. Pursuant to section 204 of the Act, the deficit herein determined for Panama of 461 short tons, raw value, and the deficit prorations previously made to Panama and Nicaragua of 4,528 and 7,198 short tons, raw value, totaling 12,187 short tons, raw value, are herein prorated (on the basis of quotas in effect) to Western Hemisphere countries which are able to supply such additional sugar.

By virtue of the authority vested in the Secretary of Agriculture by the Act, Part 811 of this chapter is hereby amended by amending §§ 811.52 and 811.53 as follows:

1. Section 811.52 is amended by adding paragraph (c) to read as follows:

§ 811.52 Prorations and allocation of deficits and quotas in effect.

* * * * *

(c) Pursuant to section 204(a) of the Act a deficit of 461 short tons, raw value, is herein determined in the quota established for Panama and such deficit together with the previous prorations of deficits to Panama and Nicaragua of 4,528 and 7,198 short tons, raw value, respectively, are herein prorated on the basis of quotas in effect to other Western Hemisphere countries listed in section 202(c)(3)(A) of the Act.

2. Section 811.53 is amended by amending paragraph (c) to read as follows:

§ 811.53 Quotas for foreign countries.

* * * * *

(c) For the calendar year 1967, the prorations or allocations to individual foreign countries other than the Republic of the Philippines pursuant to section 202(c)(3) and (4), section 202(d), and section 204(a) of the Act are as follows:

Countries	Basic quotas	Temporary quotas and provisions pursuant to Sec. 202(d) [1]	Previous deficit prorations and allocation	New deficits and deficit provisions [2]	Total quotas and provisions
	(Short tons, raw value)				
Mexico	253,221	257,605	25,858	2,844	534,181
Dominican Republic	237,423	231,501	180,134	2,776	618,131

Peru	173,628	184,854	45,751	1,625	405,908
British West Indies	80,595	73,460	22,598	531	183,641
Ecuador	31,697	33,725	8,935	334	74,301
French West Indies	27,223	23,108	7,078	266	57,767
Argentina	26,748	28,514	7,520	282	63,064
Costa Rica	26,857	27,388	7,198	276	61,719
Nicaragua	25,597	27,252	7,198	−7,198	52,889
Colombia	23,709	25,265	6,469	344	55,787
Guatemala	21,171	23,068	6,055	357	50,653
Panama	16,198	17,170	4,528	−4,989	[3] 32,815
El Salvador	15,819	16,967	4,448	167	37,301
Haiti	12,080	12,877	3,398	237	28,592
Venezuela	10,939	11,650	3,073	115	25,777
British Honduras	6,227	5,357	1,599	89	13,272
Bolivia	2,595	2,759	726	27	6,107
Honduras	2,595	2,745	726	27	6,093
Australia	105,588	67,000			172,588
Republic of China	43,141	35,250			78,391
India	41,438	34,909			76,347
South Africa	30,457	35,616			66,073
Fiji Islands	22,721	19,092			41,813
Thailand	9,401	7,978			17,379
Mauritius	9,491	7,975			17,466
Malagasy Republic	4,595	4,108			8,703
Swaziland	3,729	3,143			6,872
Ireland	2,811	0			2,811
Total	1,488,685	1,441,782	430,000	0	3,811,427

[1] Proration of the quotas withheld from Cuba and Southern Rhodesia.
[2] Reflects a short fall in the quota for Panama of 461 short tons, raw value, and previous deficits prorated to Panama and Nicaragua of 4,528 and 7,198 short tons, raw value, respectively, totaling 12,187 short tons, raw value, prorated to other Western Hemisphere countries on the basis of quotas previously in effect.
[3] Unadjusted quota for Panama is 32,376 short tons, raw value.

* * * * *

(Secs. 201, 202, 204, 408; Stat. 923, as amended, 924, as amended, 925, as amended, 7 U.S.C. 1111, 1112, 1114, 1163)

Effective date. This action establishes deficits of 12,187 short tons, raw value, and prorates such deficits to Western Hemisphere countries with sugar quotas in effect. To permit such countries for which larger quotas or prorations are hereby established to plan and to market in an orderly manner the larger quantity of sugar, it is essential at this time that all persons selling and purchasing sugar for consumption in the continental United States be promptly informed of the changes in marketing opportunities. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of 5 U.S.C. 553 is unnecessary, impracticable and contrary to the public interest and this amendment shall be effective upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., this 28th day of August 1967.

ORVILLE L. FREEMAN,
Secretary of Agriculture.

[F.R. Doc. 67-10362; Filed, Aug. 30, 1967; 8:51 a.m.]

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[948.356]

PART 948—IRISH POTATOES GROWN IN COLORADO

Limitation of Shipments; Area No. 2

Findings. (a) Pursuant to Marketing Agreement No. 97, as amended, and Order No. 948, as amended (7 CFR Part 948), regulating the handling of Irish potatoes grown in Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and upon the basis of recommendations and information submitted by the Area No. 2 Committee, established pursuant to the said marketing agreement and order, and other available information, it is hereby found that the limitation of shipments regulation, hereinafter set forth, will tend to effectuate the declared policy of the act and thereby maintain orderly marketing conditions and tend to increase returns to producers of such potatoes.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of 1967 crop potatoes grown in Area No. 2 will begin on or about the effective date specified herein; (2) to maximize benefits to producers, this regulation should apply to all such shipments; (3) the time intervening between the date of the Committee's recommendation and the date when this section must become effective in order to effectuate the policy of the act is insufficient; (4) compliance with this section will not require any special preparation on the part of handlers which cannot be completed by the effective date; and (5) information regarding the Committee's recommendation of these regulations has been disseminated to producers and handlers in the production area.

§ 948.356 Limitation of shipments.

During the period September 1, 1967, through June 30, 1968, no person shall handle any lot of potatoes grown in Area No. 2 unless such potatoes meet the requirements of paragraphs (a) and (b) of this section, or unless such potatoes are handled in accordance with paragraphs (c), (d), (e), (f), and (g) of this section. The maturity requirements specified in paragraph (b) shall terminate October 15, 1967, at 11:59 p.m. m.d.t.

(a) *Minimum grade and size requirements*—(1) *Round varieties.* U.S. No. 2, or better grade, 2¼ inches minimum diameter.

(2) *Long varieties.* U.S. No. 2, or better grade, 2 inches minimum diameter or 4 ounces minimum weight.

(3) *All varieties.* Size B, if U.S. No. 1 or better grade, and if handled in accordance with the reporting requirements of paragraph (g) of this section.

(b) *Maturity (skinning) requirements*—(1) *Russet Burbank and Red McClure varieties.* Not more than "slightly skinned" for U.S. No. 1 grade, and not more than "moderately skinned" for U.S. No. 2 grade.

(2) *All other varieties.* Not more than "moderately skinned."

(c) *Special purpose shipments*—(1) *Chipping Stock.* Potatoes may be handled for chipping if they meet the requirements of 1½ inches minimum diameter, and if U.S. No. 2, or better grade, except for (i) scab, and (ii) the maturity requirements of paragraph (b) of this section, if such potatoes are handled in accordance with paragraph (d) of this section.

(2) *Other special purposes.* (i) The quality and maturity requirements of paragraphs (a) and (b) of this section and the inspection and assessment requirements of this part shall not be applicable to shipments of potatoes for livestock feed, relief or charity.

(ii) The quality and maturity requirements of paragraphs (a) and (b) of this section shall not be applicable to the handling of potatoes for seed pursuant to § 948.6; but any lot of potatoes handled for seed shall be subject to assessments.

(d) *Safeguards.* Each handler of potatoes which do not meet the quality and maturity requirements of paragraphs (a) and (b) of this section and which are handled pursuant to paragraph (c) of this section for any of the special purposes set forth therein shall,

(1) Prior to handling, apply for and obtain a certificate of privilege from the committee,

(2) Furnish the committee such reports and documents as requested, including certification by the buyer or receiver as to the use of such potatoes, and

(3) Bill each shipment directly to the applicable processor or receiver.

(e) *Minimum quantity.* For purposes of regulation under this part, each person may handle up to but not to exceed 1,000 pounds of potatoes without regard to inspection and the requirements of paragraphs (a) and (b) of this section, but this exception shall not apply to any portion of a shipment of over 1,000 pounds of potatoes.

(f) *Inspection.* (1) No handler shall handle any potatoes for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto and the certificate is valid at the time of shipment. For purposes of operation under this part it is hereby determined pursuant to paragraph (d) of § 948.40, that each inspection certificate shall be valid for a period of not to exceed 5 days following the date of inspection as shown on the inspection certificate, except that inspection certificates issued on potatoes for use as potato chips handled pursuant to paragraph (c)(1) of this section shall be exempt from this 5-day requirement.

(2) No handler may transport or cause the transportation by motor vehicle of any shipment of potatoes for which an inspection certificate is required unless each shipment is accompanied by, and made available for examination at any time upon request, a copy of the inspection certificate applicable thereto.

(g) *Reports.* Pursuant to § 948.80, no handler may ship Size B potatoes from Area No. 2 unless he reports to the committee in a manner prescribed by it the quantities handled and the destinations of such potatoes.

(h) *Definitions.* The terms "U.S. No. 1," "U.S. No. 2," "Size B," "slightly skinned," "moderately skinned," and "scab" shall have the same meaning as when used in the U.S. Standards for Potatoes (§§ 51.1540–51.1556 of this title), including the tolerances set forth therein. Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97, as amended, and this part.

(i) *Applicability to imports.* Pursuant to section 608e–1 of the act and § 980.1 of this chapter, red skinned round type potatoes, except certified seed potatoes, imported into the United States during the period September 5, 1967, through June 30, 1968, shall meet the grade, size, quality, and maturity requirements specified in paragraphs (a) and (b) of this section.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, August 29, 1967, to become effective September 5, 1967.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-10282; Filed, Aug. 30, 1967; 8:51 a.m.]

PART 987—DOMESTIC DATES PRODUCED OR PACKED IN A DESIGNATED AREA OF CALIFORNIA

Order Amending the Order, as Amended, Regulating Handling

It is hereby ordered that on and after the effective date hereof all handling of domestic dates produced or packed in a designated area of California shall be in conformity to, and in compliance with, the Order Regulating the Handling of Domestic Dates Produced or Packed in a Designated Area of California, as amended (Order No. 987, as amended; 7 CFR Part 987), and as further amended by the "Order Amending the Order, as Amended, Regulating the Handling of Domestic Dates Produced or Packed in a Designated Area of California" which was annexed to and made a part of the decision of the Secretary of Agriculture, issued July 27, 1967 (F.R. Doc. 67–8943; 32 F.R. 11164), with respect to proposed amendment of the marketing agreement, as amended, and order, as amended, regulating the handling of such dates. All of the findings, determinations, terms, and conditions of the aforesaid amendatory order shall be, and the same hereby are, the findings, determinations, terms, and conditions of this order as if set forth in full herein. It is hereby further ordered that, for convenient reference, there be set forth hereinafter in amended form, as applicable, the various texts of the codified portion of said Order No. 987, as amended (7 CFR Part 987) and as further amended by the aforesaid amendatory order, together with the aforesaid findings and determinations as herein supplemented.

§ 987.0 Findings and determinations.

(a) *Previous findings and determinations.* The findings and determinations hereinafter set forth are supplementary, and in addition, to the findings and determinations made in connection with the issuance of the order and previously issued amendments thereto; and all of said prior findings and determinations are hereby ratified and affirmed except insofar as such prior findings and determinations may be in conflict with the findings and determinations set forth herein. (For prior findings and determinations see 20 F.R. 5066; 22 F.R. 6904; 27 F.R. 6817; 29 F.R. 9706.)

(b) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held in Indio, Calif., on April 12, 1967, on a proposed amendment of the marketing agreement, as amended, and Order No. 987, as amended (7 CFR Part 987), regulating the handling of domestic dates produced or packed in a designated area of California. On the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended and as hereby further amended, regulates the handling of domestic dates produced or packed in a designated area of California in the same manner as, and is applicable only to persons in the respective classes of commercial or industrial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) The said order, as amended and as hereby further amended, is limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the area of production would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of domestic dates in the area of production covered by the order, as amended and as hereby further amended, which would require different terms applicable to different parts of such area; and

(5) All handling of domestic dates produced or packed in the area of production is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(c) *Additional findings.* It is further found that good cause exists for making the provisions of this amendatory order effective on the date hereinafter specified rather than postponing the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553). The amendatory order adds certain date repackers to those persons who are defined as handlers and makes the repackers subject to container regulation and, if the dates for repacking are machine pitted, to certain other regulations. Since the only issue of compliance with the container regulation involves filling a given container to a specific net weight, in lieu of a net weight of the repacker's choice, and other compliance involves inspection services and identification which can be readily arranged, no extended time of preparation to comply is needed. Moreover, since packaging of dates occurs in volume by mid-September, if these provisions are not effective soon, a substantial volume can escape regulation and so jeopardize price stability in the early part of the 1967 crop year.

(d) *Determinations.* It is hereby determined that:

(1) The "Marketing Agreement, as Amended, Regulating the Handling of Domestic Dates Produced or Packed in a Designated Area of California," upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping domestic dates covered by the said order, as amended and as hereby further amended) who, during the period August 1, 1966, through May 31, 1967, handled not less than 50 percent of the volume of such dates covered by the said order, as amended and as hereby further amended; and

(2) The issuance of this amendatory order, amending the aforesaid order, as amended, is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who during the period August 1, 1966, through May 31, 1967 (which has been determined to be a representative period), have been engaged in the production for market of Deglet Noor, Zahidi, Halawy, or Khadrawy varieties of domestic dates produced or packed in Riverside, Orange, and Los Angeles Counties, and that portion of San Bernardino County lying west of 116 degrees W. longitude, located within the State of California, such producers having also produced for market at least two-thirds of the volume of such commodity represented in the referendum.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of domestic dates produced or packed in a designated area of California, shall be in conformity to, and in compliance with, the terms and conditions of the said order, as amended, and as further amended as follows:

1. Section 987.8 *Handler* is revised to read:

§ 987.8 Handler.

"Handler" means any person handling dates which have not been inspected and certified for handling in the hands of a previous holder and any repacker: *Provided,* That for the purposes of §§ 987.22 and 987.24 a person shall qualify as a handler only if he has acquired the dates directly from producers.

2. A new section, § 987.8a *Repacker,* is added:

§ 987.8a Repacker.

"Repacker" means any wholesaler or jobber who receives packed dates certified for handling pursuant to § 987.41(a), repackages them in containers other than those in which received, and handles such repackaged dates.

3. Section 987.21 *Establishment of Date Administrative Committee* and § 987.22 *Membership representation* are revised to read:

§ 987.21 Establishment of Date Administrative Committee.

A Date Administrative Committee composed of seven members is hereby established to administer the terms and conditions of this part: *Provided,* That the number of members may be changed pursuant to § 987.22 (b) and (c). For each member there shall be an alternate member, and the provisions of this part applicable to the number, nomination, and selection of members shall also apply in the number, nomination, and selection of alternate members.

§ 987.22 Membership representation.

(a) Members shall be selected by the Secretary from the following groups:

(1) The group comprised of (i) handlers each of whom produced during the then current crop year through February at least 51 percent of all the dates handled by him during such period, and (ii) producers each of whom delivered to such handlers during such period at least 50 percent of his deliveries to all handlers during the period.

(2) The group comprised of cooperative marketing associations.

(3) The group comprised of all other handlers and producers.

(b) Each such group shall have, for each term of office, one member for each quantity of dates handled in the group that represents 14.28 percent of the tonnage handled by all groups: *Provided,* That each group shall have at least one member. For each term of office, the tonnages handled shall be those handled through February of the crop year in which the selection occurs. In computing the number of members for a group, the group may have, in addition to one member for each full 14.28 percent, one member for any remaining fractional part more than one-half of the basic 14.28 percent. To provide a member for any such fractional part and at least one member for each group, the Secretary may increase the total number of members of the Committee beyond seven. When a group specified in paragraph (a) (1) or (3) of this section is entitled to an even number of members, one-half of the members shall be handler members and one-half shall be producer members; and when such a group is entitled to an odd number of members other than one, there shall be one more handler member than producer members. At least one of the members for the group specified in paragraph (a) (2) of this section shall be an employee of a cooperative marketing association in such group and serve as a handler member, and the remainder of the members for the group shall be producer members of such associations.

(c) The members of the Committee serving on the effective date of this amended subpart shall, subject to the limitations in § 987.25, continue to serve during the remainder of the term of office ending May 14, 1968, and as provided in § 987.22. The number of members as provided in § 987.122 prior to such effective date for each of the various groups (i.e., one member for the group specified in paragraph (a)(1) of this section, five members for the group specified in paragraph (a)(2) of this section, and one member for the group specified in paragraph (a)(3) of this section) shall continue applicable so long as the number of members for each group meets the requirements prescribed in paragraph (b) of this section. Whenever it is determined pursuant to paragraph (b) of this section that a change of representation is required for the ensuing term of office, the Secretary shall, on the basis of information submitted by the Committee and other available information, revise the representation consistent with the provisions of said paragraph (b) of this section.

4. Section 987.24 *Nominations* is revised to read:

§ 987.24 Nomination and selection.

(a) Each group specified in § 987.22 (a) may nominate, at a nomination meeting or meetings held during each crop year on or before April 15, nominees for members to represent the group during the ensuing term of office. For any group specified in § 987.22(a) (1) or (3) entitled to more than one member, separate meetings of producers and of handlers shall be held. For any such group which is not entitled to more than one member, joint meetings of producers and handlers shall be held. Except as otherwise set forth in this section, in any of such meetings each producer and each handler shall be entitled to one vote for each position to be filled, and the individual receiving the highest number of votes for the position shall be the nominee. Whenever there is more than one cooperative marketing association in the group specified in § 987.22(a)(2), the associations shall jointly select their nominees. In case of lack of agreement among the associations, and in the voting by handlers separately from producers of the group specified in § 987.22 (a)(3), the vote for each position shall be weighted by the tonnage of dates each association or handler acquired from producers and had certified for handling or for further processing during the then current crop year through February.

(b) Immediately after the completion of the meetings covered by this section, the Committee shall report to the Secretary the nominees for each position together with a certificate of all necessary tonnage data and other information deemed by the Committee to be pertinent or which is required by the Secretary. The Secretary shall select, in his discretion, members from such nominees or from other qualified persons; but any such selection shall be from the groups, and on the basis, prescribed in § 987.22. However, the Secretary shall allow a reasonable time for nominations to be received before proceeding with any selection without regard to nominations.

5. The center heading "Research and Development," and § 987.33 *Research and development* are revised to read:

MARKET DEVELOPMENT

§ 987.33 Research and promotion.

(a) The Committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects, including marketing promotion and paid advertising, designed to assist, improve, or promote the marketing, distribution, and consumption of dates. The

expenses of such projects shall be paid from funds collected pursuant to § 987.72. However, no program of paid advertising nor major program of marketing promotion shall be adopted unless favored by at least six Committee members when the total membership is seven, or seven members when the total is eight. Upon conclusion of each program, but at least annually, the Committee shall summarize and report on the program status and accomplishments, to its members and the Secretary. A similar report to the Committee shall be required of any contracting party on any paid advertising or major program. Also, for each advertising or major program the contracting party shall be required to maintain records of money received and expenditures and such shall be available to the Committee and the Secretary. The Committee shall, with the approval of the Secretary, establish criteria which will determine such major program.

6. Section 987.39 *The establishment of minimum standards* is revised to read:

§ 987.39 The establishment of minimum standards.

In order to effectuate the declared policy of the act all whole dates and pitted dates handled under this subpart shall meet the requirements of U.S. Grade C, or, if for further processing, U.S. Grade C (Dry), of the effective U.S. Standards for Grades of Dates: *Provided*, That the Secretary may, upon recommendation of the Committee, prescribe other minimum standards of quality for any variety of dates. To aid the Secretary in prescribing such other minimum standards, the Committee shall furnish to the Secretary the data upon which it acted in recommending such standards. The provisions hereof relating to minimum standards of quality and to inspection requirements, within the meaning of section 2(3) of the act, and any other provisions relating to the administration and enforcement thereof shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2(1) of the act. Notice of the minimum standard regulation shall be sent by the Committee to all handlers of record. On and after the effective date of such regulations no handler shall handle dates except in accordance with such minimum standard.

7. Section 987.51 *Interhandler transfers* is revised to read:

§ 987.51 Interhandler transfers.

Transfers of dates may be made from one handler to another, and each handler who so transfers any such dates shall immediately upon the completion of the particular transfer notify the Committee of the transfer, specifying the date of the transfer, the quantity and variety of dates involved, and the name of the receiving handler. If such transfer is wholly within the area of production, the assessment and withholding obligations shall be placed on the handler agreeing to assume them: *Provided*, That in the absence of the Committee receiving notice of a specific agreement on such obligations, the buying handler shall be held accountable. If such transfer is from within the area of production to any point outside thereof, the assessment and withholding obligations shall be met by the handler within the area of production. Except for packed dates inspected and certified for handling prior to transfer and which are not repacked, any receiving handler (other than a repacker not otherwise a handler, who shall comply with § 987.53) shall comply with the requirements of § 987.41 on all dates, but this shall apply to repacked dates previously inspected and certified for handling only if the handler also packs dates received as field-run dates.

8. A new section, § 987.53 *Application of regulations to repackers*, is added:

§ 987.53 Application of regulations to repackers.

Repackers shall be exempt from those requirements of this part, including reporting requirements, with respect to packed dates which had been certified for handling, pursuant to § 987.41(a), prior to receipt, except that: (a) A repacker who processes such dates by machine pitting shall comply with the grade, size, inspection, certification, and identification requirements, and (b) a repacker who repackages such dates in containers other than those in which received, shall comply with the then effective container regulations established pursuant to § 987.48.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated August 25, 1967, to become effective September 8, 1967.

RODNEY E. LEONARD,
Deputy Assistant Secretary.

[F.R. Doc. 67-10213; Filed, Aug. 30, 1967; 8:47 a.m.]

Chapter X—Consumer and Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 2]

PART 1002—MILK IN NEW YORK-NEW JERSEY MARKETING AREA

Order Suspending Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the New York-New Jersey marketing area (7 CFR Part 1002), it is hereby found and determined that:

(a) The following provisions of the order no longer tend to effectuate the declared policy of the Act for the period of September 1967 through April 1968:

In § 1002.40(a) the provision (plus 20 cents through April 1968) and the provisions of subparagraphs (3) through (10) of this paragraph.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area. The current information with respect to the extent of the shift in Class I sales was not available until reports filed by handlers were compiled on or about August 15, and the petition requesting suspension action was not received until August 21, 1967.

(3) This suspension action will eliminate for the period through April 1968 any adjustment to the Class I–A milk price resulting from application of the utilization percentage (supply-demand) provisions of the Class I–A price formula. The action of the utilization percentage provisions is effecting a substantial price decline as a result of a substantial shift of Class I sales and milk receipts historically pooled under the New York-New Jersey order, to the Delaware Valley order beginning in June 1967 when the Delaware Valley marketwide pooling provision became effective. Such price decline is unwarranted in the face of the downward trend in producer receipts and the intent of the several amendments to the Class I–A pricing provisions of the order over the past year and a half to stem the downward trend in milk supplies.

(4) This suspension action is also necessary to restore and maintain orderly marketing by insuring the continuing interorder Class I price relationships among Federal order markets in the northeast through April 1968 concluded in the Assistant Secretary's decision issued April 25, 1967 (32 F.R. 6501) to be appropriate on the basis of a public hearing convened at Washington, D.C., on April 14, 1967. Pursuant to that decision temporary emergency amendments were made in the Class I price provisions of the Delaware Valley and Massachusetts-Rhode Island orders effective May 1, 1967 and the New York-New Jersey order effective June 1, 1967. Such amendments made effective through April 1968 were contemplated to provide Class I prices of $6.05, $6.35, and $6.65 for the New York-New Jersey, Massachusetts-Rhode Island and Delaware Valley orders, respectively. The mechanics of the amendments made to the Massachusetts-Rhode Island and Delaware Valley orders insure continuation of the existing price level through April 1968. Because of the shifting of Class I sales and associated milk from New York-New Jersey to Delaware Valley the New York-New Jersey Class I–A price has declined to $5.97 in August and in the absence of this suspension action would be $5.86 in September and still lower in subsequent months. The resulting Class I price disparity among these markets in which many handlers have extensive overlapping sales competition constitutes a serious threat to orderly marketing of milk in the marketing areas.

Suspension of the utilization percentage (supply-demand) provisions of the New York-New Jersey order will result in a Class I–A price of $6.11 and thereby restore as closely as possible the interorder Class I price relationships among these markets contemplated by the amendment effected on the basis of the April 1967 hearings.

(5) This emergency suspension action was requested by cooperative associations representing approximately 70 percent of the producers supplying the New York-New Jersey market and is supported by producer cooperatives in the Massachusetts-Rhode Island market. Such associations contend that such emergency action is necessary to maintain orderly marketing pending action on their petition to convene a hearing on proposals to provide a common Class I price formula for the New York-New Jersey, Massachusetts-Rhode Island and Connecticut orders. Pursuant to such petition the market administrators of the various orders have been requested to ask interested persons to submit additional proposals within 30 days.

Obviously, it will take additional time to hold a hearing and complete the necessary procedures on the cooperatives' hearing proposal to provide more appropriate price alignment between the New York-New Jersey and Massachusetts-Rhode Island markets on other than a temporary emergency basis. This suspension action will provide a Class I–A price under the New York-New Jersey order which is 24 cents below the Massachusetts-Rhode Island Class I price and will result in restoring approximately the same price spread between these markets which prevailed in 1964 (24 cents), 1966 (21 cents), and 1966 (31 cents) pending completion of the necessary procedures on their hearing proposal.

Therefore, good cause exists for making this order effective September 1, 1967.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the period September 1967 through April 1968.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: September 1, 1967.

Signed at Washington, D.C., on August 25, 1967.

RODNEY E. LEONARD,
Deputy Assistant Secretary.

[F.R. Doc. 67-10216; Filed, Aug. 30, 1967; 8:48 a.m.]

[Milk Order 62]

PART 1062—MILK IN ST. LOUIS, MO., MARKETING AREA

Order Suspending Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the St. Louis, Mo., marketing area (7 CFR Part 1062), it is hereby found and determined that:

(a) The following provisions of the order do not tend to effectuate the declared policy of the Act for the months of September, October, and November 1967.

(1) In § 1062.51(a) the following words of the introductory text preceding subparagraph (1): "And plus or minus the amounts provided in subparagraphs (1) and (2) of this paragraph:"

(2) Subparagraph (1) of § 1062.51(a).

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension order will continue for the months of September through November 1967 the effect of the prior suspension orders issued June 1 and July 25, 1967, which eliminated price adjustments due to the supply-demand adjustor for the periods of June 3–30 and the months of July and August 1967. Such prior suspension orders were issued at the request of cooperative associations whose members comprise a large majority of producers serving the St. Louis market and other markets affected by this supply-demand adjustor. Hearings have been held in St. Louis, Mo., January 24, 1967, pursuant to notice issued January 13, 1967 (32 F.R. 613) and February 28–March 3, 1967, pursuant to notice issued January 24, 1967 (32 F.R. 1042) at which proposals to revise the supply-demand adjustor were considered. The present suspension action is being taken to prevent supply-demand adjustments for this additional period while consideration is being given to revision of the supply-demand adjustor based upon the hearings which have been held.

(4) The previous suspensions were taken so that a decrease in the Class I price would not unduly reduce returns to producers in the St. Louis, Mo., Ozarks, Southern Illinois, and Paducah markets. Since the same conditions that prompted the previous suspension orders continue to prevail this order effective for the months of September through November 1967 is warranted.

Therefore, good cause exists for making this order effective September 1, 1967.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the months of September, October, and November 1967.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: September 1, 1967.

Signed at Washington, D.C., on August 25, 1967.

RODNEY E. LEONARD,
Deputy Assistant Secretary.

[F.R. Doc. 67-10217; Filed, Aug. 30, 1967; 8:48 a.m.]

[Milk Order 67]

PART 1067—MILK IN OZARKS MARKETING AREA

Order Suspending Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Ozarks marketing area (7 CFR Part 1067), it is hereby found and determined that:

(a) The following provisions of the order no longer tend to effectuate the declared policy of the Act for the months of August and September: In § 1067.11(b) in the table and opposite the months of August and September the figures "25" and "35".

(b) Thirty days notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This action has been requested by three cooperative associations, representing more than 80 percent of the producers in this market. The cooperatives state that the suspension is necessary to maintain pool plant status for supply plants so as to facilitate the orderly disposition of the market's reserve supply of milk during the months of August and September. An unusual increase in milk supply for this time of year has resulted in greater deliveries from farms directly to fluid milk processing plants, and has reduced the need for such plants to receive milk from supply plants.

(4) This suspension action will make it unnecessary for the operators of supply plants to make unneeded and uneconomical shipments to processing plants in order to maintain pool status. This suspension will maintain producer status of many farmers regularly associated with the market and will promote orderly marketing conditions.

(5) Interested parties were afforded opportunity to file written data, views, or arguments concerning this suspension (32 F.R. 11887). None were filed in opposition to the proposed suspension.

Therefore, good cause exists for making this order effective August 1, 1967.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the months of August and September 1967.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: August 1, 1967.

Signed at Washington, D.C., on August 25, 1967.

RODNEY E. LEONARD,
Deputy Assistant Secretary.

[F.R. Doc. 67-10214; Filed, Aug. 30, 1967; 8:48 a.m.]

[Milk Order 73]

PART 1073—MILK IN THE WICHITA, KANS., MARKETING AREA

Order Suspending Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Wichita, Kans., marketing area (7 CFR Part 1073), it is hereby found and determined that:

(a) The following provisions of the order no longer tend to effectuate the declared policy of the Act for the months of September, October, and November 1967:

In § 1073.51(a) that portion of the first sentence reading as follows: ", subject to a supply-demand adjustment computed pursuant to subparagraphs (1) through (3) of this paragraph"; and subparagraphs (1), (2), and (3) relating to the supply-demand adjustment to the Class I price.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension will eliminate certain erratic movements of the supply-demand adjustor for September through November 1967 and improve Class I price alignment in this market. A Class I sales account to an outside market is no longer available and approximately 1.6 million pounds of milk is now being pooled locally thereby causing abnormal fluctuation in the supply-demand adjustor in this order.

(4) This suspension action was requested by producers at a public hearing held June 15, 1967, at Wichita, Kans. At the hearing a witness testified that emergency action in the form of a suspension order is necessary to obtain orderly marketing conditions in the area pending the time when an amended order can be issued. There was no opposition to the request. Upon this basis suspension of these provisions for the months of July and August 1967 were issued June 28, and July 27, 1967. A recommended decision was issued on July 28, 1967. It is now evident amendment on the basis of the hearing cannot be completed by September 1, 1967.

Therefore, good cause exists for making this order effective September 1, 1967.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the period September 1, 1967, through November 30, 1967.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: September 1, 1967.

Signed at Washington, D.C., on August 28, 1967.

RODNEY E. LEONARD,
Deputy Assistant Secretary.

[F.R. Doc. 67-10280; Filed, Aug. 30, 1967; 8:50 a.m.]

[Milk Order No. 126]

PART 1106—MILK IN OKLAHOMA METROPOLITAN MARKETING AREA

PART 1126—MILK IN NORTH TEXAS MARKETING AREA

Order Suspending Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the orders regulating the handling of milk in the Oklahoma Metropolitan and North Texas marketing areas (7 CFR Parts 1106 and 1126), it is hereby found and determined that:

(a) The following provisions of the orders no longer tend to effectuate the declared policy of the Act for the months of September through November 1967:

(1) In § 1106.51(a) of the order regulating the handling of milk in the Oklahoma Metropolitan marketing area, the last sentence of the introductory text reading as follows: "To this price add or subtract a 'supply-demand adjustment' of not more than 50 cents, computed as follows:" and subparagraphs (1), (2), and (3).

(2) In § 1126.51(a) of the order regulating the handling of milk in the North Texas marketing area, that portion of the last sentence of the introductory text reading as follows: "and subject to a supply-demand adjustment of not more than 50 cents computed as follows:" and subparagraphs (1), (2), (3), (4), (5), and (6).

(b) Notice of proposed rule making, public procedure thereon, and 30 days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension will continue for the months of September through November 1967 the elimination of the effect of supply-demand adjustors in the Oklahoma Metropolitan and North Texas orders that was provided for August 1967 by suspension order issued July 27, 1967.

(4) This suspension action was requested by both producers and handlers at a public hearing held May 15, 1967, at Oklahoma City, Okla. At the hearing, witnesses testified that emergency action in the form of a suspension order is necessary to maintain orderly marketing conditions pending the time when an amended order can be issued. No testimony was offered in opposition to this request. It is now evident that amendatory action based upon this hearing will not be completed so that an amended order could be effective by September 1, 1967.

Therefore, in view of the foregoing reasons, good cause exists for making this order effective September 1, 1967.

It is therefore ordered, That the aforesaid provisions of the orders are hereby suspended for the period September 1 through November 30, 1967.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: September 1, 1967.

Signed at Washington, D.C., on August 28, 1967.

RODNEY E. LEONARD,
Deputy Assistant Secretary.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter II—Packers and Stockyards Administration, Department of Agriculture

PART 203—STATEMENTS OF GENERAL POLICY UNDER THE PACKERS AND STOCKYARDS ACT

Vacation of Rate Orders

On June 15, 1967, a notice was published in the FEDERAL REGISTER (32 F.R. 8621) regarding the proposed issuance of a statement with respect to vacation of rate orders under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.). Interested persons were given an opportunity to submit written data, views, or arguments concerning the proposed statement. After consideration of all relevant matters, the following statement has been formulated and adopted by the Packers and Stockyards Administration for the guidance of stockyard owners and market agencies and is issued as § 203.11 of Part 203, Chapter II, Title 9, Code of Federal Regulations to read as follows:

§ 203.11 Statement with respect to vacation of rate orders under the Packers and Stockyards Act.

(a) Under the Packers and Stockyards Act, formal rate orders prescribing reasonable rates and charges for the furnishing of stockyard services have been issued at various times. As of June 30, 1967, there were in effect 26 such orders, 14 relating to rates and charges for stockyard services furnished by stockyard operators and 12 concerning rates and charges for services furnished by market agencies. Most of the basic orders in these cases have been in effect for more than 20 years. From time to time the respondents have petitioned for modifications of such orders to reflect changed circumstances or conditions and when such petitions have been found to be justified they have been granted. In accordance with the administrative procedure provisions of Title 5 of the United States Code (5 U.S.C. 553), the Rules of Practice Governing Proceedings under the Packers and Stockyards Act (9 CFR 202.1 et seq.) require that notice of every petition for modification which involves an increase in rates and charges, or a rate or charge for services not theretofore covered by order, shall be published in the FEDERAL REGISTER and interested persons be given an opportunity to file with the Hearing Clerk a written request to be heard in the matter. The rules of practice also provide that an answer to such a petition shall be filed within 20 days from date of publication of such notice. Under section 313 of the Act, an order concerning rates and charges may not be made effective in less than 5 days after signature. With respect to a stockyard operator or market agency not subject to a formal rate order, changes may be made in its rates and charges upon 10 days' notice to the public and the Department: *Provided, however*, That any such change may be suspended for a total period of 60 days in any instance in which it appears the change would result in unjust, unreasonable, or discriminatory rates and charges and a hearing held with respect to the matter.

(b) During the period the basic rate orders have been in effect, an informal procedure has developed in connection with proposed modification of rates or charges of the stockyard owners and market agencies subject to such orders. The stockyard owners and market agencies have become familiar with the type of information necessary to substantiate changes in prescribed rates or charges and to show the reasonableness thereof. In most instances, those desiring to modify the rates or charges seek an advance indication of the attitude of the Packers and Stockyards Administration toward the changes to be proposed. In the event there is a question as to the data submitted or as to reasonableness of the changes, additional information is sought or conferences are held between representatives of the Administration and the parties concerned. This method has proved very satisfactory as a means of resolving doubts, adjusting differences and reaching an agreement concerning the proposed modification of the rates and charges. In practically all cases a tentative agreement is reached before a petition for modification of the rate order is filed with the Hearing Clerk. There have been very few instances in which an interested person has submitted any data, views, or comments or filed a request to be heard in connection with a petition pursuant to the notice published in the FEDERAL REGISTER.

(c) After a basic rate order has been in effect for a period of 10 years, there would not appear to be any useful purpose served, under normal conditions, in continuing such order in effect, thereby necessitating the continuation of the formal procedure for obtaining a modification of the rates and charges referred to in paragraph (a) of this section. It is the view of the Packers and Stockyards Administration, therefore, that when a basic rate order has been in effect for a period of 10 years, the Department should entertain a petition for dismissal or vacation of such rate order and unless economic conditions, or the marketing structure in the trade territory, or other circumstances require otherwise, such petition should be concurred in. This would place the stockyard owner or market agencies affected by the rate order in question on the same basis as those stockyard owners and market agencies which are not subject to formal rate orders. This procedure would not affect the basic protective rate provisions of the Packers and Stockyards Act should it become necessary to invoke them.

The foregoing statement shall become effective upon its publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 25th day of August 1967.

(Sec. 407(a), 42 Stat. 169, 72 Stat. 1750; 7 U.S.C. 228(a); interprets or applies secs. 310, 313, 42 Stat. 161 et seq., as amended 7 U.S.C. 211, 214)

GLENN G. BIERMAN,
Acting Administrator.

Title 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Administration, Department of Health, Education, and Welfare

[Reg. 5]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED (1965_____)

Subpart E—Criteria for Determination of Reasonable Charges; Reimbursement for Services of Hospital Interns, Residents, and Supervising Physicians

On February 8, 1967, there was published in the FEDERAL REGISTER (32 F.R. 2688) a notice of proposed rule making relating to the principles for determining reasonable charges for services of physicians and other persons furnishing medical and other health services covered under the supplementary medical insurance program, and for determining whether reimbursement for the services of interns, residents, and supervising physicians rendered in connection with graduate medical education programs will be made under Part A or Part B of title XVIII of the Social Security Act. Interested parties were given the opportunity to submit written comments within 30 days after publication.

Written comments were received and considered; certain changes of a clarifying and editorial nature have been made.

Chapter III, Title 20 is amended by adding thereto Subpart E of Part 405, to read as set forth below. The addition of Subpart E of Part 405, Title 20, shall be effective upon publication in the FEDERAL REGISTER.

Dated: August 8, 1967.

[SEAL] ROBERT M. BALL,
Commissioner of Social Security.

Approved August 23, 1967.

WILBUR J. COHEN,
Acting Secretary of Health, Education, and Welfare.

Sec.
405.501 Determination of reasonable charges.
405.502 Criteria for determining reasonable charges.
405.503 Determining customary charges.
405.504 Determining prevailing charges.
405.505 Determination of "locality."
405.506 Charges higher than customary or prevailing charges.
405.507 Illustrations of the application of the criteria for determining reasonable charges.
405.508 Determination of comparable circumstances; limitation.
405.520 Reimbursement for services of interns, residents and supervising physicians; general.
405.521 Services of attending physicians supervising interns and residents.
405.522 Interns' and residents' services in approved teaching programs.
405.523 Interns' and residents' services not in approved teaching programs.
405.524 Interns' and residents' services outside the hospital.
405.525 Basis of reimbursement under the health insurance program for services of interns and residents.

AUTHORITY: The provisions of this Subpart E issued under sections 1102, 1814(b), 1862 (a), 1866(b), and 1871, 49 Stat. 647, as amended, 79 Stat. 286, 79 Stat. 902, 79 Stat. 310, 79 Stat. 331; 42 U.S.C. 1302, 1395 et seq.

§ 405.501 Determination of reasonable charges.

Payment for medical and other health services (see § 405.251) furnished by physicians or other persons (except for services furnished by group practice prepayment plans electing cost reimbursement and certain services furnished by, or under arrangements made by, a provider of services) is made on the basis of the "reasonable charge" for such service which is determined by the carriers selected by the Secretary to assist in the administration of the supplementary medical insurance program.

§ 405.502 Criteria for determining reasonable charges.

(a) *Criteria.* The law does not contemplate the establishment of a general fee schedule applicable to all physicians or other persons furnishing medical and other services but calls for individual determinations which take into account the facts as to existing practice with respect to charges of the particular physician or other person as well as others in the locality. The two criteria set out in the law which are considered in determining reasonable charges are:

(1) The customary charges for similar services generally made by the physician or other person furnishing such services; and

(2) The prevailing charges in the locality for similar services.

(b) *Comparable services limitation.* The law also specifies that the reasonable charge cannot be higher than the charge applicable for a comparable service under comparable circumstances to the carriers' own policyholders and subscribers.

(c) *Application of criteria.* In applying these criteria, the carriers are to exercise judgment based on factual data on the charges made by physicians to patients generally and by other persons to the public in general and on special factors that may exist in individual cases so that determinations of reasonable charge are realistic and equitable.

(d) *Responsibility of Administration and carriers.* Determinations by carriers of reasonable charge are not reviewed on a case-by-case basis by the Social Security Administration, although the general procedures and performance of functions by carriers are evaluated. In making determinations, carriers apply the provisions of the law under broad principles issued by the Social Security Administration. These principles are intended to assure overall consistency among carriers in their determinations of reasonable charge. The principles in §§ 405.503–405.507 establish the criteria for making such determinations in accordance with the statutory provisions.

§ 405.503 Determining customary charges.

(a) *Customary charge defined.* The term "customary charges" will refer to the uniform amount which the individual physician or other person charges in the majority of cases for a specific medical procedure or service. In determining such uniform amount, token charges for charity patients and substandard charges for welfare and other low income patients are to be excluded. The reasonable charge cannot, except as provided in § 405.506, be higher than the individual physician's or other person's customary charge. The customary charge for different physicians or other persons may, of course, vary. Payment for covered services would be based on the actual charge for the service when, in a given instance, that charge is less than the amount which the carrier would otherwise have found to be within the limits of acceptable charges for the particular service. Moreover, the income of the individual beneficiary is not to be taken into account by the carrier in determining the amount which is considered to be a reasonable charge for a service rendered to him. There is no provision in the law for a carrier to evaluate the reasonableness of charges in light of an individual beneficiary's economic status.

(b) *Variation of charges.* If the individual physician or other person varies his charges for a specific medical procedure or service, so that no one amount is charged in the majority of cases, it will be necessary for the carrier to exercise judgment in the establishment of a "customary charge" for such physician or other person. In making this judgment, an important guide, to be utilized when a sufficient volume of data on the physician's or other person's charges is available, would be the median or midpoint of his charges, excluding token and substandard charges as well as exceptional charges on the high side. A significant clustering of charges in the vicinity of the median amount might indicate that a point of such clustering should be taken as the physician's or other person's "customary" charge. Use of relative value scales will help in arriving at a decision in such instances.

(c) *Use of relative value scales.* If, for a particular medical procedure or service, the carrier is unable to determine the customary charge on the basis of reliable statistical data (for example, because the carrier does not yet have sufficient data or because the performance of the particular medical procedure or service by the physician or other person is infrequent), the carrier may use appropriate relative value scales to determine the customary charge for such procedure or service in relation to customary charges of the same physician or person for other medical procedures and services.

(d) *Revision of customary charge.* A physician's or other person's customary charge is not necessarily a static amount. Where a physician or other person alters his charges, a revised pattern of charges for his services may develop. Where on the basis of adequate evidence, the carrier finds that the physician or other person furnishing services has changed his charge for a service to the public in general, the customary charge resulting from the revised charge for the service should be recognized as the customary charge in making determinations of reasonable charges for such service when rendered thereafter to supplementary insurance beneficiaries. If the new customary charge is not above the top of the range of prevailing charges (see § 405.504 (a)), it should be deemed to be reasonable by the carrier, subject to the provisions of § 405.506.

§ 405.504 Determining prevailing charges.

(a) *Range of charges.* The term "prevailing charges" refers to those charges which fall within the range of charges most frequently and most widely used in a locality for particular medical procedures or services. The top of this range establishes, except as provided in § 405.506, an overall limitation on the charges which a carrier will accept as reasonable for a given medical procedure or service. Prevailing charges are derived from the overall pattern existing within a locality. For example, in a given locality the carrier may find that the charges most frequently and widely used by physicians for a particular medical procedure range from $150 to $175. If in another locality the carrier finds that the prevailing charges are different for the same procedure, then a different range of charges would be applied in making reasonable charge determinations for that locality. An acceptable method for the carrier to objectively determine the point at which such limitation is established would be the use of the mean (arithmetic average) of the customary charges of physicians or other persons in the locality for a given medical procedure or service, plus one standard deviation above the mean, rounded to the nearest dollar. However, the carrier will adopt an appropriate limit for each procedure or service with judgment being exercised to assure that with respect to each particular array of data the result reached is reasonable. If, for example, there is a point just above the standard deviation which represents the amount charged by a substantial number of physicians in the locality, the limitation might, in such a situation, be established so as to include this point. On the other hand, the "trailing off" of an appreciable number of charges above the mean plus one standard deviation might not justify an upward adjustment. The "standard deviation" is a basic statistical measure widely used in dealing with variations from a central tendency or norm. Its advantage over the approach that the "prevailing charge" is to include a fixed percentage of all charges lies in the fact that the standard deviation is flexible rather than rigid. It takes into account and is responsive to differences in the spread that exists in the underlying data.

(b) *Variation in range of prevailing charges.* The range of prevailing charges in a locality may be different for physicians or other persons who engage in a specialty practice or service than for others. Existing differentials in the level of charges between different kinds of practice or service could, in some localities, lead to the development of more than one range of prevailing charges for application by the carrier in its determinations of reasonable charges. Carrier decisions in this respect should be responsive to the existing patterns of charges by physicians and other persons who render covered services, and should establish differentials in the levels of charges between different kinds of practice or service only where in accord with such patterns.

(c) *Re-evaluation and adjustment of prevailing charges.* Determinations of prevailing charges by the carrier are to be re-evaluated and adjusted from time to time on the basis of factual information about the charges made by physicians and other persons to the public in general. This information should be obtained from all possible sources including a carrier's experience with its own programs as well as with the supplementary medical insurance program.

§ 405.505 Determination of "locality."

"Locality" is the geographical area for which the carrier is to derive the prevailing charges for services. Usually, a locality will be a political or economic subdivision of a State. It should include a cross section of the population with respect to economic and other characteristics. Where people tend to gravitate toward certain population centers to obtain medical care or service, localities may be recognized on a basis constituting medical service areas (interstate or otherwise), comparable in concept to "trade areas." Localities may differ in population density, economic level, and other major factors affecting charges for services. Carriers therefore shall delineate "localities" on the basis of their knowledge of local conditions. However, distinctions between localities are not to be so finely made that a "locality" includes only a very limited geographic area whose population has distinctly similar income characteristics (e.g., a very rich or very poor neighborhood within a city).

§ 405.506 Charges higher than customary or prevailing charges.

A charge which exceeds either the customary charge of the physician or other person who rendered the medical or other health service, or the prevailing charge in the locality, or both, may be found to be reasonable, but only where there are unusual circumstances, or medical complications requiring additional time, effort or expense which support an additional charge, and only if it is acceptable medical or medical service practice in the locality to make an extra charge in such cases. On the other hand, the mere fact that the physician's or other person's customary charge is higher than prevailing would not justify a determination of reasonable charge higher than the prevailing charge.

§ 405.507 Illustrations of the application of the criteria for determining reasonable charges.

The following examples illustrate how the general criteria on customary charges and prevailing charges might be applied in determining reasonable charges under the supplementary medical insurance program. Basically, these examples demonstrate that, except where the actual charge is less, reasonable charges will reflect current customary charges of the particular physician or other person within the ranges of the current prevailing charges in the locality for that type and level of service:

The prevailing charge for a specific medical procedure ranges from $80 to $100 in a certain locality.

Doctor A's bill is for $75 although he customarily charges $80 for the procedure.

Doctor B's bill is his customary charge of $85.

Doctor C's bill is his customary charge of $125.

Doctor D's bill is for $100, although he customarily charges $80, and there are no special circumstances in the case.

The reasonable charge for Doctor A would be limited to $75 since under the law the reasonable charge cannot exceed the actual charge, even if it is lower than his customary charge and below the prevailing charges for the locality.

The reasonable charge for Doctor B would be $85, because it is his customary charge and it falls within the range of prevailing charges for that locality.

The reasonable charge for Doctor C could not be more than $100, the top of the range of prevailing charges.

The reasonable charge for Doctor D would be $80, because that is his customary charge. Even though his actual charge of $100 falls within the range of prevailing charges, the reasonable charge cannot exceed his customary charge in the absence of special circumstances.

§ 405.508 Determination of comparable circumstances; limitation.

(a) *Application of limitation.* The carrier may not in any case make a determination of reasonable charge which would be higher than the charge upon which it would base payment to its own policyholders for a comparable service in comparable circumstances. The charge upon which it would base payment, however, does not necessarily mean the amount the carrier would be obligated to pay. Under certain circumstances, some carriers pay amounts on behalf of individuals who are their policyholders, which are below the customary charges of physicians or other persons to other individuals. Payment under the supplementary medical insurance program would not be limited to these lower amounts.

(b) *When comparability exists.* "Comparable circumstances," as used in the Act and this subpart, refers to the circumstances under which services are rendered to individuals and the nature of the carrier's health insurance programs and the method it uses to determine the amounts of payments under these programs. Generally, comparability would exist where:

(1) The carrier bases payment under its program on the customary charges, as presently constituted, of physicians or other persons and on current prevailing charges in a locality, and

(2) The determination does not preclude recognition of factors such as specialty status and unusual circumstances which affect the amount charged for a service.

(c) *Responsibility for determining comparability.* Responsibility for determining whether or not a carrier's program has comparability will in the first instance fall upon the carrier in reporting pertinent information about its programs to the Social Security Administration. When the pertinent information has been reported, the Social Security Administration will advise the carrier whether any of its programs have comparability.

§ 405.520 Reimbursement for services of interns, residents and supervising physicians; general.

(a) Under the health insurance program, almost all the aged have protection against hospital expenses, and the great majority also have protection against medical expenses. This health insurance coverage is intended to provide a substantial measure of freedom to beneficiaries in selecting hospitals and physicians of their choice. Whatever the choice, beneficiaries, as insured patients, are to be accorded the same status as other insured and paying patients in regard to the hospital and medical care they are provided.

(b) Many beneficiaries will choose to receive the care they need from hospitals with approved graduate medical education programs and from other institutions where services of interns and residents are provided. Many will receive care in these hospitals as patients of physicians who, in turn, will involve interns and residents in the care of their patients. The basis for reimbursement for such services by interns and residents is different from that applicable to such physicians' services.

§ 405.521 Services of attending physicians supervising interns and residents.

(a) Attending physicians' services rendered to beneficiaries in a teaching setting are covered under the supplementary medical insurance program and the payment for such services is on the basis of reasonable charges (see paragraphs (b) and (c) of this section). The costs to a hospital for teaching services furnished by a physician in connection with an approved graduate medical education program are allowable in accordance with the principles of reimbursement for provider costs (see paragraph (d) of this section).

(b) Payment on the basis of reasonable charges is applicable to the professional services rendered to a beneficiary by his attending physician where the attending physician provides personal and identifiable direction to interns or residents who are participating in the care of his patient. In the case of major surgical procedures and other complex and dangerous procedures or situations, such personal and identifiable direction must include supervision in person by the attending physician. A charge should be recognized under Part B for the services of an attending physician who involves residents and interns in the care of his patient only if his services to the patient are of the same character, in terms of the responsibilities to the patient that are assumed and fulfilled, as the services he renders to his other paying patients. The carrying out by the physician of these responsibilities would be demonstrated by such actions as: Reviewing the patient's history and physical examination and personally examining the patient within a reasonable period after admission; confirming or revising diagnosis; determining the course of treatment to be followed; assuring that any supervision needed by the interns and residents was furnished; and by making frequent reviews of the patient's progress.

(c) Charges for such services of the attending physician may be billed either directly by him or by the hospital under arrangements between the physician and the hospital. In either case, the amount payable under the program for such services may be determined in accordance with the same criteria for the determination of reasonable charges as are applicable to the services which the physician renders to his other patients (see §§ 405.501–405.508 of this Subpart E).

(d) It is recognized that there will necessarily be situations where a patient will receive medical services in the teaching setting for which payment on the basis of reasonable charges will not be applicable. For example, there will be instances where it will neither be necessary from the standpoint of the medical needs of the patient nor appropriate from the standpoint of the continuing development of the residents' competence for there to be an attending physician who carries out the responsibilities referred to in paragraph (b) of this section. Whether or not a physician makes a charge recognized under the supplementary medical insurance program for services to patients which involve the participation of residents or interns, the hospital can receive reimbursement on a cost basis for an appropriate share of the compensation it pays its residents and interns. If the teaching program is an approved educational activity of the hospital, reimbursement will also be available on a cost basis to the hospital for an appropriate share of the compensation it pays to physicians for teaching services (as opposed to professional services which contribute to the diagnosis or treatment of the patient) and for other costs of educational programs conducted by the hospital. These costs are allowable in accordance with the principles of reimbursement for provider costs (see § 405.421 of Subpart D).

(e) Nothing in the foregoing restricts the disposition of payments for services received either from the health insurance program or from beneficiaries, in accordance with agreements between hospital and physicians.

§ 405.522 Interns' and residents' services in approved teaching programs.

(a) Title XVIII of the Act gives recognition to hospital teaching programs which are duly approved in their respective fields by the Council on Medical Education of the American Medical Association, the Committee on Hospitals of the Bureau of Professional Education of the American Osteopathic Association, or the Council on Dental Education of the American Dental Association.

(b) Services of interns and residents in such approved programs are explicitly excluded from the definition of "physicians' services" (see Subpart R) and are covered as hospital services. This exclusion applies whether or not the intern or resident may be authorized to practice as a physician under the laws of the State in which he performs his services. In accordance with the basis for payment under the health insurance program for services provided by participating hospitals, the cost of the services of interns and residents is reimbursable to the hospital, specifically as a component of allowable costs defined by the principles of reimbursement for provider costs set forth in Subpart D of Part 405. Under the principles discussed in Subpart D of this Part 405, an appropriate share of the provider's total allowable costs is reimbursable under the health insurance program. (For purposes of including services of interns and residents as an element of allowable cost in accordance with these principles, recording and reporting by the hospital of the specific services rendered to individual beneficiaries is not necessary.)

(c) Conversely, services of interns and residents are not reimbursable under the health insurance program on the basis which applies to physicians' services, i.e., reasonable charges (see §§ 405.501–405.508 of this Subpart E). This distinction with respect to the basis for the health insurance program reimbursement applies to services of interns and residents whether covered by the hospital insurance program or the supplementary medical insurance program. The cost of outpatient diagnostic services (see § 405.145) covered under the hospital insurance program (see Subpart A of Part 405) and other outpatient services (see § 405.231) covered under the supplementary medical insurance program (see Subpart B of Part 405) which are provided by a hospital, including intern and resident services where involved, is reimbursed to the hospital under the health insurance program to the extent of 80 percent of the cost of services rendered to the beneficiaries after recognition of the deductible amount (see § 405.142 and § 405.240(d)). The beneficiary will incur the expense of the deductible and coinsurance amounts as determined on the basis of the hospital's charges to the beneficiary. Hospital charges may include a charge for the services of interns or residents as a specific item, or these services may be included in the general charges to the beneficiary made by the hospital for the covered services it provides.

§ 405.523 Interns' and residents' services not in approved teaching programs.

(a) The services of a hospital resident or intern who is not under an approved teaching program in the hospital are reimbursable to the hospital on a cost basis under the supplementary medical insurance program. For purposes of this section, such services shall be deemed to include services of a physician employed by the hospital who is authorized to practice only in a hospital setting. Even where such services are rendered to inpatients, the cost of the services is not an allowable cost under the hospital insurance program but is allowable under the supplementary medical insurance program.

(b) In this connection reimbursement under the health insurance program for services discussed in paragraph (a) of this section will be to the hospital in an amount of 80 percent of the cost of services rendered to the beneficiaries after recognition of the deductible. The beneficiary will incur the expense of the deductible and coinsurance amounts as determined on the basis of the hospital's charges to the beneficiary for its services that are covered under the supplementary medical insurance program.

§ 405.524 Interns' and residents' services outside the hospital.

(a) Under the hospital insurance program, the allowable costs on which reimbursement to a participating extended care facility for covered services is based may include the cost of services of an intern or resident who is under an approved teaching program in a hospital with which the facility has a transfer agreement (see § 405.1123) which provides, in part, for the transfer of patients and the interchange of medical records. Likewise, a participating home health agency may be reimbursed under the hospital insurance program for the cost of the services of an intern or resident who is under an approved teaching program of a hospital with which the home health agency is affiliated or under common control, where these services are furnished as part of the posthospital home health visits for a medicare beneficiary.

(b) Medical services of a resident or intern of a hospital which are furnished by a provider of services are reimbursed under the supplementary medical insurance program on an 80 percent of allowable cost basis if reimbursement is not provided under the hospital insurance program.

§ 405.525 Basis of reimbursement under the health insurance program for services of interns and residents.

Status of patient	Status of intern or resident [1]	Reimbursement provided under [2]	Basis of payment [3]
Hospital inpatient	Under approved program	Part A	Cost.
	Other	Part B	80 percent of cost.
Receiving outpatient hospital diagnostic services	Under approved program	Part A	Do.
	Other	Part B	Do.
Receiving therapeutic outpatient hospital services	Under approved program	do	Do.
	Other	do	Do.
Extended care facility inpatient	Under approved program of a hospital with which facility has a transfer agreement	Part A	Cost.
	Other	Part B	80 percent of cost.
Home health plan patient	Posthospital services furnished under approved programs of hospital with which the Home Health Agency is affiliated or under common control	Part A	Cost.
	Other	Part B	80 percent of cost.

[1] An "approved program" means approval by the Council on Medical Education of the AMA, by the Committee on Hospitals of the Bureau of Professional Education of the AOA, or by the Council of Dental Education of the ADA. "Other" interns and residents include, in addition to interns and residents-in-training, a physician employed by the hospital who is authorized to practice only in the hospital setting.

[2] "Part A" refers to the hospital insurance program and "Part B" refers to the supplementary medical insurance program.

[3] The term "cost" refers to reimbursement on a cost basis in accordance with the principles in Subpart D of Part 405.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

Subpart D—Listing of Color Additives for Food Use Exempt From Certification

Corn Endosperm Oil; Confirmation of Effective Date of Order Amending Regulation Listing for Food Use and Exempting From Certification

In the matter of establishing a regulation listing and exempting from certification the color additive corn endosperm oil for use in chicken feed:

An order in the above-identified matter was published in the FEDERAL REGISTER of March 30, 1967 (32 F.R. 5324), adding to Part 8 new § 8.322. A confirmation of effective date of said order was published in the FEDERAL REGISTER of July 11, 1967 (32 F.R. 10199), which confirmed the effective date as being May 29, 1967, and also amended § 8.322 (b) by changing the item reading "Isopropyl alcohol, not more than 50 parts per million" to read "Isopropyl alcohol, not more than 100 parts per million."

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b), (c) (2), (d), 74 Stat. 399–403; 21 U.S.C. 376 (b), (c) (2), (d)) and under the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.120), notice is given that no objections were filed to the order of July 11, 1967, amending § 8.322(b) regarding isopropyl alcohol. Accordingly, that amendment will become effective September 9, 1967.

(Sec. 706 (b), (c) (2), (d), 74 Stat. 399–403; 21 U.S.C. 376 (b), (c) (2), (d))

Dated: August 22, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-10230; Filed, Aug. 30, 1967; 8:49 a.m.]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 27—CANNED FRUITS AND FRUIT JUICES

Canned Artificially Sweetened Fruits, Certain Identity Standards; Order Listing Additional Optional Ingredients

In the matter of amending certain identity standards for artificially sweetened canned fruits to list cyclamic acid (cyclohexylsulfamic acid) as an optional nonnutritive sweetener and to list edible organic acids and salts as optional flavor-enhancing ingredients with suitable label declaration:

No comments were received in response to the notice of proposed rulemaking in the above-identified matter published in the FEDERAL REGISTER of April 19, 1967 (32 F.R. 6144), based on a petition filed by California Canners and Growers, 3100 Ferry Building, San Francisco, Calif. 94106.

The petition and other relevant information have been considered, and it is concluded that it will promote honesty and fair dealing in the interest of consumers to adopt the proposed amendments. The artificial sweetener was proposed as "cyclohexylsulfamic acid"; however, it is being listed in this order by its common or usual name "cyclamic acid."

Therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.120): *It is ordered*, That Part 27 be amended in the following respects:

1. By amending §§ 27.6 *Artificially sweetened canned peaches; identity; label statement of optional ingredients*, 27.14 *Artificially sweetened canned apricots* * * *, 27.24 *Artificially sweetened canned pears* * * *, 27.34 *Artificially sweetened canned cherries* * * *, 27.43 *Artificially sweetened canned fruit cocktail* * * *, and 27.73 *Artificially sweetened canned figs* * * *, as follows:

a. By adding "cyclamic acid" following "sodium cyclamate" in the list of artificial sweeteners in paragraph (a) of each section.

b. By revising the last sentence of paragraph (a) of each section to read "Such packing medium may be thickened with pectin and may contain any mixture of any edible organic salt or salts and any edible organic acid or acids as a flavor-enhancing agent, in a quantity not more than is reasonably required for that purpose."

c. By adding to paragraph (b) (2) of each section a new sentence reading "When any organic salt or acid or any mixture of two or more of these is added, the label shall bear the common or usual name of each such ingredient."

2. By adding to § 27.1 *Definitions* a new paragraph, as follows:

(g) The terms "edible organic acid" and "edible organic salt" refer to any edible organic acid and any edible organic salt added for the purpose of flavor enhancement that either is not a food additive as defined in section 201(s) of the Federal Food, Drug, and Cosmetic Act or, if it is a food additive as so defined, is used in conformity with regulations established pursuant to section 409 of the act.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies.

Effective date. This order shall become effective 60 days from the date of its publication in the FEDERAL REGISTER, ex-

cept as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: August 22, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-10296; Filed, Aug. 30, 1967; 8:49 a.m.]

PART 42—EGGS AND EGG PRODUCTS

Dried Eggs and Dried Yolks, Identity Standards; Silicon Dioxide as Optional Ingredient

In the matter of amending the standards of identity for dried eggs (21 CFR 42.30) and dried yolks (21 CFR 42.60) by listing silicon dioxide as an optional anticaking ingredient:

No comments were received in response to the notice of proposed rulemaking in the above-identified matter published in the FEDERAL REGISTER of May 4, 1967 (32 F.R. 6844), based on a petition filed by W. R. Grace & Co., Davison Chemical Division, 101 North Charles Street, Baltimore, Md. 21203.

The petition and other relevant information have been considered, and it is concluded that it will promote honesty and fair dealing in the interest of consumers to adopt the amendments as proposed. Therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.120): *It is ordered*, That §§ 42.30 and 42.60 be amended as set forth below.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies.

Effective date. This order shall become effective 30 days from the date of its publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: August 22, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

Sections 42.30 (a) and (d)(1) and 42.60 (a) and (d)(1) are amended to read as follows:

§ 42.30 Dried eggs, dried whole eggs; identity; label statement of optional ingredients.

(a) Dried eggs, dried whole eggs are prepared by drying liquid eggs that conform to § 42.10, with such precautions that the finished food is free of viable *Salmonella* micro-organisms. They may be powdered. Before drying, the glucose content of the liquid eggs may be reduced by one of the optional procedures set forth in paragraph (b) of this section. Either silicon dioxide complying with the provisions of § 121.1060 of this chapter or sodium silicoaluminate may be added as an optional anticaking ingredient, but the amount of silicon dioxide used is not more than 1 percent and the amount of sodium silicoaluminate used is less than 2 percent by weight of the finished food. The moisture content of the finished food, if an optional anticaking ingredient is used, does not exceed 5 percent by weight; however, if an optional anticaking ingredient is not used, the moisture content may exceed 5 percent, but it does not exceed 8 percent. The moisture content is determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," 10th edition, 1965, p. 257, sections 16.002 and 16.003, under "Total Solids."

* * * * *

(d) (1) When either of the optional anticaking ingredients specified in paragraph (a) of this section is used, the label shall bear the statement "Not more than 1 percent silicon dioxide added as an anticaking agent" or "Less than 2 percent sodium silicoaluminate added as an anticaking agent," whichever is applicable.

* * * * *

§ 42.60 Dried egg yolks, dried yolks; identity; label statement of optional ingredients.

(a) Dried egg yolks, dried yolks is the food prepared by drying egg yolks that conform to § 42.40, with such precautions that the finished food is free of viable *Salmonella* micro-organisms. Before drying, the glucose content of the liquid egg yolks may be reduced by one of the optional procedures set forth in paragraph (b) of this section. Either silicon dioxide complying with the provisions of § 121.1060 of this chapter or sodium silicoaluminate may be added as an optional anticaking ingredient, but the amount of silicon dioxide used is not more than 1 percent and the amount of sodium silicoaluminate used is less than 2 percent by weight of the finished food. The moisture content of the finished food, if an optional anticaking ingredient is used, does not exceed 5 percent by weight; however, if an optional anticaking ingredient is not used, the moisture content may exceed 5 percent but does not exceed 8 percent. The moisture content is determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," 10th edition, 1965, p. 257, sections 16.002 and 16.003, under "Total Solids."

* * * * *

(d) (1) When either of the optional anticaking ingredients specified in paragraph (a) of this section is used, the label shall bear the statement "Not more than 1 percent silicon dioxide added as an anticaking agent" or "Less than 2 percent sodium silicoaluminate added as an anticaking agent," whichever is applicable.

* * * * *

[F.R. Doc. 67-10297; Filed, Aug. 30, 1967; 8:49 a.m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

O-Ethyl S-Phenyl Ethylphosphonodithioate

A petition (PP 7F0548) was filed with the Food and Drug Administration by the Stauffer Chemical Co., 1200 South 47th Street, Richmond, Calif. 94804, proposing the establishment of tolerances for residues of the insecticide *O*-ethyl *S*-phenyl ethylphosphonodithioate in or on the raw agricultural commodities asparagus, corn fodder or forage (including sweet corn, field corn, and popcorn), corn grain (including sweet corn, field corn, and popcorn), corn with kernels plus cob with husks present (including sweet corn, field corn, and popcorn), peanut hay, peanuts, potatoes, sugar beets (tops and roots), and sweet potatoes at 0.07 part per million.

Subsequently, the petitioner modified the petition by changing the proposed tolerance from 0.07 part per million to 0.1 part per million and by revising the corn crop items to read as follows: Fresh corn including sweet corn (kernels plus cob with husks removed), corn grain (includes popcorn), corn forage or fodder (including sweet corn, field corn, and popcorn).

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which the tolerances are being established.

Based on consideration given data submitted in the petition, and other relevant material, the Commissioner of Food and Drugs concludes that the tolerances established in this order will protect the public health. Therefore, by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated by him to the Commissioner (21 CFR 2.120), Part 120 is amended as follows:

1. Section 120.3(e)(5) is amended by alphabetically inserting in the list of cholinesterase-inhibiting pesticides two new items, as follows:

§ 120.3 Tolerances for related pesticide chemicals.

* * * * *

(e) * * *

(5) * * *

O-Ethyl *S*-phenyl ethylphosphonodithioate.
O-Ethyl *S*-phenyl ethylphosphonothioate.

* * * * *

2. A new section is added to Subpart C as follows:

§ 120.221 *O*-Ethyl *S*-phenyl ethylphosphonodithioate; tolerances for residues.

Tolerances are established for negligible residue of the insecticide *O*-ethyl *S*-phenyl ethylphosphonodithioate including its oxygen analog (*O*-ethyl *S*-phenyl ethylphosphonothioate) in or on asparagus, fresh corn including sweet corn (kernels plus cob with husk removed), corn grain (includes popcorn), corn forage or fodder (including sweet corn, field corn, and popcorn), peanuts, peanut hay, potatoes, sugar beets (tops and roots), and sweet potatoes at 0.1 part per million.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: August 23, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-10298; Filed, Aug. 30, 1967; 8:49 a.m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Atrazine

A petition (PP 7F0525) was filed with the Food and Drug Administration by Geigy Chemical Co., Ardsley, N.Y. 10502, proposing the establishment of tolerances for residues of the herbicide atrazine (2-chloro-4-ethylamino-6-isopropylamino-s-triazine) in or on corn and sorghum forage at 30 parts per million and in or on corn and sorghum grains at 1 part per million. Subsequently, the petitioner revised the proposal to request tolerances for residues of atrazine in or on fresh corn including sweet corn (kernels plus cobs with husks removed), corn grain (includes popcorn), and sorghum grain at 0.25 part per million; in or on corn forage or fodder (including field corn, sweet corn, and popcorn) and sorghum fodder and forage at 15 parts per million.

The Secretary of Agriculture has certified that this herbicide is useful for the purposes of which the tolerances are being established.

Based on consideration given the data submitted in the petition, and other relevant material, the Commissioner of Food and Drugs concludes that the tolerances established by this order will protect the public health. Therefore, by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated by him to the Commissioner (21 CFR 2.120), Part 120 is amended by adding the following new section to Subpart C:

§ 120.220 Atrazine; tolerances for residues.

Tolerances for residues of the herbicide atrazine (2-chloro-4-ethylamino-6-isopropylamino-s-triazine) in or on raw agricultural commodities are established as follows:

15 parts per million in or on corn forage or fodder (including field corn, sweet corn, and popcorn) and sorghum fodder and forage.

0.25 part per million in or on fresh corn including sweet corn (kernels plus cobs with husks removed), corn grain (includes popcorn), and sorghum grain.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: August 22, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-10235; Filed, Aug. 30, 1967; 8:49 a.m.]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

METHYLENE CHLORIDE

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 7A2061) filed by the Coca-Cola Co., Post Office Drawer 1734, Atlanta, Ga. 30301, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use of methylene chloride as a solvent in extracting caffeine from green coffee beans. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.1039 is amended by adding a new paragraph, as follows:

§ 121.1039 Methylene chloride.

* * * * *

(c) In coffee as a residue from its use as a solvent in the extraction of caffeine from green coffee beans, at a level not to exceed 10 parts per million (0.001 percent) in decaffeinated roasted coffee and in decaffeinated soluble coffee extract (instant coffee).

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 23, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-10236; Filed, Aug. 30, 1967; 8:49 a.m.]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

SILICON DIOXIDE; CALCIUM SILICATE

No comments were received in response to the notice published in the FEDERAL REGISTER of May 4, 1967 (32 F.R. 6844), proposing amendments to the food additive regulations to permit use of silicon dioxide as an anticaking agent in infant foods and calcium silicate as an anticaking agent in infant foods and foods for special dietary uses, within certain conditions. The Commissioner of Food and Drugs concludes that the amendments should be adopted as proposed.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), Part 121 is amended as follows:

§ 121.1058 [Amended]

1. Section 121.1058 *Silicon dioxide* is amended by deleting subparagraph (3) of paragraph (b).

2. Section 121.1135 is revised to read as follows:

§ 121.1135 Calcium silicate.

Calcium silicate, including synthetic calcium silicate, may be safely used in food in accordance with the following prescribed conditions:

(a) It is used as an anticaking agent in food in an amount not in excess of that reasonably required to produce its intended effect.

(b) It will not exceed 2 percent by weight of the food, except that it may be present up to 5 percent by weight of baking powder.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d))

Dated: August 22, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-10234; Filed, Aug. 30, 1967; 8:49 a.m.]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

DEFOAMING AGENTS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 7A2133) filed by General Foods Corp., White Plains, N.Y. 10602, and other relevant information, has concluded that the food additive regulations should be amended to provide for the safe use of dimethylpolysiloxane as a defoaming agent in gelatin dessert mixes. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.1099(a)(2) is amended by changing the item "Dimethylpolysiloxane * * *" in the table to read as follows:

§ 121.1099 Defoaming agents.

(a) * * *
(2) * * *

Substances	*Limitations*
* * *	* * *
Dimethylpolysiloxane (substantially free from hydrolysable chloride and alkoxy groups; no more than 18 percent loss in weight after heating 4 hours at 200° C.; viscosity 300–600 centistokes at 25° C.; refractive index 1.400–1.404 at 25° C.).	10 parts per million in food, except zero in milk; 110 parts per million in dry gelatin dessert mixes labeled for use whereby no more than 16 parts per million is present in the ready to serve dessert; 280 parts per million in salt labeled for cooking purposes, whereby no more than 10 parts per million is present in the cooked food.
* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 23, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

[F.R. Doc. 67-10281; Filed, Aug. 30, 1967; 8:49 a.m.]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

FERMENTATION-DERIVED, MILK-CLOTTING ENZYME

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 7J2103) filed by Miles Laboratories, Inc., 1127 Myrtle Street, Elkhart, Ind. 46514, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use in the production of certain cheeses of a milk-clotting enzyme derived from *Bacillus cereus* by a pure-culture fermentation process. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120), § 121.1199 is revised to read as follows:

§ 121.1199 Fermentation-derived, milk-clotting enzyme.

Milk-clotting enzyme produced by pure-culture fermentation process may be safely used in the production of cheese in accordance with the following prescribed conditions:

(a) Milk-clotting enzyme is derived from one of the following organisms by a pure-culture fermentation process:

(1) *Endothia parasitica* classified as follows: Class, *Ascomycetes;* order, *Sphaeriales;* family, *Diaporthaceae;* genus, *Endothia;* species, *parasitica.*

(2) *Bacillus cereus* classified as follows: Class, *Schizomycetes;* order, *Eubacteriales;* family, *Bacillaceae;* genus, *Bacillus;* species, *cereus* (Frankland and Frankland).

(b) The strains of organisms identified in paragraph (a) of this section are nonpathogenic and nontoxic in man or other animals.

(c) The additive is produce by a process that completely removes the generating organism from the milk-clotting enzyme product.

(d) The additive is used in an amount not in excess of the minimum required to produce its intended effect in the production of those cheeses for which it is permitted by standards of identity established pursuant to section 401 of the act, except that the enzyme derived from *Bacillus cereus* is not suitable for use in the production of the standardized cheeses identified by §§ 19.540 and 19.542 of this chapter.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 22, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108-567]

PART 42—VISAS: DOCUMENTATION OF IMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

Immigration Pool for Fiscal Year 1968

Part 42, Chapter I, Title 22 of the Code of Federal Regulations is being amended to show the amount of quota numbers which are available in the immigration pool established by section 201(d) of the Act for the fiscal year ending June 30, 1968.

Section 42.60(b) is amended to read as follows:

§ 42.60 Allocation of numbers during the transition period.

* * * * *

(b) The amount of quota numbers which remained unused on June 30, 1967, and which are available for distribution pursuant to section 201(d) of the Act prior to July 1, 1968, is 88,399.

* * * * *

Effective date. The amendment to the regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER.

The provisions of section 4 of the Administrative Procedure Act (80 Stat. 383; 5 U.S.C. 553) relative to notice of proposed rule making are not applicable to this order because the regulation contained herein involves foreign affairs functions of the United States.

(Sec. 104, 66 Stat. 174; 8 U.S.C. 1104)

BARBARA M. WATSON,
Acting Administrator, Bureau of Security and Consular Affairs.

AUGUST 25, 1967.

Title 29—LABOR

Chapter IV—Office of Labor-Management and Welfare-Pension Reports, Department of Labor

SUBCHAPTER B—WELFARE-PENSION REPORTS

PART 463—REPORTING REQUIREMENTS FOR PLANS COVERING LESS THAN 100 PARTICIPANTS

Miscellaneous Amendments

On February 9, 1967, notice was published in the FEDERAL REGISTER (32 F.R. 2709) of a proposal to amend Form D-3. Form D-3[1] serves to identify employee welfare or pension benefit plans covering fewer than 100 participants, which are otherwise exempt from the reporting requirements of section 7 of the Welfare and Pension Plans Disclosure Act. The proposed amendments to the form would require further entries reflecting any changes in identification or address of plans so reporting, whether the reporting plan has been amended during the reporting year, whether the plan is protected by a bond as required by the Act, and whether any losses have been incurred by the reporting plan during the year through the fraud or dishonesty of its administrators, officers or employees.

The notice also proposed parallel changes in 29 CFR Part 463 to change the Title of the part, to delete a reference to material required in the old Form D-3, to indicate that one copy (rather than two) of the new form will be required, and to insert the word "revised" after a reference to the Form D-3.

Interested persons were offered 30 days from the date of publication to offer comments concerning the proposed revision of the form and regulation. No comments were received.

Accordingly, the revised Form D-3, and the amendments to 29 CFR Part 463 are adopted as proposed. Therefore, under the authority of sections 5 and 7 of the Welfare and Pension Plans Disclosure Act (72 Stat. 999, 1000; 76 Stat. 36, 37; 29 U.S.C. 304, 306), Secretary's Order No. 24-63 (28 F.R. 9172), and Secretary's Order No. 25-63 (28 F.R. 9173), Part 463 of Title 29 CFR is hereby amended as follows:

1. The title to Part 463 is hereby amended to read as set forth above.

2. Section 463.3 of Part 463 is hereby amended to read as follows:

§ 463.3 Identification of plans covering less than 100 participants.

The administrator of any covered employee welfare or pension benefit plan covering less than 100 participants is not required to publish (as otherwise required by sections 8 (a) and (b) of the Act) the annual financial report specified in section 7 of the Act: *Provided, however,* That the administrator of such a plan shall submit one copy of U.S. Department of Labor Form D-3 (Revised) completed and executed in accordance with instructions contained thereon. Such form shall be submitted within 150 days after the end of each calendar, policy, or other fiscal year during which the plan covers less than 100 participants, as provided in § 463.4. Copies of the Form may be obtained by request directed to the Office of Labor-Management and Welfare-Pension Reports, U.S. Department of Labor, Washington, D.C. 20210.

This amendment shall take effect on September 1, 1967.

Signed at Washington, D.C., this 24th day of August 1967.

THOMAS R. DONAHUE,
Labor-Management Services Administrator.

[F.R. Doc. 67-10306; Filed, Aug. 30, 1967; 8:47 a.m.]

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER E—DEFENSE CONTRACTING

PART 169—COMMERCIAL OR INDUSTRIAL ACTIVITIES

The Deputy Secretary of Defense approved the following:

Sec.
169.1 Purpose.
169.2 Definitions.
169.3 Background.
169.4 Policy.

Sec.
169.5 Responsibility and delegations.
169.6 Implementation.

AUTHORITY: The provisions of this Part 169 issued under Title 5 U.S.C. 301, and Title 5 U.S.C. 552.

§ 169.1 Purpose.

This part implements Bureau of the Budget Circular No. A–76[1] and prescribes Department of Defense policy governing the establishment and operation of DoD commercial or industrial activities by the Military Departments and Defense Agencies (hereinafter referred to collectively as "DoD Components").

§ 169.2 Definitions.

(a) *DoD Commercial or Industrial Activities.* Activities operated and managed by DoD Components to provide for Government use products or services obtainable from private commercial sources.

(b) *Private commercial sources.* Private business concerns which provide products or services available to Government Agencies, and which are located in the United States, its territories and possessions, the District of Columbia, or the Commonwealth of Puerto Rico.

(c) *New start.* A newly established DoD commercial or industrial activity or a reactivation, expansion, modernization or replacement of such an activity involving additional capital investment of $25,000 or more or additional annual costs of production of $50,000 or more. Consolidation of two or more activities without increasing the overall total amount of products or services provided is not a new start.

(d) *Contract support services.* Services procured from private commercial sources in support of DoD functions.

§ 169.3 Background.

Bureau of the Budget Circular No. A–76 outlines the principle that: (a) Government Departments and Agencies will rely on the private enterprise system for the provision of required products or services to the maximum extent consistent with effective and efficient accomplishment of their programs; and (b) in some circumstances, it is in the national interest for the Government to provide directly the products and services it uses, and that only under those circumstances will a Department or Agency continue the operation of a Government commercial or industrial activity, or initiate a new start. In conformance with this principle, the Department of Defense depends upon both private and Government commercial or industrial sources for the provision of products and services, with the objective of meeting its military readiness requirements with maximum cost effectiveness.

§ 169.4 Policy.

(a) DoD commercial or industrial activities may be continued in operation or initiated as new starts only when a clear determination is made that one or more of the following circumstances exist:

(1) Procurement of a product or service from a commercial source would disrupt or materially delay an agency's program.

(2) It is necessary for the Government to conduct a commercial or industrial activity for purposes of combat support or for individual and unit retraining of military personnel or to maintain or strengthen mobilization readiness.

(3) A satisfactory commercial source is not available and cannot be developed in time to provide a product or service when it is needed.

(4) The product or service is not available from another Federal agency nor from commercial sources.

(5) Procurement of the product or service from a commercial source will result in higher total cost to the Government.

(b) Within the limitations prescribed in paragraph (a) of this section, DoD Components will be equipped and staffed to carry out effectively and economically those commercial or industrial activities which must be performed internally in order to meet military readiness requirements. All other required products or services will be obtained in the manner least costly to the Government (by contract, by procurement from other Government Agencies, or from DoD commercial or industrial activities).

(c) Although DoD Components will rely primarily upon private commercial sources for required products and services, this policy will not be used as authority for methods of contract personnel procurement not authorized by law, nor as a means of avoiding Government personnel or salary limitations.

(d) DoD Components will continue to perform for themselves those basic functions of management necessary to retain essential control over the conduct of their programs. These include selection, training and direction of Government personnel, assignment of organizational responsibilities, planning of programs, establishment of performance goals and priorities, and evaluation of performance. Where required, commercial contract sources may be used to provide professional staff advisory and other support services related to these internal functions, provided that the Government's fundamental responsibility for controlling and managing its programs is not compromised or weakened.

§ 169.5 Responsibilities and delegations.

(a) *Assistant Secretary of Defense (Installations and Logistics).* The ASD (I&L) will:

(1) Provide the instructions necessary to implement the requirements of this part;

(2) Approve or disapprove all requests for new starts of DoD commercial or industrial activities;

(3) Exempt selected DoD commercial or industrial activities from review, as provided in section 7c(1) of Bureau of Budget Circular No. A–76;

(4) Maintain an inventory of DoD commercial or industrial activities and contract support service functions; and

(5) Conduct, in collaboration with the Assistant Secretaries of Defense (Comptroller) and (Manpower), a continuing program for improving management and cost effectiveness in the performance of DoD commercial or industrial activities and contract support service functions.

(b) *DoD components.* The Secretaries of the Military Departments and the Directors of Defense Agencies:

(1) Will carry out the requirements of this part in accordance with the instructions issued by the Assistant Secretary of Defense (I&L) under paragraph (a) (1) of this section; and

(2) Are authorized to act for the Secretary of Defense, except for new starts, in making decisions to continue, discontinue, or curtail commercial or industrial activities operated by their respective Departments or Agencies. Within the Military Departments, this authority may be redelegated to an Assistant Secretary, and in Defense Agencies, to a Deputy Director, or an official of equivalent rank.

§ 169.6 Implementation.

It is intended that the continued implementation of this policy will:

(1) Result in the maximum practicable reduction in DoD commercial or industrial activities, consistent with § 169.4 above; and

(2) Provide economies in DoD procurement of products and services.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

[F.R. Doc. 67–10186; Filed, Aug. 30, 1967; 8:45 a.m.]

SUBCHAPTER M—MISCELLANEOUS

PART 267—ENGINEERING DATA FILES

Concept

The following new paragraph has been added to § 267.4:

§ 267.4 Concept.

* * * * *

(c) DoD standard data elements and codes established in accordance with the provisions of DoD Directive 5000.11, "Data Elements and Data Codes Standardization Program," dated December 7, 1964,[1] and DoD Instruction 5000.12, "Data Elements and Data Codes Standardization Procedures," dated April 27, 1965,[1] will be used in the management of engineering data where available. Other data elements and codes used therefor are interim and subject to change after being standardized under the provisions of DoD Directive 5000.11 and DoD Instruction 5000.12.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration)

AUGUST 24, 1967.

Chapter VII—Department of the Air Force

MISCELLANEOUS AMENDMENTS TO CHAPTER

Chapter VII of Title 32 of the Code of Federal Regulations is amended as follows:

SUBCHAPTER A—ADMINISTRATION

PART 807—ISSUING AIR FORCE PUBLICATIONS AND FORMS OUTSIDE THE AIR FORCE

A new Part 807 is added as follows:

Sec.
807.1 Issue of publications and forms to the public.
807.2 Issues to commercial activities and other Government agencies.

AUTHORITY: The provisions of this Part 807 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012.

SOURCE: Chapter 7, AFM 7–1, July 10, 1967.

§ 807.1 Issue of publications and forms to the public.

(a) Up to 50 copies of an unclassified Air Force publication, form, chart, directory, etc. may be issued free to a private U.S. citizen or organization unless:

(1) Such issue is contrary to Air Force interests.

(2) Existing stocks are in short supply.

(3) The requested item is on sale at the U.S. Government Printing Office (GPO). The numerical indexes of publications usually show which publications are on sale there. Requesters of such documents are referred to the Superintendent of Documents, GPO, Washington, D.C. 20402.

(b) More than 50 copies of unclassified publications may be issued free to the public in the following instances:

(1) When the total cost of the items to be released is less than $50.

(2) Otherwise, when the Congressional Joint Committee on Printing specifically approves the issue. (Send letters requesting approval to Hq USAF (AFDASD)—identify the individual or organization making the request; show the title of the publication and the number of copies requested; and justify the issue.)

(3) When obsolete unclassified OJT Package Programs are to be salvaged, any quantity may be offered free to local nonprofit organizations, such as local Boy Scout troops, boys' clubs, YMCA's, YWCA's.

§ 807.2 Issues to commercial activities and other Government agencies.

The following table shows when Air Force publications and forms may be issued outside Air Force channels without charge.

ISSUANCE OF AIR FORCE PUBLICATIONS AND FORMS OUTSIDE AIR FORCE CHANNELS

When AF publication or form requested—	And issue is—	Then it is available—	And may be obtained from—
Concerns invitation for bid.		For review by prospective bidders.	The AF procurement authority concerned.
Is needed in connection with contract performance.	One-time issue to contractor.	Free	The Air Force or Defense Supply Agency (DSA) official responsible for administering the contract.
	Follow-up or recurring issue to contractor of Federal Supply Catalog handbooks and manual chapters.	Free when guaranteed by contract (otherwise contractor must purchase from Superintendent of Documents, GPO).	
	Follow-up or recurring issue to contractor of AF publication or form.	Free when the AF contract administering official determines issue to be necessary to contract performance.	
Is desired in small quantities (see note).	One-time issue to another Government agency (including Defense agencies such as DSA, DIA, DCA) except Army and Navy.	Free, subject only to security regulations.	PDO or other issuing activity.

NOTE: Recurring requests and requests for large quantities are referred to the procuring headquarters for determination of whether reimbursement is required.

SUBCHAPTER C—PUBLIC RELATIONS

PART 839—THE SCIENTIFIC AND TECHNICAL INFORMATION (STINFO) PROGRAM

A new Part 839 is added as follows:

Sec.
839.1 Purpose.
839.2 Objective.
839.3 Definitions.
839.4 Furnishing direct or indirect support of nonprofit (nongovernmental) scientific and technical publications.
839.5 Services of the Defense Documentation Center (DDC).
839.6 DoD policy on disseminating scientific and technical information.
839.7 Disposing of classified DDC documents.

AUTHORITY: The provisions of this Part 839 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012.

SOURCE: AFR 80–20, May 16, 1964; AFR 80–20A, Jan. 1, 1966.

§ 839.1 Purpose.

This part explains the Air Force's responsibilities for the transfer of information under the Scientific and Technical Information (STINFO) Program established by the Department of Defense (DoD). It outlines the procedures for using the centralized documentation service provided by the Defense Documentation Center (DDC) under the STINFO Program.

§ 839.2 Objective.

This program is a basic and integral part of the research, development, test, and evaluation (RDT&E) function of the DoD. The objective of the STINFO program is:

(a) To insure that scientific and technical information generated by RDT&E programs is used to provide the maximum contribution to the advancement of science and technology; and

(b) To improve the RDT&E processes by upgrading the efficiency of management activities at all levels, from policy and staff elements to field activities.

§ 839.3 Definitions.

As used in this part, the following terms apply:

(a) *Contractor.* Any industrial, educational, commercial, or other entity that has executed a contract, or a DoD security agreement (DD Form 441), with a DoD agency or activity.

(b) *Potential contractor.* An organization outside the DoD that a sponsoring DoD activity has declared eligible for document services on the basis of participation in certain Army and Navy programs or in the Department of the Air Force Technical Objectives Document Release Program.

(c) *Grantee.* An organization outside DoD that has been awarded a grant of funds (in lieu of contract funding) by a sponsoring DoD activity.

(d) *Sponsoring DoD activity.* The DoD activity or office (e.g., project office or system program office) that is directly responsible for initiating or supervising a program established by a contract, grant, or study agreement. (In the Air Force, a "sponsoring RDT&E activity.")

(e) *Abstract.* A brief and factual summary of a document. An indicative abstract tells what the author wrote about; it refers to the purpose, the method, the results, and the conclusions. For greatest usefulness in this program, the abstract of a classified report should be unclassified, or should include only descriptive statements with the lowest possible security classification.

(f) *Document.* A formal record of scientific and technical information that results from a RDT&E effort of the DoD. (Note that in this program, "information" refers to the meaning or content of a technical article and is not a synonym for the word "document.")

(g) *Technical report.* A document; a permanent written record to document the results of, and recommendations on,

scientific and technical activities relating to a single project, task, or contract, or relating to a small group of closely connected efforts within the DoD R&D program.

(h) *Documentation center.* The Defense Documentation Center (DDC) which provides the DoD-wide service for the acquisition, storage, announcement, retrieval, and secondary distribution of technical documents.

(i) *Secondary distribution.* The distribution of documents in response to requests received after the primary distribution has been completed.

(j) *Primary distribution.* The publication and initial distribution of the original manuscript of a scientific or technical report.

(k) *Scientific and technical information.* Includes documentary, information, and reference products or services in the form of technical information either generated by or gathered for the research, development, test, and evaluation programs of the DoD. The related bibliographies, indexes, announcements and state-of-the-art studies are also included. The words "technical information" in this part shall refer to scientific and technical information.

(l) *Dissemination activity.* A DoD activity or DoD-sponsored activity, such as the Defense Documentation Center for Scientific and Technical Information, an information analysis center, a major technical library, or any secondary distribution or release activity which provides technical information to eligible users beyond the local unit.

(m) *Eligible user.* Any U.S. Government office, U.S. Government contractor, U.S. Government subcontractor, U.S. Government grantee, DoD potential contractor or other U.S. entity whose eligibility and need to receive DoD technical information has been certified.

(n) *Controlled information.* A generic term which includes all information which is subject to some official restriction on its unlimited dissemination. This includes information subject to protection (1) By security regulations, (2) for proprietary, ethical, privileged or certain administrative reasons, (3) against unauthorized disclosure of certain official information, and (4) for reasons requiring special access controls as may be provided by other existing DoD directives or instructions.

§ 839.4 Furnishing direct or indirect support of nonprofit (nongovernmental) scientific and technical publications.

As part of its effort to make known research results to other Government activities, contractors, and to the general scientific community, the RDT&E activity may use its research and development funds to support certain nonprofit scientific and technical publications (i.e., journals, monographs, proceedings of meetings, abstracting and indexing publications and services, bibliographies, reviews, etc.). These publications may receive either direct or indirect support as follows:

(a) A nonprofit publication may receive direct support when it meets all of these conditions:

(1) The information it publishes is unclassified and has been officially released for publication.

(2) The publication requests Air Force support. If it is an existing publication in financial difficulty, it must show promise of reverting to a self-supporting basis as soon as the emergency is over; if it is a proposed new publication, it must show promise of financial self-sufficiency within a 3-year period. No publication may receive long-term support.

(3) The publication must relate to, and promise a contribution in, the scientific and technological area of primary concern to the sponsoring RDT&E activity that is significant enough to merit the expenditure of the funds requested.

(4) The publication must devote at least 50 percent of its pages (in each volume) to the first nongovernmental reporting of original research or development.

(5) The publication must levy page charges, or must present an acceptable alternative plan for obtaining an equitable portion of its fixed publication costs from the funds that support the work it reports (e.g., sale of reprints).

(6) The sales price of the publication must compare with that of similar publications issued without direct subsidy, and must be equal to (or greater than) the unit production cost.

(b) A nonprofit publication may receive indirect support (that is, through the Air Force payment of page charges or purchase of reprints) when the publication meets all of these conditions:

(1) The information must be unclassified and officially released for publication.

(2) The publication of the information must facilitate an Air Force program or mission, and must be consistent with the actual need to disseminate the information.

(3) The page charges must be consistent with those charged to nongovernment authors.

(4) The publisher must grant the supporting Air Force agency the right to reproduce the articles for U.S. Government use.

(c) The approving authority for indirect or direct support of nonprofit publications is as follows:

(1) For the publication of in-house research, the project supervisor at a higher level than the author.

(2) For the publication of contractual research, the contracting officer.

§ 839.5 Services of the Defense Documentation Center (DDC).

This Center is under the management control of the Director of Defense Research and Engineering (DDR&E), and under the operational control of the Defense Supply Agency; the DDC provides these centralized services for the DoD:

(a) Provides centralized documentation services, as follows:

(1) Acquires, stores, announces, retrieves, and provides secondary distribution of STINFO documents to all DoD components and other Government agencies; to their contractors, grantees, and potential contractors; and to other qualified users under the rules and procedures outlined in this part.

(2) Transmits all unclassified documents that have been approved for public release, to the Federal agency (such as the Department of Commerce) responsible for their dissemination to the general public.

(3) Maintains and improves a working vocabulary of terms for use in handling scientific and technical information throughout the DoD RDT&E effort.

(4) Tests, evaluates, and applies techniques and equipment that have direct application to the improved distribution of scientific and technical documents.

(5) Upon request, prepares special document and abstract listings.

(6) Upon request, provides special services for the dissemination of its holdings and acquisitions, or for the dissemination of related bibliographic data, abstracts, and index terms.

(b) Provides DoD clearinghouse and referral service, as follows:

(1) Maintains a clearinghouse (in the form of an index) of current RDT&E programs.

(2) Establishes a centralized directory and provides referral service on scientific and technical information activities generated within DoD.

(c) Issues Technical Abstract Bulletins, as follows:

(1) Issues well-indexed announcements promptly concerning newly acquired scientific and technical documents.

(2) Notifies each information center quickly of the availability of scientific and technical documents.

§ 839.6 DoD policy on disseminating scientific and technical information.

The DoD disseminates technical information in support of its RDT&E programs and in support of similar programs in other U.S. Government agencies. This information is disseminated only to organizations whose official U.S. Government connections are certified and whose requests are within the scope of their certified field-of-interest requirements and facility clearances.

(a) A uniform certification procedure will be used for the effective control of the flow of technical information.

(b) Certification shall be according to subject fields and groups of interest and recorded on DD Form 1540, "Registration for Scientific and Technical Information Services." This certification is a warranty that the user's official responsibilities require his access to technical information that can be described by one or more of the prescribed fields or groups shown on the back of this form.

§ 839.7 Disposing of classified DDC documents.

When these documents have served their purpose, the user will not return them to the DDC, but will destroy them as explained in this section; no notice of their disposition is required by DDC.

(a) If the user obtained them under a DoD contract, study, or agreement, he may retain them or destroy them, whichever he is authorized to do under paragraph 14 of the Industrial Security Manual for Safeguarding Classified Information.

(b) If the user obtained them under an agreement with another agency in the Executive Branch of the U.S. Government, he must dispose of them as instructed by that agency.

CHAPTER II—AIR FORCE RESERVE OFFICERS' TRAINING CORPS

PART 874—AIR FORCE SUBSISTENCE ALLOWANCE AND RATES OF COMMUTATION IN LIEU OF UNIFORMS

A new Part 874 is added as follows:

Sec.
- 874.1 Purpose.
- 874.2 Pay and allowance entitlement.
- 874.3 Definitions.
- 874.4 Classification of senior AFROTC units.
- 874.5 Subsistence allowances.
- 874.6 Commutation rates.
- 874.7 Commutation rates for Air Force ROTC cadet uniforms.
- 874.8 Qualifying for special rate of commutation.
- 874.9 Restrictions on use of commutation of uniform funds.
- 874.10 Disposition of unexpended commutation of uniform funds.

AUTHORITY: The provisions of this Part 874 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012, except as otherwise noted.

SOURCE: AFR 45-25, July 12, 1967.

§ 874.1 Purpose.

This part prescribes the uniform rates of subsistence allowance and commutation in lieu of uniforms for members of the Senior Air Force Reserve Officers' Training Corps (AFROTC). It establishes criteria for classifying senior AFROTC units at educational institutions.

§ 874.2 Pay and allowance entitlement.

The entitlement portions of this part have been approved by the Department of Defense, Military Pay and Allowance Committee, under procedures prescribed by the Secretary of Defense in accordance with 37 U.S.C. 1001.

§ 874.3 Definitions.

In this part the following terms apply:

(a) *Aerospace Studies (AS).* The official designation of the AFROTC program of instruction.

(b) *Field training.* (1) A 4-week field training program (AS 300) for POC (paragraph (d) of this section) cadets who are members of the 4-year program.

(2) A 6-week field training program (AS 250) for POC candidates which is a prerequisite for membership in the 2-year program.

The 4- and 6-week field training programs are both conducted at Air Force installations. They are considered to be the equivalent of summer camp or practice cruise training.

(c) *General Military Course (GMC).* The first and second year of the 4-year program consisting of Aerospace Studies 100 and 200. This is the basic course of the AFROTC.

(d) *Professional Officer Course (POC).* The third and fourth year of the 4-year program of aerospace studies, and the first and second year respectively of the 2-year program (AS 300 and 400). This is the advanced course of the AFROTC.

(e) *Financial Assistance Program (FAP).* A program in which selected cadets of the 4-year program receive educational financial assistance, including tuition fees, laboratory fees, books, and a monthly subsistence allowance (see § 874.5(b)).

§ 874.4 Classification of senior AFROTC units.

Senior AFROTC units are classified according to the type of institutions at which established.

(a) *Class MC (military college).* Units established in essentially military colleges or universities (Class MC) which, to qualify as a military college under Section 4(a), Universal Military Training and Service Act 450 U.S.C. App. 454(a)):

(1) Confer baccalaureate or graduate degrees upon students whose average age at the time of graduation is at least 21 years.

(2) Require a course in military training throughout the undergraduate course for all qualified undergraduate students.

NOTE: This includes all physically fit male students, except persons who are not liable for induction because they have honorably completed active training and service; students who are pursuing special undergraduate courses over 4 years after completing the required military training; certain categories of students who are specifically excused by (Board of Trustees) administrative decisions and approved by the AFROTC unit commander; and foreign nationals.

(3) Organize their military students as a Corps of Cadets under constantly maintained military discipline.

(4) Require all members of the Corps, including those enrolled in the AFROTC, to be habitually in uniform when on campus.

(5) Have as their objectives the development of military students' characters by military training and the regulation of conduct according to principles of military discipline; and,

(6) Generally, meet military standards similar to those maintained at the service academies.

(b) *Class CC (civilian college).* Units established at civilian colleges and universities which:

(1) Are not operated on an essentially military basis.

(2) Confer baccalaureate or graduate degrees.

(3) Graduate students at an average age of at least 21 years.

(c) *Class MJC (military junior college).* Units established at essentially military schools which:

(1) Provide high school and junior college instruction.

(2) Do not confer baccalaureate degrees.

These units must all other requirements of Class MC, and accept and maintain the specially designated program of instruction prescribed by the Service Secretary for this class of institution.

§ 874.5 Subsistence allowances.

Except when on field training, the subsistence allowance for each member of the POC or FAP is established as follows:

(a) *POC Cadets.* $50 per month, effective July 1, 1967, not to exceed 20 months.

(b) *FAP Cadets.* $50 per month, not to exceed 4 years, for cadets appointed under the provisions of Section 2107, 10 U.S.C.

§ 874.6 Commutation rates.

Educational institutions maintaining AFROTC units, which elect to receive commutation in lieu of the issue-in-kind Government uniforms, will receive monetary allowances as stated in § 874.7. Rates are based on climatic zones and the level of AFROTC instruction given.

(a) *Standard rates* for the GMC are payable annually in the indicated amount for not over 2 years at Class CC institutions. Special rates for the GMC, at Class MC or CC institutions fulfilling the requirements of § 874.8 are double the standard rates.

(b) *Standard rates* indicated for the POC cover the 2-year period of enrollment at Class CC institutions. The commutation of field training uniforms, if paid, is in addition to payments for the POC. Special rates for the POC, at Class MC or CC institutions fulfilling requirements of § 874.8, are double the standard rates except for the commutation of field training uniforms.

§ 874.7 Commutation rates for Air Force ROTC cadet uniforms.

The following commutation clothing rates are prescribed effective July 1, 1968:

	Standard rate		Special rate	
	Zone I	Zone II	Zone I	Zone II
General Military Course (GMC) (per year)	$31.00	$70.00	$62.00	$75.00
Professional Officer Course (POC)	99.00	134.00	198.00	268.00
Field Training	21.00	28.00	21.00	28.00

ZONE I

Alabama.	Louisiana.
Arizona.	Maryland.
Arkansas.	Mississippi.
California.	New Mexico.
Delaware.	North Carolina.
District of Columbia.	Oklahoma.
Florida.	Puerto Rico.
Georgia.	South Carolina.
Hawaii.	Tennessee.
Kentucky.	Texas.
	Virginia.

Zone II

Alaska.	New Hampshire.
Colorado.	New Jersey.
Connecticut.	New York.
Idaho.	North Dakota.
Illinois.	Ohio.
Indiana.	Oregon.
Iowa.	Pennsylvania.
Kansas.	Rhode Island.
Maine.	South Dakota.
Massachusetts.	Utah.
Michigan.	Vermont.
Minnesota.	Washington.
Missouri.	West Virginia.
Montana.	Wisconsin.
Nebraska.	Wyoming.
Nevada.	

§ 874.8 Qualifying for special rate of commutation.

Institutions designated as military colleges may enroll in the AFROTC students who, for various reasons, are not required to be members of the Corps of Cadets. These institutions will receive, for such students, only the standard commutation rate. Only members of the Corps who meet the requirements in paragraphs (a) through (e) of this section are enrolled in the AFROTC will be entitled to the special rate of commutation. To qualify for the special rate of commutation in lieu of uniforms, a Class MC or Class CC institution must:

(a) Organize and maintain within its undergraduate student bodies a self-contained Corps in which at least 300 male students are enrolled as AFROTC members at all times throughout the academic year.

(b) Require all Corps members to be in appropriate uniform at all times while on campus.

(c) House all Corps members in barracks separate from nonmembers.

(d) Require all Corps members to be under maintained military discipline 24 hours per day, 7 days a week.

(e) Require all physically qualified Corps members to be enrolled in the GMC, except:

(1) Foreign nationals.

(2) Persons who are not liable for induction, because they have honorably completed active training and service.

(3) Certain categories of students who are specifically excused by (Board of Trustees) administrative decisions.

(4) Other persons whose enrollment is precluded by provisions of appropriate Air Force directives.

(f) Require members in paragraph (e) (1) through (4) of this section who complete the basic course to apply for and, if qualified and selected, to be enrolled in the POC.

§ 874.9 Restrictions on use of commutation of uniform funds.

The commutation of uniform funds may be expended to support only the:

(a) Procurement and related expenses for:

(1) Standard uniform items in quantities, as prescribed by the Secretary of the Air Force; or,

(2) Distinctive uniforms and insignia, as prescribed by institutions which meet the requirements of § 874.8.

(b) Procurement of distinctive uniform items authorized for wear with the regulation student uniform.

(c) Purchase of hazard insurance to protect the uniform inventory against loss.

(d) Maintenance of the uniform—that is, laundry, dry cleaning, renovation, alterations, sizing, and custodial fees. (Custodial fees will not exceed 20 percent of the commutation funds drawn against actual enrollments for the preceding year.)

§ 874.10 Disposition of unexpended commutation of uniform funds.

(a) Unexpended commutation funds will be disposed of as follows:

(1) The amount of unexpended uniform commutation funds which may be retained, from one fiscal year to the next for continued financing of the uniform program, will be computed as of July 1 each year.

(2) Institutions which have:

(i) Accumulated $10,000 or less may retain their entire accumulation.

(ii) Accumulated more than $10,000 may retain an amount equal to 30 percent of prior-year receipts or $10,000, whichever is larger. Accumulated funds which exceed these limitations will be refunded to the Government.

(b) The unexpended balance is the amount of funds remaining after all commitments and/or obligations of the immediate past fiscal year have been deducted. Commitments and/or obligations for new year procurement, maintenance, and other allowable expenses may not be charged against the unexpended balance.

By order of the Secretary of the Air Force.

LUCIAN M. FERGUSON,
Colonel, U.S. Air Force, Chief, Special Activities Group, Office of The Judge Advocate General.

[F.R. Doc. 67-10189; Filed, Aug. 30, 1967; 8:45 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 17495; FCC 67-983]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations; Martinsville, Ind., etc.

First report and order. In the matter of amendment of § 73.202, *Table of Assignments*, FM Broadcast Stations (Martinsville, Ind., Shelbyville, Ill., South Williamsport, Pa., Aurora, Ind., Groton, Conn., Danville, Pa., Henderson, Ky., Poteau and Pryor, Okla., Canton and Cape May, N.J., Middlesboro, Ky., Thompkinsville, Ky., Colby, Kans., Willcox, Ariz., and New London-Groton, Conn.); Docket No. 17495, RM-1111, RM-1112, RM-1117, RM-1123, RM-1126, RM-1136, RM-1114, RM-1119, RM-1120, RM-1128, RM-1127, RM-1130, RM-1147, RM-1157.

1. The Commission has before it for consideration its notice of proposed rule making, FCC 67-666, issued in this proceeding on June 9, 1967, and published in the FEDERAL REGISTER on June 14, 1967 (32 F.R. 8830), proposing a number of changes in the FM Table of Assignments advanced by various interested parties and on the Commission's own motion. A number of comments were filed and all were considered in making the following determinations. Except as noted, the proposals were unopposed and all population figures are taken from the 1960 U.S. Census. This decision disposes of all the petitions for rule making except for RM-1120, Canton and Cape May, N.J.

2. *RM-1111, Martinsville, Ind.* (*Morgan County Broadcasters, Inc.*); *RM-1112, Shelbyville, Ill.* (*Shelbyville Broadcasting Co.*); *RM-1117, South Williamsport, Pa.* (*Will-Mont Broadcasting Co.*); *RM-1123, Aurora, Ind.* (*Howell B. Phillips*); *RM-1136, Danville, Pa.* (*Montrose Broadcasting Corp.*). In these five cases, interested parties seek the assignment of a first Class A channel in a community, without requiring any other changes in the table. The communities range in size from a population of 4,119 to 7,525 persons. One has a Class IV AM station (South Williamsport, Pa.), two have daytime-only stations (Martinsville, Ind., and Danville, Pa.), and two have no AM stations (Shelbyville, Ill., and Aurora, Ind.). We are of the view therefore that the proposed assignments are merited and would serve the public interest. In view of this we are making the following additions to the table:

City	Channel No.
Shelbyville, Ill.	285A
Aurora, Ind.	[1] 267A
Martinsville, Ind.	272A
Danville, Pa.	[1] 244A
South Williamsport, Pa.	257A

[1] On these assignments a site about 5 miles southwest of Aurora and about 1 mile north of Danville will have to be selected in order to conform to the required minimum spacings.

3. *RM-1126 and RM-1157; New London and Groton, Conn.* In a petition filed on March 24, 1967, RM-1126, Lawrence A. Reilly and James L. Spates (R and S) requested the assignment of Channel 265A for a first FM outlet in the community of Groton, Conn. Comments were invited on this proposal in our notice. In comments filed in this proceeding The Thames Broadcasting Corp. (Thames), licensee of radio Station WNLC, New London, Conn., proposes a counterproposal to the R and S request asking that Channel 265A be assigned to New London and that Channel 288A be assigned to Groton. In a separate petition for rule making (RM-1157) Thames had requested the assignment of Channels 265A and 288A to New London-Groton in combination. This petition will be considered herein with due notice of the amendment of its request as outlined in the comments submitted in this proceeding. We do not agree with R and S that it is not appropriate to consider the Thames proposal in this proceeding since it was advanced herein as a comment and counterproposal as well as in a separate petition for rule making. Putting off action on the Thames request would not serve any useful purpose.

4. Groton Borough has a population of 10,111 and the town in which it is located has a population of 29,937. It has a daytime-only AM station licensed to petitioners. New London has a population of 34,182 and its county (which also includes Groton) has a population of 185,746. Both parties submit numerous statistics concerning the population growth, retail sales, income growth, payrolls, and industry of the area and the two communities to justify the assignment of a Class A channel to each community. They urge that there is a present need for local FM service in the area. They show that New London and Groton are by far the largest communities in which either Channel 265A or 288A can be assigned in conformance with the separation rules and state that the proposed assignments are in line with the recently announced policy with reference to additional FM assignments. As to the selection of channels to be assigned, Thames points out that either Channel 265A or 288A may be assigned to Groton with adequate flexibility in selecting a site but that at New London Channel 265A offers the greatest promise of flexibility. It therefore urges that Channel 265A be assigned to New London and 288A to Groton. R and S point out that Channel 265A could be used in New London at the WNLC site only in the event one of two pending applications for Channel 263 at New Britain, Conn., is denied. They also urge the adoption of 265A at Groton on the grounds that the tuning frequencies for both WSUB (980 kc/s) and on an FM station on Channel 265A (100.9 Mc/s) are located in the middle of the dial on AM-FM receivers.

5. We are of the view that the assignment of a Class A channel to both Groton and New London is merited and would serve the public interest. Each appears to be large and important enough to warrant the assignment. We further agree that the assignments as requested by Thames would provide each community with the most effective assignment and that the proposal would not preclude future needed assignments in other communities. Providing as much flexibility as possible in locating transmitter sites, in our view, is more important than the convenience of tuning receivers. We are therefore assigning Channel 265A to New London, and 288A to Groton, Conn.

6. *RM-1114; Henderson, Ky.* On February 17, 1967, Dr. Frank R. Fulta, prospective applicant for a new FM station at Henderson, Ky., filed a petition for rule making to add the assignment of Channel 276A to Henderson, as follows:

City	Channel No.	
	Present	Proposed
Henderson, Ky.	288	288, 276A

Henderson is located about 10 miles south of Evansville, Ind., and has a population of 16,893 persons. It is the county seat and largest community in Henderson County, which has a population of 33,519 persons. It has a daytime-only AM station and a Class C FM station, licensed to the same party.

7. Petitioner states that Henderson is the focus of business activity in the county, has 340 retail establishments, and total retail sales of over $36 million. Thus, he urges that Henderson needs and warrants a second FM channel and second full-time broadcast service. Finally, petitioner submits that sites are available (about 3 miles south of Henderson) from which the required minimum spacings can be met and the required signal placed over the entire city.

8. We stated in the notice that comments should be invited on the petitioner's proposal in order that all interested parties may submit their views but in light of the recently announced policy concerning the making of new FM assignments (Public Notice, Policy to Govern Requests for Additional Assignments, issued May 12, 1967), comments should include a showing as to the area in which this proposed assignment, if made, would preclude the use of this channel and the six adjacent channels. The petitioner's showing in this regard indicates that on two adjacent channels (274 and 275) there are two very small areas which would be precluded but which contain no communities of significant size. With respect to Channel 276A, there is a larger area to the southwest of Henderson in which this assignment would be precluded, with all the communities therein very small with the exception of Morganfield (population 3,714), which already has an FM assignment.

9. Since Channel 276A would provide a second FM service to the community of Henderson without any adverse effect on the future needs of other communities, we are of the view that it would serve the public interest and should be adopted. We are therefore assigning this channel to Henderson with a requirement that the site selected be located about 3 miles south of the community in order to meet the required minimum spacings. In view of the fact that the proposal would provide a second competitive FM service in a fairly large community, we are also of the view that the mixture of Class A and C channels is warranted under the circumstances presented in this case.

10. *RM-1109 and 1147; Poteau and Pryor, Okla.* In response to two conflicting petitions requesting a Class C assignment in Poteau, Okla., and a similar assignment in Pryor, Okla., filed respectively by V. F. Nowlin, prospective applicant for a new FM station at Poteau, and by L. L. Gaffaney, principal owner of Station KOLS(AM), Pryor, Okla., we invited comments on the following proposed additions to the two communities:

City	Channel No.	
	Present	Proposed
Poteau, Okla.	272A	283A and 282 or 297 or 298.
Pryor, Okla.		283.

The two original requests are mutually exclusive since Channel 282 cannot be assigned to Poteau and 283 to Pryor in view of the fact that the two communities are less than the required adjacent channel spacing. However, either Channel 297 or 298 can be assigned to Poteau instead, thus removing the conflict.

11. Poteau is a community of 4,428 persons and is located about 25 miles southwest of Fort Smith, Ark. It is the county seat and largest community in Le Flore County, which has a population of 29,106 persons. An application has been recently granted for the present Class A assignment (BPH-5776) and the community also has a daytime-only AM station. Pryor is a community of 6,476 persons. It is the county seat and largest community in Mayes County (population 20,073). KOLS, a daytime-only station, is the only radio outlet in the community. Normally, Class A channels are assigned to communities the size of Poteau or Pryor. In the case of Poteau, there is also the question of whether this relatively small community warrants a second assignment.[2] However, in view of the claims made by the petitioners that large "white areas" would be served by the proposed stations, and in the case of Poteau, the unusually efficient use proposed for the channel, we invited comments and data on the proposals.

12. Mr. Nowlin states that there is a large mountainous area to the south of Poteau (about 19 miles southwest) within which all the required spacings can be met and in which a station with maximum antenna height could be built at relatively low cost. He urges that such a wide-coverage station would provide service to a large area which cannot be reached by any other FM station and states that he will file an application for such a station in the event the proposal is adopted. He estimates the "white area" to be about 6,000 square miles of Oklahoma and Arkansas and notes further that a large portion of the area is also without primary AM service at night. With respect to the possible preclusion of future needed assignments in other communities he concludes that the assignment of Channel 282, 297, or 298 would have little effect on the availability of assignments in other communities due to the other stations and assignments in the general area.

13. In support of the request for Channel 283 to Pryor, Mr. Gaffaney submits

[2] The channel, if assigned to Poteau, would, of course, be available for use at other communities in the area, under the "25 mile rule". The Commission has received a letter from the mayor of Heavener, Okla., some 13 miles from Poteau, supporting the proposed assignment as well as a number of other such letters from several other communities in the area.

that Pryor is an important trade, population, and recreational center for the general area. He points out that the nearby Grand Lake development, with its abundant water supply and available power, attracts large industry and people seeking recreation. In support of a Class C assignment, rather than a Class A channel, Mr. Gaffaney urges that Pryor is far removed from population centers, located about 42 miles from Tulsa, that such an assignment is needed to serve the entire Grand Lake region, and that a station with assumed facilities of 50 kw and 400 feet antenna height AAT would provide a first FM service to an area of 2,827 square miles. Finally, he asserts that the Tulsa stations do not serve Pryor and the Grand Lake area with strong signals or programs of local interest.

14. After careful consideration of the comments and data submitted in the proceeding the Commission believes that the assignment of the wide-coverage channel in Poteau and Pryor would serve the public interest even though the communities are normally the type which would merit Class A assignments. We are led to this conclusion by the showings made as to the large "white areas" to be served by the respective proposals and the fact that each may be made without deleting any other assignments and without adverse effect on the possible future needs of other communities. In the case of Poteau we would not assign two channels; however, the Class C assignment will be used at some distance from the community in order to make the greater antenna height proposed feasible (due to the available mountain sites southwest of Poteau) and will serve additional areas which will not be served by the present Class A assignment and therefore we believe the proposal should be adopted in this case. In view of the above we are assigning Channel 283 to Pryor, and 297 to Poteau, Okla. We expect the petitioners or any other party who files an application for the assigned channels to use the facilities discussed in their pleadings in computing the claimed "white areas". Channel 283 will have to be located about 10 miles north of Pryor.

15. *RM–1128; Middlesboro, Ky.* In a petition filed on March 27, 1967, Cumberland Gap Broadcasting Co., licensee of Station WMIK(AM), Middlesboro, Ky., requests the Commission to substitute Channel 224A for 261A at Middlesboro, Ky., as follows:

City	Channel No.	
	Present	Proposed
Middlesboro, Ky.	261A	224A

Petitioner points out that in order to meet the required separations, a station on Channel 261A would have to be located about 7 miles outside the community and that due to the rough terrain in the area, it may be difficult, if not impossible, to provide the required signal over all of Middlesboro. It states that it will file an application for the proposed channel promptly upon its assignment. Finally, petitioner submits that the deletion of Channel 261A from Middlesboro and the assignment of Channel 224A therein, does not preclude the assignment of the former at any location meeting the required spacings. Middlesboro has a population of 12,807 persons and is the largest city in southeast Kentucky. Petitioner submits that it is a center for trade, mining, and industry. It states that the community is the gateway to America's largest federal historic park, the 20,000 Cumberland Gap Historical Park. The only radio station in Middlesboro is WMIK, a daytime-only station, licensed to petitioner.

16. South C. Bevins, trading as Ken-Te-Va Broadcasting Co., licensee of Station WANO, Pineville, Ky., opposes that portion of the Cumberland proposal which would delete Channel 261A from Middlesboro. Bevins submits that Middlesboro is large enough to warrant a second assignment and that such an assignment would offer an additional program source in the future. He urges therefore that the channel be retained in the Middlesboro area (presumably so that it would be available to Pineville under the "25-mile rule") and states that "he may apply for the use of Channel 261A in Middlesboro or area". In reply Cumberland Gap submits that little purpose would be served by retaining 261A in Middlesboro since its use there is not practicable. It suggests instead that the channel be assigned to Pineville, which has a population of 3,181 and where it can be utilized as a first local FM service. Pineville, located in Bell County, is its county seat. Middlesboro is also in Bell County.

17. Upon review of the comments and data submitted in this case we are of the view that the removal of Channel 261A from Middlesboro, where its use appears to be technically infeasible, and its assignment to Pineville, where there appears to be a potential need and demand for a local FM service, and the assignment of Channel 224A to Middlesboro would serve the public interest and should be done. We are therefore assigning Channel 224A to Middlesboro in lieu of Channel 261A and assigning the latter to Pineville, Ky.

18. *RM–1127; Tompkinsville, Ky.* On March 24, 1967, WMCV, Inc., licensee of Station WTKY(AM), Tompkinsville, Ky., filed a petition for rule making requesting the assignment of Channel 221A as the first FM channel for this community. Tompkinsville, located in south central Kentucky, has a population of 2,091 persons. It is the county seat of Monroe County, which has a population of 11,799 persons. The sole radio station in the community, licensed to petitioner, is a daytime-only station. WMCV states that the area is largely rural and that it is without any local FM station and no local nighttime radio service. It urges, therefore, that there is a need for such an assignment and that it would serve the public interest.

19. There is presently pending a rule making proceeding in Docket No. 14185 (Notice of Inquiry issued on Nov. 14, 1966) looking toward the establishment of a nationwide table of assignments for the educational FM band (Channels 201–220), similar to that for the commercial channels. Since there are a large number of assignments and stations on Channels 221A, 222, and 223, the three commercial channels nearest the educational band, all petitions for such channels have to be carefully examined for possible impact on potential educational assignments on the top three educational channels (218, 219, 220). The Commission invited comments on the petitioner's proposal for the assignment of Channel 221A to Tompkinsville, but also requested information on the areas and communities in which assignments on Channels 218, 219, and 220 might be precluded as a result of the proposed assignment. In response to this request, WMCV includes a showing to the effect that the assignment of Channel 221A to Tompkinsville would not preclude any future assignments on Channels 218, 219, and 220 due to the existing educational stations in the general area.

20. In view of the lack of impact on the availability of educational assignments on the top three educational FM channels and the facts that the proposal would provide the first FM assignment to Tompkinsville and a first nighttime aural service to the community, we are of the view that the assignment of 221A as requested would serve the public interest and are adopting it at this time.

21. *RM–1130; Colby, Kans.* On March 31, 1967, James J. Evans, prospective applicant for a new FM station in Colby, Kans., filed a petition looking toward the assignment of Channel 262 to Colby, Kans., as follows:

City	Channel No.	
	Present	Proposed
Colby, Kans.	228A	228A, 262

Petitioner also suggests that Channel 228A may be deleted from the community in the event 262 is assigned.

22. Colby is a community of 4,210 persons. It is located in the northwestern portion of the State. It is the county seat and largest community in Thomas County, which has a population of 7,358.[1] Mr. Evans submits that Colby is in the heart of the wheat belt and is the distributing center for various farm products, as well as an important manufacturing and trade center. He points out that the nearest Class C station is at Scott City, Kans., about 60 miles south of Colby, that it does not receive any primary nighttime radio service, and that the area is thinly populated, the population density of the county being only 6.9 persons per square mile and that in the surrounding counties even less than this figure. Petitioner urges the assignment of a wide-coverage channel in view of the sparsity of the population, the lack of service in the trading area, and the distance from other FM stations.

[1] Colby has a daytime-only AM station in operation.

23. Normally, a community the size of Colby would be assigned a Class A channel. However, in view of the large rural area surrounding the community, and its great distance from any large population centers, we believe it warrants the assignment of a class C channel. The nearest city of more than 10,000 population (Hays) is 98 miles away. In this sparsely populated part of the West potential assignments are believed ample for foreseeable future needs. In view of Colby's small size, we see no need for retaining the Class A channel. We are, therefore, substituting Channel 262 for Channel 228A at Colby, Kans.

24. *Willcox, Ariz.* In addition to the changes proposed above by interested parties, the Commission proposed to make an additional change on its own motion. On April 12, 1967, the Commission granted a request from KCEE–FM, Channel 241, Tucson, Ariz., to change its site. The new location would unduly restrict the location of sites for Channel 244A at Willcox, Ariz., to areas east of the community. We are therefore substituting Channel 252A for 244A at Willcox, Ariz.

25. Authority for the adoption of the amendments proposed herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

26. In accordance with the foregoing determinations: *It is ordered*, That effective October 2, 1967, § 73.202 of the Commission's rules, the FM Table of Assignments, is amended to read, insofar as the communities named are concerned, as follows:

City	Channel No.
Arizona:	
Willcox	252A
Connecticut:	
Groton	288A
New London	266A
Illinois:	
Shelbyville	288A
Indiana:	
Aurora	267A
Martinsville	272A
Kansas:	
Colby	262
Kentucky:	
Henderson	256, 276A
Middlesboro	224A
Pineville	261A
Tompkinsville	221A
Oklahoma:	
Poteau	282A, 297
Pryor	283
Pennsylvania:	
Danville	244A
South Williamsport	267A

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: August 24, 1967.

Released: August 28, 1967.

FEDERAL COMMUNICATIONS COMMISSION,[2]

[SEAL] BEN F. WAPLE, *Secretary.*

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Necedah National Wildlife Refuge, Wis.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

WISCONSIN

NECEDAH NATIONAL WILDLIFE REFUGE

Public recreational activities are permitted on the Necedah National Wildlife Refuge subject to the following special conditions:

(1) Public recreational activities are limited to sightseeing, nature observation, and photography.

(2) General public recreational use is permitted as follows:

Area 1—September 22 through December 31, 1967.

Area 2—November 17 through December 31, 1967.

Area 3—December 2 through December 31, 1967.

These open areas, comprising approximately 39,500 acres are delineated on a map available at the refuge headquarters, Necedah, Wis. 54646, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation on Wildlife Refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1967.

EDWARD J. COLLINS,
Refuge Manager, Necedah National Wildlife Refuge, Necedah, Wis.

AUGUST 25, 1967.

[F.R. Doc. 67–10306; Filed, Aug. 30, 1967; 8:47 a.m.]

PART 32—HUNTING

Wheeler National Wildlife Refuge, Ala.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ALABAMA

WHEELER NATIONAL WILDLIFE REFUGE

Public hunting of geese, ducks, and coots on the Wheeler National Wildlife Refuge, Ala., is permitted only on the area designated by signs as open to hunting. This open area, comprising 6,000 acres, is delineated on a map available at the refuge headquarters, Decatur, Ala., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of geese, ducks, and coots subject to the following conditions:

(1) Open season: Geese—November 18, 1967, through January 13, 1968. Ducks and coots—November 29, 1967, through January 6, 1968. A kill quota of 2,000 geese is established. If this quota is reached during the above open season, the refuge hunt for all waterfowl species will be terminated. During the above seasons, hunting will be permitted only on Wednesdays, Thursdays, Fridays, and Saturdays 30 minutes before sunrise to 12 noon, c.s.t. All holidays falling on above days and in the above period will be hunted.

(2) Blinds: The construction of blinds by the public is prohibited. Hunting shall be only from those blinds constructed and labeled by the Bureau.

(3) Guns must be unloaded and cased at all times except when hunters are inside blinds and no shooting is permitted outside blinds. Hunters are authorized to hunt only from the blind specified on their permits. Allowable arms include shotguns only.

(4) Ammunition: Shells that contain shot larger than No. 2 may not be used and will not be permitted in the possession of hunters. No hunter may possess more than 12 shells of any shot size nor fire more than 12 shots during any one hunting trip.

(5) Crows and foxes may also be shot during the hunt period, provided these are shot from designated waterfowl blinds.

(6) Intoxicating beverages will not be permitted on the refuge.

(7) Hunters will not be permitted to enter the hunting area sooner than 1½ hours before sunrise and must leave the area promptly after 12 noon.

(8) A maximum of two persons will be permitted to hunt from each blind.

(9) Hunters under 16 years of age must be accompanied by adults.

(10) Each hunter must have a refuge permit. To obtain a permit individuals must present a valid Alabama hunting license, a duck stamp (if persons have attained 16th birthday) and pay a blind fee of $4 ($2 per person if two persons occupy a blind.)

(11) Hunters are required to check in at the permit office at the close of each hunt to return permits and allow game to be examined.

(12) Applications for advance reservations for refuge permits must be submitted on postcards to the Refuge Manager. Applications for advance reservations will be accepted during the period September 1 through October 2. Only one application will be accepted per individual, and this for a maximum of one hunting day. Those who submit dual or multiple applications will be considered ineligible. Reservations will be awarded

on the basis of a drawing held at the refuge office on October 3, 1967. Blinds not reserved and those for which reservations are not claimed within 1 hour before the beginning of legal shooting time will be awarded on the basis of a drawing held at the permit office each hunt morning approximately 1 hour before the beginning of legal shooting time. Reservation commitments for refuge permits are nontransferable.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 13, 1968.

WALTER A. GREEN,
Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 25, 1967.

[F.R. Doc. 67-10191; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

Wapanocca National Wildlife Refuge, Ark.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ARKANSAS

WAPANOCCA NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Wapanocca National Wildlife Refuge, Ark., is permitted only on the area designated by signs as open to hunting. This open area, comprising 250 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations covering the hunting of mourning doves subject to the following special conditions:

(1) Hunting dates: September 19, 21, 23, 26, 28, and 30, 1967.

(2) Each hunter must have on his person a valid refuge permit.

(3) Only mourning doves may be taken.

(4) No hunters will be permitted within the hunting areas before 11:45 a.m., c.d.t. Hunting hours are from 12 noon c.d.t. until sunset.

(5) All firearms must be encased and/or unloaded when outside designated hunting areas.

(6) When a successful limit has been taken the hunter must leave the hunting area immediately.

(7) Retrievers used by hunters will be kept under control at all times.

(8) All hunters must check in and out at designated checking stations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 30, 1967.

WALTER A. GREEN,
Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 24, 1967.

[F.R. Doc. 67-10198; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

National Wildlife Refuges, Ill., and Certain Other States

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ILLINOIS

CRAB ORCHARD NATIONAL WILDLIFE REFUGE

Public hunting of common snipe (Wilson's) is permitted on the Crab Orchard National Wildlife Refuge, Ill., from October 28 through December 6, 1967, and the hunting of woodcock is permitted from October 1 through December 4, 1967, but only on the area designated by signs as open to hunting. This open area comprising 9,330 acres is delineated on a map available at refuge headquarters, Carterville, Ill., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of common snipe and woodcock.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 6, 1967.

ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

Public hunting of common snipe (Wilson's), rails, gallinules and woodcock is permitted on the Upper Mississippi River Wild Life and Fish Refuge in Minnesota and Wisconsin on the areas designated by signs as open to hunting, and public hunting of common snipe (Wilson's) and woodcock is permitted on the Upper Mississippi River Wild Life and Fish Refuge in Illinois on the areas designated by signs as open to hunting, and public hunting of common snipe (Wilson's) is permitted on the Upper Mississippi River Wild Life and Fish Refuge in Iowa on the areas designated by signs as open to hunting as follows: Rails and gallinules except coot from October 7 through November 5, 1967, in Minnesota and from October 7 through November 15, 1967, in Wisconsin. Common snipe (Wilson's) from October 7 through November 4, 1967, in Minnesota; from October 7 through November 23, 1967, in Wisconsin and Iowa, and from October 28 through December 6, 1967, in Illinois. Woodcock from October 7 through November 5, 1967, in Minnesota; from October 7 through November 19, 1967, in Wisconsin, and from October 28 through December 4, 1967, in Illinois. The open hunting areas comprising 153,000 acres are delineated on maps available from the refuge headquarters, Winona, Minn. 55987, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of common snipe (Wilson's), rails, gallinules and woodcock.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 6, 1967.

IOWA

MARK TWAIN NATIONAL WILDLIFE REFUGE

Public hunting of common snipe (Wilson's) on the Mark Twain National Wildlife Refuge, Iowa, is permitted from October 7 through November 25, 1967, but only on the areas known as the Big Timber Division and that portion of the Louisa Division known as Turkey Island area designated by signs as open to hunting. These open areas, comprising 1,600 acres, are delineated on a map available at the refuge headquarters, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all State and Federal regulations governing the hunting of common snipe (Wilson's).

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 25, 1967.

S. E. JORGENSEN,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 24, 1967.

[F.R. Doc. 67-10194; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

Ankeny National Wildlife Refuge, Oreg.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER. The limited time ensuing from the date of the adoption of the Federal migratory game bird regulations to and including the establishment of State hunting seasons makes it impracticable to give public notice of proposed rule making.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

OREGON

ANKENY NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves and bandtailed pigeons on the Ankeny National Wildlife Refuge is permitted only on the areas designated by signs as open to hunting. The open area, comprising 400 acres, is delineated on maps available at refuge headquarters, William L. Finley National Wildlife Refuge, Corvallis, Oreg., or Ankeny National Wildlife Refuge, Jefferson, Oreg., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 730 Northeast Pacific Street, Portland, Oreg. 97208.

Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special conditions:

(1) Mourning doves may be hunted during the period from September 1 to September 30, and from October 21 to November 5, 1967. Bandtailed pigeons may be hunted from September 1 to September 30, 1967. All dates are inclusive.

(2) Hunters must check into the hunting area by completing Part A of the Hunter Permit-Questionnaire form and inserting this in a box provided at one of the designated self-service registration stations located on the refuge. They must check out at the conclusion of their hunt, each day, by completing Part B of the form and inserting it in the box. Part B of the Hunter Permit form and the map attached are the hunter's permit and must be on his person while he is afield on the area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 9, 1967.

PAUL T. QUICK,
Regional Director, Portland, Oreg.

[F.R. Doc. 67-10200; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

William L. Finley National Wildlife Refuge, Oreg.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER. The limited time ensuing from the date of the adoption of the Federal migratory game bird regulations to and including the establishment of State hunting seasons makes it impracticable to give public notice of proposed rule making.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

OREGON

WILLIAM L. FINLEY NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves and bandtailed pigeons on the William L. Finley National Wildlife Refuge is permitted only on the areas designated by signs as open to hunting. The open area comprising 1,700 acres is delineated on maps available at the refuge headquarters, William L. Finley National Wildlife Refuge, Corvallis, Oreg., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 730 Northeast Pacific Street, Portland, Oreg. 97208.

Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special conditions:

(1) Mourning doves may be hunted during the period from September 1 to September 30, and from October 21 to November 5, 1967. Bandtailed pigeons may be hunted from September 1 to September 30, 1967. All dates are inclusive.

(2) Hunters must check into the hunting area by completing Part A of the Hunter Permit-Questionnaire form and inserting this in a box provided at one of the designated self-service registration stations located on the refuge. They must check out at the conclusion of their hunt, each day, by completing Part B of the form and inserting it in the box. Part B of the form and the map attached are the hunter's permit and must be on his person while he is afield on the area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 9, 1967.

PAUL T. QUICK,
Regional Director, Portland, Oreg.

[F.R. Doc. 67-10201; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

Tishomingo National Wildlife Refuge, Okla.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

OKLAHOMA

TISHOMINGO NATIONAL WILDLIFE REFUGE

Public hunting of quail on the Tishomingo National Wildlife Refuge, Okla., is permitted only on the area designated by signs as open to hunting. This open area, comprising 3,170 acres, is delineated on maps available at refuge headquarters, Tishomingo, Okla., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State regulations governing the hunting of quail subject to the following special conditions:

(1) The open season for hunting quail on the refuge extends from sunrise to sunset November 21, 1967, through January 13, 1968, inclusive, on Tuesdays, Thursday, Saturdays, and National holidays.

(2) Dogs may be used for the purpose of hunting and retrieving.

(3) A Federal permit is not required to enter the public hunting area, but hunters, upon entering and leaving, shall report at designated checking stations as may be established for the regulation of the hunting activity and shall furnish information pertaining to their hunting, as requested.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 13, 1968.

ERNEST S. JENNISON,
Refuge Manager, Tishomingo National Wildlife Refuge, Tishomingo, Okla.

AUGUST 16, 1967.

[F.R. Doc. 67-10199; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

Lacreek National Wildlife Refuge, S. Dak.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

SOUTH DAKOTA

LACREEK NATIONAL WILDLIFE REFUGE

Public hunting of upland game on the Lacreek National Wildlife Refuge, S. Dak., is permitted only on the area designated by signs as open to hunting. This open area, comprising 310 acres, known locally as the Little White River recreational area, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408.

Hunting shall be in accordance with all applicable State regulations governing the hunting of upland game subject to the following special conditions:

(a) Species permitted to be taken: Pheasants and grouse (sharp-tailed and pinnated) during the seasons specified below. The hunting of other upland game species, as may be authorized by South Dakota State regulations, is prohibited.

(b) Open season: Grouse—from sunrise to sunset each day from September 30, 1967, through November 26, 1967. Pheasants—from noon to sunset, c.s.t., daily, from October 21, 1967, through November 26, 1967.

The provisions of this special regulation supplement the regulations which govern hunting on Wildlife refuge area generally, which are set forth in Title 50, Code of Federal Regulations, Part

32, and are effective through November 26, 1967.

JOHN W. ELLIS,
Refuge Manager, Lacreek National Wildlife Refuge, Martin, S. Dak.

AUGUST 24, 1967.

[F.R. Doc. 67-10209; Filed, Aug. 30, 1967; 8:47 a.m.]

PART 32—HUNTING

National Wildlife Refuges, Fla., and Certain Other States

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

FLORIDA

ST. MARKS NATIONAL WILDLIFE REFUGE

Public hunting of turkey, quail, squirrel, rabbit, raccoon, bobcat, and fox on the St. Marks National Wildlife Refuge, Fla., is permitted only on the area designated by signs as open to hunting. This open area, comprising 1,800 acres is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations governing the hunting of turkey, quail, squirrel, rabbit, raccoon, bobcat, and fox, subject to the following special conditions:

(1) The open season for archery hunting of turkey, quail, squirrel, rabbit, raccoon, bobcat, and fox on the refuge is limited to the separate periods of October 7-8, October 14-15, October 21-22, and October 28-29, 1967. The open season for archery and gun hunting of turkey, quail, squirrel, rabbit, raccoon, bobcat, and fox on the refuge extends from November 11, 1967, through January 1, 1968.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 1, 1968.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

FLORIDA

ST. MARKS NATIONAL WILDLIFE REFUGE

Public hunting of deer and bear, on the St. Marks National Wildlife Refuge, Fla., is permitted only on the area designated by signs as open to hunting. This open area, comprising 1,800 acres is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance will all applicable State regulations governing the hunting of deer subject to the following special condition:

The open season for archery hunting of deer and bear on the refuge is limited to the separate periods of October 7-8, October 14-15, October 21-22, and October 28-29, 1967. The open season for archery and gun hunting of deer and bear extends from November 11, 1967, to January 1, 1968.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generall which are set forth in Title 50, Code of Federal Regulations, Part 32 and are effective through January 1, 1968.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

ARKANSAS

WHITE RIVER NATIONAL WILDLIFE REFUGE

Public hunting of squirrels, rabbits and bobcats on the White River National Wildlife Refuge, Ark., is permitted only on the areas designated by signs as open to hunting. These open areas, comprising 106,000 acres, are delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations governing the hunting of squirrels, rabbits, and bobcats subject to the following conditions:

(1) The open season for hunting squirrels, rabbits, and bobcats on the refuge extends from September 15-30, 1967.

(2) Rifles larger than .22 caliber are prohibited.

(3) Use of dogs and shooting from a boat are prohibited.

(4) Hunting camps may be set up on September 30, 1967, at designated sites only. Loaded firearms are not permitted in camping areas.

(5) Fires outside camping areas are prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 30, 1967.

WHITE RIVER NATIONAL WILDLIFE REFUGE

Public hunting of wild turkey on the White River National Wildlife Refuge, Ark., is permitted only on the areas designated by signs as open to hunting. These open areas, comprising 90,000 acres, are delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State laws and the following special conditions:

(1) Hunting hours: 7 p.m. to midnight.

(2) No trees may be cut.

(3) No fires permitted.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 28, 1968.

(2) The total bag limit per hunter for this hunt is one turkey of either sex.

(3) Weapons: bow and arrow.

(4) Shooting turkey from a blind is prohibited.

(5) Hunting camps may be set up on October 13, 1967, at designated sites only and must be removed by dark on October 28, 1967.

(6) Fires outside camping areas are prohibited.

(7) Bobcats and feral hogs may be taken.

(8) Hunting hours are from one-half hour before sunrise to one-half hour after sunset.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 28, 1967.

WAPANOCCA NATIONAL WILDLIFE REFUGE

Public hunting of squirrel on the Wapanocca National Wildlife Refuge is permitted on the entire refuge area. This open area is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations governing the hunting of squirrel subject to the following special conditions:

(1) Open season: September 15-30, 1967.

(2) Dogs are prohibited.

(3) A Federal permit is required to enter the public hunting area. Permits may be obtained from the Refuge Manager, Post Office Box 12, Marion, Ark. 72364.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 30, 1967.

WAPANOCCA NATIONAL WILDLIFE REFUGE

Public hunting of racoon on the Wapanocca National Wildlife Refuge is permitted on the entire area refuge. This area is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be subject to all applicable State laws and the following special conditions:

(1) Hunting hours: 7 p.m. to midnight.

(2) No trees may be cut.

(3) No fires permitted.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 28, 1968.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ARKANSAS

WHITE RIVER NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer on the White River National Wildlife Refuge, Ark., is permitted only on the areas designated by signs as open to hunting. These open areas, comprising 90,000 acres, are delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations governing the hunting of white-tailed deer subject to the following conditions:

(1) The archery season for hunting white-tailed deer on the refuge extends from October 14 through October 28, 1967.

(2) The total bag limit per hunter for this hunt is one deer of either sex.

(3) Weapons: bow and arrow.

(4) Use of horses is prohibited.

(5) Hunting camps may be set up on October 13, 1967, at designated sites only and must be removed by dark on October 28, 1967.

(6) Fires outside camping areas are prohibited.

(7) Bobcats and feral hogs may be taken.

(8) Hunting hours are from one-half hour before sunrise to one-half hour after sunset.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 28, 1967.

SOUTH CAROLINA

CAROLINA SANDHILLS NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer is permitted on 97 percent of Carolina Sandhills National Wildlife Refuge. This open area is designated by signs as open to hunting and delineated on a map available from refuge headquarters, McBee, S.C., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations and subject to the following special conditions:

(1) Season: October 30-November 11, 1967, Sundays excluded.

(2) Hunters may not enter hunting area prior to 5 a.m., e.s.t. and must leave by 6:30 p.m., e.s.t.

(3) Deer drives permitted only on designated areas. Explosive-type noise makers prohibited.

(4) Possessing a firearm containing ammunition in magazine or chamber on a public road or in a vehicle on the refuge and target practice on the refuge is prohibited.

(5) Use of dogs is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective to November 11, 1967.

WALTER A. GREEN,
Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 25, 1967.

[F.R. Doc. 67-10198; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

Crab Orchard National Wildlife Refuge, Ill.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ILLINOIS

CRAB ORCHARD NATIONAL WILDLIFE REFUGE

The public hunting of deer on the Crab Orchard National Wildlife Refuge on an area designated by signs as open to hunting is permitted with bow and arrow from one-half hour before sunrise to one-half hour before sunset daily from October 1, 1967, through November 6, 1967, and from one-half hour before sunrise until one-half hour before sunset November 16, 1967, through December 31, 1967. Shotgun or single short muzzle loading rifle hunting of deer is permitted from 6:30 a.m. to 4 p.m. c.s.t., from November 10, 1967, through November 15, 1967. Shotgun or single shot muzzle acres is delineated on maps available at refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of deer.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1967.

L. A. MEHRHOFF, Jr.,
Project Manager, Crab Orchard National Wildlife Refuge, Carterville, Ill.

AUGUST 24, 1967.

[F.R. Doc. 67-10195; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

Crab Orchard National Wildlife Refuge, Ill.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; upland game; for individual wildlife refuge areas.

ILLINOIS

CRAB ORCHARD NATIONAL WILDLIFE REFUGE

Public hunting of pheasants, bobwhite quail, rabbits, raccoons, opossums, skunks, and weasels on the Crab Orchard National Wildlife Refuge, Ill., is permitted only on the area designated by signs as open to hunting. This open area, comprising 9,380 acres or 21 percent of the total area of the refuge, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn. 55408.

Hunting shall be in accordance with all applicable State regulations governing the hunting of pheasants, bobwhite quail, rabbits, raccoons, opossums, skunks, and weasels during the seasons specified below. The hunting of upland game species, as may be otherwise authorized by Illinois State regulations, is prohibited.

(1) Open season: Pheasants—from 12 noon to sunset November 18, 1967, and from sunrise to sunset November 19, 1967, through December 17, 1967. Bobwhite quail—from 12 noon to sunset November 18, 1967, and from sunrise to sunset November 19, 1967, through December 31, 1967. Rabbits—from 12 noon to sunset November 18, 1967, and from sunrise to sunset November 19, 1967, through January 31, 1968. Raccoons, opossums, skunks, and weasels (hunting only)—from 12 noon to November 16, 1967, to 12 noon on January 31, 1968.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1968.

L. A. MEHRHOFF, Jr.,
Project Manager, Crab Orchard National Wildlife Refuge, Carterville, Ill.

AUGUST 24, 1967.

[F.R. Doc. 67-10196; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

Eastern Neck National Wildlife Refuge, Md.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

MARYLAND

EASTERN NECK NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer on the Eastern Neck National Wildlife Refuge, Md., is permitted only on the area designated by signs as open to hunting. This open area, comprising 2,000 acres, is delineated on maps available at refuge

headquarters, Rock Hall, Md., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(1) Species permitted to be taken: White-tailed deer only.

(2) Bag limit: One deer per day, either sex.

(3) Seasons: Bow and arrow only—October 14, 16, 17, and 18, 1967. Shotgun only—October 28, 30, 31, and November 1, 1967.

(4) Permits: A Federal hunting permit will be required. Permits will be limited to 350 per day for the archery hunt and 150 per day for the shotgun hunt. Permits will be issued to hunters selected by public drawing from applications received. Applications must be made to the Refuge Manager, Eastern Neck National Wildlife Refuge, Route 2, Box 193, Rock Hall, Md. 21661 and must be received no later than September 18, 1967.

(5) Hunting hours: Sunrise to sunset. Hunters may not enter the refuge prior to one-half hour before sunrise and must be checked out by 1 hour after sunset.

(6) Check Station: Participants in the hunts are required to check in at the check station upon entering and leaving the refuge. All deer killed must be presented at the check station for examination.

(7) Access: All hunters must enter and leave the refuge by way of State Road 445 only. Entry by boat is prohibited.

(8) Age limit: All hunters under 18 years of age must be accompanied by an adult.

(9) Parking: Vehicles must be parked only in designated parking areas.

(10) Safety clothes: During the shotgun hunt all hunters must furnish and wear, so as to be readily noticeable, red, yellow, or orange caps, hats, vests, shirts, or coats while on the hunting area.

(11) Hunters must not hunt or possess loaded guns or arrows notched in bow on county roads or designated parking areas.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 1, 1967.

WALTER A. GRESH,
Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 23, 1967.

[F.R. Doc. 67-10197; Filed, Aug. 30, 1967; 8:46 a.m.]

PART 32—HUNTING

Iroquois National Wildlife Refuge, N.Y.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NEW YORK

IROQUOIS NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Iroquois National Wildlife Refuge, N.Y., is permitted from November 4 through December 5, 1967 except on areas designated by signs as closed. This open area comprising 10,383 acres is delineated on maps available at refuge headquarters, Basom, N.Y., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, as are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 5, 1967.

RICHARD E. GRIFFITH,
Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 23, 1967.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Oil Import Administration

[32A CFR Ch. X]

[Oil Import Reg. 1, Rev. 5]

ALLOCATION OF IMPORTS

Notice of Proposed Rule Making

Presidential Proclamation 3279, as amended, authorizes the Secretary of the Interior, consistent with the supply-demand situation with respect to asphalt in District I, to establish a maximum level of imports of asphalt for District I and to establish a special system of allocating such imports. In connection with implementing this provision of the proclamation, I am considering the alternative proposals hereinafter set forth.

PROPOSAL I

Paragraph (h) of section 9 of Proclamation 3279, as amended, defines "unfinished oils." Asphalt which is to be further processed other than by blending by mechanical means comes within this definition. Paragraphs (a) (1) of section 2 and (d) of section 3 of the proclamation, respectively, provide that imports of unfinished oils shall not exceed such percentum of the permissible imports of crude oil and unfinished oils as the Secretary of the Interior may determine and in respect to asphalt the Secretary may establish, without regard to the levels of imports prescribed in section 2 of the proclamation, a maximum level of imports of asphalt for District I.

Paragraph (d), section 10, Oil Import Regulation 1 (Revision 5), as amended, would be further amended as follows:

Sec. 10 Allocations—crude and unfinished oils—refiners—District I–IV.

• • • • •

(d) No allocation made pursuant to this section shall entitle a person to a license which will allow the importation of unfinished oils in excess of 15 percent of the allocation. However, a person obtaining an allocation for imports of crude oil or unfinished oils pursuant to this section may petition the Administrator for an additional allocation of one barrel of unfinished oil on the basis of every four barrels of such person's assigned allocation which he certifies will be used for the importation in District I of unfinished asphalt. As used in this paragraph (d) the term "unfinished asphalt" shall mean a solid, semisolid, or fluidic material obtained in the refining of crude oil and in which the predominating constituents are bitumins and which in any case does not have a viscosity of less than 200 seconds Saybolt Furol at 210° F.

EXAMPLE: An eligible applicant has an import allocation for one million barrels of crude oil and within this total quantity he is permitted to import up to 15 percent (150,000 barrels) of unfinished oils. Upon certification to the Oil Import Administration that 50,000 barrels of his unfinished oils allocation will be imported in the form of unfinished asphalt he may petition the Administrator and receive in exchange for the 50,000 barrels of unfinished oils allocation an allocation and license for the importation of 62,500 barrels of "unfinished asphalt only."

PROPOSAL II

Level of imports. The maximum level of imports of asphalt to be allocated during an allocation period would be determined by the Bureau of Mines as the difference between an estimate of total demand for asphalt in District I and an estimate of the domestic supply.

Eligibility for allocations. To be eligible for an allocation of imports into District I of asphalt a person would have to be in the business in District I of selling asphalt and have under his management and operational control a deepwater asphalt terminal located in District I, or a thruput (warehouse) agreement with a deepwater terminal operator, and have delivered asphalt which he owned at the time of delivery, such delivery being the first delivery of that asphalt into a deepwater asphalt terminal in District I.

Method of allocation. Each eligible applicant in District I would receive an allocation of imports of asphalt into District I based upon a percentage of the applicant's terminal inputs of asphalt in that district for the year ending September 30, prior to the allocation year.

Method of licensing. Separate licenses would be granted which would only permit importation of finished asphalt and asphalt would be excluded from importation under a finished product license.

Definitions. "Deepwater terminal" would mean a permanent land installation which (1) consists of bulk storage tanks having not less than 100,000 barrels of operational capacity, pumps, pipelines and equipment used for the storage, transfer and handling of asphalt; (2) is adjacent to waterways that permit the safe passage to the installation of a tanker rated 15,000 cargo deadweight tons; and (3) has a berth that will permit the delivery of asphalt into the installation by direct connection from a tanker rated at 15,000 cargo deadweight tons, drawing not less than 25 feet of water, and moored in the berth. Cargo deadweight tons represent the carrying capacity of a tanker, in tons of 2,240 pounds, less the weight of fuel, water stores, and other items necessary for use on a voyage.

"Asphalt" as used in this proposal would mean a solid or semisolid cementitious material which gradually liquefies when heated in which the predominating constituents are bitumins, which is obtained in refining crude oil, and which is not to be further processed except by mechanical blending.

It is the policy of the Department of Interior whenever practicable to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections (5 copies) with respect to the above proposals to the Administrator of the Oil Import Administration, Department of the Interior, Washington, D.C. 20240, on or before September 22, 1967.

STEWART L. UDALL,
Secretary of the Interior.

AUGUST 24, 1967.

[F.R. Doc. 67-10221; Filed, Aug. 30, 1967; 8:48 a.m.]

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 929]

CRANBERRIES

Notice of Proposed Rule Making

Consideration is being given to the following proposals submitted by the Cranberry Marketing Committee, established under the marketing agreement, as amended, and Order No. 929, as amended (7 CFR Part 929), regulating the handling of cranberries grown in Massachusetts, Rhode Island, Connecticut, New Jersey, Wisconsin, Michigan, Minnesota, Oregon, Washington, and Long Island in the State of New York, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), as the agency to administer the terms and provisions thereof:

(1) That the expenses that are reasonable and likely to be incurred by said committee, during the fiscal period beginning August 1, 1967, and ending July 31, 1968, will amount to $8,010.

(2) That the Secretary of Agriculture fix the rate of assessment for said period, payable by each handler in accordance with § 929.41, at one-half cent ($0.005) per barrel, or equivalent quantity, of cranberries;

(3) That unexpended funds in excess of expenses incurred during the fiscal period ended July 31, 1967, in the amount of $2,996.61, be carried over as a reserve in accordance with § 929.42; and

(4) That reports be submitted to the committee by each handler showing the total quantity of cranberries he has acquired, the total quantity of cranberries he has handled, and the total quantity of cranberries and cranberry products, respectively, he has on hand. The reports would be rendered on a quarterly

basis as follows: November 1, 1967; February 1, 1968; May, 1968; and August 1, 1968. Each report would cover the 2-month period preceding the applicable specified date and would be filed with the committee not later than the 10th day of the first month following such period.

Terms used in the marketing agreement and order, shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 28, 1967.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[F.R. Doc. 67-10261; Filed, Aug. 30, 1967; 8:50 a.m.]

[7 CFR Part 1006]

[Docket No. AO 356-A2]

MILK IN UPPER FLORIDA MARKETING AREA

Decision and Order To Terminate Proceeding on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Panama City, Fla., on March 10, 1967, pursuant to notice thereof issued on February 23, 1967 (32 F.R. 3399).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on June 22, 1967 (32 F.R. 9096; F.R. Doc. 67-7196), filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision (32 F.R. 9096; F.R. Doc. 67-7196) are hereby approved and adopted and are set forth in full herein:

The material issue on the record of the hearing relates to the deletion of Bay County, Fla., from the Upper Florida marketing area.

Findings and conclusions. The following findings and conclusions on the material issue are based on evidence presented at the hearing and the record thereof:

The proposal to delete Bay County, Fla., from the Upper Florida marketing area is denied.

This proposal was made by five individuals, three of whom testified at the hearing: the Bay County Superintendent of Public Instruction; a Panama City, Fla., grocery store owner; and a Bay County distribution branch manager for an unregulated milk plant in Pensacola, Fla., who appeared on his own behalf. Several other witnesses, testifying as consumers, supported the proposal.

Witnesses advocating the deletion of Bay County from the marketing area complained primarily of higher retail prices for milk which they had been experiencing in recent months. They contended that the retail price increases in Bay County were an outgrowth of the recently promulgated Upper Florida order. Witnesses also stated that the application of the order to Bay County caused the operator of a Pensacola milk plant to cease distributing fluid milk products in the county, thereby creating a competitive climate in that area conducive to higher retail prices. Exclusion of Bay County from the Upper Florida marketing area, it was argued, would result in lower milk prices to consumers.

The level of resale prices for milk in Bay County is not a proper basis for determining whether the county should be a part of the Upper Florida marketing area. The Agricultural Marketing Agreement Act, which authorizes milk orders, provides for the fixing of minimum prices that handlers must pay dairy farmers for the milk received from them in accordance with the manner in which such milk is utilized. No regulation of resale prices is authorized by the Act.

Because resale prices are not set by the Upper Florida order, there is no assurance that prices to consumers would be lower, or would not increase above current levels, if Bay County were deleted from the marketing area. The retail price increases cited by witnesses were predominantly those that took place prior to January 1, 1967, the date the pricing provisions of the Upper Florida order became effective. Such retail price increases thus cannot be attributed to any increased milk costs for handlers resulting from the order regulation.

The basic purpose of the Upper Florida order is to provide stable and orderly marketing conditions for producers who are supplying the fluid milk requirements of the Upper Florida market. The only persons regulated by the order are handlers who must pay for all of their producer milk receipts on a classified use basis at not less than the specified order prices. No handlers, regulated or unregulated, or producers testified at the hearing in support of the proposal to remove Bay County from the marketing area.

There was strong opposition to the proposal, on the other hand, by regulated Upper Florida handlers who distribute milk in Bay County and by producers supplying the major portion of the fluid milk needs of the Upper Florida market. These parties indicated that removal of Bay County from the marketing area could encourage unstable and disorderly marketing conditions for producers and place handlers at a competitive disadvantage on the cost of Class I milk sold in Bay County.

The present 49-county marketing area defined by the Upper Florida order was based on evidence received at the promulgation hearing for the order. There has been no change in marketing conditions since that time to indicate that Bay County is no longer an appropriate part of the defined marketing area. All Class I sales in the county are made by handlers fully regulated by the Upper Florida order or by producer-handlers. About 65 percent of such sales are made by handlers who would continue to be regulated by the order if Bay County were deleted from the marketing area. This county is thus an integral part of the Upper Florida marketing area.

If Bay County were deleted from the marketing area, regulated handlers could be disadvantaged relative to unregulated handlers on the cost of a substantial portion of the Class I milk distributed in that county. Regulated handlers selling milk in Bay County would continue to be required to pay not less than the minimum Class I price for all their producer milk receipts sold as Class I, whether disposed of inside or outside the marketing area. Unregulated handlers with Class I sales in the county, on the other hand, would not be required to purchase their milk on a classified use basis or pay their dairy farmers any particular minimum price. Such unregulated handlers could, for example, dispose of as Class I milk in Bay County milk that was otherwise surplus to their operations and for which they returned to their dairy farmers an equivalent of the manufacturing milk price.

In the above circumstance, the Class I sales of regulated handlers could be displaced by unregulated handlers. In turn, producers who regularly supply milk to regulated handlers could be forced to dispose of quantities of milk represented by their lost Class I sales to manufacturing outlets at surplus prices. This clearly would provide an unwarranted advantage to the unregulated handler at the expense of producers who constitute a regular source of supply for the market. The inequitable condition created by such a situation would not only tend to result in unstable and disorderly marketing conditions but would also be inconsistent with the intent of the Act.

In supporting the proposal certain witnesses testified that the Upper Florida order caused the operator of the previously mentioned processing plant at Pensacola to cease selling milk in Bay County when the order first became effective. It should be noted that under the order any plant, wherever located, may distribute milk in the marketing area. All milk sold in the marketing area, however, is necessarily subject to the pricing provisions of the order. If the plant meets the marketing performance standards for full regulation, the plant operator is then required to pay for the milk he receives from producers in accordance with the use he makes of the milk. This treatment applies equally to all handlers performing the same marketing function.

Each plant operator must decide in light of the marketing circumstances where he wishes to dispose of his milk. The Bay County distribution branch manager of the Pensacola plant operated by an unregulated handler indicated that he was not an authorized spokesman for his employer at the hearing. He stated for the record, however, that his employer had ceased supplying Class I outlets in Bay County because he chose not to have his plant subject to the provisions of the order. No testimony for or against the exclusion of Bay County from the marketing area was given by the Pensacola plant operator, who neither entered an appearance nor was otherwise represented at the hearing.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered on conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Order to terminate proceeding. It is hereby found and determined on the basis of the findings, conclusions and rulings with respect to the material issue of this proceeding that the proceeding with respect to proposed amendments to the tentative marketing agreement and to the order is hereby terminated.

Effective date: Upon FEDERAL REGISTER publication.

Signed at Washington, D.C., on August 25, 1967.

RODNEY E. LEONARD,
Deputy Assistant Secretary.

[F.R. Doc. 67-10216; Filed, Aug. 30, 1967; 8:48 a.m.]

[7 CFR Part 1099]

[Docket No. AO 155-A19]

MILK IN PADUCAH, KY., MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing order (7 CFR Part 900), a public hearing was held at Paducah, Ky., on February 17, 1967, pursuant to notices thereof issued on February 1, 1967 (32 F.R. 2448), and February 8, 1967 (32 F.R. 2830).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator on August 8, 1967 (32 F.R. 11709; F.R. Doc. 67-9486), filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision (32 F.R. 11709; F.R. Doc. 67-9486) are hereby approved and adopted and are set forth in full herein.

The material issues on the record of the hearing relate to:

1. The price for Class I milk.
2. Seasonal production incentive plan.

This decision deals with issue No. 1, Class I prices. The procedure on issue No. 2 has been completed.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Class I price.* The Class I price for the Paducah marketing area should be the St. Louis order Class I price plus 25 cents per hundredweight.

The amendment as formulated herein would result in a 10 cents per hundredweight increase in the Class I price only in the Kentucky portion of the marketing area. This differs from the proposal of the producers association which would maintain the existing difference between the Missouri and Kentucky areas (10 cents higher in Missouri) by increasing the price 10 cents in both parts of the marketing area.

The producers association supported its proposal on the basis that it has become difficult to maintain an adequate supply for the fluid market outlets it serves, because of the steady attrition to its membership. The problem is acute in the Paducah market, it was pointed out, because of the small percentage of reserve milk. The supply problem is also intensified by competition from other markets. The association stated that the higher prices paid by the Memphis market to dairy farmers within the Paducah procurement area has caused a severe problem in retaining producers regularly associated with the Paducah market.

Further, in support of its proposal, the association cited the recent 10-cent increase in the Southern Illinois order price (in areas nearest Paducah) effective January 1, 1967. This increase, the association stated, would permit a similar increase in Paducah and maintain the previous relationship between the markets.

Milk supply. The essential purpose in establishing a Class I price level under the order is to assure an adequate supply from sources upon which the market can rely. The milk supply for the Paducah marketing area is essentially local in that it is produced mostly within the marketing area. Virtually all of the producers are members of the Paducah Graded Milk Producers Association. The association has standing arrangements with all handlers in the market to provide full milk supply throughout the year.

The producer milk supply during the past three years has varied from about 8 to 10 million pounds monthly. Most of the variation has been due to seasonal changes in production and expansion of the marketing area. On an all-season basis, the supply of milk has been barely sufficient to meet requirements of fluid outlets. During the fall and winter months of recent years the proportion of reserve milk has narrowed to less than 10 percent in several months. This situation has presented a difficult problem to the cooperative association as the sole procurement agency for the market, particularly in managing milk supplies so as to adequately meet the needs of each of the regulated handlers. Occasionally there has been need to bring in other source milk. Class I utilization in recent years has continued relatively high on an annual basis, averaging 85.6 percent, 88.4 percent, and 85.6 percent, in 1964, 1965, and 1966, respectively.

The supply area for the Paducah market adjoins supply areas of the St. Louis, Louisville-Lexington-Evansville, Nashville, and Memphis markets. Thus the Paducah market must compete with larger markets for milk supplies. The most important competition for milk supply is from the Memphis market. The Memphis procurement area extends well into the Paducah marketing area, as far north as Ballard County, Ky. This situation has resulted in some loss of producers to the Memphis market during the 1965–1966 2-year period.

The milk supply relationship with the Southern Illinois market involves members of the Paducah Graded Milk Producers Association which supply one of the handlers under the Southern Illinois order. These dairy farmers are located within the Kentucky portion of the Paducah marketing area. They are members of the association which are shifted between the markets according to the needs of handlers for fluid milk supplies.

The membership of the association which provides virtually the entire milk supply of the market has declined approximately 15 percent in a period of 2 years. This has been due both to producers leaving the dairy business and leaving the market for other markets, principally Memphis. The total level of milk production on the market has so far been maintained only due to greater production by each producer, but in view of the slight reserve supply, further decline in dairy farmers would tend to endanger adequacy of supplies.

Price comparisons. Price relationships between the Paducah market and other markets were considered by producers to have an important bearing on the Paducah Class I price level. The price relationship to the St. Louis market has been fixed by virtue of the 18-cent differential over St. Louis used to establish the Class I price at Paducah. Similarly, the relationship to the Southern Illinois order prices has been fixed, since prices under that order have been based on the St. Louis price. The Class I price in the southern zone of the Southern Illinois order is equal to the St. Louis price.

Since the St. Louis and Southern Illinois prices are lower than the Paducah price, these other markets do not present a problem of competition for supplies. Instead there is the question of sales competition. Sales competition with the St. Louis market is confined to areas in Missouri, at locations approximately 140 to 150 miles south of St. Louis. Within this general area there is a St. Louis order plant at Cape Girardeau, where a Class I price 15 cents per hundredweight higher than at St. Louis applies. Slightly more than 30 miles south of Cape Girardeau there is a Paducah order plant at Sikeston, Mo., where the Paducah order price is 25 cents over the St. Louis city price. The entire pricing system under the two orders therefore represents scaling up of price level as the distance from St. Louis increases, paralleling the cost to St. Louis or Cape Girardeau handlers in moving milk southward. The present price at Sikeston, as related to St. Louis order prices, appears reasonable and not excessive with regard to the locations of the regulated plants.

While the Southern Illinois market is relatively close, geographically, this has not resulted in significant intermarket sales competition among handlers.

The price relationship between Paducah and Memphis is wider than the differences from other surrounding markets. At the nearest Memphis order plant, at Martin, Tenn., the 1966 Memphis Class I prices adjusted for location averaged 42 cents per hundredweight higher than the Paducah order prices at the Fulton, Ky., plant. The distance between the plants is approximately 12 miles. With this difference in prices, procurement activities of Memphis handlers or of a cooperative association have at times resulted in some loss of producers.

Part of this price difference compared to Memphis was due to the action of the Memphis supply-demand adjustor. Currently, the Class I price difference which would be produced by differentials over the basic formula price, excluding supply-demand adjustments, would be 23.5 cents higher at Martin than at Fulton.

The 10-cent price increase herein recommended for the Kentucky location would result in reasonable price relationships with surrounding markets, considering the aspects of inter-market competition already described. The price increase would continue the historical relation with the Southern Illinois market. The price, in relation to St. Louis, would be reasonable in view of the less ample supply in Paducah than in St. Louis and the 173 miles distance between these cities. The change in relationship to Memphis would reduce the amount of normal price difference at points where the two markets have common procurement areas.

It is concluded that for the purpose of maintaining an adequate supply, a price increase of 10 cents per hundredweight is justified for the Kentucky portion of the marketing area. It is in this area that the greatest problem exists in maintaining milk supply. Because of the relatively small percentage of reserve milk on the market, the supply should be maintained at the existing level.

No change should be made at this time, however, in the price level applicable in Missouri counties of the marketing area. The milk supply serving the only plant in this part of the market is primarily from producers located within this part of the marketing area. Competition for milk supply has not been severe, and the supply for the plant located there is not threatened by price relationships with other markets. In fact, the overall balancing of supplies within the entire marketing area results in regular movements of bulk loads of milk from the Missouri portion into Kentucky and no movements in the other direction. It is concluded therefor that the Class I price throughout the entire Paducah marketing area should be established at 25 cents over the St. Louis order price.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. No exceptions to the recommended decision were filed.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Paducah, Ky., Marketing Area," and "Order Amending the Order Regulating the Handling of Milk in the Paducah, Ky., Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of June 1967 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Paducah, Ky., marketing area, is approved or favored by producers, as defined under the terms of the order, as amended and as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on August 28, 1967.

GEORGE L. MEHREN,
Assistant Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Paducah, Ky., Marketing Area

§ 1099.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Paducah, Ky., marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Paducah, Ky., marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, on August 8, 1967, and published in the FEDERAL REGISTER on August 12, 1967 (32 F.R. 11769; F.R. Doc. 67-9486), shall be and are the terms and provisions of this order, as set forth in full herein:

1. In § 1099.51, paragraph (a) is revised to read as follows:

§ 1099.51 Class prices.

* * * * *

(a) *Class I milk price.* The price per hundredweight of Class I milk for the month shall be the Class I price pursuant to Part 1062 of this chapter (St. Louis, Mo.) plus 25 cents; and

* * * * *

§ 1099.86 [Amended]

2. In § 1099.86, paragraph (b) is deleted.

[F.R. Doc. 67-10295; Filed, Aug. 30, 1967; 8:51 a.m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

MASTER LUMP SUM REPAIR CONTRACT—NSA-LUMPSUMREP

Proposed Revision; Extension of Time for Filing Comments

In F.R. Doc. 67-7905 appearing in the FEDERAL REGISTER issue of July 8, 1967 (32 F.R. 10162), notice was given that the Acting Director, National Shipping Authority, had under consideration the revision of the Master Lump Sum Repair Contract, NSA-LUMPSUMREP with respect to vessel repairs, etc., with permission for the filing of written comments by interested parties "by close of business on August 21, 1967."

Notice is given that the time within which written comments may be submitted is hereby extended to "by close of business on October 2, 1967."

Dated: August 28, 1967.

JAMES W. GULICK,
Acting Director,
National Shipping Authority.

Notices

DEPARTMENT OF THE TREASURY

Bureau of Customs

[Antidumping—ATS 643.3-r]

COD FILLETS FROM EASTERN CANADIAN PROVINCES

Antidumping Proceeding Notice

AUGUST 24, 1967.

On June 23, 1967, information was received in proper form pursuant to the provisions of § 14.6(b) of the Customs Regulations indicating a possibility that cod fillets, frozen, imported from Eastern Canadian provinces are being, or likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

The information was submitted by The Atlantic Fishermen's Union, Boston, Mass.

Ordinarily, merchandise is considered to be sold at less than fair value when the net, f.o.b. factory price for exportation to the United States is less than the net, f.o.b. factory price to purchasers in the home market, or, where appropriate, to purchasers in other countries, after due allowance is made for differences in quantity and circumstances of sale.

Having conducted a summary investigation, and having determined on this basis that there are grounds for so doing, the Bureau of Customs is instituting an inquiry pursuant to the appropriate provisions of the Customs Regulations to determine the validity of the information.

A summary of information received from all sources is as follows:

Large quantities of cod fillets, frozen, and imported from Eastern Canadian provinces (New Brunswick, Newfoundland, Nova Scotia, Ontario, Prince Edward Island, and Quebec) are being sold to the U.S. purchasers at substantially lower prices than are received for sales of similar merchandise in the home market.

This notice is published pursuant to § 14.6(d)(1)(i) of the Customs Regulations (19 CFR 14.6(d)(1)(i)).

[SEAL] LESTER D. JOHNSON,
Commissioner of Customs.

Fiscal Service

REINSURANCE ARRANGEMENTS

Use of Form A Reimbursement Agreement

Certain companies holding Certificates of Authority from the Secretary of the Treasury as acceptable sureties on Federal bonds under 6 U.S.C. 6–13 have been using a Form A Reimbursement Agreement in connection with their reinsurance arrangements. The Form A procedure was adopted by the companies as a means of protecting risks in excess of their underwriting limitations when such risks are reinsured with companies not recognized by the Treasury as acceptable reinsurers.

Generally, this arrangement provides for the withholding by the ceding company of the unearned premiums due and payable to the reinsurer and for the reinsurer to pay into a special account, for use by the ceding company, its proportion of any loss reserve established by the direct writing company pursuant to law.

Since the Form A procedure has the effect of nullifying the safety factor provided by the existing Treasury risks limitation (10 percent of a company's policyholders' surplus, as adjusted by the Treasury, in accord with 31 CFR Part 223), notice is hereby given that the Treasury will not recognize Form A agreements for reinsurance credit purposes in connection with excess reinsurance ceded to unauthorized companies.

These requirements are effective as of August 31, 1967, and apply to Form A agreements relating to policies written or renewed after that date. With respect to existing policies for which Form A agreements have been used, companies will be permitted to take credit for such reinsurance until the expiration date of the policies.

Companies concerned should take necessary action to rearrange their reinsurance to comply with these requirements.

(R.S. 161, as amended; 5 U.S.C. 301)

Dated: August 28, 1967.

[SEAL] GEORGE F. STICKNEY,
Deputy Fiscal Assistant Secretary.

[Dept. Circ. 570, 1967 Rev., Supp. No. 3]

PROTECTIVE INSURANCE CO.

Surety Companies Acceptable on Federal Bonds

A Certificate of Authority as an acceptable surety on Federal bonds has been issued by the Secretary of the Treasury to the following company under the Act of Congress approved July 30, 1947 (6 U.S.C. 6–13). An underwriting limitation of $173,000 has been established for the company.

Name of company, location of principal executive office, and State in which incorporated

Protective Insurance Co.
Indianapolis, Ind.
Indiana

Certificates of Authority expire on May 31 each year, unless sooner revoked, and new Certificates are issued on June 1 so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of June 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact fidelity and surety business and other information. Copies of the Circular, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Audit Staff, Washington, D.C. 20226.

Dated: August 28, 1967.

[SEAL] GEORGE F. STICKNEY,
Deputy Fiscal Assistant Secretary.

[F.R. Doc. 67-10245; Filed, Aug. 30, 1967; 8:50 a.m.]

DEPARTMENT OF DEFENSE

Department of the Navy

ORGANIZATION STATEMENT

1. Section 7 of the Organization Statement of the Department of the Navy, published in the FEDERAL REGISTER of June 9, 1967, 32 F.R. 8305, is amended by revising paragraph (d) to read as follows:

SEC. 7 Bureaus and offices—* * *

(d) *Office of the Judge Advocate General.* (1) The Office of the Judge Advocate General, authorized by the act of June 8, 1880 (21 Stat. 164; 10 U.S.C. 5148), has cognizance of all major phases of military, administrative, and applied law listed below as are incident to the operation of the Naval Establishment. In substance, the organization consists of a Judge Advocate General, a Deputy and Assistant Judge Advocate General, an Assistant Judge Advocate General (International and Administrative Law), an Assistant Judge Advocate General (Personnel, Reserve and Planning), an Assistant Judge Advocate General (Military Justice), and 11 principal divisions designated as International Law, Admiralty, Civil Law, Administrative Law, Litigation and Claims, Military Personnel, Naval Reserve, Legal Assistance, Military Justice, Investigations, and Administrative Management. Within the several divisions are branches and sections performing specific functions embraced by the mission of the parent division. In addition to the divisions of the office, there are special assistants and the Boards of Review organized pursuant to article 66 of the Uniform Code of Military Justice (10 U.S.C. 866). Activities under the command of the Judge Advocate General include the Navy Appellate Review Activity and the U.S. Navy—Marine Corps Judiciary Activity, U.S. Sending State Office, Italy, and U.S. Sending State Office, Australia.

(2) The position of the Deputy and Assistant Judge Advocate General is to be occupied by the officer serving in the statutory position of Assistant Judge Advocate General (10 U.S.C. 5149). He shall perform such duties as the Judge Advocate General may prescribe. When there is a vacancy in the office of Judge Advocate General, or during the absence or disability of the Judge Advocate General, the Deputy and Assistant Judge Advocate General, unless otherwise directed by the President, shall perform the duties of the Judge Advocate General until a successor is appointed or the absence or disability ceases. The Assistant Judge Advocate General (International and Administrative Law), the Assistant Judge Advocate General (Personnel, Reserve and Planning) and the Assistant Judge Advocate General (Military Justice) shall function within the fields of responsibility specified; shall perform such duties as may be prescribed by the Judge Advocate General; and shall be responsible to the Deputy and Assistant Judge Advocate General and the Judge Advocate General. When there is a vacancy in the office of Judge Advocate General, or during the absence or disability of the Judge Advocate General, and during the absence or disability of the Deputy and Assistant Judge Advocate General, the Assistant Judge Advocate General senior in military rank and available for such duty shall perform the duties of the Judge Advocate General, unless otherwise directed by the President.

(3) The main functions of the divisions of the Judge Advocate General's Office may be summarized as follows:

(i) *International law.* Providing advice on international legal problems to the Secretary of the Navy, the offices of the Chief of Naval Operations having cognizance over international matters, and the other Bureaus and Offices of the Navy Department, with primary emphasis upon the legal regimes of the sea, the laws of naval warfare, immigration and naturalization, aviation and space law, foreign military facilities, criminal jurisdiction matters, and foreign military assistance laws and regulations; maintaining liaison with Defense, State, Interior and other Departments and appropriate federal agencies, particularly with regard to negotiation of international agreements affecting military interests and the formulation of programs affecting international legal regimes of the sea; assisting in the drafting of international agreements and the development of subsidiary implementing arrangements; and rendering direct advice to field units on both criminal and civil law problems arising under base rights agreements and Status of Forces Agreements with many nations. In addition, the Division delivers periodic lectures to military attachés of all three services at the request of the Defense Intelligence Agency, publishes a biannual compilation of international agreements of interest to the Navy, and participates actively in civilian professional and educational organizations concerned with the rapidly developing law of the sea.

(ii) *Admiralty.* Principal function is the settlement of admiralty tort claims, both against and in favor of U.S. naval vessels; in addition, the Division handles claims filed against the Navy for salvage and towage services. The Division controls all phases of the processing of admiralty claims, including investigation, survey and settlement negotiations; the Division is assisted by trained admiralty officers stationed in most naval districts and in certain other commands. Where settlement cannot be effected and litigation ensues, the Division cooperates in preparing the cases for trial, and often in the trial itself. A further function is the preparation of waiver certificates designed to exempt naval vessels from the normal requirements of applicable Rules of the Road. The Division also furnishes opinions on miscellaneous topics of an admiralty nature as they arise. In connection with admiralty matters, the Division maintains liaison with the Department of Justice, Maritime Administration, Coast Guard, and other Governmental departments and agencies concerned with the administration of the navigation and shipping laws.

(iii) *Civil law.* The Division consists of three branches: Military Promotions and Retirements Branch, General Tax Branch, and the Income Tax Branch.

(a) The military promotions functions of the Military Promotions and Retirements Branch include examination of selection board precepts for the promotion, augmentation, appointment, and continuation of commissioned officers of the Navy and Marine Corps. The reports of such boards are reviewed for compliance with law and regulations. The Branch also examines nondisability retirements of members of the naval service prior to final action thereon by the President or the Secretary of the Navy. Likewise, the Branch reviews the records of proceedings in disability separation and retirement cases for legal sufficiency and compliance with applicable statutes and regulations prior to final determination by the Secretary of the Navy. The Judge Advocate General is authorized to take final action for the Secretary of the Navy in those physical disability cases specified in the Disability Separation Manual (NAVEXOS P–1990). In other such cases, the record of proceedings, together with the review thereof by the Judge Advocate General, is submitted to the Secretary of the Navy for his determination.

(b) The General Tax Branch has cognizance over matters pertaining to the taxation status of Federal instrumentalities within the Department of the Navy in relation to taxation by the various states and the applicability of various Federal taxes to those instrumentalities. The Branch furnishes advice and assistance to military personnel and their dependents regarding all Federal, state, and local tax problems other than income tax and social security. In this connection the Branch has cognizance over all cases involving the application of section 514 of the Soldiers' and Sailors' Civil Relief Act of 1940 as amended (50 App. U.S.C. 574) to members of the naval service. Liaison is maintained with Federal and state officials charged with the assessment and collection of taxes. When litigation is necessary for the protection of a Governmental interest, this Branch prepares a memorandum of law for referral to the U.S. Department of Justice together with a brief of the factual situation. The Branch also has cognisance over matters pertaining to the application of customs laws to naval personnel.

(c) The Income Tax Branch is responsible for (1) the dissemination of information and advice on the responsibility of Navy and Marine Corps commands and nonappropriated fund activities, as employers, under social security laws and Federal, State, and local income tax laws; (2) furnishing advice to Navy and Marine Corps personnel and employees concerning their rights, obligations, and benefits under Federal, State and local income tax laws; and (3) maintaining liaison with taxing authorities concerning administration of income tax and social security tax laws (F.I.C.A.).

(iv) *Administrative law.* Concerned with the solution of problems of administrative law arising in the administration of the Naval Establishment.

(a) General Affairs Branch renders advice and prepares legal opinions on public law and regulations relating to the internal administration of the Naval Establishment, its officials and personnel, and relating to the relationship of the Department of the Navy and naval personnel to other Department of Defense components and to Federal, State, and local governmental agencies. Essentially, the branch serves as legal consultant to other activities within the Office of the Judge Advocate General and the Department of the Navy. The broad scope of the branch's work includes problems pertaining to the status of Navy and Marine Corps personnel, the authority and responsibility of officials, Reserve and training matters, jurisdictional and civil relations, statutory and administrative boards, dependents' and veterans' benefits, inter- and intra-governmental relationships and operations, and the preparation of Secretarial and Departmental correspondence relating to its fields.

(b) Civilian Employee Affairs Branch prepares opinions and correspondence on questions relating to the civilian branch of the Naval Establishment, nonappropriated fund instrumentalities under the jurisdiction of the Department of the Navy, quarters and rental housing for military and civilian personnel, the acceptance of gifts to the Navy, disposals of Navy property under 10 U.S.C. 7308 and other disposals of property as referred to the branch. Civilian security matters are also under the cognizance of this branch.

(c) Regulations Branch reviews, for legality and conformance with controlling directives, proposed new material for, and proposed changes in manuals and other regulatory publications of the Navy Department, its Bureaus, Offices, Commands and Headquarters Marine Corps; coordinates changes to the Manual of the Judge Advocate General; prepares, edits or reviews material for publication in the Federal Register, the Code of Federal Regulations, and the U.S. Government Organization Manual, and maintains indexes for these purposes with the Office of the Secretary of Defense and the Office of the Federal Register, General Services Administration; the director of the division and the head of the branch are the Federal Register Liaison and Certifying Officer and the Alternate Federal Register Liaison and Certifying Officer for the Department of the Navy.

(d) Finance Branch furnishes information, advice and guidance in the areas of (1) entitlement to military pay and allowances, (2) postretirement employment activities of retired naval personnel and (3) standards of conduct for naval personnel on active duty or actively employed. The Branch furnishes interpretations of the Dual Compensation Act of 1964, the various statutes relating to military pay and allowances and the statutes restricting selling activity on the part of retired Regular officers. Determinations are made concerning origin of retirement disabilities for purposes of the Dual Compensation Act of 1964.

(e) Legislative Comment Branch coordinates the action to be taken by the Judge Advocate General upon legislative Items, Executive Orders, Proclamations and reports that are referred for comment and recommendation by the Chief of Legislative Affairs. The Branch also drafts legislation proposed by the Judge Advocate General for inclusion in the Department of Defense legislative program.

(v) *Litigation.* Has Navy Department responsibility for litigation, other than admiralty and contractual matters.

(a) One phase of this Division's work is assisting the Department of Justice in the preparation and defense of suits involving the Department of the Navy brought in U.S. District Courts. This includes defending tort suits, criminal prosecution of members of the Naval Establishment (uniformed and civilian), suits against officers and officials of the Naval Establishment for actions arising out of their official duties, habeas corpus, injunctions and mandamus. This Division also assists the Department of Justice in the defense of claims against the Government arising in the Department of the Navy and being litigated in the Court of Claims. In furtherance of this responsibility the Division obtains factual and technical information and assists in the preparation of the Government's legal position, including the preparation of legal briefs and memoranda. Additionally, the Division obtains witnesses and documentary evidence to be used in the trial of these cases. Close liaison is maintained at the working level with the Department of Justice, U.S. Attorneys in the field, all Bureaus and Offices in the Navy Department, and with the other divisions of the Judge Advocate General's Office.

(b) Another phase of this Division's work involves representing the Department of the Navy in its relations with State and local authorities by acting on requests by such authorities for the delivery of naval personnel (1) as witnesses in civil and criminal trials, (2) for prosecution of a criminal charge where such personnel are within the jurisdiction of the State desiring to prosecute, and (3) for prosecution of a criminal charge where such personnel are outside the jurisdiction of the State desiring to prosecute and extradition proceedings are necessary.

(c) In addition to producing the records and information necessary to the functions described in Items (a) and (b), the Division, as the designee of the Secretary of the Navy, is charged with the responsibility for the release of Navy Department records and information therefrom either in response to court orders or in the absence thereof, as provided in the Manual of the Judge Advocate General, Chapter 12, Part III and U.S. Navy Regulations 1948 revised (cf. 32 CFR Part 701).

(d) Other duties of the Division include obtaining naval personnel and Navy civilian employees as witnesses pursuant to requests from the Department of Justice in cases not involving the Department of the Navy, processing applications for Presidential Pardons and maintaining liaison with the U.S. Pardon Attorney, arranging interviews of military and civilian personnel when such interviewing or interview pertains to matters in litigation or may affect possible future litigation or is in connection with matters arising out of their official duties, accepting service of subpoenas or other civil process directed to the Secretary of the Navy or persons in the Naval Establishment in their official capacity, furnishing addresses of and answering inquiries regarding debts incurred by naval personnel; and collection and accounting connected with fees charged for supplying documents, records and information to certain nonexempt individuals (32 CFR 144.1–144.8).

(e) General Claims Branch formulates, supervises and coordinates Navy claims policies and procedures relating to the worldwide processing, adjudication or other disposition of administrative claims for and against the United States under the provisions of claims statutes and international agreements relating to the Department of the Navy. These include claims cognizable under the Military Claims Act (10 U.S.C. 2733), Foreign Claims Act (10 U.S.C. 2734, 31 U.S.C. 224d), Military Personnel Claims Act (10 U.S.C. 2732, 31 U.S.C. 222c), Federal Tort Claims Act (28 U.S.C. 2671–2680), the NATO Status of Forces Agreement (4 UST 1792) and similar international agreements; protects the interests of the Government by collecting monies due on property damage claims in favor of the United States in tort cases; makes recommendations to the Attorney General as to the advisability of instituting such actions and assists together with the Litigation Division in the litigation of these actions; renders cooperation to the Department of Justice, including the furnishing of investigative reports and other documents to the U.S. Attorney in preparation of prosecutions or defenses of tort suits in favor of or against the United States, and makes recommendations as to compromises; proposes and comments on legislation and amendments to statutes and regulations relating to claims; and cooperates in conferences with other interested Government agencies within and outside the Department of the Navy on such matters.

(vi) *Military personnel.* Effects the assignment of law specialists to legal billets throughout the Naval Establishment according to (1) the needs of the service, (2) the professional needs and qualifications of the individual, and (3) wherever possible, the preference of the individual (10 U.S.C. 806(a)). Under the guidance of the Assistant Judge Advocate General (Personnel, Reserve and Planning), the Division plans the personnel posture of the law specialist in the Navy. This involves plans for procurement of new officers as well as the assignment of officer-lawyers currently available in such fashion as to render the greatest assistance to both the Operating Forces and the Shore Establishment. To this end, the Division maintains records and conducts studies regarding qualifications, training, assignment, and effective utilization of all law specialists.

The Division also has responsibility, in coordination with the Chief of Naval Personnel, for officer recruitment, development of allowances and complements, and special projects. In addition, the Military Personnel Division performs the normal functions of a military personnel office for the Office of the Judge Advocate General.

(vii) *Naval Reserve Phased Forces.* The Phased Forces Program provides qualified law specialists for active duty in time of national emergency or in time of war and at such other times as the national security may require to meet the requirements of the Navy in excess of those of the regular component. The Division provides the technical advice, training, and assistance in the administration of the Phased Forces Program to meet all mobilization requirements for law specialists. The Division prepares the technical training curricula and training guides for the Program and assists in the preparation of the Catalogue of Active Duty for Training. Liaison with comparable Reserve Programs in the Army, Air Force, Marine Corps, and Coast Guard is maintained to cross-service requests for special training. The Division monitors the sources of Reserve officer procurement. This requires processing requests from inactive duty officers for changes in designator and reviewing the professional qualifications of lawyer applicants for the Direct Appointment Naval Reserve Law Specialist Commissioning Program. The Phased Forces Program consists of Law Companies composed of inactive duty Reserve lawyers located in most of the major metropolitan areas of the country.

The training of law specialists is accomplished through the media of lectures, correspondence courses, training films, special courses in naval justice, law seminars, conferences, and annual active training duty cruises of two weeks' duration. A continuous "on the job" training program is in operation in all major active duty legal offices throughout the establishment and in the Office of the Judge Advocate General.

(viii) *Legal assistance.* Supervises and coordinates legal assistance for members of the naval service and their dependents throughout the Naval Establishment in cooperation with national, state, and local bar associations and legal aid organizations with whom the Division maintains close liaison. It also maintains a local Legal Assistance Branch which provides legal assistance to members of the naval service and their dependents in the Washington area.

(ix) *Military justice.* Primarily assists in carrying out the functions assigned to the Office of the Judge Advocate General by the Uniform Code of Military Justice (10 U.S.C. 801 et seq.), including the supervision of the administration of military justice in the field and the survey of operations under the Code. There are three branches.

(a) Correspondence Branch answers inquiries with respect to specific court-martial cases; furnishes information to members of the Congress and interested parties; advises as to the current status of cases which have been received in the Office of the Judge Advocate General; solicits pertinent information from the field, when required. Prepares authorizations for the employment of expert witnesses in court-martial proceedings. Prepares orders instructing field authorities or Boards of Review to take action on court-martial cases in accordance with opinions of the Court of Military Appeals and decisions of the Boards of Review. Insures that all legal-administrative action is taken on officer court-martial cases after review pursuant to article 65, 66, or 69, UCMJ (10 U.S.C. 865, 866, 869), including the clemency review of all cases to determine whether the Judge Advocate General will recommend that the Secretary of the Navy reduce any portion of the sentence, and the accomplishment of final review pursuant to article 71(b), UCMJ (10 U.S.C. 871(b)), on cases involving officer dismissals. Prepares actions for the Secretary of the Navy designating new court-martial convening authorities in the implementation of articles 22, 23 and 24, UCMJ (10 U.S.C. 822, 823, 824); maintains a control file of letters issued by general court-martial authorities which designate commands under their jurisdiction as empowered to convene special and summary courts-martial. Prepares Secretarial replies to requests from field activities for permission to try by court-martial persons in the naval service who have been tried in a domestic or foreign court for the same act or acts. Prepares authorizations for the utilization of naval lawyers on courts-martial convened by the other armed services and for the utilization of lawyers of the other armed services on courts-martial convened at naval activities. Prepares actions remitting bad conduct discharges at the request of the Chief of Naval Personnel or the Commandant of the Marine Corps to permit execution of administrative discharges. Prepares actions for the exercise of clemency by the Secretary of the Navy and the Judge Advocate General pursuant to article 74, UCMJ (10 U.S.C. 874). Releases copies of court-martial records to persons properly entitled to receive them. Completes special research and statistical studies when the need arises for comparative facts or figures on particular phases of military justice.

(b) Advisory Legal Branch collects and studies trends and data derived primarily from records of trial with a view to making such recommendations to the Judge Advocate General as will promote a more orderly and effective administration of military justice in the naval service. Prepares opinions and recommendations on questions relating to military justice which arise within the Department of the Navy and its Reserve components, within other departments and agencies of the Federal Government, and within various state and local governmental bodies; also prepares correspondence in response to any legitimate request for information received from a civilian source outside the government establishment involving a question of military justice. Advises the Judge Advocate General with respect to pending legislation affecting military justice procedures; collects data for use in Congressional hearings and prepares witnesses' statements. Assists join service committees in revising the Manual for Courts-Martial. Revises and maintains in an up-to-date condition the Manual of the Judge Advocate General, Trial Guides, Instruction Guides, and other regulations affecting military justice. Disseminates to the field important Court of Military Appeals or Board of Review decisions affecting military justice procedures, in advance of regular changes to existing publications. Maintains liaison with the Naval Investigative Service regarding military justice matters. Acts on requests for Secretary of the Navy permission to try by court-martial Fleet Reservists and retired personnel and other persons no longer on active duty. Prepares replies to inquiries received directly from legal officers pursuant to article 6(b), UCMJ (10 U.S.C. 806(b)).

(c) Review Branch examines records of trial of general courts-martial pursuant to article 69, UCMJ (10 U.S.C. 869); such examination is a complete and thorough review of the proceedings as to errors of law and procedure as well as a determination of the sufficiency of the evidence to sustain the findings and sentence of the court. Reviews summary courts-martial and special courts-martial (not involving a bad conduct discharge) which have not been reviewed in the field by a law specialist in accordance with article 65(e), UCMJ (10 U.S.C. 865(e)). Resolves disagreements arising between officers having supervisory authority and their law specialists as to matters of law in summary courts-martial or special courts-martial not involving a bad conduct discharge. Advises the Judge Advocate General in the exercise of his "certification" power under article 67(b)(2), UCMJ (10 U.S.C. 867(b)(2)), by examining cases decided by Boards of Review to determine whether the decisions present a question of law which is deemed worthy of consideration by the Court of Military Appeals. Reviews and makes recommendations to the Judge Advocate General for the publication in the Court-Martial Reports of selected Board of Review decisions for the information of those concerned with the administration of military justice. Examines reports of proceedings to vacate the suspension of sentences previously adjudged by general courts-martial and by special courts-martial involving a bad conduct discharge. Has cognizance of petitions for new trials filed with the Judge Advocate General under article 73, UCMJ (10 U.S.C. 873), and paragraph 109, MCM, 1951. Based on recommendations of the Boards of Review that the Judge Advocate General exercise clemency in certain cases, reviews the cases and any available information concerning the conduct of the accused to determine whether clemency action should be recommended to the Judge Advocate General or whether the Boards' recommendations should be forwarded to the Naval Clemency Board for consideration. Reviews complaints of wrongs under article 138, UCMJ (10 U.S.C. 938). Reviews appeals from nonjudicial punishment addressed to the Secretary of the Navy and the Chief of Naval Operations, upon request. Reviews recommendations to the Judge Advocate General under section 0135, Manual of the Judge Advocate General, to suspend persons from acting as counsel before courts-martial.

(x) *Investigations.* Reviews for legal sufficiency the records of proceedings of investigations and courts of inquiry. Disseminates the records to pertinent offices and bureaus of the Department of the Navy. Prepares appointing orders for fact-finding bodies convened by the Secretary of the Navy. Prepares opinions on the legality of proceedings of fact-finding bodies, and initiates action to correct legal and procedural errors or omissions in investigative matters. Maintains liaison with the Veterans' Administration for the purpose of furnishing information which it requests regarding injuries or deaths to naval personnel in order to determine eligibility for pension benefits. Prepares opinions on "line of duty" and "misconduct" status of naval personnel injured in noncombat incidents. Prepares answers to inquiries from Members of Congress, next of kin, attorneys, insurance companies and

others relating to investigations and courts of inquiry.

(xi) *Administrative management.* Handles all matters relative to employment, management, and administration of civilian personnel for the Office; maintains complete budget program for the Office including the Office of the Judge Advocate General subhead of the Department of Defense Claims appropriation; administers the legal publications program for the Office and for law specialists throughout the Navy; maintains the law library including legislative reference services; organizes opinions originating in the Office of the Judge Advocate General; prepares digests for publication; maintains mail, records, supply and management functions, including office security, civilian personnel security clearances, and work measurement and statistics.

(4) The Navy Appellate Review Activity, located at the Washington Navy Yard, under an officer in charge, is assigned to the Judge Advocate General for command and principal support. The Activity consists of the Appellate Defense Division, Appellate Government Division, Boards of Review, Courts-Martial Records Branch and the Fiduciary Affairs Division. The officers (law specialists) assigned to Appellate Defense perform the statutory functions of appellate defense counsel for accused before Boards of Review and the Court of Military Appeals (10 U.S.C. 870). Appellate Government Division represents the United States, when directed, before Boards of Review and the Court of Military Appeals. The four Boards of Review, organized pursuant to article 66 of the Uniform Code of Military Justice (10 U.S.C. 866), are the principal part of the Activity. Court-Martial Records Branch is responsible for receipt and control of court-martial records, promulgating decisions and interlocutory orders of Boards of Review and the Court of Military Appeals and recording statistical data with respect to each case. Fiduciary Affairs Division has cognizance over cases involving the establishment and administration of trusteeships over Navy pay of mentally incompetent retired naval personnel.

(5) The U.S. Navy-Marine Corps Judiciary Activity, established by the Secretary of the Navy on May 9, 1962, is a separate field activity under a director. The Judiciary Activity is assigned to the Judge Advocate General for command. It consists of the Washington home office and eight branch offices. The Washington home office is assigned to the Judge Advocate General for primary support whereas the branch offices are assigned to the District Commandant, Area Coordinator or Commanding General for administrative support. The mission of the Activity is to provide, on a world-wide basis, all general courts-martial convened in the Naval Establishment with specially qualified and specifically designated Navy and Marine Corps law officers (military judges) and to perform such other functions as directed by the Judge Advocate General.

2. Section 13 is amended by revising the address of the Office of Naval Petroleum and Oil Shale Reserves to read as follows:

Sec. 13. *Addresses.* * * *

Director, Office of Naval Petroleum and Oil Shale Reserves, Munitions Building, 20th Street and Constitution Avenue NW., Washington, D.C. 20360, Phone Oxford 5-8066 during office hours; Oxford 5-3667 during nonoffice hours.

(Secs. 301, 552, 80 Stat. 379, 383 (Pub. L. 89-28, 81 Stat. 54, effective July 4, 1967); 5 U.S.C. 301, 552.)

By direction of the Secretary of the Navy.

Dated: August 24, 1967.

[SEAL] WILFRED HEARN,
Rear Admiral, U.S. Navy,
Judge Advocate General.

HUMANELY SLAUGHTERED LIVESTOCK

Identification of Carcasses; Changes in List of Establishments

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904), and the statement of policy thereunder in 9 CFR 381.1, the list (32 F.R. 11343) of establishments which are operated under Federal inspection pursuant to the Meat Inspection Act (21 U.S.C. 71 et seq.) and which use humane methods of slaughter and incidental handling of livestock is hereby amended as follows:

The reference to sheep with respect to Silver Falls Packing Co., Inc., establishment 153 is deleted. The reference to cattle with respect to Triolo Bros., establishment 706 is deleted.

The following table lists species at additional establishments and additional species at previously listed establishments that have been reported as being slaughtered and handled humanely.

Name of establishment	Establishment No.	Cattle	Calves	Sheep	Goats	Swine	Horses
B. Rothschild & Co.	506	X					
Marysville Meat Packing Co.	552		(*)				
Oscar Mayer & Co.	457-B						
Price Bros. of Delaware	585	(*)	(*)			X	
Colonial Packing Co.	1002						
New establishments reported: 8.							
Armour & Co.	29A				(*)		
Swift & Co.	3AN						
Pauly Packing Co., Inc.	10			(*)	(*)		
Hygrade Food Products Corp.	12FW		X				
Rongeleim Provision Co.	32A						
Valley-Ish Packers, Inc.	34-c						
Idaho Meat Packers	46						
Gooch Packing Co., Inc.	51			X			
Auburn University Meat Laboratory	71						
Miller Packing Co., Inc.	78			X		X	
Swift & Co.	166-A						
Watkins Packing Co.	209				X

Office of the Secretary

NORTH DAKOTA

Designation of Area for Emergency Loans

For the purpose of making emergency loans pursuant to section 321 of the Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1961), it has been determined that in the hereinafter-named county in the State of North Dakota natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

NORTH DAKOTA

Stutsman.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named county after June 30, 1968, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 28th day of August 1967.

[SEAL] ORVILLE L. FREEMAN,
Secretary.

ALASKA

Notice of Reopening of Fairbanks District and Land Office

AUGUST 25, 1967.

Notice is hereby given that the Fairbanks District and Land Office, Bureau of Land Management, will be reopened for business on September 11, 1967. The office was temporarily closed effective 4 p.m., August 14, 1967 by order dated August 17 and published in 32 F.R. 12194 dated August 24, 1967.

Applications received between the time the office was closed and 10 a.m., September 11, 1967, will be considered as filed at 10 a.m., September 11, 1967. Payments or other documents that were due during the period of closure will be considered timely filed if received on or before September 11, 1967.

Personnel of the District and Land Office will be available to give information and assistance beginning August 28, 1967.

BURTON W. SILCOCK,
State Director.

DEPARTMENT OF COMMERCE

Business and Defense Services Administration

DEPARTMENT OF AGRICULTURE, AGRICULTURAL RESEARCH SERVICE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Scientific and Technical Equipment, Department of Commerce, Room 5123, Washington, D.C. 20230.

Docket No. 67-00018-01-11000. Applicant: U.S. Department of Agriculture, Agricultural Research Services, Eastern Utilization Research and Development Division, South Agriculture Building, Washington, D.C. 20250. Article: Combined Gas Chromatograph-Mass Spectrometer comprising: Analyzer unit model LKB 9001, Control unit model LKB 9002, Transformer model LKB 9065 with both foreign and domestically manufactured parts and accessories. Manufacturer: LKB Produkter AB, Sweden as the major manufacturer and domestic manufacturers Varian Associates Ind., and Consolidated Electrodynamic Corp. as suppliers for some parts. Intended use of article: Separation and identification of flavor compounds isolated in microgram quantities for dairy products. Comments: No comments were received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used, is being manufactured in the United States. Reasons: Section 602.1(e) of the regulations issued pursuant to the Educational, Scientific and Cultural Materials Importation Act of 1966 (80 Stat. 897) provides:

> The determination of scientific equivalency between a foreign instrument and a domestic instrument shall be based on comparisons of the pertinent characteristics and pertinent specification of the foreign instrument with the similar pertinent characteristics and pertinent specifications of the domestic instrument. If such comparisons show that at least one domestic instrument or a *reasonable combination of domestic instruments* does possess all of the pertinent characteristics and pertinent specifications of the foreign instrument, the Administrator shall find that scientific equivalency does exist.

The italic phrase, "reasonable combination of domestic instruments," was intended to be construed in a reasonably narrow manner to include only combinations which would under normal commercial practice and usage generally be considered as a unit. The phrase is narrowly construed because the operative language of the statute and the explanatory language of the Committee Reports both speak in terms of comparisons of single instruments with other single instruments. Thus, item 861.60 of schedule 8, part 4 of the Tariff Schedules prescribes the test "if no domestic instrument or apparatus of equivalent scientific value is being manufactured in the United States." Similarly, the Committee Reports speak in terms of "a" domestic article and "a" domestic instrument or apparatus (H. Rept. No. 1778, House Committee on Ways and Means, 89th Cong., 2d sess., p. 18, and S. Rept. No. 1678, 89th Cong., 2d sess., p. 12).

The foreign article is a unit which combines the functions of a gas chromatograph, a mass spectrometer and a separating device. At the time the applicant placed his order for the foreign article, there were no domestic manufacturers offering to supply a comparable unit in which the three functions were integrated. The application indicates that, in response to an invitation to bid from the applicant, the Bendix Corporation offered to furnish its Model 3012 mass spectrometer and a gas chromatograph Model 9751A manufactured by the F&M Scientific Division of Hewlett-Packard Co.; and that Consolidated Electrodynamic Corp. (CEC) offered its Type 21-106 mass spectrometer and a gas chromatograph Model 700-02, likewise manufactured by the said F&M Division. (See reply to question 16 of application.) CEC offered to supply a Biemann-Watson separating device.

The Department of Health, Education, and Welfare (HEW) has advised that the "alternatives proposed by Bendix Corp. and by CEC have not been designed and tested as single units" (HEW memorandum, dated June 1, 1967). Since no domestic manufacturer has submitted comments in this case, no contention has been made, or evidence submitted to support a contention that either of the combinations offered by Bendix Corp. or by CEC would under normal commercial practice and usage generally be considered as a unit. We are not otherwise aware of any evidence which would support such a finding. Accordingly, we find that the several instruments offered by each of the manufacturers named above are not eligible for comparison of the foreign article as a "reasonable combination" in accordance with the applicable provision of the regulations set forth above.

Neither of the combinations of instruments offered by Bendix Corp. and CEC is scientifically equivalent to the foreign article for the purpose for which the article is intended to be used. The foreign article incorporates a Becker Ryhage separating device. While the National Bureau of Standards advises that, with respect to this device, "data sufficiently complete and reliable to permit a valid conclusion as to the precise relative capabilities of the competing instruments do not exist" (NBS memorandum dated July 6, 1967, par. 5), HEW advises that "the jet-type carrier gas separation system in the LKB apparatus is unique and is generally considered by authorities in the field to be the most effective separator available. The efficiency of the separator largely determines the effectiveness of the Mass spectrometer and the alternatives proposed by domestic manufacturers are not equivalent in this scientific specification."

Thus, on the basis of the evidence available in this case, we find that the separator system is a pertinent characteristic of the article, and that the devices offered by the domestic manufacturers named above are not of equivalent scientific value for the purposes for which the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus which is of equivalent scientific value to the foreign article for the purposes for which such article is intended to be used and which is being manufactured in the United States.

THOMAS Z. CORLESS,
Acting Director, Office of Scientific and Technical Equipment, Business and Defense Services Administration.

[F.R. Doc. 67-10179; Filed, Aug. 30, 1967; 8:45 a.m.]

BOYCE THOMPSON INSTITUTE FOR PLANT RESEARCH

Amendment to Notice of Application for Duty-Free Entry of Scientific Article

The following notice of application published in Volume 32, Number 107 of the FEDERAL REGISTER (Saturday, June 3, 1967), pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897), is hereby amended by adding the words enclosed in brackets to the description of the article:

Docket No. 67-00091-33-46500. Applicant: Boyce Thompson Institute for Plant Research, 1086 North Broadway, Yonkers, N.Y. 10701. Article: [Controlled environment plant growth cabinets (4) PCW18—modified.] Manufacturer: Controlled Environments, Ltd., Winnipeg, Canada. Intended use of article: Applicant states:

Air pollutants can have serious effects on vegetation and on animals consuming polluted vegetation. Since plant response varies with environmental conditions, studies designed to determine the pollutant concentration at which the injury occurs must take climatic conditions into account. The controlled environmental chambers we are purchasing are specially designed so that plants may be exposed to air pollutants under controlled conditions of light, temperature, humidity, and air flow.

Application received by Commissioner of Customs: May 24, 1967.

THOMAS Z. CORLESS,
Acting Director, Office of Scientific and Technical Equipment, Business and Defense Services Administration.

[F.R. Doc. 67-10180; Filed, Aug. 30, 1967; 8:45 a.m.]

UNIVERSITY OF PENNSYLVANIA, SCHOOL OF DENTAL MEDICINE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the office of Scientific and Technical Equipment, Department of Commerce, Room 5123, Washington, D.C. 20230.

Docket No. 67-00030-33-46040. Applicant: University of Pennsylvania, School of Dental Medicine, 4001 Spruce Street, Philadelphia, Pa. 19104. Article: Electron Microscope, Model Norelco EM-300. Manufacturer: Philips Electronic Instrument Co., The Netherlands. Intended use of article: This article is required to continue and expand work being presently carried out in the field or periodontology and related aspects of oral biology. Studies include investigation of normal fine structure of periodontal tissues and will be expanded to cover pathologically created alternations. Both soft and mineralized tissues will be examined.

Comments: Comments were received from one domestic manufacturer, Radio Corporation of America (RCA) which alleges inter alia that "The RCA model EMU-4 Electron Microscope with the following accessories (Cold and Anti-contamination Stage and Low Magnification Projector Pole Piece) is of equivalent scientific value to the instrument for which the instrument is intended to be used." Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used, is being manufactured in the United States. Reasons: (1) The foreign article provides a guaranteed resolution of 5 Angstroms (specification sheet for Norelco, model EM-300 attached to application), whereas the RCA model EMU-4 provides a guaranteed resolution of 8 Angstroms (par. (4) of RCA comments). (The lower the numerical rating in terms of Angstroms the better the resolving power.) The theoretical resolving power of the foreign article and the domestic instrument are not pertinent because these are obtained under certain restrictive conditions. Only the day-to-day operational characteristics under conditions customarily encountered in a laboratory are considered pertinent. We are advised by the National Bureau of Standards (memorandum dated July 27, 1967), that in view of the applicant's objective to extend observations to the finest structure observable, the greater resolving power of the foreign article is pertinent. (2) In dark field studies of dental tissue for which the applicant intends to use the foreign article, the beam tilt device for allowing high resolutions to be achieved is a pertinent characteristic.

We are advised by the National Institutes of Health (memorandum dated June 27, 1967), that the foreign article has a more accurate beam tilt with a much wider angle than the RCA Model EMU-4. For the foregoing reasons, we find that the RCA model EMU-4 is not of equivalent scientific value to the foreign article for the purposes for which such article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used, which is being manufactured in the United States.

THOMAS Z. CORLESS,
Acting Director, Office of Scientific and Technical Equipment, Business and Defense Services Administration.

[F.R. Doc. 67-10181; Filed, Aug. 30, 1967; 8:45 a.m.]

VETERANS ADMINISTRATION HOSPITAL

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Scientific and Technical Equipment, Department of Commerce, Room 5123, Washington, D.C. 20230.

Docket No. 67-00024-33-46500. Applicant: Veterans Administration Hospital, 5901 East Seventh Street, Long Beach, Calif. 90804. Article: Microtome-Thermal Advance Ultramicrotome, model SIDEA "Om U2" Manufacturer: C. Reichert Optische Werke A. G., Austria. Intended use of article: Applicant states:

Prepare ultrathin single and serial sections continuously variable from 0 to 10,000 [Angstroms] by means of thermal advance for electron and light microscopy.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used, is being manufactured in the United States. Reasons: (1) We note that one domestic manufacturer, Ivan Sorvall, Inc. (Sorvall), offered an ultramicrotome in response to the applicant's invitation to bid. (See page 2 of letter from applicant dated May 9, 1967, which furnished additional information as part of the application.) The only known domestic instrument comparable to the foreign article is the Sorvall Model MT-2 described in the company's catalogue for the Sorvall "Porter-Blum" MT-1 and MT-2 Ultra-Microtomes, Ivan Sorvall, Inc., Norwalk, Conn., 1966. One of the applicant's reasons for rejecting the bid of Sorvall was that the domestic instrument is equipped only with a mechanical feed, whereas the foreign article employs a thermal feed (letter from applicant cited above, page 2). We are advised by the Department of Health, Education, and Welfare (HEW) that both theoretically and in actual practice the thermal advance mechanism gives superior performance over the mechanical advance method of cutting thin sections. (See memorandum from HEW dated June 26, 1967.) HEW further advises that the consistently higher quality of the thin sections obtained from thermal advance microtomes, in comparison with domestically manufactured mechanical advance ultramicrotomes, would be of substantially greater scientific value for uses identified by the applicant. (2) Another reason given by the applicant for rejecting the Sorvall bid, is that the cutting range of the domestic instrument is from 100 Angstroms (one Angstrom equals 1 one-hundred millionth of a centimeter) to 4 microns. (Letter from applicant cited above). The foreign article has a cutting range which is continuously variable from 1 Angstrom to 200 millimicrons. (See pages 6 and 7 of Catalogue describing the Reichert Model "Om U2" Ultra-Microtome, C. Reichert Optische Werke A.G., Vienna, Austria, 1966.) The minimum specification for the cutting range (referred to as the "thin-sectioning capability" of the ultramicrotome) is pertinent because the thinner the cross section of the specimen the more it is possible to take full advantage of the resolving power and other capabilities of the electron microscope for which the specimens are being prepared.

For the foregoing reasons, we find that the Sorvall Model MT-2 ultramicrotome is not of equivalent scientific value to the foreign article for the purposes for which such article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article for the purposes for which such article is intended to be used, which is being manufactured in the United States.

THOMAS Z. CORLESS,
Acting Director, Office of Scientific and Technical Equipment, Business and Defense Services Administration.

UNIVERSITY OF WASHINGTON PURCHASING DEPARTMENT

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Scientific and Technical Equipment, Department of Commerce, Room 5123, Washington, D.C. 20230.

Docket No.: 67-00074-00-46040. Applicant: University of Washington, Purchasing Department, 9917 University Way NE., Seattle, Wash. 98105. Article: Beam Deflecting attachment, model JEM-ABD. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan. Intended use of article: The beam deflecting attachment will be used to obtain high resolution dark field images when used in conjunction with a JEM-7 electron microscope. The electron microscope will be used for scientific and research purposes in connection with the Department of Mineral Engineering of the University of Washington. Comments: No comments were received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purpose for which such article is intended to be used, is being manufactured in the United States. Reasons: The article is an accessory to a JEM-7 electron microscope, which is manufactured only by the manufacturer of the electron microscope. The National Bureau of Standards advises (memorandum dated July 12, 1967), that similar accessories made for other than the JEM-7 electron microscope are not interchangeable with the foreign article. We know of no domestic manufacturer which makes an accessory such as the foreign article, which is designed to fit the JEM-7 electron microscope.

THOMAS Z. CORLESS,
Acting Director, Office of Scientific and Technical Equipment, Business and Defense Services Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

MOBIL CHEMICAL CO.

Notice of Filing of Petition Regarding Pesticides

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 8F0633) has been filed by Mobil Chemical Co., 150 East 42d Street, New York, N.Y. 10017, proposing the establishment of tolerances for combined residues of the insecticide 4-benzothienyl *N*-methyl carbamate and its metabolite 4-hydroxybenzothiophene, calculated as the insecticide, in or on corn in ear form, corn fodder and forage, and cottonseed at 0.1 part per million.

The analytical methods proposed in the petition are (1) methods based on hydrolysis to yield 4-hydroxybenzothiophene that is coupled with *p*-nitrobenzenediasonium fluoborate and determined spectrophotometrically at 530 millimicrons, and (2) a microcoulometric gas chromatographic technique with a sulfur titration cell.

Dated: August 23, 1967.

J. K. KIRK,
Associate Commissioner for Compliance.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-302, 50-303]

FLORIDA POWER CORP.

Notice of Receipt of Application for Construction Permits and Facility Licenses

Florida Power Corp., 101 Fifth Street South, Post Office Box 14042, St. Petersburg, Fla. 33733, has filed an application, dated August 8, 1967, pursuant to section 104(b) of the Atomic Energy Act of 1954, as amended, for authorization to construct and operate two pressurized water nuclear power reactors at its site on the Gulf of Mexico, 70 miles north of Tampa, Fla., and 7½ miles northwest of Crystal River, Citrus County, Fla.

The proposed nuclear power plants, designated by the applicant as the Crystal River Units 3 and 4 Nuclear Generating Plant, are each designed for initial operation at approximately 2452 megawatts thermal with a gross electrical output of approximately 855 megawatts.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 24th day of August, 1967.

For the Atomic Energy Commission.

D. J. SKOVHOLT,
Acting Director, Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 18611; Order No. E-25602]

WINGS & WHEELS EXPRESS, INC., AND AIR EXPRESS INTERNATIONAL CORP.

Application for Approval of Control and Interlocking Relationships; Order Granting Tentative Approval

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 25th day of August 1967.

By joint application filed June 1, 1967, as amended July 28, 1967, Wings & Wheels Express, Inc., and Air Express International Corp. (AEI) request the Board to approve, without a hearing, pursuant to section 408(b) of the Federal Aviation Act of 1958, as amended (the Act), the acquisition, by a wholly owned subsidiary of Wings & Wheels,[1] of all the assets and business of AEI, subject to all its liabilities. Approval is also requested, pursuant to section 409 of the Act, of the following interlocking relationships of various individuals with the corporate applicants and their subsidiaries.

Name	Wings and Wheels	Burroway[1]	AEI
E. L. Richter	President, Treas.	Same	Same.
A. F. Bettel	Director		Director.

[1] Burroway is a passenger travel agency. Control and interlocking relationships between it and Wings and Wheels were approved by Order E-18615, July 19, 1962, Docket 13808.

[1] The name of this subsidiary will be Air Express International Corp. To avoid confusion, at the AEI stockholders meeting at which a vote will be taken on the subject agreement, the stockholders also will be asked to vote to change AEI's name to Air Shipping, Inc.

AEI owns the following subsidiaries:

	Activity
Air Express International Agency (France)	IATA agent.
Air Express International Enterprises, Ltd.	Holding Co.
Air Express International (HK), Ltd.	IATA agent.
Air Express International, G.m.b.H.	IATA agent.
Air Express International (Belgium), S.A.	IATA agent.
Air Express International Agency, Inc.	IATA agent.
Surface Freight Corp.	Shippers agent.
AEI Travel Service, Inc.	Travel agency.

Control and interlocking relationships involving AEI and the five IATA cargo sales agents and the travel agency were approved in Order E-21931, March 22, 1965. Jurisdiction was not asserted over AEI Enterprises, Ltd., since its only function is to hold the stock of AEI (HK), Ltd. Finally, Surface Freight Corp. as a shippers agent is not engaged in activities which make the company subject to sections 408 or 409 of the Act; therefore jurisdiction will not be asserted over that company.

Wings & Wheels holds domestic air freight forwarder authority while AEI holds both domestic and international air freight forwarder authorizations.

The "Reorganization Agreement and Plan" submitted by the applicants provides that the stockholders of Wings & Wheels and AEI agree that the former will establish a wholly owned corporate subsidiary and issue to it the amount of Wings & Wheels stock necessary to complete the transaction. The subsidiary will acquire all the assets and liabilities of AEI in exchange for Wings & Wheels stock it holds. AEI will be dissolved and the Wings & Wheels stock held by it will be distributed to its stockholders on surrender of their AEI stock. The ratio of exchange for each of the various classes of AEI securities is five shares of common for three shares of Wings & Wheels common, share for share of the preferred stock of each company and assumption by the subsidiary of the debt represented by AEI's outstanding notes and convertible debentures, with eventual conversion of the latter into Wings & Wheels' common stock at the same five for three ratio.

AEI will surrender for cancellation its domestic air freight forwarder authority. As a result of the transaction, the international authority now in the name of AEI, will be surrendered and Wings & Wheels' subsidiary will apply for international air freight forwarder authority.

Applicants stated that, as the Board noted in its previous order authorizing management control by Wings & Wheels, AEI is in a serious financial plight.[1] According to the applicants, the acquisition will result in a company which is better financed and able than is AEI to operate as an international air freight forwarder. Thus, applicants contend the public interest will not be adversely affected. Finally, it is contended that no other air carrier will be injured and that the transaction will not create a monopoly of restrain competition.

[1] Order E-24826, Mar. 7, 1967, Docket 18170.

No adverse comments or requests for a hearing have been filed with the Board.

Upon consideration of the application, we find that the applicants are both air carriers within the meaning of section 408 of the Act and that the acquisition of control of AEI by Wings & Wheels is subject to that section. The Board has concluded tentatively that such acquisition does not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, does not result in creating a monopoly and does not tend to restrain competition. No person disclosing a substantial interest in this proceeding is currently requesting a hearing, and it is concluded that the public interest does not require a hearing.

The acquisition should result in the establishment of an international air freight forwarder better financed than is AEI. This should benefit the shipping public by making available improved service.

Therefore, the Board tentatively finds that the transaction should be approved without hearing under the provisions of section 408(b) of the Act. In accordance herewith, this order, constituting notice of the Board's tentative findings and conclusions, will be published in the FEDERAL REGISTER and interested persons will be afforded an opportunity to file comments or request a hearing on the Board's tentative decision.[2]

We also find that the interlocking relationships within the scope of section 409(a) of the Act will result from the transaction described herein. However, upon final approval of the acquisition, such relationships would come within the scope of the exemption from section 409 afforded by section 287.2 of the Board's Economic Regulations. Thus, to the extent that the application requests approval of such relationships, it will be dismissed.

Accordingly, it is ordered:

1. That interested parties are hereby afforded a period of 10 days within which to file comments or request a hearing with respect to the Board's proposed action on the application in Docket 18611; [2] and

2. That the Attorney General of the United States be furnished a copy of this order within 1 day of its publication.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

[F.R. Doc. 67-10241; Filed, Aug. 30, 1967; 8:50 a.m.]

[1] The exemption granted to Wings & Wheels by Order E-24825 will continue in force pending final order in this proceeding.

[2] Such comments shall conform to the Board's rules of practice for the filing of comments. Since an opportunity is afforded for the filing of comments, petitions for reconsideration of this order will not be entertained.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 124]

JOHN C. RODGERS & CO., INC.

Revocation of License

Whereas, John C. Rodgers & Co., Inc., 500 Walnut Street, Philadelphia, Pa. 19106, has ceased to operate as an independent ocean freight forwarder; and

Whereas, John C. Rodgers & Co., Inc., has returned its Independent Ocean Freight Forwarder License No. 124 to the Commission for cancellation.

Now, therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (revised), section 6.03;

It is ordered, That the Independent Ocean Freight Forwarder License No. 124 of John C. Rodgers & Co., Inc., be and is hereby revoked, effective August 23, 1967.

It is further ordered, That a copy of this order be published in the FEDERAL REGISTER and served on the licensee.

JOHN F. GILSON,
Deputy Director, Bureau of Domestic Regulation.

[F.R. Doc. 67-10247; Filed, Aug. 30, 1967; 8:50 a.m.]

AMERICAN & AUSTRALIAN STEAMSHIP LINE AND SEATRAIN LINES, INC.

Notice of Agreements Filed for Approval

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. Joseph Hodgson, Jr., Central Traffic Manager, Seatrain Lines, Inc., 986 River Road, Edgewater, N.J. 07020.

Agreement 9653, between the American & Australian Steamship Line and Seatrain Lines, Inc., establishes a through billing arrangement for the movement of general cargo from Puerto Rico to ports in Australia, including Tasmania, and the various South Seas Islands enumerated therein, with transshipment at the port of New York, N.Y., in accordance with the terms set forth in the agreement.

Dated: August 25, 1967.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Assistant Secretary.

[F.R. Doc. 67-10246; Filed, Aug. 30, 1967; 8:50 a.m.]

A/B ATLANTTRAFIK ET AL.

Notice of Agreements Filed for Approval

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the office of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed by:

Elmer C. Maddy, Esq., Kirlin, Campbell & Keating, 120 Broadway, New York, N.Y. 10005.

Agreement 9654, between A/B Atlanttrafik, Blue Star Line, Ltd., Columbus Line, Ellerman Lines, Ltd., and Port Lines, Ltd., provides for the pooling of all cargo carried by the parties in the range from Freemantle to Cairns, Australia (including Tasmania), to Gulf, Atlantic, and Great Lakes ports of the United States, Puerto Rico, Virgin Islands, Mexican Gulf, and Canadian Atlantic ports on the following basis: A/B Atlanttrafik, 23.2 percent; Blue Star, 24.6 percent; Columbus, 21 percent; Ellerman, 16.7 percent; and Port Line, 14.5 percent.

By the terms of the Agreement, it is the intention of all the lines to carry their proportionate shares in terms of "pool units" of 40 cubic feet each. Supplementing these objectives are appropriate provisions reflecting agreement (a) on penalties for over and undercarriage; (b) accounting; (c) sharing of expenses; (d) term of the agreement; and (e) withdrawals and admissions. The parties also intend that a committee, based in London, be established to supervise the operation of the pool, and that another "co-ordinating" committee be organized in Sydney to "co-ordinate

loading and discharging programmes to ensure that cargo forecasts are accurately matched to tonnage berthed with its most economic use."

Dated: August 25, 1967.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Assistant Secretary.

[812-2165]

STATE STREET INVESTMENT CORP.

Notice of Filing of Application for an Order Exemption From Sale by an Open-End Company of its Securities at Other Than the Public Offering Price

AUGUST 25, 1967.

Notice is hereby given that State Street Investment Corp. ("Applicant"), 225 Franklin Street, Boston, Mass. 02110, a Massachusetts corporation registered under the Investment Company Act of 1940 ("Act") as an open-end diversified management investment company, has filed an application pursuant to section 6(c) of the Act requesting an order of the Commission exempting from the provisions of section 22(d) of the Act a transaction in which Applicant's redeemable securities will be issued at a price other than the current public offering price in exchange for substantially all of the assets of Allmac, Inc. ("Allmac"). All interested persons are referred to the application on file with the Commission for a statement of Applicant's representations which are summarized below.

Allmac, an Oregon corporation, is a personal holding company all of whose outstanding stock is owned of record and beneficially by two individuals and is exempt from registration under the Act by reason of the provisions of section 3(c)(1) thereof. Pursuant to an agreement between Applicant and Allmac, assets owned by Allmac with a value of approximately $234,539 on July 24, 1967, will be transferred to Applicant in exchange for shares of its capital stock.

The number of shares of Applicant to be issued to Allmac is to be determined by dividing the aggregate market value (subject to certain adjustments set forth in the application) of the assets of Allmac to be transferred to Applicant by the net asset value (similarly adjusted of Applicant, both to be determined as of the valuation time) as defined in the agreement. If the valuation in the agreement had taken place on July 24, 1967, Allmac would have received 4,203 shares of Applicant's stock.

When received by Allmac, the shares of Applicant are to be distributed to the Allmac shareholders on the liquidation of Allmac. Applicant has been advised by the management of Allmac that the stockholders of Allmac do not have any present intention of redeeming or otherwise transferring the shares of Applicant to be received on such liquidation following the sale of assets transaction. Applicant does presently intend to sell a portion of the securities acquired from Allmac subsequent to their acquisition as set out in the application.

No affiliation exists between Allmac or its officers or directors and the agreement was negotiated at arm's-length by the two companies. The Board of Directors of Applicant approved the agreement as being in the best interests of its shareholders, taking all relevant considerations into account.

Section 22(d) of the Act provides that registered open-end investment companies may sell their shares only at the current public offering price as described in the prospectus. Section 6(c) permits the Commission, upon application, to exempt such a transaction if it finds that such an exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant contends that the proposed offering of its stock will comply with the provisions of the Act, other than section 22(d) and submits that the granting of the application would be in accordance with established practice of the Commission, is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than September 13, 1967, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 67-10210; Filed, Aug. 30, 1967; 8:47 a.m.]

[812-2168]

STAUFFER OVERSEAS CAPITAL CORP.

Notice of Filing of Application for Order Exempting Company From All Provisions of the Act

AUGUST 25, 1967.

Notice is hereby given that Stauffer Overseas Capital Corp. ("applicant"), 380 Madison Avenue, New York, N.Y. 10017, a Delaware corporation, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order exempting it from all provisions of the Act and the rules and regulations thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Applicant was organized by Stauffer Chemical Co. ("Stauffer") under the laws of the State of Delaware on June 30, 1967. All of the outstanding securities of applicant consists of 300,000 shares of common stock, par value $100 per share, of which 10 shares have been purchased for $1,000 and are held by Stauffer. The remaining authorized shares of common stock of applicant will be purchased by Stauffer from time to time for consideration consisting of such cash, securities or other property as may be necessary in order that applicant's equity capital will not be less than 20 percent of applicant's outstanding long-term debt at any time. All stock issued by applicant will be held by Stauffer and Stauffer may in the future make additional capital contributions to applicant. Stauffer will continue to own all the equity securities of applicant and will not dispose of them except to applicant itself.

Stauffer is a Delaware corporation, the principal business of which is the production and sale of chemicals and products based thereon.

Stauffer will use applicant to raise funds abroad for financing the expansion of Stauffer's foreign operations, which have been rapidly expanding in the past several years, while at the same time supporting the balance of payments position of the United States in compliance with the voluntary cooperation program instituted by the President in February 1965.

Initially applicant intends to issue its 6¼ percent notes ("notes") with a maturity of 5 years for the equivalent in foreign currency of about $5 million. Stauffer will guarantee the principal, interest payments and premiums, if any, on the notes. Any additional debt securities of applicant which may be issued to or held by the public will be guaranteed by Stauffer in a manner substantially similar to the guarantee of the notes. The notes will be purchased by a single buyer who as to the United States of America is a foreign corporation not engaged in trade or business within the United States of America or its territories or possessions and who will agree that it is not purchasing the notes for persons who are citizens, nationals or residents of the United States of America or its territories or possessions. The buyer will also agree that it will not transfer the notes, or any participation therein, to any such citizen, national or resident, and that it will obtain a similar agreement from any person to whom it transfers any of the notes.

Other debt securities may be issued by applicant from time to time as funds are required for investment in Stauffer's foreign operations, and such securities may be sold privately or publicly. If a public distribution is made through underwriters, the securities will not be sold to nationals, citizens or residents of the United States.

By financing these foreign operations through applicant rather than through the sale of its own debt obligations, Stauffer will utilize an instrumentality the acquisition of whose debt obligations by U.S. persons would generally subject such persons to the Interest Equalization Tax, thus discouraging them from purchasing such debt obligations. Counsel has advised applicant that U.S. persons will be required to report and pay Interest Equalization Tax with respect to the acquisition of applicant's debt securities.

It is intended that upon completion of the long-term investment of applicant's assets, substantially all of the assets of applicant (exclusive of U.S. Government securities and cash items) will be invested in or loaned to foreign companies (including U.S. companies all or substantially all of whose business is carried on abroad either directly or indirectly through foreign companies) which are primarily engaged in a business or businesses other than investing, reinvesting, owning, holding or trading in securities and which are, or upon the making of such investments will be (1) majority owned subsidiaries of Stauffer within the meaning of section 2(a)(23) of the Act, (2) companies under Stauffer's control within the meaning of section 2(a)(9) of the Act, or (3) companies which are engaged in a business related to the business of Stauffer, in which Stauffer or applicant owns, directly or indirectly, an equity interest of 15 percent or more. Applicant will proceed as expeditiously as possible with the long-term investment of its assets in the manner described above, will not acquire securities for the purpose of resale and will not trade in securities. Pending such investment, and from time to time thereafter in connection with changes in long-term investments, applicant will invest temporarily in debt obligations (including time deposits) of foreign governments, foreign financial institutions (including foreign branches of United States financial institutions) and foreign subsidiaries of Stauffer, payable in U.S. dollars or other currencies and in each case maturing in 1 year or less from the date of acquisition.

Applicant submits that it is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Act for the Commission to enter an order exempting applicant from each and every provision of the Act for the following reasons: (1) A principal purpose of applicant is to assist in improving the balance of payments program of the United States by serving as a vehicle through which Stauffer may obtain funds in foreign countries for its foreign operations; (2) the public policy underlying the Act is not applicable to applicant and the security holders of applicant do not require the protection of the Act, because the payment of the notes, which is guaranteed by Stauffer, does not depend on the operations or investment policy of applicant, for the noteholders may ultimately look to the business enterprise of Stauffer (which has net assets in excess of $230 million) rather than solely to that of applicant; (3) none of the securities other than debt securities of applicant will be held by any person other than Stauffer or a fully owned subsidiary of Stauffer; (4) applicant will not deal or trade in securities; (5) the notes will be offered and sold abroad to foreign nationals under circumstances designed to prevent the sale in the United States, its territories or to nationals or residents thereof; and (6) the burden of the interest equalization tax will tend to discourage purchase of the notes by any U.S. person.

Notice is further given that any interested person may, not later than September 14, 1967, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and

the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F.R. Doc. 67-10211; Filed, Aug. 30, 1967; 8:47 a.m.]

FEDERAL POWER COMMISSION

[Docket Nos. G-3894, etc.]

ATLANTIC RICHFIELD CO. ET AL.

Findings and Orders After Statutory Hearing

AUGUST 2, 1967.

Findings and orders after statutory hearing issuing certificates of public convenience and necessity, dismissing application, amending certificates, permitting and approving abandonment of service, terminating certificates, substituting respondents, redesignating proceedings, accepting agreement and undertaking for filing and accepting related rate schedules and supplements for filing.

Each of the Applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce, for permission and approval to abandon service, or a petition to amend an existing certificate authorization, all as more fully described in the respective applications and petitions (and any supplements or amendments thereto) which are on file with the Commission.

The Applicants herein have filed related FPC gas rate schedules and propose to initiate or abandon, add or delete natural gas service in interstate commerce as indicated by the tabulation herein. All sales certificated herein are at rates either equal to or below the ceiling prices established by the Commission's statement of general policy No. 61-1, as amended, or involve sales for which permanent certificates have been previously issued; except that the sale from the Permian Basin area of Texas is authorized to be made at the applicable area base rate and under the conditions prescribed in Opinion Nos. 468 and 468-A.

Catherine B. McElvain et al., propose to continue sales of natural gas heretofore authorized to be made by T. H. McElvain, T. H. McElvain et al., T. H. McElvain (Operator) et al., the estate of T. H. McElvain, and the estate of T. H. McElvain et al. The FPC gas rate schedules of the predecessors in interest will be redesignated as those of Catherine B. McElvain et al. The presently effective rates under certain of the predecessors' rate schedules are in effect subject to refund in the following proceedings:

Certificate docket No.	Predecessors' FPC gas rate schedule No.	Rate proceeding docket No.
G-4887	1	RI67-170
G-13343	2	RI67-171
G-17871	3, 4, 5, 6	RI67-166
CI62-1474	8	RI67-168
CI62-448	9	RI67-165
CI62-650	10	RI67-166
CI63-882	11	RI67-165
CI63-919	12	RI67-167
CI63-961	13	RI67-167

Catherine B. McElvain et al., will be substituted as respondents in each of the predecessors' rate proceedings and the proceedings will be redesignated accordingly. Catherine B. McElvain et al., have heretofore submitted agreements and undertakings in the rate proceedings to assure the refunds of all amounts collected in excess of the amounts determined to be just and reasonable in said proceedings, and said agreements and undertakings have been accepted for filing.

Charles F. Sheldon et al., Applicants in Docket No. CI66-947, propose to continue the sale of natural gas heretofore authorized in said docket to be made pursuant to C. J. Fowlston et al., FPC Gas Rate Schedule No. 1. Said rate schedule will be redesignated as that of Applicants. The presently effective rate under said rate schedule is in effect subject to refund in Docket No. RI66-359. Applicants have indicated in their certificate application that they intend to be liable for the total refund obligation from the date that the increased rate of their assignors became effective subject to refund and have submitted an agreement and undertaking to assure the refund of all amounts collected in excess of the amount determined to be just and reasonable in Docket No. RI66-359. Therefore, Applicants will be substituted in lieu of C. J. Fowlston et al., as respondents in the proceeding pending in Docket No. RI66-359, said proceeding will be redesignated accordingly, and the agreement and undertaking will be accepted for filing.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice, no petitions to intervene, notices of intervention, or protests to the granting of any of the respective applications or petitions in this order have been received.

At a hearing held on July 27, 1967, the Commission on its own motion received and made a part of the record in these proceedings all evidence, including the applications, amendments and exhibits thereto, submitted in support of the respective authorizations sought herein, and upon consideration of the record.

The Commission finds:

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will therefore, be a "natural-gas company" within the meaning of said Act upon the commencement of the service under the respective authorizations granted hereinafter.

(2) The sales of natural gas hereinbefore described, as more fully described in the respective applications, amendments and/or supplements herein, will be made in interstate commerce, subject to the jurisdiction of the Commission, and such sales by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) The respective Applicants are able and willing properly to do the acts and to perform the services proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission thereunder.

(4) The sales of natural gas by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity and certificates therefore should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the application filed on March 29, 1967, in Docket No. CI65-269, by Great American Minerals Corp. (Operator) et al., to succeed Worth Exploration Co. should be dismissed as moot.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the certificate authorizations heretofore issued by the Commission in the following dockets should be amended as hereinafter ordered and conditioned:

G-3894	CI61-1674	CI63-804
G-4887	CI62-34	CI65-919
G-11957	CI62-445	CI62-961
G-12005	CI62-860	CI65-2
G-13216	CI62-732	CI65-269
G-13345	CI62-754	CI65-828
G-14964	CI62-787	CI66-1335
G-16393	CI62-853	CI65-853
G-17811	CI62-1311	CI66-947
G-20877	CI63-30	CI67-91
CI60-750	CI63-307	CI67-605
CI61-1503	CI63-552	CI67-1104

(7) The sales of natural gas proposed to be abandoned by the respective Applicants, as hereinbefore described, all as more fully described in the respective applications and in the tabulation herein, are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act, and such abandonments should be permitted and approved as hereinafter ordered.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates of public convenience and necessity heretofore issued to the respective Applicants relating to the abandonments hereinafter permitted and approved should be terminated.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Catherine B. McElvain et al. should be substituted as respondents in the proceedings pending in Docket Nos. RI67-165, RI67-166, RI67-167, RI67-170, and RI67-171, and said proceedings should be redesignated accordingly.

(10) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Charles F. Sheldon et al. should be substituted as respondents in the proceeding pending in Docket No. RI66-359, that said proceeding should be redesignated accordingly, and that the agreement and undertaking submitted by them in said proceeding should be accepted for filing.

(11) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the respective related rate schedules and supplements as designated in the tabulation herein should be accepted for filing as hereinafter ordered.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order, authorizing the sales by the respective Applicants herein of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary for such sales, all as hereinbefore described and as more fully described in the respective applications, amendments, supplements and exhibits in this proceeding.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's Regulations thereunder, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against the respective Applicants. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the respective contracts particularly as to the cessation of service upon termination of said contracts, as provided by section 7(b) of the Natural Gas Act. Nor shall the grant of the certificates aforesaid be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The grant of the certificates issued herein on all applications filed after April 15, 1965, is upon the condition that no increase in rate which would exceed the ceiling prescribed for the given area by paragraph (d) of the Commission's statement of general policy No. 61-1, as amended, shall be filed prior to the applicable date, as indicated by footnote 20 in the attached tabulation.

(E) The initial rate for the sale authorized in Docket No. G-3894 shall be the applicable base area rate prescribed in Opinion No. 468, as modified by Opinion No. 468-A, as adjusted for quality, or the contract rate, whichever is lower; and no increase in rate in excess of said initial rate shall be filed before January 1, 1968.

(F) If the quality of the gas delivered by Applicant in Docket No. G-3894 deviates at any time from the quality standards set forth in Opinion No. 468, as modified by Opinion No. 468-A, so as to require a downward adjustment of the existing rate, a notice of change in rate shall be filed pursuant to the provisions of section 4 of the Natural Gas Act: *Provided, however,* That adjustments reflecting changes in B.t.u. content of the gas shall be computed by the applicable formula and charged without the filing of a notice of change in rate.

(G) Within 90 days from the date of initial delivery Applicant in Docket No. G-3894 shall file a rate schedule quality statement in the form prescribed in Opinion No. 468-A.

(H) The certificates issued herein in Docket Nos. CI67-1650 and CI67-1693 are subject to the following conditions:

(1) It is the express understanding of all parties involved in the subject sale that the pricing provisions of the contract covering said sale are intended to be consistent, and not in conflict, with the provisions of section 154.93 of the regulations under the Natural Gas Act, and in particular with paragraph (b-1) of said section, which paragraph was added by the Commission's Order No. 329, issued December 1, 1966, in Docket No. R-296, and reads as follows:

Section 154.93 Rate schedule defined. * * * the permissible provisions for a change in rate are: * * * (b-1) Provisions that permit a change in price to the applicable just and reasonable area ceiling rate which has been, or which may be, prescribed by the Commission for the quality of the gas involved; and

(2) The initial rate for the sale authorized in Docket No. CI67-1693 shall not exceed 15 cents per Mcf at 14.65 p.s.i.a. adjusted for B.t.u. content of the gas as provided for in the contract.

(3) In the event the Commission, by amendment of its policy statement No. 61-1, adjusts the boundary between the Panhandle area and the "Other" Oklahoma area so as to increase the initial wellhead price for new gas in the area of the sale involved herein, Applicant in Docket No. CI67-1693 may thereupon substitute the new rate reflecting the amount of such increase and thereafter collect the new rate prospectively in lieu of the initial rate herein required.

(I) The acceptance for filing of the related rate filing in Docket No. CI67-1744 is contingent upon Applicant's filing three copies of a billing statement as required by the regulations under the Natural Gas Act.

(J) Applicant in Docket No. CI67-1766 shall file a billing statement for the first month's service.

(K) Certificates are issued herein in Docket Nos. CI67-1066 and CI67-1446 authorizing the respective Applicants to continue the sales of natural gas being rendered on June 7, 1954, by the predecessors.

(L) A certificate is issued herein in Docket No. CI67-1643 authorizing Applicant to continue the sale of natural gas being rendered on June 7, 1954.

(M) Certificates are issued herein in Docket Nos. CI67-1569, CI67-1570, and CI67-1571 authorizing the respective Applicants to continue the sales of natural gas which were initiated without prior Commission authorization by the predecessors.

(N) The application filed on March 29, 1967, in Docket No. CI65-269, by Great American Minerals Corp. (Operator) et al., to succeed Worth Exploration Co. is dismissed as moot.

(O) The certificates heretofore issued in Docket Nos. G-3894, G-11957, G-12005, G-13216, G-16393, CI63-30, CI65-2, CI65-828, CI66-853, and CI67-1104 are amended by adding thereto or deleting therefrom authorization to sell natural gas to the same purchasers and in the same areas as covered by the original authorizations pursuant to the rate schedule supplements as indicated in the tabulation herein.

(P) The certificates heretofore issued in Docket Nos. CI63-30 and CI67-605 are amended by deleting therefrom authorization to sell natural gas from acreage assigned to Applicants in Docket Nos. CI65-2 and CI67-1740.

(Q) The certificates heretofore issued in Docket Nos. G–6937, G–13345, G–14664, G–17811, G–20377, CI60–750, CI61–1503, CI61–1974, CI62–34, CI62–446, CI62–656, CI62–739, CI62–754, CI62–787, CI62–882, CI62–1311, CI63–207, CI63–562, CI63–894, CI63–919, CI63–961, CI65–268, CI65–1332, CI66–947, and CI67–91 are amended by changing the certificate holders to the respective successors in interest as indicated in the tabulation herein.

(R) Permission for and approval of the abandonment of service by the respective Applicants, as hereinbefore described, all as more fully described in the respective applications and in the tabulation herein are granted.

(S) Permission for and approval of the abandonment in Docket No. CI67–1756 shall not be construed to relieve Applicant of any refund obligation which may be ordered in the rate suspension proceeding pending in Docket No. RI65–174.

(T) The certificates heretofore issued in Docket Nos. G–8402, G–12686, G–19034, CI60–566, CI61–476, CI61–1735, CI62–1245, CI64–1558, and CI65–452 are terminated.

(U) Catherine B. McElvain et al., are substituted as respondents in the proceedings pending in Docket Nos. RI67–165, RI67–166, RI67–167, RI67–170, and RI67–171, and said proceedings are redesignated accordingly [1].

(V) Catherine B. McElvain et al., shall comply with the refunding and reporting procedure required by the Natural Gas Act and section 154.102 of the regulations thereunder, and the agreements and undertakings filed by them in Docket Nos. RI67–165, RI67–166, RI67–167, RI67–170, and RI67–171 shall remain in full force and effect until discharged by the Commission.

(W) Charles F. Sheldon et al., are substituted in lieu of C. J. Fowlston et al., as respondents in the proceeding pending in Docket No. RI66–359, said proceeding is redesignated accordingly,[2] and the agreement and undertaking submitted by them in said proceeding is accepted for filing.

(X) Charles F. Sheldon et al., shall comply with the refunding and reporting procedure required by the Natural Gas Act and section 154.102 of the regulations thereunder, and the agreement and undertaking filed by them in Docket No. RI66–359 shall remain in full force and effect until discharged by the Commission.

(Y) The respective related rate schedules and supplements as indicated in the tabulation herein are accepted for filing; further, the rate schedules relating to the successions herein are accepted and redesignated, subject to the applicable Commission regulations under the Natural Gas Act to be effective on the dates as indicated in the tabulation herein.

By the Commission.

[SEAL] GORDON M. GRANT, *Secretary*.

[Docket No. CP68-55]

NORTHERN NATURAL GAS CO.

Notice of Application

AUGUST 23, 1967.

Take notice that on August 16, 1967, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, Nebr. 68102, filed in Docket No. CP68-55 an application pursuant to subsection (b) of section 7 of the Natural Gas Act for permission and approval of the Commission to abandon certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks permission and approval to abandon the following natural gas facilities:

(1) A sales measuring station and appurtenances, located in Saunders County, Nebr., which was used for delivery of natural gas to Western Power & Gas Co. (Western) for resale and delivery to Gifford Mining Co. (Gifford); and

(2) A sales measuring station and appurtenances, located near the town of Owatonna, Steele County, Minn., used for the sale and delivery of natural gas to rural customers.

Applicant states that the facilities described in (1) above are no longer needed as Gifford has moved its plant to another location and the facilities were used solely for service to Gifford at this location. Applicant further states that the facilities described in (2) above are also no longer needed as the service rendered through them to the above-mentioned facilities is now rendered from the Owatonna, Minn., distribution system.

Applicant estimates the total cost of removing the facilities proposed to be abandoned at approximately $65.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before September 21, 1967.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 1100]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

AUGUST 25, 1967.

The following applications are governed by Special Rule 1.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with § 1.247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of § 1.247(d)(4) of the special rule, and shall include the certification required therein.

Section 1.247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's General Policy Statement Concerning Motor Carrier Licensing Procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record.

The publications hereinafter set forth reflect the scope of the applications as filed by applicants, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 3252 (Sub-No. 43) (Amendment), filed July 31, 1967, published FEDERAL REGISTER issue of August 17, 1967, and republished as amended this issue. Applicant: PAUL E. MERRILL, doing business as MERRILL TRANSPORT CO., 1037 Forest Avenue, Portland, Maine. Applicant's representative: Francis E. Barrett, Jr., Investors Building, 536 Granite Street, Braintree, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber stock*, from points in Maine, to points in New York, New Jersey, Pennsylvania, Delaware, Maryland, North Carolina, Virginia, Indiana, Kentucky, Ohio, and Michigan. NOTE: The purpose of this republication is to add the phrase "from points in Maine" in lieu of Portland and Fryeburg, Maine, as origin points. If a hearing is deemed necessary, applicant requests it be held at Portland, Maine, or Boston, Mass.

No. MC 3560 (Sub-No. 31), filed August 10, 1967. Applicant: GENERAL EXPRESSWAYS, INC., 1205 South Platte River Drive, Denver, Colo. 80223. Applicant's representative: Kenneth A. Willhite (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Rock Island, Ill., and St. Louis, Mo., from Rock Island, Ill., over U.S. Highway 67 to St. Louis, Mo., and return over the same route, serving no intermediate points, as an alternate route for operating convenience only. NOTE: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or St. Louis, Mo.

No. MC 3874 (Sub-No. 13), filed August 14, 1967. Applicant: L. C. CORP., doing business as GREY LINES, 26 Webber Street, Roxbury, Mass. 02119. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printed matter*, from Boston, Mass., to points in Rhode Island, Maine, New Hampshire, and Vermont, restricted to traffic having a prior movement by motor or rail carrier. NOTE: Applicant states it now holds authority to transport "printed matter" from Lowell, Mass., to the destination States named above and is participating in shipments of said commodities received from other motor and rail carriers at Lowell, Mass., and transported by applicant to the named destination States. Applicant further states the purpose of this application is to change the point of receipt of said shipments from Lowell to Boston, Mass. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 7523 (Sub-No. 13), filed August 15, 1967. Applicant: VENTURA TRANSFER COMPANY, a corporation, 3440 East South Street, Long Beach, Calif. Applicant's representative: Phil Jacobson, 510 West Sixth Street, Los Angeles, Calif. 90014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals dry and plastics*, in bulk, in motor vehicles, (1) from rail sidings located in California and ports of entry on the international boundary line between the United States and Mexico to points in California, and (2) from points in California to ports of entry on the international boundary line, located in California between the United States and Mexico. NOTE: If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 7558 (Sub-No. 57), filed August 14, 1967. Applicant: TEXTILE MOTOR FREIGHT, INC., Post Office Box 7, Ellerbe, N.C. 28338. Applicant's representative: Jacob P. Billig, 1108 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* dealt in by wholesale and retail grocery stores, except frozen foods, from Brockport, N.Y., to points in North Carolina, South Carolina, Georgia, Alabama, and Florida. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 11899 (Sub-No. 20), filed August 16, 1967. Applicant: STEVENS TRUCK LINES, INC., 893 Ridge Road, Webster, N.Y. 14580. Applicant's representative: Raymond A. Richards, 23 West Main Street, Webster, N.Y. 14580. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers, bottles, jars, packing glasses, and jelly tumblers; caps, covers, stoppers, and tops; corrugated paper boxes, and paper containers*, from the facilities of Anchor Hocking Glass Corp. at Salem, N.J., Scottdale, Pa., Youngwood, Pa., and points in Fayette County, Pa., including Connellsville, Pa., and South Connellsville, Pa., to points in New York on and west of a line beginning at the Pennsylvania-New York border and extending north on U.S. Highway 11 to Binghamton, thence over New York Highway 12 to the St. Lawrence River, and *refused or rejected shipments*, on salvage. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 13851 (Sub-No. 18), filed August 14, 1967. Applicant: PROVILES TRANSFER, INC., 811 South 30th Avenue, Phoenix, Ariz. 85009. Applicant's representative: A. Michael Bernstein, 1327 Guaranty Bank Building, Phoenix, Ariz. 85013. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers* for packing fruits and vegetables, between points in Ventura, Los Angeles, Orange, San Bernardino, and Riverside Counties, Calif., on the one hand, and, on the other, points in New Mexico. NOTE: If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz., or Los Angeles, Calif.

No. MC 16511 (Sub-No. 26), filed August 17, 1967. Applicant: CARSTENSEN FREIGHT LINES, INC., Post Office Box 878, Clinton, Iowa 52732. Applicant's representative: Arnold L. Burke, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, classes A and B explosives, commodities in bulk, household goods as defined by the Commission, commodities requiring special equipment and those injurious or contaminating to other lading), serving the Argonne Industrial District, Du Page Township, Will County, Ill., as an off-route point in connection with applicant's presently held authority regular route authority. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 20227 (Sub-No. 5), filed August 16, 1967. Applicant: ERIE-PITTSBURGH MOTOR EXPRESS, INC., 859 Progress Street, Pittsburgh, Pa. 15212. Applicant's representative: John A. Vuono, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Kebert Park, Greenwood Township, Crawford County, Pa., as an off-route points in connection with applicant's regular route operations to and from Meadville, Pa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Harrisburg, Pa.

No. MC 25869 (Sub-No. 77), filed August 18, 1967. Applicant: NOLTE BROS. TRUCK LINE, INC., Post Office Box 7184, South Omaha, Nebr. Applicant's representative: Donald L. Stern, 630 City National Bank Building, Omaha, Nebr. 68102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, dairy products, and articles distributed by meat packinghouses*, as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Mankato, Kans., to points in Iowa, Wisconsin, Illinois, Indiana, Ohio, and Michigan. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kansas City, Mo.

No. MC 27817 (Sub-No. 73) (Clarification), filed July 10, 1967, published FEDERAL REGISTER issue July 20, 1967, and republished as clarified, this issue. Applicant: H. C. GABLER, INC., Rural Delivery No. 3, Chambersburg, Pa. 17201. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, other than frozen, from Chambersburg, Pa., to points in New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Maryland, Virginia, West Virginia, Delaware, District of Columbia, and points in that portion of North Carolina bounded by a line beginning at the North Carolina-Virginia State line and extending south along U.S. Highway 301 to the North Carolina-South Carolina State line, thence west along the North Carolina-South Carolina State line to junction U.S. Highway 321, near Crowders, N.C., thence north along U.S. Highway 321 to Boone, N.C., thence north along North Carolina Highway 194 through Todd, N.C., to junction U.S. Highway 221, thence north along U.S. Highway 221 to the North Carolina-Virginia State line, thence east along the North Carolina-Virginia State line to the point of beginning including points on the indicated portions of the highways specified. NOTE: Common control may be involved. The purpose of this republication is to add "including points on the indicated portions of the highways specified," to the route description, thereby clarifying the application. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Harrisburg, Pa.

No. MC 28900 (Sub-No. 7), filed August 16, 1967. Applicant: SEYMOUR TRANSFER LINES, INC., 140 East Wisconsin Avenue, Seymour, Wis. 54165. Applicant's representative: Claude J. Jasper, 111 South Fairchild Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) from its junction with Wisconsin Highway 110 near Butte des Morts, over Wisconsin Highway 110 to Omro, Wis., and (2) from Oshkosh, Wis., over U.S. Highway 41 to Green Bay, Wis., and return over the same route, as an alternate route for operating convenience only. NOTE: If a hearing is deemed necessary, applicant requests it be held at Madison or Milwaukee, Wis.

No. MC 31600 (Sub-No. 619), filed August 16, 1967. Applicant: P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, Mass. 02154. Applicant's representative: Harry C. Ames, Jr., 529 Transportation Building, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General*, from Wilmington, Mass., to points in Vermont. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 32641 (Sub-No. 67), filed August 18, 1967. Applicant: IML FREIGHT, INC., Post Office Box 2277, Salt Lake City, Utah 84110. Applicant's representative: Edward J. Hegarty, 100 Bush Street, 21st Floor, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those requiring armored vehicles or armed guards, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (1) between Winchester and Louisville, Ky.; from the plantsites and warehouses of Rockwell-Standard Corp. located at or near Winchester, over U.S. Highway 60 to junction Interstate Highway 64 (near Jett, Ky.); thence over Interstate Highway 64 to Louisville, and return over the same route, serving no intermediate points, and (2) between Winchester, Ky., and Cincinnati, Ohio; (a) from the plantsites and warehouses of Rockwell-Standard Corp. located at or near Winchester, over U.S. Highway 227 to Paris, Ky., thence over U.S. Highway 27 to Cincinnati, and return over the same route, serving no intermediate points, and (b) from Winchester over U.S. Highway 227 to junction Interstate Highway 75 (near Winchester, Ky.), thence over Interstate Highway 75 to Cincinnati, and return over the same route, serving no intermediate points. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 25628 (Sub-No. 230), filed August 17, 1967. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, a corporation, 134 Grandville, SW., Grand Rapids, Mich. 49502. Applicant's representative: J. M. Neath, Jr., 900, 1 Vandenberg Center, Grand Rapids, Mich. 49502. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, and commodities in bulk), (1) between Winchester and Louisville, Ky.; from the plantsites and warehouses of Rockwell-Standard Corp. located at or near Winchester over U.S. Highway 60 to Lexington, Ky., thence over U.S. Highway 421 to Frankfort, Ky., thence over U.S. Highway 60 to Louisville, and (2) between Winchester, Ky., and Cincinnati, Ohio; from the plantsites

[1] Copies of Special Rule 1.247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

and warehouses of Rockwell-Standard Corp. located at or near Winchester, over U.S. Highway 227 to Paris, Ky., thence over U.S. Highway 27 to Cincinnati, and return over the same routes, serving no intermediate points in (1) and (2) above. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Columbus, Ohio.

No. MC 51146 (Sub-No. 80), filed August 14, 1967. Applicant: SCHNEIDER TRANSPORT & STORAGE, INC., 817 McDonald Street, Green Bay, Wis. 54306. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers and metal container ends and accessories; and equipment used in connection with the distribution of metal containers and metal container ends* when moving with metal containers, (1) from Rockford, Ill., to points in Wisconsin, and (2) from Chicago, Ill., to points in Minnesota and Wisconsin. NOTE: Applicant states that the primary purpose of the instant application is not to allow tacking. This would be done only as an incidental part of operations if the need arises in the future. This could be done under many of applicant's pending and present subs. No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 52460 (Sub-No. 87), filed August 16, 1967. Applicant: HUGH BREEDING, INC., 1420 West 25th Street, Post Office Box 9515, Tulsa, Okla. 74107. Applicant's representative: Louis I. Dailey, 2111 Sterick Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products*, in containers, from Beaumont, Tex., to points in Mississippi, and (2) *empty containers*, from points in Mississippi to Port Arthur, Tex. NOTE: Applicant states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Dallas or Beaumont, Tex., Oklahoma City or Tulsa, Okla.

No. MC 60076 (Sub-No. 19), filed August 16, 1967. Applicant: V. P. WARNER & SON, INC., 706 Anthony Drive, Champaign, Ill. 61820. Applicant's representative: Charles R. Young, 500 Brosse Tower, Danville, Ill. 61832. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Portable classroom swimming training device* (trade name: Port-A-Pool), from Champaign, Ill., to points in the United States (except Alaska and Hawaii). NOTE: If a hearing is deemed necessary, applicant requests it be held at Springfield or Chicago, Ill.

No. MC 65380 (Sub-No. 14), filed August 14, 1967. Applicant: MUSHROOM TRANSPORTATION CO., INC., H Street and Hunting Park Avenue, Philadelphia, Pa. 19124. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), serving the plant and warehouse sites of Eastern Products Corp. located in Howard County, Md., at or near the junction of Maryland Highway 32 and U.S. Highway 29, as an off route point in connection with applicant's regular route authorities between Baltimore, Md., and Philadelphia, Pa., and between Baltimore, Md., and Buffalo, N.Y. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 71516 (Sub-No. 76) (Amendment), filed April 7, 1966, published FEDERAL REGISTER issue of April 28, 1966, amended August 14, 1967, and republished as amended this issue. Applicant: ALABAMA HIGHWAY EXPRESS, INC., 3300 Fifth Avenue South, Birmingham, Ala. Applicant's representative: Robert E. Tate, Suite 3025, City Federal Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Florida, on and north of Florida Highway 70, on the one hand, and, on the other, points in Indiana, Illinois, Ohio, Tennessee, and Georgia, and Louisville, Ky. NOTE: The purpose of this republication is to broaden scope of the application. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., Tampa, Fla., and Chicago, Ill.

No. MC 84212 (Sub-No. 31), filed July 25, 1967. Applicant: DORN'S TRANSPORTATION, INC., Railroad Avenue Extension, Albany, N.Y. 12205. Applicant's representative: Irving Klein, 280 Broadway, New York, N.Y. 10007. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Albany, N.Y., and Springfield, Mass., from Albany, N.Y., over the New York State Thruway to interchange with Massachusetts Turnpike, thence over the Massachusetts Turnpike to Springfield, Mass., and return over the same route, serving Pittsfield, Mass., as an off-route point. NOTE: If a hearing is deemed necessary, applicant requests it to be held at Albany or New York, N.Y., or Washington, D.C.

No. MC 95540 (Sub-No. 706), filed August 14, 1967. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, Fla. 33801. Applicant's representative: Hoyt Starr (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Textiles and textile products*, from points in North Carolina, South Carolina, and Georgia to points in Texas and Oklahoma. NOTE: If a hearing is deemed necessary, applicant requests it to be held at Atlanta, Ga., Dallas, Tex., and Charlotte, N.C.

No. MC 95540 (Sub-No. 707), filed August 14, 1967. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, Fla. 33801. Applicant's representative: Hoyt Starr (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, and meat byproducts* as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Friona, Tex., and points within 5 miles thereof, to points in Alabama, Arizona, California, Connecticut, Delaware, Florida, Georgia, Idaho, Maine, Maryland, Massachusetts, Mississippi, Nevada, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Utah, Vermont, Virginia, Washington, West Virginia, and the District of Columbia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., Dallas, Tex., or Washington, D.C.

No. MC 95540 (Sub-No. 708), filed August 14, 1967. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, Fla. Applicant's representative: Alan E. Serby, 1600 First Federal Building, Atlanta, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned beverages and canned beverages preparation*, from points in Florida to points in Texas, Oklahoma, and Arkansas. NOTE: If a hearing is deemed necessary, applicant requests it be held at Tampa, Fla., or Atlanta, Ga.

No. MC 95540 (Sub-No. 709), filed August 14, 1967. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, Fla. 33802. Applicant's representative: Alan E. Serby, 1600 First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionary and confectionary products*, from points in Lancaster, Berks, Blair, and Northampton Counties, Pa., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Iowa, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, and Texas. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York.

No. MC 103435 (Sub-No. 198), filed August 16, 1967. Applicant: UNITED BUCKINGHAM FREIGHT LINES, East 4005 Broadway Avenue, Spokane, Wash. 99220. Applicant's representative: George LaBissoniere, 928 Logan Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those

of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) serving the Argonne Industrial District, Du Page and Will Counties, Ill., as an off-route point in connection with presently authorized service to and from Chicago, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 103493 (Sub-No. 6), filed August 14, 1967. Applicant: ROBINSON TRANSFER COMPANY, INC., 1009 St. James Street, La Crosse, Wis. 54601. Applicant's representative: Claude J. Jasper, 111 South Fairchild Street, Madison, Wis. 53703. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses and in connection therewith, equipment, materials, and supplies used in the conduct of such business*, (1) between Duluth, Minn., on the one hand, and, on the other, points in Ontonagon, Gogebic, Iron, Baraga, Houghton, and Keweenaw Counties, Mich.; and, (2) from points in Wisconsin on and west of U.S. Highway 51, from the Michigan-Wisconsin State line at Hurley, Wis., to Wausau, Wis., and, on and North of Wisconsin Highway 29, from Wausau to Chippewa Falls, Wis., thence on U.S. Highway 53 from Chippewa Falls to Eau Claire, Wis., thence over U.S. Highway 12 from Eau Claire to junction Wisconsin Highway 29, thence on Wisconsin Highway 29 to the Minnesota-Wisconsin State line at Prescott, Wis., to Duluth, Minn., under contract with Gateway Foods of Minnesota, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Madison or Milwaukee, Wis.

No. MC 103880 (Sub-No. 384) (Amendment), filed April 3, 1967, published FEDERAL REGISTER issue April 20, 1967, and republished as amended, this issue. Applicant: PRODUCERS TRANSPORT, INC., 215 East Waterloo Road, Akron, Ohio 44308. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Diammonium phosphate*, in bulk, in tank or hopper type vehicles, from Riverdale and Colfax, Ill., and Des Moines, Iowa, to points in Illinois, Indiana, Iowa, Michigan, Ohio, Wisconsin, North Dakota, South Dakota, Kansas, Nebraska, Minnesota, and Missouri. NOTE: The purpose of this republication is to change the scope of the application, by adding Colfax, Ill., to the origin point and deleting Dubuque, Iowa, from the origin point. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 107295 (Sub-No. 112), filed August 21, 1967. Applicant: PRE-FAB TRANSIT CO., a corporation, 100 South Main Street, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood and plywood paneling*, from Oshkosh, Wis., to points in Alabama, Delaware, Florida, Georgia, Louisiana, Mississippi, New Jersey, New Mexico, New York, North Carolina, Oklahoma, Pennsylvania, South Carolina, Texas, Virginia, and West Virginia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 107403 (Sub-No. 725), filed August 16, 1967. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, dry, in bulk, in tank or hopper vehicles, from Neal, W. Va., to points in Alabama, Arkansas, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Massachusetts, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio (except points in Ashtabula, Cuyahoga, Lake, Summit, Muskingum, Licking, Franklin, and Wayne Counties), Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wisconsin. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 110525 (Sub-No. 339), filed August 16, 1967. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representatives: Leonard A. Jaskiewicz, 1155 15th Street, NW., Madison Building, Washington, D.C. 20005, and Edwin H. van Deusen (same address as applicant). No. MC 129279 (Correction), filed July 25, 1967, published FEDERAL REGISTER issue August 17, 1967, and republished as corrected, this issue. Applicant: RYNONE INDUSTRIES, INC., North Chemung Street, Waverly, N.Y. 14892. Applicant's representative: Robert H. Griswold, Post Office Box 452, Harrisburg, Pa. 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Sayre, Pa., and Horseheads, N.Y.; from Sayre over U.S. Highway 220 to junction New York Highway 17, thence over New York Highway 17 to Horseheads, and return over the same route; also from junction New York Highway 17 and New York Highway 17E over New York Highway 17E to Elmira, thence over New York Local Truck Route through Elmira Heights to Horseheads, and return over the same route, serving intermediate points which are stations on the rail lines of Lehigh Valley Railroad Co., and serving South Waverly, Pa., as an off-route point, (2) between junction U.S. Highway 220 and New York Highway 17 and Van Etten, N.Y.; from junction U.S. Highway 220 and New York Highway 17 over New York Highway 17 to junction New York Highway 34, thence over New York Highway 34 to Van Etten, and return over the same route, serving intermediate points which are stations on the rail lines of Lehigh Valley Railroad Co., and serving junction U.S. Highway 220 and New York Highway 17 for purposes of joinder only, (3) between junction New York Highways 17 and 34 and Owego, N.Y., over New York Highway 17, serving intermediate points which are stations on the rail line of Lehigh Valley Railroad Co. and serving junction New York Highways 17 and 34 for purposes of joinder only, and (4) between Sayre and Towanda, Pa., over U.S. Highway 220, serving intermediate points which are stations on the rail line of Lehigh Valley Railroad Co. Restriction: Service authorized shall be subject to the following condition: Shipments transported shall be limited to those having in addition to a motor carrier movement by carrier, an immediately prior or subsequent movement by rail. NOTE: The purpose of this republication is to specify the Highway in No. 4 above as Highway 220, in lieu of Highway 22. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 129308 (Sub-No. 1), filed August 16, 1967. Applicant: D & L CORPORATION, 2178 West Center Street, Provo, Utah. Applicant's representative: Irene Warr, 419 Judge Building, Salt Lake City, Utah 84111. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fabricated sections of structural steel, bins, handrails, miscellaneous steel and tools, equipment and surplus materials and supplies used in the erection of structural and miscellaneous steel*, between points in Arizona, California, Colorado, Idaho, New Mexico, Nevada, Montana, Oregon, Washington, Wyoming, and Utah, under contract with Mountain States Steel Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Salt Lake City or Provo, Utah.

No. MC 129319 (Amendment), filed August 10, 1967, published FEDERAL REGISTER issue August 24, 1967, and republished as amended, this issue. Applicant: CITY TRANSFER & STORAGE INC., 962 South First Avenue, Post Office Box 989, Pocatello, Idaho 83201. Applicant's representative: Ronald W. Nicholas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, in containers, from Pocatello, Idaho, to points in Bear Lake, Caribou, Franklin, Oneida, Bannock, Power, Bingham, Bonneville, Butte, Jefferson, and Madison counties, Idaho restricted to shipments moving in containers and having an immediately prior or subsequent movement by rail, motor, water, or air. NOTE: The purpose of this republication is to name the counties applicant intends to serve and also to delete a portion of the restriction. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho.

No. MC 129328, filed August 10, 1967. Applicant: PAL TEX TRANSPORT CO., a corporation, 1834 Jackson-Keller Road, San Antonio, Tex. Applicant's representative: M. Ward Bailey, 2412 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a *contract carrier* by motor vehicle, over irregular routes, transporting: *Glass containers, glass bottles, and glass jars*, common, with or without caps, covers, tops, or stoppers, *glassware* (other than cut glassware), and *wooden boxes, wooden containers, wooden pallets, corrugated paper boxes* set up or knocked down, between Palestine, Tex., and points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Missouri, Oklahoma, South Carolina, and Tennessee, under contract with Knox Glass, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Washington, D.C.

No. MC 129332, filed August 14, 1967. Applicant: RACHEL FRIDLEY, doing business as FRIDLEY TRUCKING, 36 Fourth Avenue West, Box 367, Dickinson, N. Dak. 58601. Applicant's representative: Michael E. Miller, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages, soft drinks, and materials, supplies, and equipment*, used in restaurants and bars, from Minneapolis-St. Paul and Shakopee, Minn., and Milwaukee, Sheboygan, and La Crosse, Wis., to Dickinson, N. Dak., and *empty containers* on return, under contract with Johnson, Inc., Dickinson, N. Dak. NOTE: If a hearing is deemed necessary, applicant requests it be held at Bismarck, N. Dak.

No. MC 129333, filed August 14, 1967. Applicant: V. J. M. TRUCKING, INC., 53 Gordon Street, East Haven, Conn. 06512. Applicant's representative: William L. Mobley, 1694 Main Street, Springfield, Mass. 01103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pig iron*, in bulk, in dump vehicles, from Bridgeport, Conn., to points in Connecticut, Massachusetts, and Rhode Island. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 129339 (Republication), filed January 9, 1966, published FEDERAL REGISTER, issue of January 27, 1966, under MC 94944 Sub No. 2, and republished as amended this issue. Applicant: GUYER THE MOVER, INC., 304 East Sixth Street, Peru, Ind. Applicant's representative: Donald W. Smith, Suite 511, Fidelity Building, Indianapolis, Ind. 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Indiana, restricted to service to be performed under a contract or continuing contracts with the U.S. Government, Bunker Hill Air Force Base, Peru, Ind. The purpose of this republication is to show that the application has been amended to seek authority to operate as a contract carrier; therefore, it has been assigned a new docket number. Applicant now seeks to operate between all points in Indiana. NOTE: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 129340, filed August 14, 1967. Applicant: GENE HARPER, doing business as A-C DELIVERY, Post Office Box 927, Parkersburg, W. Va. 26101. Applicant's representative: James R. Stiverson, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, between points in that part of West Virginia bounded by a line beginning at Huntington, W. Va., and extending along U.S. Highway 60 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 250, thence along U.S. Highway 250 to the Ohio River, thence along the Ohio River to Huntington, and points in Monroe County, Ohio, on the one hand, and, on the other, the Kanawha County Airport, near Charleston, W. Va., the Huntington-Ashland Airport, near Huntington, the Wood County Airport, near Parkersburg, W. Va., the Cleveland-Hopkins Airport, near Cleveland, Ohio, the Greater Cincinnati Airport, in Kentucky near Cincinnati, Ohio, and the Greater Pittsburgh Airport, near Pittsburgh, Pa. Restricted to shipments having a prior or subsequent movement by air. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 129341, filed August 16, 1967. Applicant: VALENSTEIN Rental COMPANY, INC., Route 1, Box 147, Cleveland, Wis. 53015. Applicant's representative: Edward Solis, Executive Building, Suite 100, 4513 Vernon Building, Madison, Wis. 53705. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages, and related advertising materials, premiums, and malt beverages dispensing equipment when shipped with malt beverages*, from St. Louis, Mo., to (a) Manitowoc, Wis., restricted to a transportation service to be performed under a continuing contract or contracts with Erwin C. Meser, doing business as Meser Distributing Co., Manitowoc, Wis.; (b) to Sheboygan, Wis., restricted to a transportation service to be performed under a continuing contract or contracts with Lawrence F. Gutschow, doing business as Larry's Distributing Co., Sheboygan, Wis.; and (c) to Fond du Lac, Wis., restricted to a transportation service to be performed under a continuing contract or contracts with James A. Brickle, doing business as, J. A. Brickle Distributing Co., Fond du Lac; and (2) *pallets, box boxes, skids, and cheese boxes*, from the town of Herman, Sheboygan County, Wis., to points in Illinois and Indiana, except points in the Chicago, Ill., commercial zone as described by the Commission, restricted to a transportation service to be performed under a continuing contract or contracts with Millersville Box Co., Sheboygan. NOTE: If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 129343, filed August 16, 1967. Applicant: A. E. DAHM, JR., doing business as ALLCOUNTY CASKET EXPRESS, Interstate 84, Goldens Bridge, N.Y. 10526. Applicant's representative: John R. Mahoney, 26 Broadway, New York, N.Y. 10004. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated iron and metal set up, finished burial cases, casket hardware, and casket interiors*, between Goldens Bridge, N.Y., and points in Connecticut, under contract with Batesville Casket Sales Co., Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 129344, filed August 18, 1967. Applicant: REGINALD MILLER, doing business as REG. MILLER TRANSPORT, Post Office Box 41, Sundridge, Ontario, Canada. Applicant's representative: Walter N. Bieneman, Suite 1700, 1 Woodward Avenue, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from ports of entry on the international boundary line between the United States and Canada, located in Michigan along the Detroit and St. Clair Rivers, to points in Michigan, restricted to traffic originating in Canada. NOTE: If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich.

MOTOR CARRIER OF PASSENGERS

No. MC 29477 (Sub-No. 3), filed August 7, 1967. Applicant: ROBERT B. STEEL, doing business as GLACIER TRANSPORTATION COMPANY, 2919 Sixth Avenue North, Great Falls, Mont. 59401. Applicant's representative: Robert B. Steel (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (1) *Express and mail*, between Choteau, Mont., and Browning, Mont., from Choteau over U.S. Highway 89 to Browning, and return over the same route, serving all

intermediate points, and serving Pandroy, Mont., as an off-route point. Applicant presently holds authority to transport passengers and their baggage over the above route; (2) *passengers and their baggage, express, and mail*, in the same vehicle with passengers, (a) between Browning, Mont., and Kalispell, Mont., from Browning over U.S. Highway 2 to Columbia Falls, Mont., thence over Montana Highway 40 to Whitefish, Mont., thence over U.S. Highway 93 to Kalispell, and return over the same route, serving all intermediate points, and (b) passengers and their baggage, between Browning, Mont., and Glacier Park, Mont., from Browning over U.S. Highway 2 to Glacier Park, and return over the same route, serving no intermediate points. Applicant presently holds authority in 2(b) above but same is restricted to "from the 15th day of June to the 15th day of September each year, inclusive." By the instant application he seeks to remove said seasonal restriction, thereby making the service year round. (3) Applicant also proposes to conduct special and charter operations in connection with the above authority, beginning and ending at points on the above described routes, and extending to points in the United States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Whitefish or Great Falls, Mont.

No. MC 29661 (Sub-No. 5) (Amendment), filed May 15, 1967, published FEDERAL REGISTER, issue of June 2, 1967, amended and republished as amended, this issue. Applicant: GRAY COACH LINES, LIMITED, 1900 Yonge Street, Toronto, Canada. Applicant's representative: James E. Wilson, 1735 K Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicles with passengers, in special operations, in round-trip, sightseeing, and pleasure tours, beginning and ending at ports of entry on the international boundary line between the United States and Canada, and extending to points in the United States (excluding Alaska and Hawaii). NOTE: The purpose of this republication is to more clearly set forth the proposed operation. If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

No. MC 129038 (Sub-No. 2), filed August 10, 1967. Applicant: TRI-STATE COACH LINES, INC., 10066 West Pacific Avenue, Franklin Park, Ill. 60131. Applicant's representative: John T. Porter, 1 South Pinckney Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *Passengers and their baggage, mail, newspapers, and express, in the same vehicle with passengers*, in vehicle transporting not more than 13 passengers (exclusive of the driver and those passengers under 10 years of age who do not occupy a seat), (1) over regular routes: (a) Between Racine, Wis., and O'Hare International Airport and Midway Airport, Chicago, Ill., from Racine, over Wisconsin Highway 32 to Kenosha, thence over Wisconsin Highway 50 to its junction with Interstate Highway 94, thence over Interstate Highway 94 to Chicago, and return over the same route, serving Kenosha, Wis., and the junction of Wisconsin Highway 50 and Interstate Highway 94 as intermediate points. (2) Over irregular routes in special and charter operations from points in Racine and Kenosha Counties, Wis., to O'Hare International Airport and Midway Airport at Chicago, Ill., and return. NOTE: If a hearing is deemed necessary, applicant requests it be held at Racine or Milwaukee, Wis.

No. MC 129334, filed August 15, 1967. Applicant: ONTARIO NORTHLAND TRANSPORTATION COMMISSION, 195 Regina Street, North Bay, Ontario, Canada. Applicant's representative: S. Harrison Kahn, Suite 733 Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in round-trip charter operations, beginning and ending at the ports of entry located on the international boundary line between the United States and Canada and extending to points in the United States, including the District of Columbia (except Alaska and Hawaii). NOTE: If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

APPLICATION IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 126283 (Sub-No. 2), filed August 11, 1967. Applicant: BERGEN-PASSAIC AIR EXPRESS, INC., 124 East Columbia Avenue, Palisades Park, N.J. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* warehoused by and shipped from the facilities of Minnesota Mining and Manufacturing Co. located at Ridgefield, N.J., to points in Rockland and Westchester Counties, N.Y., and points in Connecticut, under contract with Minnesota Mining and Manufacturing Co.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 28, 1967.

Protests to the granting of an application must be prepared in accordance with Rule 1.40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 41113—*Class and commodity rates from and to Matthews and Stout's, N.C.* Filed by O. W. South, Jr., agent (No. A5054), for interested rail carriers. Rates on property moving on class and commodity rates, between Matthews and Stout's, N.C., on the one hand, and points in the United States and Canada, on the other.

Grounds for relief—New stations and grouping.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

[F.R. Doc. 67-10343; Filed, Aug. 30, 1967; 8:50 a.m.]

[Notice 441]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 28, 1967.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67 (49 CFR Part 340), published in the FEDERAL REGISTER, issued of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 111201 (Sub-No. 9 TA), filed August 21, 1967. Applicant: J. H. ZELLNER & SON TRANSFER COMPANY, a corporation, Post Office Box 816, East Point, Ga. 30044. Applicant's representative: Monty Schumacher, Suite 803, 1375 Peachtree Street NE., Atlanta, Ga. 30309. Supporting shippers: G. R. Kirk Co., Post Office Box 340, Puyallup, Wash. 98371; Thrifty Supply Co. of Tacoma, Inc., 2415 South Tacoma Way, Tacoma, Wash. 98409. Send protests to: E. J. Casey, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 6130 Arcade Building, Seattle, Wash. 98101.

No. MC 129331 (Sub-No. 1 TA), filed August 23, 1967. Applicant: L-WAYS LEASING, INC., Box 327, Sweet Home, Ark. 72164. Applicant's representative: Harry E. McDermott, Jr., Union Life Building, Little Rock, Ark. 72201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rock* (riprap), in bulk, in dump trucks or trailers with dump bodies, from Sardis Quarry, near Locksburg, Ark., to U.S. Engineers revetment job on the Red River, approximately 10 miles south of Bossier City, La., for 150 days. Eugene Luhr & Co., contractors, Post Office Box 69, Columbia, Ill. 62236. District Supervisor D. R. Partney, Interstate Commerce Commission, Bureau of Operations, 2519 Federal Office Building, 700 West Capitol, Little Rock, Ark.

No. MC 128343 (Sub-No. 1 TA), filed August 23, 1967. Applicant: A. E. DAHM, JR., doing business as ALLCOUNTY CASKET EXPRESS, Interstate 84, Goldens Bridge, N.Y. 10526. Applicant's representative: E. C. Smith, 26 Broadway, New York, N.Y. 10004. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated iron and metal set up, finished burial cases, casket hardware and casket interiors*, between Goldens Bridge, N.Y., and points in Connecticut, for 150 days. Supporting shipper: Batesville Casket Sales Co., Inc., Batesville, Ind. Send protests to: Stephen P. Tomany, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 346 Broadway, New York, N.Y. 10013.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary.*

[F.R. Doc. 67-10345; Filed, Aug. 30, 1967; 8:50 a.m.]

CUMULATIVE LIST OF PARTS AFFECTED—AUGUST

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to 2 CFR; January—August 1967)

This table lists the sections of the U.S. Code which were added to 2 CFR as a result of new citations of authority carried in the *Federal Register* during January—August 1967. Recent legislation not yet assigned within the U.S. Code is carried by public law number at the end of the list.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, users should consult the List of CFR Sections Affected, above.

FEDERAL REGISTER

VOLUME 32 • NUMBERS 147–169

SUBJECT INDEX

August 1967

THE UNIVERSITY OF MICHIGAN
OCT 9 1967
RECEIVED

THE NATIONAL ARCHIVES OF THE UNITED STATES • 1934 •

86-000—67——1

THE FEDERAL REGISTER SUBJECT INDEX

The Subject Index to the daily *Federal Register* is published separately, covering the contents of the *Federal Register* as follows: Monthly for the months of January, February, April, May, July, August, October, November, and December; quarterly for the quarters ending in March, June, and September; and annually for the calendar year.

Entries in this index are carried primarily under the names of the issuing agencies, with the most significant subjects additionally carried in appropriate alphabetical position.

This Subject Index should be distinguished from the numerical codification guide (List of CFR Sections Affected) which is also published separately. The numerical guide is designed for quick checking in the *Code of Federal Regulations*, numbering system of provisions whose numbers are already known or have been learned through use of the Subject Index.

Accounts Bureau: Page
See Treasury Department.

Additives, Color and Food:
See Food and Drug Administration.

Flaxseed:

LOAN AND PURCHASE PROGRAM. *See* Commodity Credit Corporation.

Food and Drug Administration:

ADDITIVES, color and food. *See* Color additives; Food additives.
ANTIBIOTIC DRUGS:
See also Drugs, *below*.
Definitions, master and working standards, etc.; doxycycline 11823
Laboratory diagnosis of disease; antibiotic sensitivity discs, certification and tests and methods of assay 11523
Specific antibiotics, rules proposed or adopted:
Chloramphenicol for aqueous injection; tests and methods of assay, 11861.
Doxycycline, 11823.
Neomycin sulfate, 12605.
Oxytetracycline, 11629, 11866.
Penicillin and penicillin-containing drugs; tests and methods of assay, 11310.
Tests and methods of assay:
See also under Specific antibiotics.

Food and Drug Administration—Continued

ANTIBIOTIC DRUGS—Continued
Tests and methods of assay—Continued
Paper chromatography identity test for tetracyclines 11522
Sterility test methods and procedures; correction 11210
APRICOTS, canned. *See under* Fruits, canned, *below*.
BREAD, white, etc.; identity standards, optional ingredients:
α-Amylases 11733
Tallowyl-β-lactic acid; proposed rule withdrawn 11576
CHEESE, mozzarella and scamorza, low moisture and low moisture part-skim, identity standards; sorbic acid, potassium sorbate, sodium sorbate, etc. as optional ingredients, effective date 11521
CHERRIES, canned. *See under* Fruits, canned, *below*.
CHOCOLATE, milk and sweet, and vegetable fat (other than cacao fat) coating; identity standards, effective date 11733
COLOR ADDITIVES, effective dates:
Corn endosperm oil, food use, exempt from certification, 12606.
Provisional lists, riboflavin deleted, 11788.
Riboflavin, food use, exempt from certification, 11733.
DRUGS:
See also Antibiotic drugs.
Nitroglycerin and amyl nitrite as over-the-counter drugs for human use, policy statement; proposed rule 12404
EGGS, dried and yolks, identity standards; silicon dioxide as optional anticaking ingredient 12604
FAIR PACKAGING AND LABELING ACT, drugs and devices and cosmetics, statements required on labels; proposed rules 12060
FIGS, canned. *See under* Fruits, canned, *below*.
FOOD ADDITIVES in animal feed, food for human consumption, packaging materials, etc.:
Procedural regulations, proposed rules 11443
Specific additives; rules proposed or adopted:
Acrylic polymer modifiers in semirigid and rigid polyvinyl chloride plastics, 12403.
Adhesives, 11521.
Arabinogalactan, 11351.
Buquinolate, 11988.
Butadiene, 12408.
1,3-Butylene glycol mono- and diesters of edible fatty acids; petition withdrawn, 11296.
Calcium D-saccharate; petition withdrawn, 11881.
Calcium silicate, 12606.
Cetyl, 11351.
DDT, 11157.
Decyl, 11351.
Defoaming agents, 12606.
Diethylstilbestrol, 11579, 11806.
O,O-Dimethyl *S*-[4-oxo-1,2,3-benzotriazin-3(4*H*)-ylmethyl] phosphorodithioate, 11650.
Dimethylpolysiloxane, 12606.
Erythromycin, 11806.
Fatty acids, 11432.
Flavoring substances, synthetic, and adjuvants, 11806.
Food starch-modified, 11206.
Gelatin, 11651.
Glutaraldehyde, 11651.
Gum arabic, 11651.
n-Hexane, 11351.
Hexyl, 11351.
Hydrolyzed leather meal, 11734.
1-Hydroxy-2-butanone, 11806.
Lauryl, 11351.
Lubricants, 11579, 11806, 12478.
Methyl methacrylate, 12408.
Methylene chloride, 12606.
Milk-clotting enzyme, fermentation-derived, 12606.
Mineral oil; correction, 11579.
Mono-n-butyl ester of *S*-norbornene-2,3-dicarboxylic acid, 11521.
Monoglyceride citrate, 11351.
Myristyl, 11351.
Octyl, 11351.
Oleandomycin, 11879.
Paper and paperboard, 11324, 11521, 11572, 11806, 12474.
Poly [2-diethylamino) ethyl methacrylate], 11881.
Polyamide-epichlorohydrin resin, modified, 11576.
Radiation, 11860.
Petitions withdrawn, 11765.

Food and Drug Administration—Continued

FOOD ADDITIVES in animal feed, food for human consumption, packaging materials, etc.—Continued
Specific additives; rules proposed or adopted—Con.
Resinous and polymeric coatings, 11442, 11821.
Silicon dioxide, 11861, 12606.
Spectinomycin dihydrochloride pentahydrate, 12409.
Stearyl, 11351.
Stearyl stearte, 11896.
Styrene, 12408.
Succinylated gelatin, 11351.
Sulfamerazine, 11879.
Tetrasodium *N*-(1,2-dicarboxyethyl)-*N*-octadecylsulfosuccinamate, 11896.
Thiabendazole, 11748.
4-Thujanol, 11896.
1,1,1-Trichloroethane, 11442.
1,3,5-Trimethyl-2,4,6-tris(3,5-di-*tert*-butyl-4-hydroxybenzyl) benzene, 11440.
Trimethylamine, 11896.
Vinyl acetate-dibutyl maleate copolymers, 11442.
Zinc sulfate, 11351.
FRUIT COCKTAIL, canned. *See under* Fruits, canned, *below*.
FRUITS, canned, identity standards:
Apricots, artificially sweetened; cyclohexylsulfamic acid and edible organic acids and salts as optional ingredients 12603
Cherries, artificial sweetened; cyclohexylsulfamic acid and edible organic acids and salts as optional ingredients 12609
Figs:
Artificially sweetened; cyclohexylsulfamic acid and edible organic acids and salts as optional ingredients 12603
Preserved, precooked in syrup, definition; effective date 11263
Fruit cocktail, artificially sweetened; cyclohexylsulfamic acid and edible organic acids and salts as optional ingredients 12608
Peaches, artificially sweetened; cyclohexylsulfamic acid and edible organic acids and salts as optional ingredients 12603
Pears, artificially sweetened; cyclohexylsulfamic acid and edible organic acids and salts as optional ingredients 12603
HAZARDOUS SUBSTANCES, procedural and interpretative regulations:
Banned hazardous substances 11322, 11323
Child Protection Act, 1966; banned hazardous substances, etc. 11322
Exemptions from classification as banned hazardous substance 11322, 12475
PEACHES, canned. *See under* Fruits, canned, *above*.
PEARS, canned. *See under* Fruits, canned, *above*.
PESTICIDE CHEMICALS in or on raw agricultural commodities:
Definitions and interpretative regulations; tolerances for related pesticides 11321, 12605
Specific tolerances; rules proposed or adopted:
Atrazine (2-chloro-4-ethylamino-6-isopropylamino-*s*-*triazine*), 11389, 12605.
4-Benzothienyl *N*-methyl carbamate and 4-hydroxybenzothiophene and residues, 12603.
1,1-Bis(p-chlorophenyl)-2,2,2-trichloroethanol, 11908.
2-Chloro-2',6'-diethyl-*N*-(methoxymethyl) acetanilide, 11881.
3-(p-(p-Chlorophenoxy) phenyl)-1,1-dimethylurea, 11579.
2,4-D, 12475.
DDT, 11157.
2,2-Dichloro-vinyl dimethyl phosphate, 11449.
2,3-Dichlorobenzyl methylcarbamate, 12409.
3,4-Dichlorobenzyl methylcarbamate, 12409.
O,O-Diethyl *S*-2-(ethyl-thio) ethyl phosphorodithioate, 11448.
Dimethylamine salt of 2,4-dichlorophenoxyacetic acid, 11881.
Diuron, 11448.
S-Ethyl diisobutylthiocarbamate, 11449.
O-Ethyl *S*-phenyl ethylphosphonodithioate, 12605.
Isopropyl 4,4'-dichlorobenzilate, 11321.
N-(Mercaptomethyl)-phthalimide *S*-(*O,O*-dimethyl phosphorodithioate); petition withdrawn, 12605.
Norea (8-(hexahydro-4,7-methanoindan-5-yl)-1,1-dimethylurea), 11448.
Paraquat, 12475.
S-Propyl butylethylthiocarbamate, 11896.
Pyrazon, 11905.

Food and Drug Administration—Continued

PESTICIDE CHEMICALS in or on raw agricultural commodities—Continued
Specific tolerances; rules proposed or adopted—Con.
cis-N-[(1,1,2,2-Tetrachloroethyl) thio]-4-cyclohexene-1,2-dicarboximide; petition withdrawn, 12607.
2,3,5-Trliodobenzoic acid, 12476.
Zinc ion and maneb coordination product, 11448.

RESOLUTION CHART

100 MILLIMETERS

100 MILLIMETERS

INSTRUCTIONS Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in this chart indicate the number of lines per millimeter in adjacent "L-shaped" groupings.

In microfilming it is necessary to determine the reduction ratio and multiply by the number adjacent to the group in which it can be decerned that the lines are either horizontal or vertical. As an aid in determining the reduction ratio the line below is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 10 millimeters long in the film image and 100/10 = 10.

Examine the "L-shaped" line groupings in the film with a forty power microscope and note the number adjacent to the group in which it is possible to decern that the lines are either horizontal or vertical. It is only necessary to determine that there are lines in both directions regardless of the number of lines. Under these conditions it is considered that the group in question is resolved. Example: the lines in 7.9 group are discernible horizontally and vertically while the lines in the 8.9 group are not discernible. Reduction ratio is 10 and 7.9 × 10 = 79 lines per millimeter recorded satisfactorily. 8.9 × 10 = 89 lines per millimeter which are not recorded satisfactorily. Under the particular conditions maximum resolution is between 79 and 89 lines per millimeter.

In order to check the camera for vibration several exposures should be made with the chart in the center of the field in one orientation and then turn it through an angle of 45° and make several more exposures. If the lines in both directions at both orientations are equally resolved the camera is free from vibrations.

Resolution as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. It is recommended the resolution charts be placed on every roll of microfilm, at the beginning of the roll or preferably at both ends of the roll. This practice will provide a convenient means of continually checking both the operation and performance of the system which can be referred to at any time.
